PARIS, Oct. 8 .- Official information received here shows that a formidable Russian fleet, comprising 90 warships of all classes, has left Port Arthur and has arrived at Ma San Pho, south of Corea, where the Japanese fleet had already arrived. The Russian ships have anchored within the Ma San Pho harbor, alongside the Japanese ships.

Several brigades of Russian troops have en moved forward to the Corean coast and are now encamped on the border. Diplomatic negotiations are still proceeding at Tokio. These do not relate to the vacuation of Manchuria by the Russian troops, but to the future of Corea.

MINISTER DISCOUNTS IT. Japanese Diplomat Shows Assembling of Fleet Is Impracticable.

LONDON, Oct. 8.-The Japanese Mir ister here, Baron Hayashi, today described later to Japan, had presented a note to the Japanese government contending that Japan had no just right to intervene in the uestion of the evacuation of Manchuria, nd characterizing the proposed partition

says. "Is about as unreliable as news from He reiterated that there was nothing in

"I have not heard and I do not believe," added the Japanese Minister, "that Russia has intimated her refusal to evacuate Manchuria, and that she has refused to allow Japan to interfere with her occu-pation. I see nothing in the situation at the present moment that supports the re-ports of a warlike attitude on the part of

either Russia or Japan."

The Minister added he had not received a word regarding any concentration of or alarming movement of the Russian sian fleet in the far East. Regarding the report that the Russian

feet had arrived at Ma San Pho. Baron Hayashi remarked Russia had only about 30 warships in the whole Far East, and it would be a physical impossibility on account of coal and other supplies for them to remain at Ma San Pho. It would be the most unlikely place for them to go to even if Russia contemplated hostilities, as it is within easy striking distance of Japan's strong naval base at Tsu, in the Straits of Corea. So far as Baron Hayashi knows, it would be equally unreasonable for the Japanese fleet to go to Ma San

Great Britain Has No Information, LONDON, Oct. 8.—The Foreign Office in-forms the Associated Press that it has heard nothing of the reported gathering of Russian warships at Ma San Pho. The Foreign Office reiterates that its advices give no indication of a Russo-Japanese utbreak.

The Associated Press learns the dispatch of the British Minister to Japan, Sir Claude McDonald, while detailing many requests made by Russia in the negotia tions at Tokio, in connection with con-cessions in Corea, relating chiefly to wharves, makes no reference to any pos sibility of an impending crisis.

Negotiations With Japan. YOKOHAMA, Oct. 8.—According to all reports, today, the date fixed for the evacuation of parts of Manchuria by the Russian troops, passed without a Russian move toward the evacuation of Manchuria, In the meantime the Russo-Japanese ne gotiations regarding Corea and Manchuris are proceeding at Tokio between the Jap ese Cabinet and the Russian Minister Baron de Rosen. The latter is acting un-der direct instructions from Admiral Alex-

leff, Viceroy of the Far East. The prospect is considered doubtful un-less Russia makes substantial concessions, The rumor of the Japanese rejection of the Russian demands is officially denied, The press today was officially warned against indulging in sensationalism.
China is understood to be waiting for the result of Japan's negotiations before further treating with Russia for the evacuation of Manchuria.

Marenes was then advised by his friends to flee from the country, as his life was endangered, and he accordingly sought safety on the San Jose. A story came on the steamer that Marenes had been ordered flogged by the President, but upon this subject he had nothing to say.

NEW YORK, Oct. &-Although profess ing his determination to contest the right of the Republican and Citizens' Union city conventions to displace him as their nomince for Controller, Edward M. Grout has made no appeal to the courts thus far. The filing of the amended ticket of the Republican organization with the Board of Election was made without protest from either Mr. Grout or Mr. Fornes, and thus one step in the process of substitution has been accomplished, President Fornes, of the Board of Alder-

nen, tonight issued a statement containing the following:

"Because I consented to have my candidacy indorsed by the regular Democratic organization. I am declared unworthy of going before the electorate upon the Fusion ticket-and by whom? By Mr. Bruce, ecently from Delaware County, and now chairman of the Republican county committee; by Mr. Platt, the 'easy boss' of the Republican party, and whose official life has been conspicuous chiefly for his successful brokerage in public office in order that his henchmen might streng him in the primary contests of the Resublican party; by Mr. Odell, a partisan Republican Governor, who, previous to his election to that exalted office, was distinguished chiefly for his ability to control legislation through the unsavory meshes of the lobby, and whom the people of this city repudiated at the last election by the most overwhelming defeat that any candidate for public office ever suffered at its hands. These are the men, and these are the forces, which have cast a blight over the cause of fusion and struck the deadliest blow at nonpartisan municipal government which it has ever received."

Grout Gives His Side of Case. Controller Grout also issued a statement today. He charges the Citizens' Union with being under Senator Platt's rule. In

part, Mr. Grout says: "All parties, all newspapers, agree that I have been an honest and efficient Controller. I shall stand for re-election on that record, which all have approved. Be fore I went away on my vacation, I made known to some Fusion managers the very details of my private business affairs which made me unwilling to continue in office. I accepted, at Mr. Low's personal request.

"Then I was offered an indersement by the Democratic party. I did not seek it. I did not bargain, deal or dicker for it. I was not bought, sold or gugged. I made no concealment of my belief that, if taken sanely by the Fusionists, such indorsement would help Mr. Low. And I am abused, outraged, expelled, Why? Because I say the campaign should be fought by argument, by proofs, by appeals to reason, not by denunciation, bitter words and appeals to passion. I shall ask every taxpayer whose bill this year is reduced to remember that it would not have been less if I had not been Controller. "As a Democrat, I shall ask the Demo

crats of this city to notice how this situation has been made at the direction of Platt and his intimates, and to say whether this Democratic city shall be thus turned over to Platt. The position of the Republican prachinists and of Mr. Cutting has become the acme of partisanship."

NEW YORK, Oct. 8.-Edward M. Grout was born in New York in 1881, and was raduated from Colgate University in 1884, He studied law with General Stewart L. Woodford, and was admitted to the bar in 1885. In 1893 he formed a partnership with William J. Gaynor, and later was a nember of the law firm of Gaynor, Grout & D eFere, which became Grout, De Fere & Mayer when Mr. Gaynor went on the Supreme Court bench. In 1894 Mr. Grout began to take active interest in politics, presided at the big Hill meeting at the Academy of Music, Brooklyn. He was a follower of Edward M. Shepard until 1895, when he ran for Mayor of Brooklyn as the regular Democratic candidate, and was defeated by F. W. Wurster. In 1897 he was elected President of the Borough of Brooklyn on the regular Democratic ticket, but he fell out with Tammany over the Ramapo steal, and in 1901 was elected Controller on the Fusion ticket.

Langley Finds a Clutch on Launch-

ing Ways Did Not Work.

WASHINGTON, Oct. 8 -- Speaking of yeserday's experiment at Widewater with his aerodrome, Professor Langley said today that he was not an eye-witness of the experiment, having been detained in Washington by business, but on the report of Mr. Manley, who was immediately in charge, he is able to say that the latter's first impression that there had been de-fective balancing was corroborated by an examination, when the clutch which held the aerodrome on the launching ways, and which should have released it at the in-

stant of the fall, was found to be injured,

Professor Langley continued; "The machinery was working perfectly and giving every reason to anticipate a successful flight, when this accident, due wholly to the launching ways, drew the aerodrome abruptly downward at the mo-ment of release, and cast it into the water near the houseboat. The statement that the machine failed for lack of power to fly was wholly a mistaken one. "The engine, the frame and all the more important parts were practically uninjured. The engine is actually in good working order. The damage done was centined to the slighter portions, like the

canvas wings and propellers and these can be readily replaced.

'The belief of those charged with the experiment in the ultimate successful working of the machine is in no way affected by this accident, which is one of the large charger of accidents that beset the large chapter of accidents that beset the initial stage of experiments so novel as the present ones. It is chiefly unfortunate as coming near the end of the season when outdoor work of this sort is

SATURDAY'S RAID A FARCE

Bean, King of Tenderloin, Was Showing His Power.

SURE-THING MAN IS REWARDED

Clancys Bow Down to the Gambler Who Has the Pull With the Prosecuting Attorney's Office-Attempt to Hush Up Cases.

THE REASON OF IT.

Under the act of the last Legislature making gambling a felony, the houses of Seattle have been closed for some weeks. With the passage of time public interest in the enforcement of the law appeared to subside and the gamblers began to make arrangements to reopen.

A stand-in with the city administration had long before been arranged, and the county officers do not now seem to think it is incumbent upon them to make trouble for the gamblers. So it is that Seattle is again a wide-open town, and doubtless will be-at least, until Mayor Humes' term expires next Spring.

SEATTLE, Wash., Oct. &-(Special.)-Notwithstanding there is a law in this state which makes gambling a felony, Seattle gamblers continue to operate openly and no serious attempt is made to interfere with them

Chief of Police Sullivan has given the gamblers to understand that he will not move against them, now that the grand jury has adjourned and the indictment against him has been dismissed. The gambling-houses of the Seattle and Snohomish saloons, on First Avenue, and the Totem scioon, on Occidental avenue, have been operating right along for several months past, and the Clancys run a big place for Japanese at the corner of Fourth avenue and Main street,

Bean Shows His Power. Last Saturday a raid was made on the

Seattle and Snohomish, but the police did not take part and the whole affair acems to have been a farce. The warrants were issued in Justice Cann's court, and were sworn to by a young man who claimed to have lost several hundred dollars in the As a matter of fact, the arrests were

made because Huey Bean, the new king of the tenderloin, had not been given an interest in the houses, and served notice on the proprietors that unless he was taken care of a close-down would follow, The gambiers questioned his power, and refused to put up their money. Their arrests followed, and they will be given a hearing tomorrow before Justice Cann. King of the Tenderloin,

Bean is now recognized as the king of the district below Yesler Way. He has a stand-in with both Chief Sullivan and Prosecuting Attorney Scott. His strongest pull seems to be with the latter. Bean is of a mechanical frame of mind, and for years has made fake fare layouts which are operated by the knee, and which never fail to bring the money to the owner. The Prosecuting Attorney's office has

services of Bean to prove it in the criminal case of the State vs. Horace Dunbar, the proprietor of the Rainler Grand. In return for his services to the state Bean has demanded and has received the privilege of saying what shall go on in the

in the Rainier Grand, and had enlisted the

gambling district. Clancys Bend the Knee.

The Clancys wanted the privilege of running a gambling-house, but could not get it until they made their peace with Bean. Then they were allowed to open, and Bean went so far as to have police which he designated detailed for beats in the vicinity of the gambling-house. Then the Clancys and Bean fell out and the Clancys tried to run along, but Bean told them to stop and they stopped.

Bean works in conjunction with Deputy Sheriff Callahan, of the Prosecuting Attorney's office, and all requests of a gam-bling nature made to Mr. Scott are by him referred to Callahan and Bean. Thus it is that Bean is heralded as the new king of the tenderloin.

Bribe Offered Reporters.

The hearing of the gambiers in Justice Cann's court tomorrow is not likely to amount to much. After the arrests the Justice worked with the gamblers and their attorneys in trying to keep the mutter from getting into the newspapers, and later an officer of Cann's court offered the newspaper reporters money to suppress the
