Jack Thielman's high-salaried wing was perfect working order during that spe-al matinee held yesterday afternoon at e Twenty-fourth and Vaughn-street nds, and the way he shot his elusive slants over the pan was so mystifying to Fisher's Tada that they returned to their cefsteak and onlors runless, while the crowns piled up il. The juice which ceds the trolley cars gave out just about the time the faithful were casting aside their business in order to see the game and not more than half of them were able to attend. The start of the game was delayed ten minutes so that those who walked or took another route could reach the grounds in time to scold Umpire Levy. And they did scold him, too. The worst part of it was that he did not deserve it-not yesterday.

Fisher's Vain Dream Fades. Fisher brought his ball-tossers over from Seattle and really thought he was going to take the first game. Honestly he he even went so far as to figure out average on Happy Hogan's cuff. Pisher entertained this misguided thought atil the second inning, then his dream dlapsed. While he was dreaming, idly draiming, the Browns fell upon "Cute" Fitzgerald for four bingles. He gave Nadeau a pass and stove in Buck Freeman's diaphragm with an inshoot, then Captain Graham threw the ball to the board, and, when the smoke of battle had cleared. Fred Ely's men were six runs to the "better." Mique Fisher sat with his coat off until this chapter, but the frost that fell soon made the Sacra-mento magnate put on his outer garment and borrow an overcoat from a fan in the eachers. When the Browns Jumped out the third inning and chased in another run, Mique abandoned his players with-out comment and sought shelter and refuge in the grandstand. Fisher knew, and so did the fans, that the Browns had put enough toe-weights on Fitzgerald to anchor him and the rest was easy.

Fred Ely had no intention of halving the grape fruit with Captain Graham, so be cept his Brown brigade at the Tads. They played bum ball, but Jake Thielman kept shooting the leather down the alley so fast that the here in its wake was like smoke in a shooting gallery. While he s doing this, the Senators were bingling ren times, but they counted for naught, cause the Senators slipped around the amend as if they were on greased rollers natead of spiked brogans. There was really nothing to the game but the Browns and from that second inning Sacramento stood about as much show of winning as sparkler in the North Portland dump. empty Columbia Slough with a tin cup, as try to beat Thielman, especially when fizgerald was slipping the Browns curves

to their liking. This came in the seventh and the locals, fearing that their lead was not good enough, with the aid of a single and errors by Townsend and Eagan, piled up four more runs. In this chapter Francis singled to left, and Buck Freeman was safe because Townsend failed to heel the bug. Hollingsworth was safe on Bagan's fumble, and Townsend gave Catcher Anderson his life when he tried to stop an's toes with his ears.

Engan and Townsend's Star Play. The star play came when Eagan whipped ball straight on a line with the sun and Townsend ducked it and the Spaulding hied itself straight into the confines of the bleachers. A good, loyal fan saw it, but he waited until the bases were cleared before he torsed the ball back into the diamond. Even with the locals miles in the lead, the Sucramentos fought for the game. The idea of being whitewashed did not suit them and they tried hard to aneak in one run, but they failed and Fisher celebrated his defeat in the luxury of an automobile ride. At first Mique declined to take the ride. He was afraid that, if his players saw him riding in the 'spark" car, a general touching committee would walt on him. The score:

York-Pittsburg Endurance ERIE, Pa., Oct. 12.—The 15 automobile cars entered in the New York-Pittsburg endurance test, which left Buffalo this

morning, made a quick, pleasant and un-eventful run to this place. Special orders were issued at the start this morning by Referee Elkins, and their enforce-ment was insured by instructions issued by Superintendent of Observers Gillett that no cars were to exceed a speed of 20 miles an hour. This was intended to overcome a tendency toward speeding, and it had the desired effect.

The drivers of the two pilot cars, Wilson and Fred A. Nickerson, were arrested on their arrival for scattering confetti on the city streets. When the matter was explained to the Mayor he discharged the two operators and said that the arrest had been a mistake.

AMERICA CANNOT PROTEST. Her Interests in Manchuria Are Cov ered by the Late Treaty.

WASHINGTON, Oct. 12.-Aside from receiving news of extensive military preparations by both nations, the Japanese Legation here is not advised that either Russia or Japan has as yet committed any act of war. The Japanese Minister is being kept constantly advised by ca-blegrams from Tokio of the situation, and realizing its gravity, he is moving with great caution. The negotiations be-tween Russia and Japan, according to his advices, are still in progress, and there is hope of a diplomatic settlement of the questions at issue. The Minister today authorized the Associated Press to make the following statement:
"His attention having been called to a

certain unauthorized statement attributed to him that the public utterances of Jap anese people are all in favor of war with Russia, Mr. Kogoro Takashira, the Jap-anese Minister, states that while there is some disgulet due to the unsettled state of affairs which has existed so long in the Far East, it seems it has been aggravated more recently by the unfounded rumors regarding military and naval move-ments in certain quarters, but, in his judgment, the intelligent section of the Japanese public has been generally calm and collected up to the present juncture, as they know the matter has been for some time in the hands of responsible parties of Japan and Russia, and that they have been negotiating with a view of arriving at an understanding between

For his own part, Mr. Takashira said, he hoped for the best, because, while the situation is not without indication of war. the Russian government is candidly dis-posed for a settlement of the question with Japan, and therefore, so long as the negotiations are proceeding with rea-sonable prospect of a result honorable to Japan, there is no reason to be over-

"This is," said the Minister, "all that I can say at this moment."

The representatives of this government in the capitals of Russia, Japan and China have not advised the State Department re-garding recent developments and rumors of war over Manchuria.

As has often been pointed out the United States has no cause to protest because Russia has falled to keep her pledges that she would evacuate Man-churia on October 8. The interest of the United States in Manchuria is by the recent treaty between China and this country. If Manchuria becomes annexed to Russia or from any cause under Russian control, the United States will insist that provisions of the treaty be today bound for Chinese to carried out, especially as Russia assented Czarowitch proceeded today.

WASHINGTON, Oct. 12-At the Rus sian Embassy the officials are not alarmed over the situation in the far East. The view held there is that neither Russia nor Japan desires war, though both may be making preparations to that end, and there is really no question at issue which cannot be settled without recourse to arms provided the negotiating parties are disposed to use diplomacy rather than the sword. VANCOUVER, B. C., Oct. 12.-Japan has been incensed at the seizure of nearly 700 fishermen by Russian men-of-war on a charge of poaching.
