Washington Equally Interested With Oregon

Senator Ankeny's Speech at the Mitchell Banquet-He Declares in Favor of a Centennial Exposition to the Great Pathfinders, Lewis and Clark.

Correspondence.)-In its struggle for a liberal appropriation for the Lewis and Clark Exposition, the Oregon delegation will have no more loyal support the people of that state, Senators Foster and Ankeny believe that the entire Pacific Coast will share in the benefits of such an exposition, and for this reason they are willing to work hand-in-hand great undertaking.

Two of the most impressive addresses made at Senator Mitchell's recent dinner were those by Senator Foster and by Senator Ankeny.

The latter's speech follows:

"Mr. Toastmaster and Gentlemen: It affords me especial pleasure tonight to be present with you to participate in this greeting to Senator Fulton, of our sisof the fact that for the year 1806 the city of Portland is planning a great Centennial Exposition to commemorate the wonderful expedition of Lewis and Clark, wonderful expedition of Lewis and Clark, worderful expedition of Description of the acquisitions, took a favorable turn to the affirmation of the nower.'

The state of Oregon, and the fact that for the year 1806 the quisition of other territory.

"Public opinion, seeing the great importance of the acquisitions, took a favorable turn to the affirmation of the nower.'

"I could proceed to the citation of figures of our greatness, of our greatness, of our growth, of our population and of our manifold industries. It is all of record, and it is all of record. ter State of Oregon, and further, in view will be granted, not merely for the enefit of the great City of Portland, but in the interests of the entire Pacific which we acquired Califor Northwest-In fact, the whole Pacific Mexico, in which he said:

One hundred years ago the United than 5,00,000 inhabitants. During the ad-ministration of President Thomas Jeffer-son it was decided it would be for the best interests of the budding nation to enlarge its boundaries by crossing running water and buying a vast tract of land. Jefferson entered into negotiations with the French, then sorely distressed ssion, he told what he * had done in

Whilst the property and sovereignty of the Mississippi and its waters secure an independent outlet for the produce of the Western states and an uncontrolled miles. navigation through their whole course, free from collision with other powers and

AMERICA GETS MUCH LAND

PANAMA CANAL CARRIES WITH

IT A GREAT TRACT.

Influence of the United States Will

Probably Exceed That of the New Republic.

When the new canal treaty with Pan-

ama is ratified, Uncle Sam will add a few

more acres to his already vast posses-sions. In addition to the ownership of

five miles of land on either side of the big

ditch, with powers and rights "as if it were the sovereign of the territory within

In addition, the United States will have

control of three marine leagues at each terminal, all islands within the limits of

the zone, and four small islands in the Hay of Panama. The length of the canal is about 47 miles, and thus 470 more miles

of land are acquired by the United States, without counting the area of the islands.

Beside this the new republic grants to the United States the use of all the riv-ers, streams and waters for navigation, or so far as is necessary to the construc-

tion of the canal and its auxiliaries, in-

asset of the republic, the zone of five miles on each side and the property at each terminal, probably will exercise more

influence in the newest of states than its

own government. Panama will have no occasion to maintain any army or navy,

except perhaps a few small steamers and

Trade Advantages With Panama.

But it is not alone in the matter of

mians, with their regard for this country

as their protector, naturally will look to us for most of their supplies. The United.

States already furnishes a larger share

than any other country, and when the canal is built larger imports to Panama

will follow. The importations at the port of Colon during the fiscal year ended June 30, 1903, as shown by the report of the United States Consul, amounted to

The figures of the fiscal year 1963 show a considerable increase over those of 1962, in which the value of the imports at Colon

was \$776,345. Of the \$614,179 imports from

the United States at Colon in 1893, \$300,744 was dry goods, \$189,332 provisions, \$59,890

coal, \$38,642 lumber, \$32,900 kerosene, \$30,-

100 liquors and \$31,940 hardware.

The value of the importations from the

United States in 1908 exceeded those of 1902

by about \$160,000. The exports to the United States from Colon in 1900 amounted to \$173,370, of which \$75,422 was bananas,

\$54,960 coconnuts, \$12,742 turtle shells, \$3400 ivory nuts, \$6460 hides and \$5294 coffee.
From the port of Panama the exports to

the United States in the fiscal year 1903 amounted to \$193.342, of which \$56,767 was hides, \$49,974 India rubber, \$27,806 cocobolo

nuts, \$16,598 ivory nuts, \$12,372 deerskins and \$6908 coffee.

The money of the country is sliver, the

rate of exchange having averaged during the past year about 150 per cent.

300,000 People in Panama.

Panama has a population of about 200,-200. Its area is 31,571 square miles, or about the same as the State of Indiana.

The territory extends east and west about

460 miles measured in a straight line. Most of Panama is uninhabited except by scattering bands of Indians, but there are

some small areas of treeless upland coun-

try, particularly along the const north of the City of Panama, where a considerable

number of settlements are found and agri-

culture is followed. The towns and ham-lets are scattered over these upland re-rions or dotted along the coasts, or plant-

\$852,684, of which \$614,179 was from United States, \$119,086 from France, \$118,-632 from Hagiand, \$76,386 from Germany.

The area of these several territories is 762,528,040 acres, or 1,192,061 square miles, while the area of the remaining states and unorganized territory east of the Rocky Mountains contains 2,659,513 square

"The more recent events in our Western history, Mr. Toastmaster, are within the dangers of peace from that source, the fertility of the country, its climate When California was added to the Union and extent promise in due course imand the northern boundary of Oregon was agreed upon, either of them were spread for the blessings of freedom and equal laws."

Some 45 years later Daniel Webster, during a speech on the Mexican War, said:

"Some years before I entered public life, Louisiana had been obtained under the treaty with France. Shortly afterward Florida was obtained under the answer within a few short hours. To then the surrounding country, a country which in less than 100 years has grown beyond the expectation of man—a country which in less than 100 years has grown beyond the expectation of man—a country which in less than 100 years has grown beyond the expectation of man—a country which in less than 100 years has grown beyond the expectation of man—a country which in less than 100 years has grown beyond the expectation of man—a country which in less than 100 years has grown beyond the expectation of man—a country which in less than 100 years has grown beyond the expectation of man—a country which combines in itself all the elements of greatness, of happiness and of prosperity.

The wonders of them were inaccessible than our more recent possessions in the Orient. I know something about it, as I made the trip across the plains to Oregon on the hurricane deck of a cayuse. Then it took the greater part of a year to send a message from Washington to Oregon and get a response. Now it is possible to communicate with Manila and get an answer within a few short hours. To

California and Oregon required a voyage of many months around Cape Horn in a sailing ressel. Comparatively few peo-ple risked their lives in the perilous trip overland, at least not until there came the rush for gold in California. Now, in less than 30 days, we can go from the

Atlantic coast to the Philippines.

"About 60 years ago Senator McDuffee, of South Carolina, declared in the United States Senate that 'Oregon was worthless for agricultural purposes, and said, further: 'I would not give a pinch of snuff for the whole territory. I wish to God we did not own it. I wish it was an impassable barrier to secure us

against the intrusion of others."
"We men who live in the then territory of Oregon, from which Washington was created, know how vastly mistaken was this old gentleman from the South. But, on the other hand, even we who have But, on the other hand, even we who have lived there for so many years and have made extensive journeys over the Pacific slope, do not fully realize the mistaken impression that prevailed in many quarters at that period of our history relative to the Far West. But when we turn to the reports on population, products, ag-

to our credit. I could go into the sub-ject of assessed valuations of property, or our bank deposits, and of our general credit, but, Mr. Toastmaster, that is known in a general way.

"What we want the people of the United States and of the world to do is

to see with their own eyes the truth of our word-pictures. To give them that opportunity, the City of Portland proposes ingling alliances with none."

"Within less than four years the annexation of Texas to the Union has been consummated; all conflicting title to the Coregon territory south of the 49th deferminents. Their nones are ever held sacred by the people of the Pacific Northwest and linked with our children. Personally, I traced it for hundreds of miles with an old Inferson medals given him by Captain Lewis. At the home of my friend, Sen-ator Fulton, there still stands the re-mains of the old salt works of Lewis and Clark, and there is not a man, woman or child in his home town of Astoria but knows the history of this great ex-

"It is meet and right, therefore, Mr. Toastmaster, that we of the Pacific Northwest should mark the centennial by an Exposition of the wonders of the

It is to close of the work is to close of the w hand from Colon, and is a broad and im-portant water highway, with a draught of 18 feet. It has also been finished for several miles in from Panama on the Pacific. Great progress has also been made in cutting down the hills for its passage across the divide.

Something of Colombia and Its People Panama has always been a loosely con-nected part of Colombia. In writing of the people of Colombia, Walter Williams, a well-known English traveler and writer,

together—which is sparsely populated by 4,000,000 inhabitants, over 2,000,000 of whom are uncivilized Indians, who live in the vast forests in the interior, which have never been explored by white men.

"One-third of the remainder of the population are whites and the

ulation are whites, and the rest halfbreeds and negroes.
"The people, like most South Americans, are intensely lary, and would sooner talk and smoke cigarettes for a week

than do one hour's work. They are very ignorant and superstitious."

Mr. Williams tells the following amus-

"At 7:30 one morning a chief of police FACTORY FOR CRACKERS THE MAYOR OF NEW SMYRMA, was shot, and I was asked to take his

place 'temporarily.'

'The first night I had to patrol through a wild district, part of which was a dense forest and very lonely. I was riding a powerful black Mexican mule. A large a powerful black mexican fell and the rain fell to the rain fe heavy storm came on, and the rain fell so heavily that it streamed out of the

tops of my riding boots.

"Suddenly a flash and a report came from behind some trees on the left side of the track, o build whizzed past my head, and the mule reared up so that I Will Be Effected.

head, and the mule reared up so that I nearly fell out of the saddle. A second shot followed the first, and the mule dashed violently off.

"Nothing happened further, and I resumed my homeward way. When I got to my quarters and examined my clothing I found that the jumping mule had aswed my life as there was a ble buillet.

ing I found that the jumping mule had saved my life, as there was a big bullethole in the left side of my coat, which I had worn open.

"Next morning I was in the bar of the Grand Hotel about noon, when a young Mexican doctor came in and entered into conversation with me. He asked if I had ridden in a certain direction the previous evening, and if I had met with any incidents during my ride.

"I said that beyond being shot, at twice there was nothing worth mentioning." Well, senor, said the Mexican, coolly, "I was the man who fired at you, and I am was the man who fired at you, and I am glad the builets did not reach their mark. I was laying for a Chilanian who has been paying attention to the girl I love. I hope you are not offended, senor. We drank."

"Grafters" Threaten His Life.

CHICAGO, Dec. 1.—Attorney Brode Davis, counsel for the aldermanic "graft" investigating committee, has received nearly 100 letters threatening his life since he began the campaign against gamblers and violators of the saloon ordinances. The fact, which has been concealed carefully by Mr. Davis himself, became known when he was advised by his friends to guard against attack. The committee and its coworkers have had many disappointments, but it was admitted last night that the prospect for far-reaching dis-closures was better than at any time.

Pain in the side nearly always comes from a disordered liver and is promptly relieved by Carter's Little Liver Pills. Don's forget this.

ROUTE OF ISTHMIAN CANAL

The dotted lines in the above map that run parallel to the Panama Canal on each side indicate the strip of land, five miles on either side of the waterway, over which the United States will have absolute sovereignty. Within this zone the power of the United States, according to the treaty provisions, is to be as absolute as if the territory were part and parcel of this country. In addition to the land, three marine leagues at each terminal is ceded to the United States, and also any other lands necessary to the construction or maintenance of the ditch and its auxiliaries.

STANDARD BISCUIT COMPANY TO BUILD IN PORTLAND.

Saving of Freight Charges In Wheat and Finished Product

Phil I. Jacoby, president of the Standard Biscuit Company, of San Francisco, says his company will build a cracker factory in Portland. Mr. Jacoby is not prepared to say where it will be located or when work on it will begin, but in-ferred that the plant would be in operation some time in the coming year "We will build a factory in Portland with a daily output of 10,000 pounds," said Mr. Jacoby yesterday. "We consider this point the best for the location of a factory for several reasons. In the first place, all the flour we use is ground from wheat related. ground from wheat raised in Eastern Oregon and Washington. At present we are paying freight on this flour shipped from Portland to San Francisco and paying freight again on the crackers and
boxes shipped back from San Francisco
to Portland. By making the crackers here
all this extra expense will be saved.
Another item, and not a small one, will
be the difference in the cost of wanties be the difference in the cost of manufacture, as union labor must be employed at San Francisco, but not here."

Mr. Jacoby says there will be no cracker war. The companies in the price agree-ment are working harmoniously and they do not fear the cutting by small out

side concerns.

The Portland men who are going to build a cracker factory at East Third and East Davis streets have not yet in-corporated their company, but expect to do so this month. In the meantir on the excavation for the factory is progressing.

MILKED THE SLOT MACHINES Two Clever Manipulators Profit by Their Knowledge.

By a hard backward push on the lever two men with an intimate knowledge of the "innards" of a money slot machine have been systematically helping themselves to the contents of several machines in saloons. When the color they are playing nears the pointer, a slam on

the handle does the rest. So the company which controls most of the slot machines of the city has been busy warning all proprietors of saloons against these sharp individuals.

Rometsch's saloon on Alder street, between Third and Fourth streets, was "done" to the tune of \$55 in this way. The men dropped into the saloon, played only the \$10 slot in the machine and came out away shead. The Esmond Hotel bar cannot revenge themselves by arresting the men. But they are taking the handles from their machines.

Typhoid Epidemic Unabated.

BUTLER, Pa., Dec. 1.-The typhoid fever epidemic shows no sign of abate-ment. One death and five new cases were reported today. Thirty-four nurses have arrived from other cities and the offer of the railroad companies to trans-port doctors, nurses and domestic help to Butler free has been accepted by Mayor

WRITES A LETTER TO THE HOME OF VINOL.

Woodard, Clarke & Co. Publish It to Show How the Fame of Their Vinol is Spreading.

"We have continually been publishing facts about the great good Vinol has been doing right here in town," explained Mr. Woodard, of Woodard, Clarke & Co., our well-known druggists, "and it is with pride we are permitted to publish here-with a letter from a far-off city, show-ing that the unquestionable merit of Vinol is being recognized in all parts of the country. The Hon, C. G. Hesse, Mayor of New Smyrna, Fla., writes:

"It must afford you great satisfaction to know that you have succeeded in placing before the people a cod liver oil preparation of such high merit and great curative power as Vinol. I know of nothing superior in cases of throat and lung troubles, and to build up the system, after wasting diseases.
"Vinol invigorates the system, heals dis-

ease, induces appetite and helps assimi-late the food. In fact, it assists nature to perform her duties without friction, and this always means good health.
"I am satisfied Vinol's marvellous rebuilding power is derived from the able curative medicinal elements found in

the cod liver, which by your admirable method you are able to administer without a drop of oll or any disagreeable

"Such a high-class preparation, which I know from experience does all and more than it claims, has my hearty indorsement.

Such testimony as this is valuable because it is genuine. Such a man as the Hon. Mr. Hesse would not go out of his way to voluntarily recommend Vinol un-less he knew it was worthy. This seems out away shead. The Esmond rioter to lost a smaller amount. As the cash slot less he knew it was worthy. This machines are running in violation of the machines are running in violation of the to back up what we have been claiming machines are running in violation of the to back up what we have been claiming so long for Vinol, and is published for

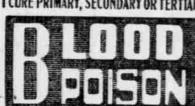

There is not a shadow of doubt about Vinol being the greatest preparation of cod liver oil ever sold to the American public, and therefore it must be the great-est tonic reconstructor known to medi-

"In the strongest manner we unhesttatingly indorse and guarantee Vinol to increase the appetite, cure stomach troubles, give strength and renewed vi-tality to the aged, build up the run down, tired and debilitated, make the weak strong, cure chronic coughs, colds and build up the convalescent, or will return to the purchaser every dollar paid for it." Woodard, Clarke & Co., Druggists.

Nasai Ely's Cream Balm membrane. It cures caa cold in the head

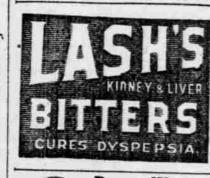

spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce speeding. Large Size, 80 cents at Druggists' or by mail; Trial ELY BROTHERS, 56 Warren St., New York,

CURE PRIMARY, SECONDARY OR TERTIARY

nd for free book.

STATE MEDICAL INSTITUTE
