THEY ACTUALLY DO THE WORK

Food Eaten is Worthless Until Digested-Some Stomachs Must Have Help.

Food taken into the stomach which, from the nature of the food or the condi-tion of the stomach, is not digested, is worse than no food at all. This is a true statement as far as it goes, and a great many dyspeptics go only this far with their reasoning. They argue with them-selves that because their stomaches do not do the work given them, they must be given less work; in other words, they must be starved. It would be just as sensible for a business man who is un-able to do all his own work to cut down able to do all his own work to cut down his business to his own capacity as it is for a man to starve himself to relieve his stomach. The sensible business man em-ploys help and goes forward with his business. Likewise the sensible dyspep-tic will employ help for his stomach and give his body proper nourishment. Stuart's Dyspepsia tablets actually do the work assigned to thom. They relieve weak and overburdenest stomachs of a

the work assigned to thom. They relieve weak and overburdened stomachs of a great portion of digestive action. Their component parts are identical with those of the digestive fluids and secretions of the stomach and they simply take up the grind and carry on the work just the same are more determined builds store the source of as a good, strong, healthy stomach would do it

do it. On this account Stuart's Dyspepsin Tab-lets are perfectly natural in their action and effects. They do not cause any un-natural or violent disturbance in the stomach or bowels. They themselves di-gest the food and supply the system with all the nourishment contained in what is eaten and carry out Nature's plan for the sustanance and maintenance of the and maintenance of the the sustenance

How much more sensible is this n How much more sensible is this method than that employed by many sufferers from weak stomachs. By this means body and brain get all the good, nutri-tious food they need and the man is prop-erly neurished and equipped to carry on his work and perform his duties. He could not possibly be in proper working condi-tion by starving himself or employing some new-fangled, insufficient food that dees not contain enough nutriment for a year-old baby. A strong man doing strong dees not contain enough nutriment for a year-old baby. A strong man doing strong work must be properly fed, and this ap-plies to the brain as well as the body. Stuart's Dyspepsia Tablets, by relieving the stomach of its work, enable it to re-cuperate and regain its normal health and strength. Nature repairs the worn and wasted tissues just as she heals and kaits the bone of a broken limb, which is of course not used during the process of re-oals. alr.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box, and they are the one article that the druggist does not try to sell something in the place of it that's 'just as good.' Their unqualified merit and success and the uni-versal demand for them has placed them within the reach of every one.

cess Palace looking eastward, making a noble fabade. The present opera-house, whose walls were built by Frederick the Great and remained standing after the fire of 1843, was reopened tonight with "Die

RAILROADS WILL NOT YIELD

HOLD OUT FOR MORE

Spokane Shippers Not Con-

tent With Concessions.

Merchants of Inland Metropolis Claim Certain Territory as Theirs--Some Firms Hold Aloof From Boycott Movement.

The business men of Spokane are not at all satisfied with the new carload rates given them by the freight men at their Chicago meeting. At least that was the Chicago meeting. At least that was the unanimous expression of opinion at a meeting of the business men Saturday, according to a report from Spokane. They characterized the reductions as triffing concessions, and voted to stand pat in an effort to secure a rate not greater than the Coast rate plus is per cent of the re-turn local rate. This is what the busi-ness men want, and the indications are turn local rate. This is what the busi-ness men want, and the indications are that they propose to get it, if it is possi-ble to do so. The railroads on the other hand are standing pat against giving Spo-knor rates that will shut out the Coast jobber, consequently there is likely to be a long, hard fight, carried out on the boy-cott line already inaugurated by some of the Spokane business interests. This scheme, however, doesn't appear to be proving the success that was expected, for Spokane branches of Portland business houses will not join the boycotters, and the railroad companies say that they will make up in increased business from the Coast for what they lose in Spokane.

Territory They Claim.

As soon as the new schedule of carload rates became known in Spokane on Satur-day, a meeting of the Spokane shippers was called and about 50 representatives of e of the largest business interests in some of the inrgest business interests in the city were present. According to an necount of the meeting in the Spokesman-Review, it was enthusiastic and not a volce was raised against the proposal to stand out for the original demands of the shippers. One of the first steps taken was to reaffirm the demand made at a pre-vious meeting for the rakes mentioned shove. Then a lengthy discussion of the Then a lengthy discussion of the above. Then a lengthy discussion of the gliuation ensued. It was the unanimous opinion of those present that the shippers should stand out against the Northern roads, even though they might be forced to carry the freight to the Coast and back again, as they charge for doing. Fred H. Mason, of Holly, Mason. Marks & Co., hardware dealers, is quoted as saying: "We are not asking terminal rates, but

we do want sufficient territory to make Bpokane a distributing point. We are will-ing to pay rates to the Coast and a quar-ter of the local rate back, so that we can reship them locally throughout our nat-

realip them locally interface as far ural territory. "We are entitled to the territory as far as Riparia, Connell and Ephrata, Wash., and all the Lewiston country. This is nat-urally tributary to us and the railroads have been trying for years to give it to Dertland."

The reduction in rates westbox breakfast foods, it was declared, was given because they are manufactured in Spo-kane, and the raliroads were willing to stille home industry for the benefit of Eastern manufacturers.

Not a Cent for Northern Lines.

It was proposed that the association per It was proposed that the association per-mit its members to ship via the Northern lines provided they forced the lines to carry the goods to the Coast and back again, thus forcing the roads to do just mit its members to ship via the Northern lines provided they forced the lines to carry the goods to the Coast and back again, thus forcing the roads to do just what they charge for doing. The plan was for the consigners to ship to themselves at Portland or Seattle, then forward the ma-terial to the buyers at Spokane. The plan was thoroughly discussed, but re-jected, as giving the railroads ag, oppor-tunity to harass the shippers by delaying their goods. It was finally voted that the shippers would not depart from their orig-inal resolution in any way that would resuit in putting a single cent into the cof-fers of the Northern roads.

Chairman J. A. Schiller stated that the

SPECIMENS WILL STICK.

Palace Covered With Bits of Precious Eastern Oregon Ores.

 BAKER CITY, Or., March 1.-(Special.)
Fred R. Millis, superintendent of the Oregon mineral exhibit at St. Louis, has constructed a miniature mineral palace, which will certainly be one of the chief which will certainly be one of the chief attractions in the mineral buildings, if not of the entire Fair. Several attempts have been made to construct buildings of this character for other expositions, but they have proven failures because it has been sible to make the mineral specificient strength to resist the ravages of the specimen-hunters. Several attempts were made in the way of decorations made

of minerals, at Chicago in 1853, but in a short time most of the small pleces of quartz rock used would disappear, and the decoration would have to be removed. Mr. Millis had in mind the construction

of a mineral palace to be made of wood, covered with specimens of mineral-bearing rock artistically blended as to color, but he realized that unless he could commit the specimens to the framework so tight that they could not be broken off with out breaking either the wood or the rock, that his palace would look like the pro-verbial 20 cents, within a very short time

after the Fair opened. Some time ago he was speaking to a friend in the hotel lobby of his desire to

turers' Association Left to Own Field--Improvement of Streets. At the regular monthly meeting of the Board of Trade last night, a resolution

was adopted proposing the segregation of the duties of the Chamber of Commerce, the Manufacturers' Association and the the Manufacturers' Association and the Board of Trade. Five applicants were elected to membership and a resolution providing for a committee to take up the matter of better streets and their main-tenance with the City Council and the City Engineer was adopted. In the ab-sence of President 1, B. Hammond, the chair was filled by Wallis Nash. A communication from H. C. Brown and P. W. Custer, proposing to publish the Columbia River Journal for the Board of Trade for the consideration of the sub-

at il each, was read and after discussion their terms were accepted. A resolution to the effect that the board give its moral support to Captain John J. Healy, encouraging with hearty reso-lutions the prosecution of his efforts toward building up commerce between this port and Alaska was adopted. The following resolution, introduced by F. E. Beach, was adopted: Resolved, That the Board of Trade of the WASHINGTON, March 1.-It is believed

was voted that no member of the asso-ciation should treat with representatives of the Northern roads individually, but only through the committee of seven ap-pointed for that purpose. It appears that the wholesale grobers

have not been flocking to the standard of the association, and, as a means of in-ducing them to do so, an invitation has been extended to the retail men to join in

body. The report of the meeting states that the implement and machine shippers of Spokane are at present a thorn in the side of the Shippers' Association. They are mostly representatives of branch houses in Portland, and consequently will not join the association. The reason is ap-parent, the Portland houses refusing them permission to join, because of the bad ef-fects upon their business that would result from reduced rates to Spokane.

Railroad Man's View.

In discussing the action of the Spokane men relative to the reduced rates, a local thing indiana he

railroad official said: "It is childish of them to continue in the course they have haid down. They cannot expect to got the rates they are demand. because it would kill the business of the Const jobber, and the railroads han-die ten carloads for the Coast man to one for the Spokane man. Then, js it business for the railroads to legislate in favor of those from whom they get the least pat-ronage? Spokane is a small tond in the puddle as yet, and the roads will not suf-fer much from her boycott. They will ain in Coast business what they lose

Large Loan Made New York Central.

NEW YORK, March 1.-According to the Evening Post, it was learned officially to-day that the New York Central Railroad recently secured \$5,000,000 from banks of this city on a short term basis. The loan carried with it 41 per cent interest, in addition to a commission which makes it net the lenders about 5 per cent. The loan is understood to run for ten months.
