DRAWN INTO THE STRIKE.

Chicago Truckdrivers Have to Join With Furniture Teamsters.

CHICAGO, Nov. 18.—The Truckdrivers' Union, the largest local organization of truckmen in the world, was drawn into the strike of the furniture wagon drivers today. Fifteen of the members were ordered to quit work because the employers had refused to sign the wage agreement.

Wagoners of the Johnson Chair Company were followed to the freighthouse of the Chicago & Northwestern Railway by a crowd of rioters, and the police were forced to draw revolvers to prevent violence while the vehicles were being unloaded.

Picket lines were established by the strikers, and several factories were practically in a state of siege, the guarding unionists warning away drivers of lumber and coal wagons loaded with material and fuel for the beleaguered plants.

Edminston was about to go back on his own account when arrested, and as his intention to do so was apparently null and void when arrested, he was taken to the police station by himself.

Not Indian, but European. PORTLAND, Nov. 17.—(To the Editor.) Judge Williams yesterday, in his official capacity to the convention of Grangers, narrated the following story:

"I remember reading a story about an Indian chief, who, to show his people the advantage of standing together, used a bundle of sticks, and taking each stick by itself broke it, but the sticks together could not be broken. In this simple way he illustrated what has been demonstrated in a thousand other ways that the strength of the individual is lost when he is separated from the mass."

MONTANA AIR SHIP MEETS WITH ACCIDENT AT ST. LOUIS

ST. LOUIS, Nov. 18.—The airship of T. C. Benbow, of Columbus, Mont., was cast loose in the aeronautic concourse at World's Fair today, and it immediately ascended 50 feet. Just as the flying machine was about to clear the fence of the concourse, the anchor caught and held it fast. After being released, the hooks caught in a tree, and the machine, after being up for nearly five minutes, was brought to the ground. There was only a slight wind blowing. The machine landed outside the concourse, and was taken back and housed in the Aerodrome.

FLYING MACHINE INVENTED BY T. C. BENBOW, OF COLUMBUS, MONT.

ST. LOUIS, Nov. 18.—The airship of T. C. Benbow, of Columbus, Mont., was cast loose in the aeronautic concourse at World's Fair today, and it immediately ascended 50 feet. Just as the flying machine was about to clear the fence of the concourse, the anchor caught and held it fast.

Benbow finally released his hold with one hand, and facing the great danger of being tossed from the car, lowered a second rope to the ground, and was pulled safely down.

Benbow stated that the damage was very slight, only two spars being broken, and that the necessary repairs can be made in a few hours.

LET VALUABLE CLAIM GO. KING EDWARD BELIEVED YUKON PROPERTY VALUELESS.

Rich Pay Has Now Been Found on a Tributary of the Left Fork of the Eureka.

Had he but preserved the life of a mining claim that was deemed to him about two years ago, King Edward VII, would now be on a fair road to increase his private fortune by the addition of a considerable quantity of virgin gold taken fresh from the auriferous gravels of the Yukon, says the Yukon World.

The claim was thought to be barren and by reason of its non-representation was allowed to lapse to the crown, which is King Edward himself, and it is a question now, paradoxical as it may seem, whether the loss in one instance may not likewise be a gain in another, though it is quite likely that before a representative of his majesty could make a claim to the ground some forty or fifty years ago, he would have planted his relocation stakes at the upper and lower boundaries and received a grant to the same.

POSTUM'S TRICK. How it Worked Wonders in One Family.

"While I was a Tea and Coffee user about eighteen months ago I happened to pick up a piece of old newspaper and I remember some one had written about the gain in health by quitting tea and coffee and using Postum, and as I was suffering with indigestion and biliousness I decided perhaps Postum would fit my case, so I had wife get a package next day and make some.

"I had been in the habit of taking cold luncheon with a bottle of cold tea, but had become so bad I could not digest them, in fact I felt miserable after every meal. Well, I quit both tea and coffee and after commencing to use the Postum I began to feel better at once and have not had a bilious spell since and no more indigestion. I would be more than glad to find something that would make me prosper financially as that piece of old newspaper did physically.

"I know it was the cold tea that was causing the trouble and the Postum cured it."

"I want to tell you something about my wife's condition."

"She had been a long-time coffee drinker and her feet were swollen so badly that she could not have a shoe on one of her feet at all and sometimes not either of them, and suffered terribly with constipation. She was treated for kidney trouble, but the treatment did her no good at all and she became perfectly discouraged. In a short while after we began to use Postum and quit tea and coffee she began to get better and now she is as good, healthy and fine-looking with us you will find, and I will leave those who read this letter to judge for themselves what did it."

"I want to say right here we both are often asked what caused my wife's health trouble, and who, it was reported, had been called to New York to direct the Philharmonic concert, says the rumors are incorrect."
