ARE OPENED

Only Two Companies Wish to Furnish Stone for Jetty.

ARE REASONABLE

No Award to Be Made on Proposals Until the Appropriation Recommended is Authorized by Congress.

Major W. C. Langfitt opened bids yesterday for furnishing and delivering stone for jetty construction at the mouth of the Columbia River this year, and found but

J. W. Sweeney, of Portland, offered to furnish 400,000 tons of stone at \$1.02 per ton, f. o, b. barges at Fort Stevens, the stone to be taken from the Bunker Hill guarry, near Stella, Wash.

The Columbia Contract Company, Port-land, offered 450,000 tons of stone at \$1.30, f. o. b. barges at Fort Stevens, the stone be quarried at Fisher's Landing. The Columbia Contract Company also tendered a second proposal of not less

than 200,000 tons at 62 cents f.c. b. the cars at Butte quarry. This quarry is in Multnomah county on the line of the O. offers compare favorably with the prices paid last year for stone. contracts were then in force, one with the Columbia Contract Company at \$1.08

for delivery by water, and the other with the Northwest Construction Company at

l cents, for delivery by rail.

The advertisement for proposals pro vided that as it is impossible at this time for the engineers to estimate the quantity stone required for this year's work, bidders should base their estimates on an approximate quantity of 800,000 tons. allow of a possible variation from that allow of a possible variation from that quantity bidders were required to state the minimum and maximum quantities of stone which they would contract to deliver. The proposal of J. W. Sweeney fixes the maximum quantity at 400,000 tons, but it would appear from the bid of the Columbia Contract Company that while they only offer 450,000 tons, they could deliver up to the 600,000 tons.

No award will be made on these proposals used the appear of the second of the second.

posals until the appropriations intely recommended by the committee are author-Jzed by Congress. The Engineers' Department will then determine the amount which can be expended on stone, and a contract will be made for that amount. With the amount of money available at present and the appropriations allowed it is doubtful, however, if there will be funds sufficient for much more than 300,000 tons of stone. The available bal-ance on January 1, was \$262,540, which, added to the appropriation as recommended, will allow \$802,540 for work at the mouth of the river this year. This fund will have to provide for the repairs to the dredge Chinook, estimated at \$100,000, and also for the maintenance and operation of the dredge during the year, which will probably amount to \$120,000. This would leave but \$500,000 for actual jetty construction, and before any new construc-tive work can be done this amount will be reduced by the replacing of the super-

structure carried away by the storms.

It is also doubtful if any actual exten sion can be made to the letty this year. The extension of 7500 feet made last year has not been completed in height and it will take probably 400,000 tons of stone to complete the jetty to its present outer end. Ar soon as the track work is re-paired the work of filling this uncompleted portion will begin, and when that is finished, should funds then be available, the work of extension will be taken up. The lefty at present extends out five and one-fourth miles, leaving but one and one-half miles to be constructed.

CROWDS HEAR DR. BROUGHER Minister Speaks to Audience on "Girl Carence Bushong and Alma Molln." Who Fell Out of Bed."

Brougher's sermon on 'The Little Giri Who Fell Out of Bed.' There were many Christians present, good, bad and indiffer-ent, and a large after-meeting was held, and a great many of these renewed their pledge of loyalty to Christ.

Dr. Brougher based his sermon on the sor Pratt. story of a little girl who fell out of bed. Her mother, hearing her cry, rushed to her assistance. Picking her up and put-ting her back in bed, she said: "My dear, how did you come to fall out?" The little girl replied: "I don't know, unless it ecause I lay down too close to the place I got in."

This story, said Dr. Brougher, contains sophy of backsliding. That is a good enough name for the experience if you can not get another. The Methodists call it "falling from grace." Some other denominations say that such people are "out of communion." but whatever the you apply to this state of Christian life, one thing is absolutely sure-they all feel that the devil has got them. Ninetenths of the church members who are cold and indifferent, can find the resson for their condition in "lying down too close to the place they got in." An old 'darkey woman who had been baptized up out of the water shouting "Thank the Lawd, it am all over." She was entirely mistaken. It had just begun. A Christian is expected to "grow in knowledge and in the grace of the Lord Jesus Christ." When he censes to grow and become stronger, it will not be long before he has fallen by the way.

DIES IN HOSPITAL.

Well-Known Farmer of Grand Ronde Valley Passes Away.

John Morrison, a farmer of the Grand Ronde Valley, and an uncle of State Senator Peter McDonald, died at the Good Samaritan Hospital yesterday after

condition became suddenly seriously yesterday, and death occurred before relief could be administered.

Mr. Morrison, who was aged 72, was born in Alva, Scotland. He emigrated to California at an early age, and has since spent his life on the Coast.

Sensor McDonald, who is in attendance.

at the Legislature, was notified by wire into and here numerous articles were yesterday, and he will arrive in Portland this morning to accompany the remains to La Grande.

AGAINST ALL SALOONS.

Must Keep Out of Woodstock, Laurelwood and South Mount Tabor.

At a meeting of the residents of Laurelwood Monday evening a "Law and Order Association" was organized for the purpose of opposing any saloon being estabtrict. Rev. C. MacPherson was elected president; E. E. Fulton, secretary; J. A. Bushons, treasurer. A committee on constitution and by-laws was appointed.

This movement was started because the second president in the has been a second president. The movement was started because the second president in the has been a source. Alias responsible for her death. The says that Franklin is in hiding in New York City.

man named Lebo is creeting a building and got out a petition for a saloon it Kern Park. The petition has been filed A remonstrance is being circulated and was presented at the meeting. W. A. Schooling, chairman of the Arieta School District No. 47, said he thought that the

District No. 47, said be thought that the best way to keep out the saloons is for all the neighborhoods to get a charter and organize a city, which gives the district power to control affairs.

The meeting passed some resolutions declaring its intention to fight establishment of all saloons in any portion of that territory between the Powell road and Lents, including Woodstock, South Mount Tabor, Park Place, Kern Park and elsewhere there. Lebo is putting up his elsewhere there. Lebo is putting up saloon in Kern Park.

FAILING SCHOOL GRADUATES. February Class Renders Programme and Receives Diplomas.

"Class of February '05." of the Failing School held its graduation exercises yes-terday in the assembly hall. The hall was artistically decorated with festoons of evergreens and garlands of ferns intermingled with the class colors. A large audience of parents and well-wishing friends was present and thoroughly appreciated the most excellent programme which was replete with musical and ora torical surprises. The class members are

ONLY A FEW CAMPS ARE NOW CUTTING.

Yellow Fir Is Scarce, and Loggers Have Hopes for Better Prices in the Near Future.

No. I yeilow fir logs will probably not sell this year under \$7.50 a thousand. That price has not been obtained so far this winter, but the large supply of rafts on hand has now been about exhausted and will hardly last more than a month. There are no camps now running cutting yellow fir, with one exception, and the few which are cutting red fir cannot keep up the supply after the stock in hand is exhausted. Yellow and red fir taken together, it is

stimated that there are not enough logs in the water to run the milia at their present rate for over a month. There is no expectation that other camps will begin operations before the first of March, and by that time practically the whole of the available supply will be exhausted.

With a clean market to start on and only a commensurate output during the continuous of the torques are all sanguing of th

the navies of Great Britain and the United States. * * The list shows in a very remarkable way the vitality of the English-speaking race, their preponder-ating influence among the nations and their ability in spending money and carrying out the work rendered necessary by their national responsibility. * The United States tonnage is believed to be the largest for one year ever floated by any country."

CANADIAN SOCIETY FORMED.

Officers Chosen and an Important Resolution Is Adopted.

At a largely attended meeting of Canadians held last night at the Glendora, formerly the Bishop Scott Academy, the Canadian Society of Oregon was organized, with the election of these oricers: President, Dr. B. A. J. Mackenzie; first vice-president, John A. Martin; second vice-president, W. R. Mackenzie; secretary, Macdonald Potts, and treasurer, William Harder. A constitution and bylaws were adopted, and it was decided that the society meet on

THE PROHMAN PROPERTY, SOLD TO MRS. M. M. GEARIN.

The Frohman property, at the corner of Thirteenth and Washington streets, which was sold to Dr. C. W. Cornelius, a few weeks ago, for \$40,000, has been sold by him to Mrs. M. M. Gearin for \$48,000. The negotiations are not complete, as Dr. Cornelius has not yet received his deeds from the German Savings & Loan Society, of San Francisco, the former owner, but Mrs. Gearin is said to have made a substantial deposit upon the property at the price named.

The value of property has increased a great deal in that section of town when a double sale with an \$5000 profit can be made in less than a month. This particular piece of property, which is 1000 by 115 feet, has increased almost \$20,000 in value in a little over a year. The German Savings & Loan Society obtained the property by foreclosing a mortgage on the Lyon heirs, and placed is on the market for \$30,000. The Lyon heirs claimed that they had not lost their rights in the property, and said to have the foreclosure annulled. The care was in the courts for a year or more, and, to cettle the matter, the property was sold, and, it is understood, a mettlement made between the contesting parties. Meanwhile the price had increased by natural growth, and the property was finally sold to Dr. Cornellus for \$40,000.

Murderer of Bessie Bouton,

COLORADO SPRINGS, Colo., Jan. M .-Chief of Police Reynolds, of this city, who has been on the trail of Milton Franklin, suspected of having murdered Mrs. Bouton, has returned. He announces that he body found on Cutler Mountain is that of body found on Cutler Mountain is that of Mrs. Bessie Bouton, of Syracuse, N. Y., and second, that Milton Franklin Andrews, of Hartford, Conn., is the Milton Franklin, alias George Bouton, alias George Bouton, alias George Barnett, who he believes to be compossible for her death. The chief says

under \$7.50. The Benson Logging Com-pany, which will operate only in yellow fir this summer, has announced that as its

om price If there were any yellow fir rafts to speak of in the water now they would probably command that price, but, out-side the Collins camp on the Cowlin,

The loggers, by shutting down last Fall, have placed themselves in a commanding position. For a year there had been a glut of logs, and it was seen that better prices could never be obtained as long as a heavy supply kept the market overstocked. The loggers decided to give the mills a chance to clean up the stock and then to begin cutting again. Most of them closed down two or faree months ago, and of these none have any logs left, and none have begun operations again. The weather has been good but they have refrained. They will not open from \$6.50 to \$7.00 and \$7.25, because they fear bad weather during the next month. This is a very different condition from to bring the case before an ecclesiastical and the oversupply had been reduced; but court. In deciding to proceed no further the flux was never entirely done away he says:

a shortage in the supply of logs is in The loggers are all quite confident that they will be able to demand \$7.50 during the Spring, but they fear the increased price will induce some new camps to open

and crowd the market again. World's New Battleships.

oston Herald. During 1904 Great Britain launched two battleships, both of 16,350 tons displacement and 18,000 horsepower. France launched two batfleships of the same horsepower, but with only H.655 tons displacement. Italy launched three battlea brief illness.

The deceased came to the hospital from La Grande on January 6, and was to have undergone a surgical operation. Preparations for this were being made, but his condition became suddenly seriously yes—ondition became suddenly seriously yes—through a rear window, and when the store was opened for business the burative of the store

The United States in 1904 launched seven battleships - the Connecticut, Georgia, Nebraska, New Jersey, Rhode Island, Virginia and Louisiana-or as many as any three countries of Europe combined, representing 167,000 tons dis-placement and 127,000 indicated horsepower. On that basis the tonnage of all the battleships launched for countries outside the United States last year sccounted for less than 30,000 tons displace-ment more than the tonnage of the batton. nan returned. He announces that he is convinced of two things; first, that the body found on Cutler Mountain is that of Mrs. Bessie Bouton, of Syracuse, N. Y., and second that Milton Francisco.

These figures were commented on by the Giasgow Herald as follows: "The most extraordinary feature of the ship-building in the year is undoubtedly the large additions that have been made to

retary, and Earl Brown, treasurer: Willie | ited to \$7.50 a thousand, and it is not ada and the Province of British Colum tween Canada and the United States."
At the social session which followed Miss Potts, of Victoria, B. C., gave plano selections, including a number of na-tional airs, among them being the Can-The so-

adian song, "The Maple Leaf." The ciety will hold its next regular no proposity collins camp on the Cowlitz, clety will hold its hold its none are cutting yellow fir, and it is ly meeting February 7. The charter difficult to find any rafts which have not list is to be kept open a short time, and those intending to join the society may those intending to join the society may those intending to join the society may call on Macdonald Potts, northeast corper Fifth and Yambill streets.

COLD WINDS CAUSES SHIVERS Portlanders Hurry for Their Heavy Wraps and Overcoats.

A keen, biting easterly wind, which blew steadily ail day, gave Portland another touch of winter yesterday and now even though the price has advanced made heavy wraps and tightly-buttoned coats a necessity. WHY DOCTORS FAIL

AND MRS. PINKHAM SUCCEEDS

Plain Reasons Are Here Given to Explain

Why Lydia E. Pinkham's Vegetable Cam-

pound Cures When Doctors Are Powerles

A woman is sick; some disease peculiar

to her sex is fast developing in her sys-

tem. She goes to her family physician and tells him a story, but not the whole

completely mystifies the doctor.

Is it any wonder, therefore, that the doctors fail to cure the disease? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her s family physician. ptoms of her suffering, even to her

It was for this reason that years ago Mrs. Pinkham, at Lynn, Mass., de-termined to step in and help her sex. Having had considerable experience in treating female ills with her Vegetable Compound, she encouraged the women of America to write to her for advice in regard to their complaints, and being a woman, it was easy for her ailing

ters to pour into her ears every detail of their suffering.
In this way she was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago a great army of her fellow-beings are to-day constantly applying for advice and re-lief, and the fact that many thousands of them have been cured by following the advice of Mrs Pinkham

during the last year is indicative of the grand results which are produced by her unequaled experience and training. No physician in the world has had such a training, or has such an amount of information at hand to assist in the treatment of all kinds of female ills. from the simplest local irritation to the most complicated womb diseases, This, therefore, is the reason why Mrs. Pinkham, in her laboratory at Lynn, Mass., is able to do more for

ing who will not take the trouble to write to Mrs. Pinkham for advice. The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

ailing women of America than the family physician. Any woman, there-

fore, is responsible for her own suffer

in the fighting which has occurred since January 25, at Likajentan, Chenchihpao and Helkoutai, the Russians left over 1200 dead on the field. The Russians shelled the Japanese center, using field guns and mortars. Simultaneously they shelled a portion of the Japanese left, using 12 heavy field guns. There has been a series of small infantry encounters in front of the Japanese center and left.

The action of Carter's Little Liver Pills is pleasant, mild and natural. They gently stimulate the liver and regulate the bowels, but do not purge.

Every mother feels a great dread of the pain and danger attendant upon the most critical period of her life. Becoming

a mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery. Mother's Friend is the only remedy which relieves women of the great pain and danger of maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are overcome, the system is made ready for the coming event, and the serious accidents so common to the critical

hour are obviated by the use of Mother's Friend. "It is worth its weight in gold," says many who have used it. \$1.00 per bottle at drug stores. Book containing valuable information of interest to all women, will be sent to any address free upon application to
