NO SALOON IN ST. JOHN'S. At the adjourned meeting of the St. John's Council Monday evening a petition was received asking that the Council disregard the late vote and grant license to sell liquor in St. John's, the object being to secure revenue. Mayor King submitted the petition to the Council and it was defeated by a vote of 4 to 3. The petitioners are questioning for the post office, which is probable. Other sources of revenue will have to be looked to. It is thought the occupation tax proposition will now be taken up.

BROOKLYN WANTS POLLING PLACE. There is no polling place provided for the school election in the Seventh ward, between East Clay street and the Sellwood-Firemen's Hall, over two miles. Brooklyn people think they are entitled to a place in vote in the vicinity of Powell street. There is a large settlement around the car shops and to the eastward, and the polling place near East Clay is too far away for them.

pire Stock Company this week, in many respects the best and most interesting play this ambitious company has been seen in so far. The story, though containing a great deal of comedy, has its pathetic side, and deals with the two big handsome sons of a prosperous Rhode Island planter, and the love of a sweet young girl. The two boys go away to the war, and a trencherous scoundrel, in his efforts to gain his desired ends, nearly succeeds in carrying out a deep-laid plot to destroy the business and wreck the lives of many persons. There is a matinee at the Empire every afternoon at 2:15 and the evening performance starts at 8:15.

YOUNG STUDENT IS SHOT

ARTHUR FOGERTY VICTIM OF A FATHER'S ANGER.

Was in Park With Daughter of Charles E. Howe, When Howe Shot Him.

Lying on a cot at St. Vincent's Hospital is Arthur Fogerty, suffering from a painful wound said to have been inflicted at 2:30 o'clock Monday night by Charles H. Howe, a Southern Pacific workman. The direct cause of the episode, it is claimed, was that the young man, who is a pupil in the Newell Academy, was in Terwilliger park at the house of St. Vincent's Hospital, a 14-year-old daughter.

Howe started an investigation when his daughter failed to return home at an early hour, and finally located her in the company of young Fogerty. They were in the park when Howe appeared. At sight of the traitor father, Fogerty leaped to his feet and ran. It is claimed that Howe then fired two shots from a revolver, one of which took effect in Fogerty's right shoulder.

Captain of Police Moore was notified of the occurrence, and sent Sergeant Hogboom to investigate. A thorough search of the park was made for Fogerty, but to no avail.

Yesterday it developed that after the shooting Fogerty ran to the Newell Academy, where he met Professor Newell. The boy was put to bed until morning, when he was removed to St. Vincent's Hospital, and an operation performed by Dr. Ruckey and Tilzer.

Last night Fogerty was resting well, and finally located her in the company of young Fogerty. They were in the park when Howe appeared. At sight of the traitor father, Fogerty leaped to his feet and ran. It is claimed that Howe then fired two shots from a revolver, one of which took effect in Fogerty's right shoulder.

The affair has created much feeling, and late yesterday afternoon Professor Newell called upon the District Attorney and laid the case before him. A warrant for the arrest of Howe may be issued, but not until after the graduation exercises of the Newell Academy. Howe stated last night that his daughter was detained in the park against her will by Fogerty. Howe went to the Police Station, but was not arrested.

KANSANS SING THE PRAISES OF PORTLAND AND THE DREAM CITY

By A. A. G.
 In Kansas they do not hide their incandescents under peck measures. Neither do they work the pianissimo. They use searchlights and things are always turned forthrightly.

By the same token, when Kansans wander from their own corncribs and oil derricks, they wander right. Mostly in private cars.

FELL DOWN RYER

Ten-Year-Old Boy Drowned in Water Below.

CLOTHES CATCH ON SNAG

Body Never Rises to Surface and Would-Be Rescuers Fail in Their Effort to Save the Lad's Life.

While walking along the O. R. & N. trestle, across Rock Bottom at 2 o'clock yesterday afternoon, Warren C. Gilpatrick fell and plunged headfirst into the waters below. C. Burgeson, who was with him, made heroic efforts to rescue him from death, but failed. The body caught on a snag, and never rose. It was recovered at 2:30 P. M. and removed to the residence of the lad's parents, 121 Greeley street. The boy was aged 10 years.

But for the unfortunate fact that the lad's body caught on a snag at the bottom, it is believed he would have been saved. Immediately after Burgeson heard a splash, he turned and saw the boy had fallen into the water. Burgeson did not hesitate, but leaped the 15 feet from the trestle and prepared to rescue the lad. Two young men, whose names were not learned by the officials, also swam out from the bank and were ready to assist, but the body did not rise.

The accident happened at 2 o'clock, at which time notification was received at the Coroner's office, and Deputy A. L. Finley responded to the call. When he reached the scene, the body had been recovered by neighbors, who turned out in large numbers and dragged the bottom of the trestle. They secured the body by means of grappling hooks. It was removed to the Gilpatrick home, where the funeral will take place later.

A pathetic feature of the case was the absence of the father, F. C. Gilpatrick, who was at Farmington, Or., on a business trip. He knew nothing of the death of his son until he reached the home where the body lay.

Burgeson, with whom the lad was walking, is a grainhandler, employed at the Portland Flouring Mills. The two were walking the trestle board for a point where they were to secure a boat and row across the river. Burgeson was not working yesterday. The boy was walking about ten feet behind him, and Burgeson does not know just how the lad happened to fall.

The boy drowned was the only son. The family came to Portland six months ago from Minneapolis. His father is engaged in the cattle business.

OREGON PIONEERS GATHER

ANNUAL REUNION WILL TAKE PLACE.

Members Are Rapidly Registering Their Names at the Secretary's Office.

Arrangements for the 134 annual reunion of the Oregon Pioneer Association, to be held at the Armory tomorrow, beginning at 2 o'clock, are progressing most favorably.

Many pioneers registered at the secretary's office at pioneer headquarters, Historical Society rooms, City Hall, and the number reported last night reached a little over 700.

Pioneers registered yesterday from a wide extent of country. Every Pacific Coast state was represented, from Southern California to Northern Washington and as far east as Montana.

Many old acquaintances have already met each other, after a separation of from ten to 40 years. In fact, it may be said that the reunion has already been in progress for a week and the exercises of June 15 are the climax.

Local pioneers are urged to register by the secretary to get their badges early today in order that pioneers who come from the interior may be served promptly.

Pioneer Personalities.
 Rev. John W. Cullen, 1847, a son of Mrs. Otella DeWitt, of this city, a former business man, who has been absent fully 30 years, arrived a day or two ago from his present home at Fort Bragg, Mendocino County, Cal. Mr. Cullen rendered conspicuously able service as a scout in the early Indian wars. In the '50s he was a type on the Pioneer and Democrat at Olympia.

Ulysses J. DeWitt, 1845, Eugene, aged 92, struck the trail for Portland and arrived yesterday and was greeted by many old friends at pioneer headquarters. He particularly enjoyed the Run water, as he recalled the time on the plains when nearly perishing from thirst, only saving his life by drinking from the carcass of a buffalo.

John C. Bell, 1830, now in his 85th year, desires to be remembered by his old friends, but owing to impaired health will be unable to see them.

Cleve S. Silver, 24 years and past, is still frisky as a lad and was much in evidence at pioneer headquarters yesterday.

B. Stuart, 1849, Portland; John S. Hennrich, 1852, Lompoc, Cal.; Austin E. Young, 1853, Little Rock, Wash.; General Hazard Stevens, 1854, Boston; Mrs. Kate Stevens Hingham, 1854, Portland.

There is a year. They admit audibly that the mountains are bigger and finer than Cameron's bluff and that our roses have the edge on those that grow in Garfield Park. Also that the Willamette is deeper than the Kaw.

Even if the Portland Cafe does find its supply of White Rock and Apollinaris somewhat depleted, the visit of the Kansas men will be good for us, and, incidentally, for them. They're going home to supervise a boom-soup for things out here which will bring returns later—for instance, "After the Harvest Days are Over, Agatha, Dear."

The party will go east over the Northern Pacific and will visit the Yellowstone en route. Those in attendance are:

J. R. Burrow, Secretary of State, with his wife and child; T. T. Kelly, State Treasurer, with his wife and daughter; C. H. Lullie, Superintendent of Insurance, with his wife; I. L. Dayhoff, Superintendent of Public Instruction, with his wife and son; Captain J. S. McDowell, regent of the State Agricultural College, with his wife; W. T. Allen, a banker of Erie, Kan., with his wife; Charles Seasholtz, the Kansas City Journal, with his wife; J. S. Leach, of the Kansas City Star, with his wife; Z. G. Hopkins, of the Topeka Herald, with his wife and P. O. McCray, special correspondent for Eastern papers, with his wife.

The cows ate all of the grass in the Scofield pasture. The boys had to purchase hay for their cattle.

ELECTRIC IRONS

The electric heating device most commonly used today is the electric laundry or smoothing iron. There are many reasons for this—economy of time and labor, convenience and comfort to the user, and freedom from all dirt, danger and odor. The electric iron is very economical because the heat is concentrated right where it is needed, and all of it is utilized. It is possible to do more work because the heat is constant, and no time need be lost in changing iron, or in working with a cold.

Heels of New Rubber

The spring of the year brings back the buoyancy of life, just as the spring of new rubber brings back the buoyancy of youth. It is the responsive spring of new rubber which makes O'Sullivan Heels so popular and has earned for them the respect and endorsement of that guardian of health—the family physician.

If your neighbor is wearing rubber heels there must be a reason for it. He is careful of his health—is studying his comfort—has an eye to economy.

Either of these reasons ought to be enough for any thoughtful person. Neither of them could be realized without new rubber. Substitute for O'Sullivan's are of no value, although they cost the same, 50c. pair, attached.

Send 35c. to makers for a sample pair if dealer cannot supply. O'Sullivan Rubber Company, Lowell, Mass.
