Hull Favors Preparation for War in Orient.

CRITICISES ROCKHILL HE

"READY," HIS WORD

Minister Accused of Bad Judgment in Proposing Return of Boxer Indemnity-Japan Has No Evil Designs, Says Mr. Hull.

WASHINGTON, Feb. 21.-Chairman Hull, of the military affairs committee, in presenting the Army appropriation bill to the House today, urged the pe-cessity of complete preparedness, as to our Army and Navy, for trouble in the Orient. He declared that any nation not prepared to defend its position in China might as well haul down its flag and quit the Pacific. Incidentally, Hull and duit the Pacific. Incidentally, frain pronounced Minister Rockhill at Pekin guilty of indiscretion in Indicating to Chinese officials that the United States intended returning the 130,006,000 sterintended returning the 130,000,000 and ling Boxer indemnity paid. Statements of this kind, he said, will be taken by the Chinese as an indication that the United States is afraid rather than lib-

Hull scouted the idea that Japan was deterested in stirring up trouble in China to injure the United States. Japan's interests in China, he said, were identical with those of the United identical with those of the United States, and preservation of peace there was the only manner in which they ould be maintained.

Speeches on tariff, immigration and the Payne customs-house bill consumed

the rest of the day. The bill carries a total appropriation of \$69,678.927, which is tess by \$1.521.-158 than the amount asked for by the department

Be Ready to Fight in Orient.

Hull made an interesting digression the situation in China to emphasiz his position that the fighting arms of the Government-the Army and Navysuld be kept in efficient condition to meet all emergencies. He hoped no trouble would come, "but there exist today conditions in the Orient that make it necessary for us to preserve our prestige, our power and our rights, even to the extent of being ready to fight for them."

In this connection, Hull read a news paper dispatch from Pekin, which had been sent from the Orient and which he vouched for as "entirely accurate," which gave an account of an interview between Minister Rockhill and Mr. Na Tung, president of the Wai Wu Pu, Hull said that, according to this dis-patch, Bockhill reminded the Chinese officials that the United States intended to return the United States intended to return the £20,000,000 sterling, its part of the Boxer indemnity. Hull characterized these utterances on the part of Mr. Rockhill as "injudicious."

Censure for Rockhill.

"I do not believe that the represents "I do not believe that the represent tive of this Government had a proper conception of the character of the Chi-nese people." continued Hull, "when he offered them a bribe of f20,000,003, or whatever the United States' share of Chinese indemnity may have been to be good. They are people that, in my judgment, would take any such of-fer as that as an indication of our being rather more afraid of them than other-wise. And it seems to me that a man occupying his position should have let whatever information was necessary come from the Government of the United States, and not given it to the newspapers.

Warren Friendly to Smoot.

WASHINGTON, Feb. 21.—Senator Smoot received another indorsement in the Senate today. It came from Warren, who, upon the convening for the day's session, presented a volumin-ous petition from women in Wyoming, praying for the expusion of Smoot from the Senate. He mid that he had been requested to accompany the presentation of the petition with some remarks of his own. He added: "The subject of the petition is be-fore the proper committee and i hope to be guided by the report of the committee when made. Hull said he had been informed extensively of the Chinese situation. He read a lengthy letter, whose authorship he doclined to divulge, which rebutted the idea that idea that Japan was causing trouble in China. Hull indorsed this view and also the proposition in the letter that the Boxer indemnity ought rather that the Boxer indemnity ought rather to be used to build battleships for the United States than be returned to China. Hull pointed out that it was decidedly to the interest of Japan to preserve order in China in order to retain her own markets in that country. China, he said, was passing through a transition from ancient to modern civilization. "and, while that is going on, every government that has business re-lations with her must be ready to protect itself or else pull down its flag, leave the Pacific Ocean and destroy its
