STILL HOLDS MANCHURIA, SAYS LINIEVITCH.

Russian Commander Proposes Policy, Which Czar Adopts, to Russlfy Eastern Asia.

TSARSKOE SELO, March 7 .- (Spe cial.)-General Linievitch's report regarding the future of Russia in the Par East is pessimistic. He says the Japanese forces in Manchuria are in-tact and liable to open bostilities at any time. They argue that many breaches of faith on the part of the Russians invalidate the peace treaty and give them a right to make additional descriptions. tional demands.

The General says the disaffection in

the army is not serious, but the admin-istration is oud. He advises that the istration is oud. He advises that the Siberian railroad be turned over to a private company, that the investigation directed against military chiefs be dropped, that soldiers be treated with

liberality, and that a strong garrison be maintained in Manchuria. The Czar is said to have agreed with the views expressed by Linevitch. All the defeated Generals will be given lucrative positions. In the Amur region the Cossack land system will be introduced, and the land will be dis-tributed among the soldiers who remain in military service. The immi-gration of Russian pensants will be as-sisted with subsidies, and thus Manchuria will be Russified.

JEWS APPEAL TO PREMIER

Ask Witte to Guard Against Renewed Massacre at Easter.

ST. PETERSBURG, March I .- A deputation of Jews headed by M. Sliezberg and representing provincial committees for the assistance of sufferers by massacres, today laid a report of outrages before Pre mier Witte at the same time directing his attention to the continuation of the anti-Jewish agitation among the black hundreds and their threats against the Jews if they acted with the progressive parties in the elections.

tion of the government's firm intention to protect life and property of Jews and to punish their assailants severely would stop the evil.

Count Witte replied in a sympathetic vein and promised to bring the matter before the Cabinet. He advised participation in the election in order that Jews, where they are in the majority, may send representatives to the Assembly.

Lumber Wholesalers in Session.

WASHINGTON, March 7 .- ine 14th annual meeting of the National Wholesale Lumber Dealers' Association began here today. Today's sessions were occupied entirely with reports of officers and com-mittees. President Lewis Dill, in his address insisted that in the heyday of their prosperity was the time to fix the status of the "poacher" who dared to sell wherever he pleased and to whom he pleased, and to fight to a finish the difficulty which exists between them and the railroads. The president said that the prosperity of the dealers has been such as to "startle the participants and alarm the world."

PEACE IN THE AIR QUICK ACTION

Diplomats at Algeciras Talk of ONLY EIGHT DAYS REMAIN BE-Conciliation.

AMERICA THE MEDIATOR

France Presents Terms on Police Question, Which Show No Change. Today's Conference Session May Be Decisive,

ALGECIRAS, Spain, Merch 7,-The French police project was distributed late this evening among the delegates to the conference on Moroccan reforms. The proposition which will be presented to the conference tomorrow, consists of five paragraphs, the substance of which is as

"The Moroccan police to be constituted for three years, composed of Moorish Mussulmans commanded by 16 French and Spanish officers and 22 noncommissioned officers. The force to consist of 2000 to 2300 men, distributed among the eight posts in bodies of from 300 to 500. The State Bank to advance funds for the administration and payment of the force. No mention is made of international upervision and the project therefore is practically the same as was outlined in M. Revoil's declaration on Monday.

Agreement Possible Today.

The result of tomorrow's sitting of the onference is awaited with the most intense interest. Reports relative to the probability of an agreement are circulated on all sides. Conciliation certainly is in the air, and continued efforts in that di-rection are going on, but a tangible basis for a possible arrangement cannot be learned. The German delegates do not display any outward sign of making concessions while France's latest utterance is indisputably opposed to further conces-sions. The neutral delegates are quite optimistic relative to an arrangement of differences at the last moment. The report that Austria will present a project with the object of effecting an arrange-ment acceptable to both France and Germany is current, but impartial delegates are looking rather to Berlin or Paris for

America Picked as Mediator.

Should the conference proceed to a vote n the rival schemes, it 'ls understood the American delegates will abstain, not even offering an opinion. This would leave the delegates in a position to continue their efforts to bring about an understand-ing. Most of the delegates are cognizant The deputation expressed a fear of the renewal of the massacres at Easter and insisted that only an immediate proclamaprove her abstention, considering that any open expression of partisanship would destroy her influence as a mediator. Others are inclined to the belief that Amer-ica's taking sides would influence a suc-

cessful issue of the conference.

The French delegates do not credit the rumors of an agreement. The Duke of Aimodovar states that efforts for a successful outcome are being continued count von Tattenbach, the junior German delegate, says a settlement is certain. The fall of the Rouvier Cabinet has caused a painful impression here and it is thought it will retard a settlement.

NOT ACCEPTABLE TO FRANCE

Foreign Office Criticises Compro-

mise Offered by Germany. PARIS, March 7 .- The Foreign Of-

ice says it is unable to confirm the many is about to yield at Algeciras by conceding French and Spanish of-ficers for the Moroccan police. How-ever, unofficial reports today indicate that Germany is disposed to make concessions naving the effect of set-tling the Franco-German controversy. One Berlin report says that Ger-many will concede the policing of one Moroccan port by the French, the other ports remaining under international police. The Foreign Office here specifically repudiates this report, saying that the concession of a single port would not be accepted if proposed. Another report received here from Berlin says that Germany will concede

the police to France and Spain if they will agree to the appointment of an inspector-general from a neutral power. The officials here say that the latter condition is unacceptable. They point out that a mandate to French and Spanish officers would not be effective, if a neutral general were placed over them, as the general would counteract the French and Spanish au-

While the Foreign Office sees some difficulties remaining, it is evident that the pacific overtures from Berlin diminish the gravity of the crisis and open the way to a possible solution in which Germany will concede the police and France will concede the bank. The evening papers are skeptical upor the subject of Berlin's concessions. The Liberte publishes an alleged authoritative statement that the German propositi are not acceptable, as they are conditioned upon the French officers being under for-eign supervision, and declares France has said her last word on the police question

ALMOST AGREED ON POLICE

German and French Delegates Dis cuss Plan of Compromise.

BERLIN, March 7.—Private conver-sations between the German and envoys at Algeciras have them almost to an agreement on the Moroccan police controversy, so near, indeed, that the Foreign Office here regards a satisfactory issue of the conference as assured. Germany, it is understood, accepts France and Spain as having the officers best fitted for policing Morocco, and France ac-cepts international control in principle, undertaking to supply guarantees that the police shall be in-

rnational in character.
It is the specific form of these guarantees that remains unsettled and continues to be the subject for discus-sion. It is likely that an international inspectorship will be created, consist-ing of a single officer of repute from a power other than France, Spain or Germany. One detail which continues to be discussed is the propriety of the inspector is being located in a neutral-ized harbor. The Ministers of the powers will also exercise general ob-servation over the police.

RUSSIA'S COMPROMISE PLAN

lice Under International Control. ST. PETERSBURG.
