THE MORNING OREGONIAN, THURSDAY, MARCH 15, 4906.

When the men came up for the final round, Nelson sent a left to the jaw and McGovern rushed to a clinch. His 

conds cried "Hold on, Terry; hold on," and never instructions carried out more thoroughly, Every time Nelson would hund a stiff blew, McGovern would grab him around the body and hang on until Nelson would throw him off by sheer force. It is doubtful if McGovern could stood the grueling for another round

There was some rough work in the first few rounds by the Dane. He fre-quently used his right elbow and bored quently used his right elhow and borod in on "McGovern repeatedly with his head. Nelson deserved the decision, but, as no decisions are rendered when both men are on their feet, the fight was delared a draw. Neither man was marked, but McGovern slipped to the floor in the fifth round while trying to escape from the Dane.

## SNOW DELAYS THE MINERS

Many in Baker City Walting for Better Weather.

BAKER CITY, Or., March 14.-(Special.) -Miners are beginning to flock into this city in anticipation of the opening of the roperties in this district in the Spring. The snow storm of the last few days has discouraged some of them, but a large number are still here awaiting better weather.

The snow storm will have the effect of setting the mining industry here back from four to six weeks, and the operators who are spending the Winter here are impatiently awaiting a break in the storm. Manager Messner, of the famous Indiana copper mines, was expecting to reopen his property this week, but will now be forced to wait at least a month. The Indiana was closed down about three weeks ago on account of lack of fuel, the roads be-ing in such bad condition that it was im-possible for him to send any wood into the mines. The roads were becoming pretty well dried out, and the woodhauling was to have commenced last Monday,

but the snow made it impossible. At the Highland mines, in the Rock Creek district, the snow is not so bad. Report reached here today that there had been a fail of but four inches there, while here there is more than two feet of snow in the ground.

Sam Kidder had two bands on the range at the same time, but managed to save both bands. Most of the other sheepmen in Baker Valley got their sheep under cover

or sent hay out for feed. Conditions in other parts of the county are generally satisfactory, although it is reported that if the storm continues much longer there is apt to be a shortage of hay on Snake River and Upper Fow-der River. The hay in Baker Valley is in sufficient quantities to feed the sheep, even though the storm lasted until the middle of April
