Scathing Denunciation of the House Machine.

VOLUME OF ADJECTIVES

Handall Tells Wrongs of Territories. Senate Debates Immigration Bill.

WASHINGTON, May 22.—The so-called Republican "machine" was the subject of a scathing denunciation in the House of Representatives today at the hands of Handall, of Texas, who said that the leaders of the House who constitute and run the "machine" had been absolutely nothing except to make hypocritical pretense as to some things and to unblushingly advocate "the standard" doctrine in other things.

"The completeness with which the Republican party has deserted the people's interests is apparent in its treatment of questions before the Congress," said Handall. He said the attitude of the Republican party toward the Territories is another proof that it is unworthy to rule.

"The sisterhood of States," he said, "should make such a record as to the cruel and outrageous crime committed by the Republican party, impelled by fear, the machine may yet admit one state, but the Congress will understand their motive and should not stay the hand of retribution.

Readjust Philippine Coinage.

WASHINGTON, May 22.—Senator Lodge today introduced a bill at the request of Secretary Taft for readjustment of the ratio of the Philippine coinage and for an increase in the elasticity of the present system. The bill is framed upon the recommendations of the Philippine Commission contained in the annual report and in brief authorizes the Commission, with the consent of the President, to change the weight and fineness of the silver peso and to coin the existing peso so as to adjust it to the change. At present the silver in a peso is worth more for bullion than the coinage value.

Pessimist on Eight-Hour Law.

WASHINGTON, May 22.—A. C. Hayden, representing the Carnegie Steel Company, discussed the eight-hour bill today before the House committee on labor. He said the enactment of the measure would drive every large institution now taking Government contracts from that field, would bring about the ruin of the small contractor and would increase the cost of the same to the Government from 25 to 50 per cent.

WASHINGTON, May 22.—The Maharajah of Baroda, India, and his wife, who are visiting the United States, arrived in Washington today. The Maharajah probably will call on the President tomorrow.

CONFEREES WILL RECOMMEND FORAKER'S PLAN.

Admit Oklahoma and Indian Territory, Let New Mexico and Arizona Vote on Union.

WASHINGTON, May 22.—An agreement on the statehood bill will be embodied in a conference report which will be reached this week, according to information today. What the terms of this agreement will be cannot be stated with precision, as the report has not yet been drafted. The plans which seem to be acceptable to both sides, however, are: That Oklahoma and Indian Territory shall be admitted as one state at once; that Arizona and New Mexico shall be allowed to vote separately on the question of being joined in one state; that the vote shall be cast at a regular territorial election, when officers of the territories have generally expressed their intention of voting for their own ticket, more than in former years.

What the State Papers Are Saying About the Campaign

Made a Good Impression.

Dr. Withycombe's appearance in Heppner and left a good impression with Morrow County people. It is plainly evident that he is a man of good, sound and safe judgment, who has excellent ideas of government and citizenship.

Voting the Straight Ticket.

Events in the political arena during the past few days have shown that the Republican party will sweep the state and that a majority of the county ticket will, in all probability, be elected. Voters have generally expressed their intention of voting for their own ticket, more than in former years.

Desperate Straits of Opposition.

The Democrats are certainly hard pressed for campaign ammunition when they are compelled to raise the question of how long Dr. Withycombe has been a citizen. A man must have a clean record when his opponents have to resort to such methods. A good citizen makes a good official, and Withycombe's record speaks for itself.

Strong Republican Sentiment.

With an enthusiasm never before equalled in the state except in National elections, the people are attending the meetings, and Republican sentiment is stronger than for many years. The standing of the men on the ticket, headed by Dr. Withycombe, is such as to merit the entire confidence of the people of the state, and this confidence is not lacking.

Where Roosevelt Stands.

It has been claimed by the Democratic press of the state that President Roosevelt desired the re-election of this Democratic party. The "Chamberlain-Roosevelt" adherents have learned that something more than a hyphen separates the policies of the Democratic Governor and the Republican President.

No Doubt of Complete Success.

The Democratic party in Oregon is without platform and without principles. All they want is the Democratic prestige and Democratic patronage which comes with the success of their ticket. We are already suffering from this Democratic prestige and patronage. We have too many Democrats in high places and cannot work in harmony with President Roosevelt. But this is the year of redemption and with such a strong ticket in the field, and perfect harmony prevailing in the Republican party, there is no doubt, can be no doubt, of the ultimate success of the entire ticket.

Down With Boss Rule!

The past history of the political parties in Oregon has been the history of some political "boss" backed by a clique or ring. But in the coming election the Republican voters will have an opportunity to cast a vote for the men of their own choice, and as each candidate has won out after a clean and honorable primary campaign before the people, the Republican ticket should receive the solid Republican vote of county or state. This can hardly

Prisoners Will Accept Concession Grudgingly—Many Prisoners Are Liberated in Advance—Premier to Address Duma.

ST. PETERSBURG, May 22.—The long-awaited political amnesty will, the Associated Press learns from a government source, be proclaimed May 27, the anniversary of the coronation of Emperor Nicholas II. The exact scope of the measure has not as yet been determined. It will, as anticipated, be limited, but the Associated Press is in a position to state that the Constitutional Democratic party is prepared, though grudgingly, to accept the act of grace from which the terrorists are excluded, recognizing, though not publicly, that the government is not altogether unjustified in refusing to set at large men who will be as ready as they have been in the past to shoot down or blow to pieces hard representatives of authority.

Terrorists Give No Quarter.

Their demand for unlimited amnesty was based on the expectation that with the institution of a full constitutional era the terrorists, as was promised in an open letter just before the assassination of Alexander II, would abandon active operations, but they have been forced to admit that the crimes of the last few days give the government no guarantee that the promise will be kept.

Attacks Free Seed Graft

WASHINGTON, May 22.—The agricultural appropriation bill was reported to the Senate today. It carries \$7,715,000, an increase of \$223,500 over the amount carried by the bill as it passed the House.

Senate Committee Opposes Distribution of Common Seeds.

A decided majority of the committee expressed its opposition to the distribution of common seeds, as authorized by the law of former years, but deemed it inadvisable at this season to recommend any legislation in this regard. The committee secured the desired result, but trust at the next session a liberal appropriation for the distribution of rare and valuable seeds may pass the place of the present very objectionable system.

Vote for Good Government.

Dr. Withycombe is a Republican and a gentleman, able and clean. His interests are the interests of the common people. A vote for Withycombe is a vote for good government and Republican principles.

What Republicans Will Do.

When the votes are counted it will be found that George E. Chamberlain had a great many less than 30,000 Republican friends, that Dr. James Withycombe will be Oregon's Republican Governor, elected by Republican voters.

Need of a New Constitution.

Ten amendments to the constitution are proposed, some of which may pass. At this rate, how long will the constitution last? The fact that the fact that a constitutional convention should be called in Oregon, and the old, inadequate, patched-up instrument revolutionized to meet the needs of the Greater Oregon.

Entire People Respected It.

The personnel of the Republican state ticket is such that it commands the respect of not only the party, but the entire people of the state. No better ticket has ever been nominated, and it was created by a direct vote of the people, and there is no doubt that it will be elected to a man the 4th of June.

The Man Behind the Platform.

Dr. Withycombe is not afraid to say what he believes, and he means what he says. His platform has no holes in it. It is conservative, safe and sane, has no moss or barnacles on it, and best of all, the man behind the platform is capable of vitalizing it and putting it into force.

Working Shoulder to Shoulder.

If we have any chance of success, it can be truthfully said that the La Grande Republicans in this campaign are working shoulder to shoulder for the purpose of electing Dr. Withycombe, and that there are no Chamberlain buttons being worn this year by staunch Republicans. Neither will there be any 700 majority for Mr. Chamberlain in this county next June. His most ardent supporters would be glad to compromise on an even break.

Just the Silly Story.

Oregon is in the midst of a political campaign, and up to date the most gratifying feature of the struggle for office has been the absence of mud-slinging and vilification. To be sure, our friends, the Democrats, have tried to make capital of the fact that our candidate for Governor was not born in Oregon, or even in the United States, but Dr. Withycombe has made an explanation that has been accepted as satisfactory to the people.

LAND STRUGGLE COMES NEXT

Each Party Has Solution to Offer for Agrarian Problem.

ST. PETERSBURG, May 22.—Parliament will probably not meet again until May 25, today being the fête day of St. Nicholas, the miracle-worker, and May 24 being Ascension day, another great holiday. The interim will be occupied by the committee in examining the credentials of election of members and in preparation for the coming struggle over the measure for the solution of the agrarian question. The attention of the country and Parliament is now riveted on this problem, all sides recognizing that the manner in which it is solved largely will determine the future course of events. The Liberal papers, which yesterday clamored for an open field for the members of the Emperor's refusal to personally receive the deputation appointed by the House, after sober reflection commend the course of the Liberal members, who in the opinion of etiquette in favor of the serious work which the country expects it to accomplish.

The Constitutional Democrats' agrarian project will be attacked both by the right and the left. The Radical workers and peasant group, which now numbers over 20 members, has decided to make a fight for the complete abolition of private ownership and the establishment of a system providing for the full nationalization of the land. The details have not yet been given out. They are trying hard to induce the members of the party who are holding aloof from party affiliations, to join them. They are proceeding on the theory that the Constitutional Democrats and extremists by excesses will discredit themselves before the country and bring about a reaction which will give the Conservatives a majority at the next election.

As evidence in this regard, the Council of the Empire, or upper house, has decided not to press its own views of the agrarian question, but to wait the initiative of the lower house.

Eight demurrers were interposed in their stead, chiefly on the ground that the indictment does not set forth the charges with sufficient particularity to enable the accused to make proper defense.
