BANKS DO BUSINESS

Money Again Flows Among the San Franciscans.

PEOPLE SHOW CONFIDENCE

Banks Prepared Millions for Withdrawal, but There Is Excess of Deposits-Savings Banks Are Open Ahead of Time.

SAN FRANCISCO, May 21.-The anticipated run on banks yesterday did not materialize. When the commercial banks opened in their downtown quarters, they did so expecting a rush on the part of the depositors, and were fully prepared to meet it. Instead of heavy demands for payments there was a much larger stream of depositors. The Wells Fargo National Bank had over \$30,000,000 in its vault available for the expected rush. It was stated that there were no heavy withdrawals, and in view of confidence being restored, some of the banks decided that the assistance they were to receive from other sources is now un-

necessary. here was made evident today when sev-eral savings institutions announced that they would open their doors for business tomorrow morning. This announcement came in the nature of a mild surprise, for it had been definitely agreed that all sav-ings institutions would open their doors on Monday, May 28.

Prove Their Stability.

Many of the savings banks give as a reason for the early resumption of bust ness the fact that it is good public as well as financial policy to thus demon-strate to commercial circles the stability of the institutions. Others of the savings banks do a commercial business, and the claim is set up by them that they could not commercial department and refuse to do business in the saving branch. The agreement en-tered into among the commercial banks sets tomorrow as the date for opening.

Among the savings institutions which will resume operations tomorrow are the Hibernia Savings Bank, the Humboldt Hibernia Savings Bank, the Humboldt Savings Bank, the Seandinavian-American Bank and the German Savings Bank. The Hibernia Savings Bank, one of the largest institutions of its kind in the West, is structurally intact, although the interior furnishings were destroyed by fire. Its vauits, with their double doors, each having eight thicknesses of steel bate were opened results. plate, were opened readily, the locks immediately responding. Not only were the contents usinjured, but the vaults were cool. Last week the Hibernia had \$1,000,000 taken from the mint and placed alongside the coin in its vaults. Yesterday, wishing to be fully equipped for any emergency that might arise, another \$2,000,000 was transferred from the mint to the bank's building. The transfer was made by the use of a sand and brick wagon, and so quietly was it done that hundreds of spectators who were watching the building operations near by were ing the building operations near by were unaware of the transaction. When the bank opens tomorrow, it will probably proceed to business restrictions and limitations, and continue on that line.

Lively Financial Center.

The corner of Montgomery and Market streets is now a lively financial center, the activity heightened by the Crocker-Woolworth National. Among the other banks clustered in this vicinity and ready for business are the Wells-Fargo-Nevada National Bank, the Union Trust Company and the savings bank of the same name: the French Savings and the Russo-Chinese Bank. Homer S. King, president of the Clearing-House Association, said: "There is little demand for money, and if do not think there will be until the I do not think there will be until the heavy building begins. Thus far our re-ceipts have much exceeded the withdraw-

proportions before the finance committee finishes with auditing the accounts.

In the tabulated statement filed with the Committee of Forty on Saturday there appears a charge of \$157,508 for automobile service. It is a well-known fact that there are not more than 100 machines in San Francisco, and that all of them could be bought outright for a sum not much in excess of the amount charged for the hire of probably half that number.

Only 329 claims were presented to come.

of probably half that number.

Only 120 claims were presented to cover this sum. The average rental a day was \$35, but in many instances the charge was even higher. What the committee will do with this Item is still undetermined. In the same table is a statement of charges for milk, butter, eggs, bread, vegetables, drugs, hay, grain and clothing. The total cost for these necessaries does not equal the cost of the hire of automobiles.

Some of the garages have relieved the committee from embarrassment by generously donating the amount of the demand isly donating the amount of the demand

Park for Studies. SAN FRANCISCO, May 22.—The Summer vacation school opened yesterday in Golden Gate Park, with Albert M. Armstrong as principal. The millitia, at the request of the School Board, had supplied 15 tents to accommodate the little refugees. Nowhere in the country can be found nearly 600 children more comfortably housed. It is expected that at least 1500 children will soon be in attendance. Each tent is built to accommodate 20 pupils, and is equipped with desks and blackboards. There are numerous books on hand, Cooking will be taught by specialists and the children will prepare their own lunches. The school will be in operation for three months. SAN FRANCISCO, May 22.- The Sum-

Plan to Restock Library.

SAN FRANCISCO, May 22-R. B. Hale, chairman of the Horary committee, yes-terday submitted to the general commit-tee on reconstruction a report on the con-dition of the public library. Out of 168,344 volumes, there were only 25,000 accounted for after the fire.

The library trustees have written to other libraries throughout the United States for duplicates, if they have any in the way of books, and a request that a memorandum of such books be forwarded to San Francisco, with the idea of duplicating some of the rare books which San Francisco had in her public library.

Death List at Agnews' Asylum.

SAN FRANCISCO, May 22—Besides the scores of employes and patients injured in the collapsing of the Agnews State Hospital on the morning of the earth-quake, there were 108 killed. After considerable search a definite list has for the first time been completed. The list shows that II employes and 97 patients were killed among the falling brick and huge timbers, not including those who died later of their injuries.

The best underwear for Summer is our pure linen mesh--and every thread of it is linen--we guarantee it. It is made so that all moisture is quickly absorbed -- sanitary, healthful, durable and wearable. We carry them in separate shirts and drawers and Union Suits and can fit the short and stout man as well. Priced \$5 suit.

The Ideal Beverage For Home Consumption

Our

Three **Brands**

WEINHARD'S BEER

Delicious to the taste and strengthening to the body. Its absolute purity disarms criticism and makes it a most delightful and healthsustaining tonic. In quality it is unsurpassed. In every line of business some one excels. On the Pacific Coast Weinhard's Beer is a household word and justly so. We have never been satisfied to stand still, but have always kept on improving. We will never lessen our efforts to increase the standard of excellence, if it is possible to do so.
