Umatilla Attack on Major Edwards Has Failed.

#### SHEEPMEN INCENSED THEM

Inspector's Report Vindicates Agent. Indians Angry Because Prevented From Levying Toll-Complaint Came From Turbulent.

OREGONIAN NEWS BUREAU, Washington, May 25.—The charges recently pre-fered by about 40 Umatilla Indians against Major O. E. Edwards, superintendent of their agency, have fallen flat, and what promised to be a sensation, if not a scan-dal, has completely collapsed. Immediatedal, has completely collapsed. Immediately upon receipt of the charges, Indian Commissioner Leupp sent one of his inspectors to Umatilla to make an investigation. The report of this inspection has been received, and is a complete vindication of Major Edwards. In view of this report, the charges will be dropped and the case will be considered closed.

The Indians were dissatisfied with the manner in which Major Edwards was handling their funds, and were particularly incensed because he had, upon authority from Washington, permitted Umatilla County sheepmen to drive their flocks across the reservation without first ob-

tilla County sheepmen to drive their nocks across the reservation without first obtaining the consent of the Indians. Their disgruntlement was evidently due to the fact that they were not deriving any revenue from the sheepmen for this privilege. The other charges were found to be ab-coluity without justification. In fact, when the inspector went to the bottom of affairs, he discovered that the charges were made solely by Indians who had been held in check by Major Edwards whenever they attempted to override the regulations and disregard discipline. The protests were the outgrowth of personal animosity on the part of a few Umatilias. The inspector failed to discover any general desire on the part of the Indians to don their war-paint; indeed, he found nothing to justify the presence of troops to protest Major Edwards or Government. affairs, he discovered that the charges to protect Major Edwards or Government property. The indians of lawless proclivi-ties having subsided, there is now noth-ing to indicate that any serious trouble is

### SEATTLE MAY DIG THE CANAL

Asks Congress to Authorize Work on Lake Washington Project.

OREGONIAN NEWS BUREAU, Washington, May 25.—Representative Hum-phrey today introduced a bill authoriz-ing King County, Washington, to enter into a contract with private parties for the construction of a canal connecting Puget Sound with Lake Washington, just east of Seattle. Seattle capitalists stand ready to advance ample money to dig this canal if the Government will give its sanction. In view of the unwilling-ness of Congress to dig the canal, it is probable that Humphrey's bill will pass before adjournment, especially as it stip-ulates that the canal, when completed, shall be turned over to the Government free of cost, to be thereafter operated as a public waterway.

James A. Moore and ex-Governor Mc-Graw are the prime movers in this pro-ject, and already have ample capital piedged to dig the canal within the next

strained from refusing to transport packages destined to Mississippi. The express company, which had been transmitting these packages up to May 10, then refused to further accept them, because of the passage by the Mississippi Legislature of a local continuous. cause of the passage of the law, imposing a heavy fine for such acts. Judge McPherson, in denying the injunction, said that if he were to grant it it would result in 250 express agents being thrown into Jali.

#### HER PRELIMINARY HEARING

Alleged Diamond Thief Will Appear in Municipal Court.

Neille Davis, allas Hatfield, alias Granger, alleged to be a diamond thief, whom the police captured a few days ago, will be brought into Municipal Court next Tuesday for her preliminary hearing. Stolen articles found in her possession have been positively identified by four women who saw Mrs. Davis leave their

houses.

The prisoner has retained Attorneys Moody and Wolf to defend her. She says that when her case comes to trial she will be able to account for the jewels in her possession. Confinement is telling upon Mrs. Davis, and she spends most of her time weeping and calling for her daughter, who was taken from her and placed in the bands of the Juvenile Court.

Leavitt, president of the Leavitt Motor Car Exchange, of New York, is in his launch in the harbor here and has an-nounced that he will shoot on sight any one who attempts to arrest him. Leavitt has been a fugitive since Wed-nesday, when New York officers arrived here with warrants charging Leavitt with jumping bail furnished by a bonding company and by a friend, Martin Engle, of New York.

Leavitt, it was alleged, had left New York after being arrested, charged with fraudulent transactions in connection with the purchase of automobiles. The with the purchase of automobiles. The officers put out in a rowboat. According to the deputies, Leavitt seized a revolver and fired a shot, which struck the rowboat, and it returned to shore.

Leavitt claims an attempt is being made to kidnap him, and he says he intends to remain on board his launch indefinitely, or put out to sea if the New York officers decide to pursue him again.

CLEAN UP PACKING HOUSES

President Defines Policy and Packers Invite Him to Act.

WASHINGTON, May 25.-The condition of some of the packing-houses at Chicago was severaly criticised by President Roose-velt yesterday during an interview with W. E. Skinner and W. L. Carlisle, with W. E. Skinner and W. L. Carlisle, representing the livestock interests of the country, and Representatives Madden, of Chicago: Cox, of New York, and Brooks, of Colorado. Mr. Skinner is the representative of the Union Stock Yards Company at Chicago and Mr. Carlisle is dean of the National Agricultural College of Colorado.

These men, at the request of the livestock interests all over the country, conferred with the packers on Monday and then came to Washington to see the President. The President announced that he proposed to see conditions—of which complaints have been made—in the packing-houses

been made—in the packing-houses changed as promptly as possible, that the buildings should be remodeled in order to obtain better ventilation and more light; that ample facilities should be provided for employes far enough removed from the rooms in which meat is prepared to prevent contami-nation, and that there should be lava-

tories to insure personal cleanliness.

Mr. Skinner assured the President that if the President would appoint a com-mission of high-grade scientific sani-tation experts, including one practical man versed in inspection and animal husbandry, the packers would be glad to adopt any suggestions the commission might make. He urged the President to appoint a National sanitary committee. which should be authorized to deal with the whole subject of food products. He represented that it was unfair to single out one industry to the exclusion of all others and make it a subject of criticism so as to injure it throughout

The President's concern, however, is to secure fresh, clean, uncontam-inated meat for the American people inated meat for the American people and to remove the suspicion which exists abroad regarding United States meat products, which necessarily affects the extent of the sales. He assured his callers he was most anxious the industry should not be disastrously affected. At the same time he said he intended to see that proper sanitary conditions existed, and he wanted it to be distinctly understood, once the conditions were established, he the conditions were established he would not permit any let-up in their

SETTLE ALL CLAIMS FOR CASH

Root's Plan for Disposing of Disputes With Britain.

WASHINGTON, May 25.—Secretary Root is having made a careful study of the respective claims of Britain against America and America against Britain, with a view to mutual adjustment, if that is possible. He believes that the matter might be arranged by direct negotiation, and a balance struck and paid in cash by the party found to have the best of the claims. Because the executive has no power to bind the legislative branch of our Government, which alone can appropriate the money necessary to meet and pay off an adverse balance, it is probable that the agreement between the negotiators must provide that the judgments the respective claims of Britain against ators must provide that the judgments reached shall be subject to the approval of the Congress here and of Parliament in England.

The obstacle in the way of agreement is the famous Frederick Gearing case. This American fishing vessel was seized a number of years ago in a Canadian port for alleged violation of the fishing laws, and in spite of a vigorous protest by this Government, was condemned and sold and no restitution made to the owners. The New England Senators contend that no agreement shall be made that does not provide first of all for the adjustment of this claim. The British government, however, asserts that the matter is res adjudicata; that the case was tried out thor, oughly in the Canadian courts, and that no negotiations can succeed if they are to revert to what they term dead issues of The obstacle in the way of agreement is revert to what they term dead issues of that kind.

GRAFT IN GRAIN INSPECTION

McCumber Says Low-Grading Robs Farmers of Millions.

WASHINGTON, May E.—During the discussion which preceded the passage of the agricultural appropriation bill by the Senate today, McCumber attacked the grain inspection service at Minneapolis and said the North Dakota farmers suffered a loss of millions of dollars by having their wheat graded an inferior quality. He said he could prove his quality. He said he could prove his statements. He advocated a National in-spection system.

Hansbrough supported the contention and assertions of McCumber.

Pattersop pronounced the revelations of

of the two Senators from North Dakota startling and horritying, surpassing anything that had recently occurred in these days of 'graft.' 'The wonder is that the administrations responsible for the state of affairs have not been spewed out and honest men elected in their stead,' said Patterson in the course of a speech in which he dweit upon the enormity of the offense complained of.'

When the reading of the bill had been concluded, Beveridge moved the incorporation in the measure of his bill providing for the inspection of meats for domestic consumption, and it was agreed to without discussion. The bill was adopted.

REASONS FOR SERVICE PENSION

Campbell Says It Would Save House Much Time.

WASHINGTON, May 25.—The attention of the House was called to the need of a service pension bill today by Campbel a service pension bil today by Campbel (Kan.), who said that if some service pension bill were adopted the semi-month ly recurrence of "pension day" would be a thing of the past. He urged the pasa thing of the past. He urged the pas-sage of his bill, giving all persons who served 90 days or more in the military of naval service of the United States and who have been honorably discharged therefrom a pension of \$12 per month. His bill also amends the act of June 27, 1890, by making the minimum pension under the sot \$12 and the maximum \$15. The bill further provides a pension of \$30 per month for Civil War veterans who are now suffering from blindness paraly.

now suffering from blindness, paraly-rheumatism or accident resulting in the loss or crippling of limbs.

He suggested that the pension days seriously interfered with other matters in which the country was interested, and, in view of the fact that the amount carried by private pension bills contrib-uted much to the grand total of the pensions appropriation bill, it would be economy on the part of Congress to en-

act such legislation.

De Armond also favored a service pension bill, but thought his bill in some particulars was better adapted for the

purpose than Campbell's bill.
