

GRAPPE CRAP

Conditions in Southern Oregon Were Never Better.

REPORT BY FRED H. PAGE

Yield of That Section Will Be Four to Five Times as Large as Last Year—Trainload of Fruit Arrives.

Valley, 710; new club, 68; new bluestem, 700. OATS—No. 1 white feed, \$32; gray, \$31 per ton. HOGS—Feed, \$22.50 per ton; cream, \$23.50; rolled, \$24.00 per ton.

Fruit—Immense apple crop in Southern Oregon will grow each an apple crop as was never raised before. Not only will the yield be immense, but the quality will be superior.

The Southern Oregon apple crop this year will be four or five times as large as last year. There is an immense crop in all sections and all varieties have done exceedingly well.

FEW CONTRACTS REPORTED.

Growers no longer in a mood to sell in advance. The flurry in the hop market seems to have passed over, but it has left the market in a very strong condition.

OLD WHEAT NEARLY GONE.

Country was never so well cleaned up. The Northwest wheat crop of 1905 is to all intents and purposes a bare wheat, as there was this district so bare of wheat, according to local dealers.

Poultry Market Firm.

The poultry market is in first-class condition. Dealers report that they are not getting half enough chickens to fill their orders, and as a consequence prices are decidedly firm.

Bank Clearings.

Bank clearances of the leading cities of the Northwest yesterday were: Clearings, Balance, Portland \$5,207,141; Astoria \$1,200,000; Tillamook \$1,000,000; Clatsop \$1,000,000; Spokane \$25,275,000.

Portland Quotations.
