Money Conditions Govern the Stock Market.

DEMAND STERLING LOWER

Opening Strength in the Active List Gives Place to All-Around Weakness, and the Close Is

at the Lowest.

NEW YORK, Aug. 30.—Money conditions governed today's stock market. Call loans at 8 per cent, time loans showing a hardening tendency and the threatened obliteration of tendency and the threatened obliteration of last week's low bank reserves were conditions that could not be ignored. The foreign exchange situation, with a further heavy decline in demand sterling to \$4.58.25, caused increased perplexity. This is aimost on a parity with the rate of last April when Secretary Shaw was induced to "facilitate" gold imports and while much talk of impending negotiations continues to be heard, of actual engagements there were none up to the close of the market.

Douglas Wants 50 Schoolteachers. SEATTLE, Wash., Aug. 30.-(Special.) -In a telephone message to County Su-perintendent of Schools T. P. Storey, Douglas County officials saked King County authorities to send them 50 schoolteachers. Douglas County is un-able to find that number of educators needed in the schools of the county, and is appealing for help.

King County cannot help. The country schools in this county are already eight

teachers short. Do not purge or weaken the bowels, but act specially on the liver and bile. A perfect liver corrector. Carter's Little Liver Pills.
