The chances are that Keller will be ex-

Ho is accused of sending indecent postal cards to the Chiefs of Police of various cities throughout the country, warning them of the probable coming of a street fakir and vendor of patent medicines named Dr. W. These objectionable cards were sent out from San Francisco, and Keller in-variably wound up his tirade of vulgar abuse with the expression, "chase him out here so that I can torture him." It develops that the quack owes Keller only \$3.50, hence his actions are taken as indicative of mental disorder.

BY ARTHUR A. GREENEL DELAYED train was responsible for a tiresome wait at the Hellig last night when the Stewart Opera Company was a full hour late in commencing its chestra helped matters some, but it was an unfortunate get-away. In spite of this, nowever, "The Two Roses," a comic opera new to Portland, was well rendered, and the company, also strange to these parts, worked itself into our good graces. It has been a long time since Portland has had a week of high-class comic opera and the people seem hungry for it. They sat patiently through a most annoying de-lay and responded generously to the ef-forts of the singers.

sat patiently through a most annoying de-lay and responded generously to the ef-forts of the singers.

As has been generally noised about "The Two Roses" is a musical arrange-ment of Goldsmith's fine old comedy "She Stoops to Conquer." It is in two acts, the first rather loosely thrown together, without much cohesiveness, and the veriest thread of story. The second is somewhat better connected and succeeds in developing considerable interest. Opera, even of the kind designated comic, must have some plot. Stange, who wrete the book, knows this and exerted himself in the closing act. Pity he didn't start

working sooner.

The credit for "The Two Roses" belongs almost entirely to Ludwig Englander, for his music is delicious. It is not the kind the gallery whistles in uni-son, but it is a continual delight to those who know a hawk from a handsaw in musical matters. The piece fairly musical matters.

sparkles with pretty numbers.

John Cort and Calvin Heilig, who own the production, have apparently lavished a lot of money on it. The settings and a lot of money on it. The settings and costumes would be favorably commented upon in any theater in the land. The first ect set, an apple orchard, was especially

The Company's ensemble singing is a cature that must have impressed every-body who heard it last night, and for this considerable praise is rightfully due

to the chorus, so good a singing squad is seldom heard.

Among the principals, the best voices are possessed by Bertha Shalek, the contraito, and Carl Haydn, tenor; too bad the latter has not learned to act. Mabel Day has a pleasing preparally and her Day has a pleasing personality and her "Just Three Words" song was excellently given. George W. Leslie, who has previously appeared here in the Frawley company, is a corking good comedian, but his part last night gave him but ittle latitude. His song "Why?" was the best thing he did.

William G. Stewart has a very pleasing baritone and sang his numbers very well

Bessie Fairbairn, the comedienne, wa on hand with the goods whenever she was given latitude, and Nettle May Lyon is a stunning looker with a fair voice. "The Two Roses" is one of the prettiest of modern comic operas; its catchy refrains and its real music appeal strong-ly to those of us who have hopes of American composers. Its Watteau shep-American composers. Its Watteau shep-herdess, its country squires, its yokels, its city bucks and grand ladies of the Georgian period contribute the pictur-esque and romantic touches and as pre-sented by the Stewart company it offers an entertainment calculated to satisfy the most fortidious.

an entertainment calculated to satisfy the most fastidious.

"The Two Roses" will be repeated to-night and tomorrow night. Wednesday and Thursday nights "Dorothy" will be given and Friday and Saturday nights and at the Saturday matinee the offering will be "Babette."

WILL ESCAPE TRIAL.

E. P. Mays Not to Face Second Trial. Is Among the Indicted.

Pursuant to Francis J. Heney's estab-lished policy of severance in cases where a defendant has already been convicted in connection with land-frauds, Mays, State Senator, will not be included Mays, State senator, win not as inclined when the trial of the Butte Creek Land. Livestock & Lumber Company case comes up in the Federal Court about October 15. While the man who has just been convicted will be eliminated from the proceedings, his brother, Edwin Mays, will have to face a jury with the other defendants, and, unless the United States Supreme Court should reverse the verdict in the Mays' case, in all probability he will not be tried under the indictment returned against him in the

Butte Creek case. Indictment No. 2311, under which the defendants will be tried, was returned by the Federal grand jury February 10, 1905, and charges Winlock W. Steiwer, Hamil-ton H. Hendricks, Clarence B. Zachary, Adelbert C. Zachary, Charles A. Watson, Clyde E. Glass, Bingor Hermann, John H. Hall, Edwin Mays, Franklin P. Mays, Clark E. Loomis and Edward D. Strat-ford with a violation of Section 540, of the United States Revised Statutes in conspiring to defraud the Government out of the use of a portion of its public lands by fencing in the large pasture of the corporation in townships 5, 5 and 7 south, ranges 19 and 20 east, through the means of an illegal enclosure formed by

fraudulent homestead entries.

The same issues were involved in the cases against Charles A. Watson, Clarence B. Zachary and Hamilton H. Hendricks, who have already been convicted, and who will likewise no doubt be severed from the case at the trial in accordince with the Government's plan of action in such instances.

Another galaxy of lawyers is assured when the case is brought to trial, as it is reasonably certain that Henry E. Mc-Ginn will represent President Stelwer, of the corporation; Judge A. S. Bennett, of The Dalles, is the attorney of record for Hamilton H. Hendricks, secretary and treasurer of the company, as well as treasurer of the company, as well as Clarence B. Zachary, its superintendent. Clyde E. Glass, its bookkeeper, Adelbert C. Zachary, brother to Clarence B. Zachary, and Charles A. Watson, while County Judge L. R. Webster may appear as counsel for ex-United States District Attorney John H. Hall, providing he can reconcile his professional engagements to suit the situation.

It could not be ascertained last night whether William D. Fanton will appear

whether William D. Fenton will appear as attorney for Edwin Mays or not, as he is at the seashore, while Mr. Mays is out at his ranch. Defendants Clark E. Leomis and Edward D. Stratford, the two ex-special agents of the General Land Office, as yet do not seem to be repre-sented by counsel in the case, although they will be brought to trial unless one, or both, turn State's evidence, which has been hinted at various times.

In all probability, Charles A. Watson will be used as a witness by the Government in this case, as he confessed his complicity in the fraudulent homestead entries at the trial of Clarence B. Zachary not long ago.

BY ARTHUR A. GREENH F THE EFFORT is to display its versatility, the Baker company certainly has inaugurated its season bravely. First week, "The Crisis," semi-military, wholly patriotic drama; second week, cause She Loved Him So," domestic farcical comedy; yesterday's opening for the week that now is, "Two Little Vagrants," old-fashioned French melodrama of the healthful kind, virtue in capitals and vice in screamers, with happiness and goodness on the topmost roost when the play is ended. There isn't much left but problem: but that's coming next week. At yesterday's matinee every seat in the house was occupied and a fringe of fren-

yesterday. Almost every situation was applauded. When there was pathos the audience responded with tears, and what little pathos there is in the plece received its portion of laughter.

"Two Little Vagrants" suggests "The Two Orphans" so strongly that it is impossible to miss the truth that the author purfound his ideas from the more famous thriller. Technically, it is not so good as the "Orphans"—that is to be expected. To begin with, it is modern, and its story is for that reason more nearly impossible than Kate Claxton's old vehicle, for that is alleged to have transpired at for that is alleged to have transpired at a time when adventure met one in every dark alley and the world teemed with

dark aliey and the world teemed with romanticism.

All that aside, however, "Two Little Vagrants" is an intensely interesting play, revolving around two boys whose fate it is to experience all the terrors of life on its seamy side. In the hands of vagabonds and thieves, they lead a precarious existence, filled with as great a variety of incidents as imaginative playwright ever conceived, to the end that justice may be done.

It is a play that doesn't make a severe tax upon the intelligence, but it is long on action and heart interests, the two elements essential in melodrama.

Sconically, there is little to be desired. A realistic outlaws' den and an impressive reproduction of the locks in the River Seine, with real water. What more could the impressionable ask?

VACATION IS OVER.

City Schools Will Open With Big Attendance Today.

After three months of vacation, Portland's boys and girls, between 15,000 and 17,000 strong, will report for another year of study at the public schools this morning. Never has there been a more en-joyable vacation time for the local youngsters. There was hardly a week of rainy weather during the entire Summer, so they were afforded plenty of opportunity for outdoor sport and will return to the classrooms with their minds fresh to tackle anew the wexing problems which are strewn promiscuously along the broad highway to learning.

And it is safe to say that a large proportion of the children will be glad to be back. Perhaps the next most joyous thing to the shout of a boy when he leaves care behind on the closing day of school, is the shout he gives when he again tucks his books under his arm and returns to work after the holidays. Demonstrations of the latter kind will be heard this morning in every section of the city and they will come not only from the small boys but from the little girls Although there may be excep tions to the rule that the boy gladly welcomes school after a long vacation,

there is no exception among the girls. They all like school. The regular class room work will not The regular class room work will not commence today, that is not the real hard, daily grind. It is too much of a reunion day for that. Everyone has to tell everyone else what he has been doing during vacation. No one ever heard of rules being strictly enforced on the opening day of school. Besides there is the preliminary work of forming classes and arranging studies. But this is just for one day. Then will come the daily routine.

The attendance this morning will be somewhat larger than was expected be-cause many of the juvenile hop-pickers have returned to the city. The work in the hop yards will last some time yet, but many of the pickers were driven back but many of the pickers were driven back to town by the rain last week. Superintendent Rigler and the teachers desire as full an attendance as possible because they get better results when all members of the various classes are present at the opening of school.

The organization of the East Side and West Side High Schools is the biggest task which confronts the teachers. All punils of high school grade, regardless of

pupils of high school grade, regardless of what section of the city is their homes, are expected to report at 9 o'clock this morning at the West Side High School. Arrangements will be made there to divide the pupils into two groups, one of which will attend classes in the High School building, and the other will be assigned to the East Side High School organization, which is to meet in several of the grammar school buildings until the large new high school is completed.
