#### Red Cross Will Distribute Over \$5,000,000 in San Francisco.

WASHINGTON, Oct 22-The executiv committee of the Red Cross has finally approved the estimates of the San Fran-clace relief committee for the continuance of the relief work in that city up to July 3 next. Originally placed at \$6,000,000, these estimates have been reduced by a little more than \$700,000 upon the report

of the Red Cross special agent Most of the money required is already in sight, as the San Francisco committee has a balance of \$1.332,000, with unfilled subscriptions subject to call of \$900.000. These include \$500,000 in the hands of the New York Chamber of Commerce and an equal amount held by the Massachusetts-relief committee. The Rod Cross proper holds 3 hitle over \$2,600,000.

Bankruptcy Drives Him to Suicide.

LONDON, Oct. 22-P. MacFayden, head of MacFayden, balkers, whose suspension was announced Saturday, committed sui-cide within an hour after posting the no-tice of the failure on the door of the bank, by throwing himself before a train in a tunnel half a mile away from his business. why they alone are deburred from the benefits of the principle. The public knows but very little about the duties of the man who, while trains go bounding through the country at some 50 miles an hour, are aboard those trains working for dear life to get the mails assorted and prepared so that every man may get his letter at the earliest possible moment. For "stranuosity," as one of Mr. MucFayden appears to have gone moment. For "strenuosity," as one of them styled it to the writer, it has every other vocation left at the post. In the making a railway postal clerk has direct from his bank to a station of the City & South London Railway, to have entered the tunnel unobserved and delib-erately lain down in front of an ap-proaching train. The engineer reported having run over an obstruction in the turned a careful constitution in the to pass a physical examination about as rigid as any physical examination ever required by the Government. If he is not a perfect specimen of health and develop-ment, he stands about as much show of unnel and a search revealed a shocking

ply with that principle, even down to the lowest laborer, and that it applies the principle to every other class of employes it has, and then they significantly ask why they alone are debarred from the

getting into the service as an icicle stands in a furnace. When he passes this exam-ination he has yet other worlds to con-quer in the mental examination. This examination is about as rigid as any reutred in the Civil Service

If our would-be clerk steers safely through the tortuous channels of these two examinations he is then ready to two examinations he is then ready to enter the Government service as a sub-stitute railway postal clerk, his pay being at the rate of \$800 per year for the time actually served. The embryo clerk is given what is known as a "scheine," which is a list of the post-offices of a given state, arranged by counties. He is also furnished with a schedule of all mail trains for the di-vision in which he is employed and schedule of all mail trains for the di-vision in which he is employed and has to get a case, having some 300 pigeon holes in it, and some 3000 lit-tle cards, on the one side of which he writes the names of the postoffices in his territory and on the other side the name of the county in which it is lo-cated and the junction points through which it may be reached. He must get all these things down so pat that he can put every card in its proper pigeon hole by looking at the postoffice writ-ten on its face, and without looking at

Weakness Functional weakness in men is in reality a comparatively simple ail-ment, and is but a symptom of lo-cal disorder, a state of chronic in-flammation of the prostate gland. No stimulating treatment, whether internal or locally applied, can do more than excite temporary activ-ity. By my system of local treat-ment, I restore absolutely normal conditions throughout the organs involved, which promptly results in complete and permanent resto-ration of strength and vigor. This treatment is original with me, and is the only radical and certain cure yet devised. **Contracted Diseases**

A bold statement, but just as the use is the bold. Not all cases that others fail to cure are curable by my methods, but fully ninety per cent of them are. The way to learn whether your case is curable is to consult me. I know exactly what can be done in every

instance. I sught to know this, for I have done nothing else other than treat men's dis-eases for twenty-five years. If your case is curable, I will treat you. If it isn't, I will not. If I treat you, and you so desire.

I have reduced the time required for curing contracted disorders about one-half. This is an impor-tant achievement. It replaces dan-ger with safety. It forestalls chronic complications. It removes the infections and inflormation base for curing contracted disorders about one-half. This is an impor-tant achievement. It replaces dan-ger with safety. It forestalls chronic complications. It removes the infection and inflammation be-fore that vital center, the pron-tate gland, can become involved. To many men it means the differ-ence between perfect health and a lifetime of missivy and functional weakness. My method is mine alone. My treatment is original. In some features it resembles the ordinary. In its chief essentials it is different. In results it is en-tirely different. It is safe, prompt and thorough. The above, together with Or-ganic Weakness, Nerve Debilita-tion, Lost Vigor, Specific Blood Poison, Stricture Piles and Reflex Aliments, constitute my specialty, and are the only diseases I treat.
