

RIOT IN BARRACKS

Order of Officer to Kneel Is
Resented by British Tars.

ORDER GIVEN AS REBUKE

Stokers Take a Hand in the Trouble
at Midnight, Attack the Officers' Quarters and Assault the Officers.

PORTSMOUTH, England, Nov. 5.—A mutinous outbreak of 500 sailors last night necessitated the immediate mobilization of the entire force in the naval barracks here to prevent the affair from developing into a serious mutiny. The men had assembled in the gymnasium when the senior officer, a man of short stature, wishing to administer a reprimand for breach of discipline, ordered the front ranks to kneel so that he could see the men in the rear.

The order was resented and some of the sailors who refused to obey were arrested. Their comrades, aggrieved, ran amok, wrecked the canteen and started to break out of the barracks, with the intention of wrecking the quarters of the obnoxious officer, and were only prevented from so doing by the fixed bayonets of an overwhelming force. A number of the men who attempted to break out of barracks were arrested.

STOKERS ATTACK OFFICERS.

Rioting in Naval Barracks Breaks
Out Again at Midnight.

PORTSMOUTH, England, Nov. 6.—The rioting in the naval barracks was resumed at midnight and continued until past 2 o'clock this morning. A gang of several hundred stokers proceeded to the officers' quarters, assaulting officers, smashing windows and otherwise damaging property. Several policemen who attempted to enforce order were seriously injured. Armed sailors and marine had to be called out. They overpowered the rioters and made many arrests.

WARTS LEFT FROM X-RAY.

Famous British Scientist Contracts
an Incurable Disease.

London Despatch.
A striking instance of the martyrdom which scientists often undergo in the pursuit of knowledge is the case of Dr. John Hall-Edwards, president of the British Electro-Therapeutic Society, who has been practically lost the use of his hands in consequence. Dr. Hall-Edwards lives at Birmingham. He has become a chronic sufferer from X-ray dermatitis, a new disease to which persons who do much work in connection with the Roentgen rays are exposed. It takes the form of extremely painful warts on the parts of the body exposed to the rays, and so far no effective remedy for severe cases has been discovered.

A letter from Dr. Hall-Edwards appears in the British Medical Journal, appealing to its professional readers for suggestions concerning treatment which may afford him relief. His letter is a reply to a note by Dr. H. H. Harris, published in the Journal, advocating excision of the warts.

Mr. Hall-Edwards' letter contains the following passage: "My object in writing this note is not for the purpose of contradicting Dr. Harris, but in the hope that some further suggestion for treatment may be forthcoming. Despite all methods of protection, my hands are steadily getting worse. I have no experience of a permanent freedom from pain for more than two years, and at times the pain is so severe that I am rendered absolutely incapable of work, either mental or otherwise. In the cold weather I am unable to dress myself, and the pain experienced cannot be expressed in words."

"On the back of each hand I have from 25 to 30 warts, many of them confluent. In order to excise these it would be necessary to remove the whole of the skin from the backs of the fingers, and from the greater portion of the hands."

"Drugs have so far failed to give me the slightest relief; moreover, I find that ointments, as a rule, are injurious. The warts are so sensitive and painful that it is impossible to remove them with sandpaper. I therefore resort to the application of a treble-strength solution of lead and opium in the form of a poultice; this softens the warts so that they can be removed by scraping with a knife."

"For two or three days after such an application the pain is increased, but the fingers are rendered much more pliable and mobile."

"The excruciating, ever-present pain appears to be due to a permanent irritation of the cutaneous nerves, which nothing relieves, and which is intensified by holding the hands in a dependent position and by cold. The pain is of a neuragic character, it never ceases, and is intensified from time to time by sudden static and jumps of great severity so as to make one cry out."

"I have so far received so little relief from any method of treatment, that I have given up all hope; nevertheless, I shall be most thankful to any of your readers who can offer me a suggestion. In conclusion, I affirm all that I have said, and I wish to protect themselves before it is too late."

Dr. Hall-Edwards is now in Lancashire endeavoring to obtain a patent for a brief respite from his sufferings. He was at one time an expert photographer, and gained medals in competitions all over the world. When he first took up the study of the Roentgen ray he worked night and day. He worked all unconsciously of peril, and neglected his general practice, until he was acknowledged to be one of the most capable experts in the country. In 1900 he went out as radiologist to the Boer war, and afterward he published the result of his experiences on the battlefield.

It was on his return from South Africa that Dr. Hall-Edwards first felt the ill-effects that now make his life a continuous torture. Warts began to appear on his fingers, then he spread, and, breaking, formed continuous sores.

"The agony is enough to drive a man mad. It means no sleep, no rest, and apparently no hope. Mr. Hall-Edwards himself despairs of a cure."

Boys' Town at Winona Assembly.

RICHMOND, Ind., Nov. 5.—A boys' town, populated by 200 boys, policed by boys, officered by boys and for boys' own pleasures and instruction, is to be an attraction at the Winona Assembly next year. The trustees announced today that they have authorized Judge Willis Brown, of the Juvenile Court of Salt Lake City, to take charge of such a project and organize a boys' municipal-

ity. The boys will have a section of the grounds set apart for them. They will live in tents. The city will be the first of its kind in the United States. In connection with the scheme will be a school for officers of the Y. M. C. A., Sunday schools, public schools, Juvenile Court, Judges and other students of the boy problem.

WEST RIVER PIRATES BOLD

Board British Ship in Guise of Cooks and Loot Vessel.

HONGKONG, Nov. 5.—(Special).—Several daring acts of piracy have been committed on the Sikang or West River here. A number of coolies boarded the British ship *Essex*, and later appeared there as desperadoes. They threatened the officers and crew of the looted vessel, after colluding with and capturing a bullet-proof launch. The officers of the *Essex* were forced to surrender the launch, which had \$10,000 on board, and killed and wounded a number of men. The little craft, however, was armed with a machine gun and escaped.

The pirates also seized the ship *Teylek*, from which they took \$5000. A reign of terror prevails among the Chinese residents of the city.

WILL NOT GO TO TALK

Ready to Answer Questions at Long
Range in New York.

NEW YORK, Nov. 5.—George T. Dexter, vice-president of the Mutual Life Insurance Company, announced today that he would not go to Tennessee in response to the summons of Insurance Commissioner Folk, to answer complaints of policyholders that their money was being used in an effort to re-elect the present management of the company.

RIVER IN OLD CHANNEL.

Southern Pacific Engineers Divert
Colorado From Salton Sea.

NEW YORK, Nov. 5.—The Southern Pacific's office here was officially advised today that the break in the Colorado River leading to the Imperial Valley and Salton Sea was effectively closed by the engineers yesterday at noon.

The old channel of the river is being rapidly secured and will take care of the normal flow of water. The dam and levee are nine miles in length and will be rapidly pushed to completion and will take care of the river above extreme high water.

SHIPS FLUNG ASHORE.

(Continued from First Page.)

to take her into the gulf of St. Lawrence on her way to Preston, England, her destination. In the storm of Thursday night the bark dragged her anchors and stranded on a sand bar at the mouth of the harbor.

The crew of the bark attempted several times to reach shore. Several of the boats were dashed to pieces against the side of the vessel and not until today was a boat able to leave the stranded bark. Late in the afternoon a small boat was put over the side of the bark with two members of the crew at the oars. The boat had not made half the distance to the shore when a great wave capsize it and before assistance could be sent to the sailors all of the five perished. Seven men, including Captain Jensen, remained on the vessel.

FOUR OF CREW ARE MISSING.

Schooner Wrecked Off Nova Scotia
and Waves Sweep Raft.

NORTH SYDNEY, N. S. Nov. 5.—The *Gauche*, Que., schooner Torridon, Captain London, coal laden, from this port for Gaspe, was wrecked on Meiners Island yesterday and four of the crew, who boarded a raft hastily constructed, are missing. Captain London and the others of the crew were rescued. The vessel is a total loss.

Indorses Root's Speech.

CINCINNATI, Nov. 5.—Secretary Root's speech and his own letter to Congressmen Watson were endorsed by President Roosevelt in a telegram received today by his son-in-law, Congressman Longworth. The telegram is as follows: "If anything is desired from me, you may print what Root said about my desire for the election of a Republican Congress and reprint portions of my letter to Watson."

Advanced to Clause Four.

LONDON, Nov. 5.—In the House of Lords the exciting debate on the educational bill advanced as far as clause four, which provides that the local educational authority "may" afford facilities for special religious instruction. Lord Henegau's amendment making the clause mandatory was carried against the government by 157 votes to 46.

Hunt Acquitted of Complicity.

CITY OF MEXICO, Nov. 5.—J. E. Starr Hunt, for whom a warrant was issued here October 25 last, charging him with fraud in connection with the settlement of the affairs of the International Bank & Trust Company, which failed in 1903, was today acquitted of any complicity in the matter.

Wireless From Tonopah Camp.

TONOPAH, Nev., Nov. 5.—Postmaster L. M. Murch announced today that plans are now practically completed for wireless telegraph service between Tonopah and San Francisco. A wireless plant is to be installed in this camp, which it is expected will work direct with San Francisco.

Embargo Only on Lumber.

SAN FRANCISCO, Nov. 5.—The embargo placed on freight bound for San Francisco, owing to the congestion in the yards here and at Oakland, has been raised. Lumber is now the only commodity which will not yet be received by the Southern Pacific for San Francisco.

Bulgarian Ministry Falls.

SOFIA, Nov. 5.—The Petroff Cabinet has resigned, as it did not enjoy the cordial support of Parliament. Minister of the Interior, P. Petroff, the leader of the Stambouloff party, which now has a majority in the Chamber, has formed a new Cabinet.

German Goose-Step Abandoned.

TOKIO, Nov. 5.—(Special).—The new military drill regulations, in view of the experience in the late war with Russia, abolishes the German high-stepping and adopts a more natural system, less fatiguing.

DECIDE FATE TODAY

(Continued from First Page.)

600; Brooklyn, 30,000; Manhattan, 150,000; rest of Greater city and Long Island, 25,000; total, 200,000 for Hearst.

Former Sheriff Lewis R. Stegman, of Brooklyn—Hearst majority in Manhattan, 50,000; Hearst majority in Manhattan, 50,000; Hearst majority in Manhattan, 50,000; Kings County, 20,000; rest of Greater city and Long Island, 6,000; total, 136,000 majority for Hearst.

Former State Senator Henry Marshall (Rep.)—Hearst majority in Manhattan, 35,000; Hughes majorities upstate, 225,000; Kings County, 30,000; rest of Greater city and Long Island, 8,000; total, 233,000 for Hughes.

But the trained politicians who really ought to know, declare that it is impossible to figure on majorities this year; that the whole situation is so hopelessly involved that there is no basis upon which to make a start.

That Hearst is carried about the situation in Democratic territory is indicated by the fact that on Friday he addressed 16 meetings in Manhattan and the Bronx, and appeared at 11 rallies in Brooklyn and Queensborough on Saturday.

And the betting odds remain around 4 to 1 and even 5 to 1 on Hughes, with mighty little Hearst money in sight at all, although the figures are the best in sight since Bryan was hurled under 253,000 majority in 1896.

MAKING CLAIMS OF VICTORY

Hearst Says 200,000, Hughes 100,000—Long Odds Against Hearst.

NEW YORK, Nov. 5.—(Special).—Hearst and Hughes wound up the campaign with a series of enthusiastic meetings in Manhattan. Hearst, in a speech, claimed he would carry every borough in the greater city by an aggregate plurality of 200,000, including 50,000 in Brooklyn. He declared that the Republican majorities up state would be wiped out. Hughes is also serenely confident of victory. Immen, Hearst's manager, claims 200,000.

Republican state Chairman Woodruff's figures are 100,000, he adding: "That is rock bottom. It may be much more."

There has been lively betting at the Hoffman House tonight. Hughes men taking everything in sight at 4 to 1, and many Hearstites held out for 5 to 1. About \$50,000 was bet at even money that Hughes would win by 100,000.

Weather indications are for a fair day, which will undoubtedly benefit Hughes.

League men are predicting vast frauds up state, which adds to Republican confidence.

The general belief is that Root's speech, "by Roosevelt's authority," has strengthened the Republicans, especially above the Harlem.

RESULT HARD TO FORECAST.

Previous Elections Afford No Aid—Candidates Work to Last.

NEW YORK, Nov. 5.—(By Associated Press).—The weather and the temperature is the forecast for tomorrow, when the issue of the most extraordinary gubernatorial campaign in the history of the state will be decided. The "night before" predictions could not be said to throw any helpful light on the situation. Republican state headquarters confidently expected a majority of not less than 200,000 for the ticket, while the managers of the Independence League and Democratic joint campaign estimated 120,000 votes to spare in Greater New York, to which they added a plurality of 50,000 above the Harlem River.

The political thermometer in Wall street during the day from odds of 25 to 1 on the election of a Republican Governor to 5 to 1 and back to 3 to 1, at which figures the greater number of bets on the curb were placed.

Party Lines Obliterated.

In spite of the confidence expressed on both sides tonight, none would deny that never before had party lines been less relied upon to deliver the regular vote. Charles E. Hughes, named by the Republicans for Governor, has received the endorsement of many old time Democrats who objected to the action of the Democratic convention at Buffalo. Senator P. H. McCarren, Democratic leader of the Clinton County delegation, has proposed a Republican plurality of 500 in his county. On the other hand William Randolph Hearst, as the candidate of the Independence League, has invaded the Democratic organization, has invaded the upstate strongholds. That he will draw from the Republican vote in certain sections is generally conceded.

The Republicans have always counted upon the up-state counties to roll up a vote to more than offset the Democratic plurality in Greater New York, but this year up-state can hardly be described as pitted against the metropolis.

In this city the minor issues are so involved and the candidates so multiplied that the official ballot, 2,000,000 copies of which were delivered by the printers today, is literally a blank sheet.

Contrary to the usual practice of candidates, this year's campaigners carried their canvass right up to the early hours of election day, and it will be a short night for party workers who are to be early at the polls. Mr. Hughes spoke along the waterfront during the afternoon and six times up town tonight, closing with meetings with Durand's Riding Academy. Mr. Hearst contented himself during the day with sending out an appeal to election watchers to be on their guard, but tonight addressed four gatherings on the East Side. Both candidates were hailed with the boldest enthusiasm that has characterized their every appearance.

Warrants for Illegal Voters.

Elaborate police arrangements were concluded today, inspectors and captains being instructed by Commissioner Bingham and Superintendent of Elections Morgan to insure a fair election at all hazards. The police are armed with no less than 300 warrants directed against those who are alleged by the managers to have illegally registered, and these men will, if they attempt to vote, be arrested. These warrants were issued after the investigation of 400 complaints.

In this city the counting is sure to be slow. In Buffalo and some other up-state cities voting machines will be used, and from those places the early returns may be expected.

MURPHY'S FINAL PREDICTION

Says Hearst Will Equal Coler's Vote—Woodruff's Last Claim.

NEW YORK, Nov. 5.—Charles F. Murphy, leader of Tammany Hall, said today: "After opening the envelopes turned in by the district leaders on Saturday, I am confident that Mr. Hearst will carry New York City by as big a plurality as that given to Coler in 1902." Coler's plurality for Governor in 1902 was 122,724.

Democratic state headquarters today

claimed the election of Representatives in the First, Second, Third, Fourth and Twelfth Districts.

Chairman Woodruff, of the Republican state committee, said today that he regards the election Charles E. Hughes as practically certain. "Mr. Hughes will get 150,000 or more above the Bronx," said Mr. Woodruff. "Mr. Hearst cannot get more than 50,000 plurality in the greater city, according to the computation of his own managers, and, in my opinion, the greater city will come close to giving Mr. Hughes a plurality, if it does not give that. I would not be at all surprised if Mr. Hughes got 200,000 above the Bronx."

HEARST RAISES CRY OF FRAUD

Warns Supporters Republicans Will Use Money at Polls.

NEW YORK, Nov. 5.—A letter signed by William R. Hearst calling on the watchers of the polls throughout the state to watch the voting and make a victory certain was issued by Max Immen, manager of the Independence League campaign, today. Mr. Hearst, in his letter, says:

"The only hope of the Republicans winning the election lies in the corrupt use of money. The grand masters of the plunder-bund never donate to any political party—they invest."

"You are doubtless aware that practically the entire financial burden of our campaign has fallen on the shoulders of one man who controls no monopoly, who never engaged in a stock-juggling deal or possessed or desired a special privilege from the Government. The money he spent in our campaign has been used for organization purposes, but I find the burden so great that the amount available for watchers to prevent our votes being stolen on election day is comparatively small. We must therefore depend upon the loyalty and patriotism of the workers to watch voting. The opposition poll workers will be supplied with large sums of money on election day, but this money was first extorted from the people by criminal corporations before they gave it to Mr. Hughes. They will recall it to their coffers with added interest in the event of his election since they have power to reimburse themselves from your income."

At the office of Superintendent of Elections Morgan today it was said that but one complaint of illegal registration was received from Tammany this year. The Independence League has not made a single complaint this year. On the other hand, the Republican campaign has made over 4000 complaints of illegal registration this year. Over 2000 proved to be correct, and warrants were issued for that number. "Those who will be served if the persons mentioned in the warrants attempt to vote."

Outlook Uncertain in Missouri.

ST. LOUIS, Nov. 5.—The close of the campaign tonight found both the Republican and Democratic managers claiming victory in Missouri. The final estimate of the Republicans was given out by Secretary Joseph McCoy, of the Republican state committee, who predicted that his party will carry a majority of the 16 Congressional districts, elect a Republican Legislature and carry the state for the general ticket by a majority varying between 10,000 and 15,000.

Chairman of the Democratic state committee, asserts that the Democratic party will carry the state by not less than 50,000 majority. In St. Louis the Democrats are confident that their entire state ticket will be elected.

Kentucky Prepares for Fraud.

LOUISVILLE, Nov. 5.—Attorney-General Hayes, who is one of the Democratic candidates for Governor, opened his office at 10 o'clock today and asked Justice McCann to hold court all day tomorrow. Mr. Hayes said he had information that an attempt would be made to steal tomorrow's primary and that he intended to swear out many warrants. Judge McCann promised to be in court all day.

Local Option Issue Down South.

CHARLESTON, S. C., Nov. 5.—The general election tomorrow will be for state officers, including Governor. M. F. Ansel, of Greenville, nominated on a local option platform, as against the prohibitionists, probably will be elected Governor.

Vote Will be Light in Texas.

AUSTIN, Texas, Nov. 5.—Every report received here tonight tends to show that the voting will be light tomorrow. Reports from the farming sections are to the effect that the farmers are manifesting little interest in the contests.

HOW ROYAL FLUSH LOST

And the Winner Only Held Pair of Sixes—Fool Hands.

Pittsburg (Pa.) Dispatch.
It has been ascertained that the exact amount of money stolen from the Union Trust Company of Pittsburg by the notorious gambler, Wray, and the bookkeeper, Hixton, was \$33,500. The District Attorney, Mr. Stewart, has started an investigation which threatens to land officers in the penitentiary to which Wray and Hixton were sent. Already several well-known gamblers and bucket-shop keepers have left the city.

In nearly every crook and gambler in Pittsburg got a bit of the immense sum of money stolen from the banking house of H. C. Frick and Senator Jones and that "crooked" game of every sort were framed for Wray and Hixton. In one game of poker in a downtown hotel, a game arranged specially for Wray's benefit, the bank teller lost over \$10,000. He lost \$300 in one deal, though he held the invincible poker hand—a royal flush. Affairs were so manipulated that a pair of aces beat Wray.

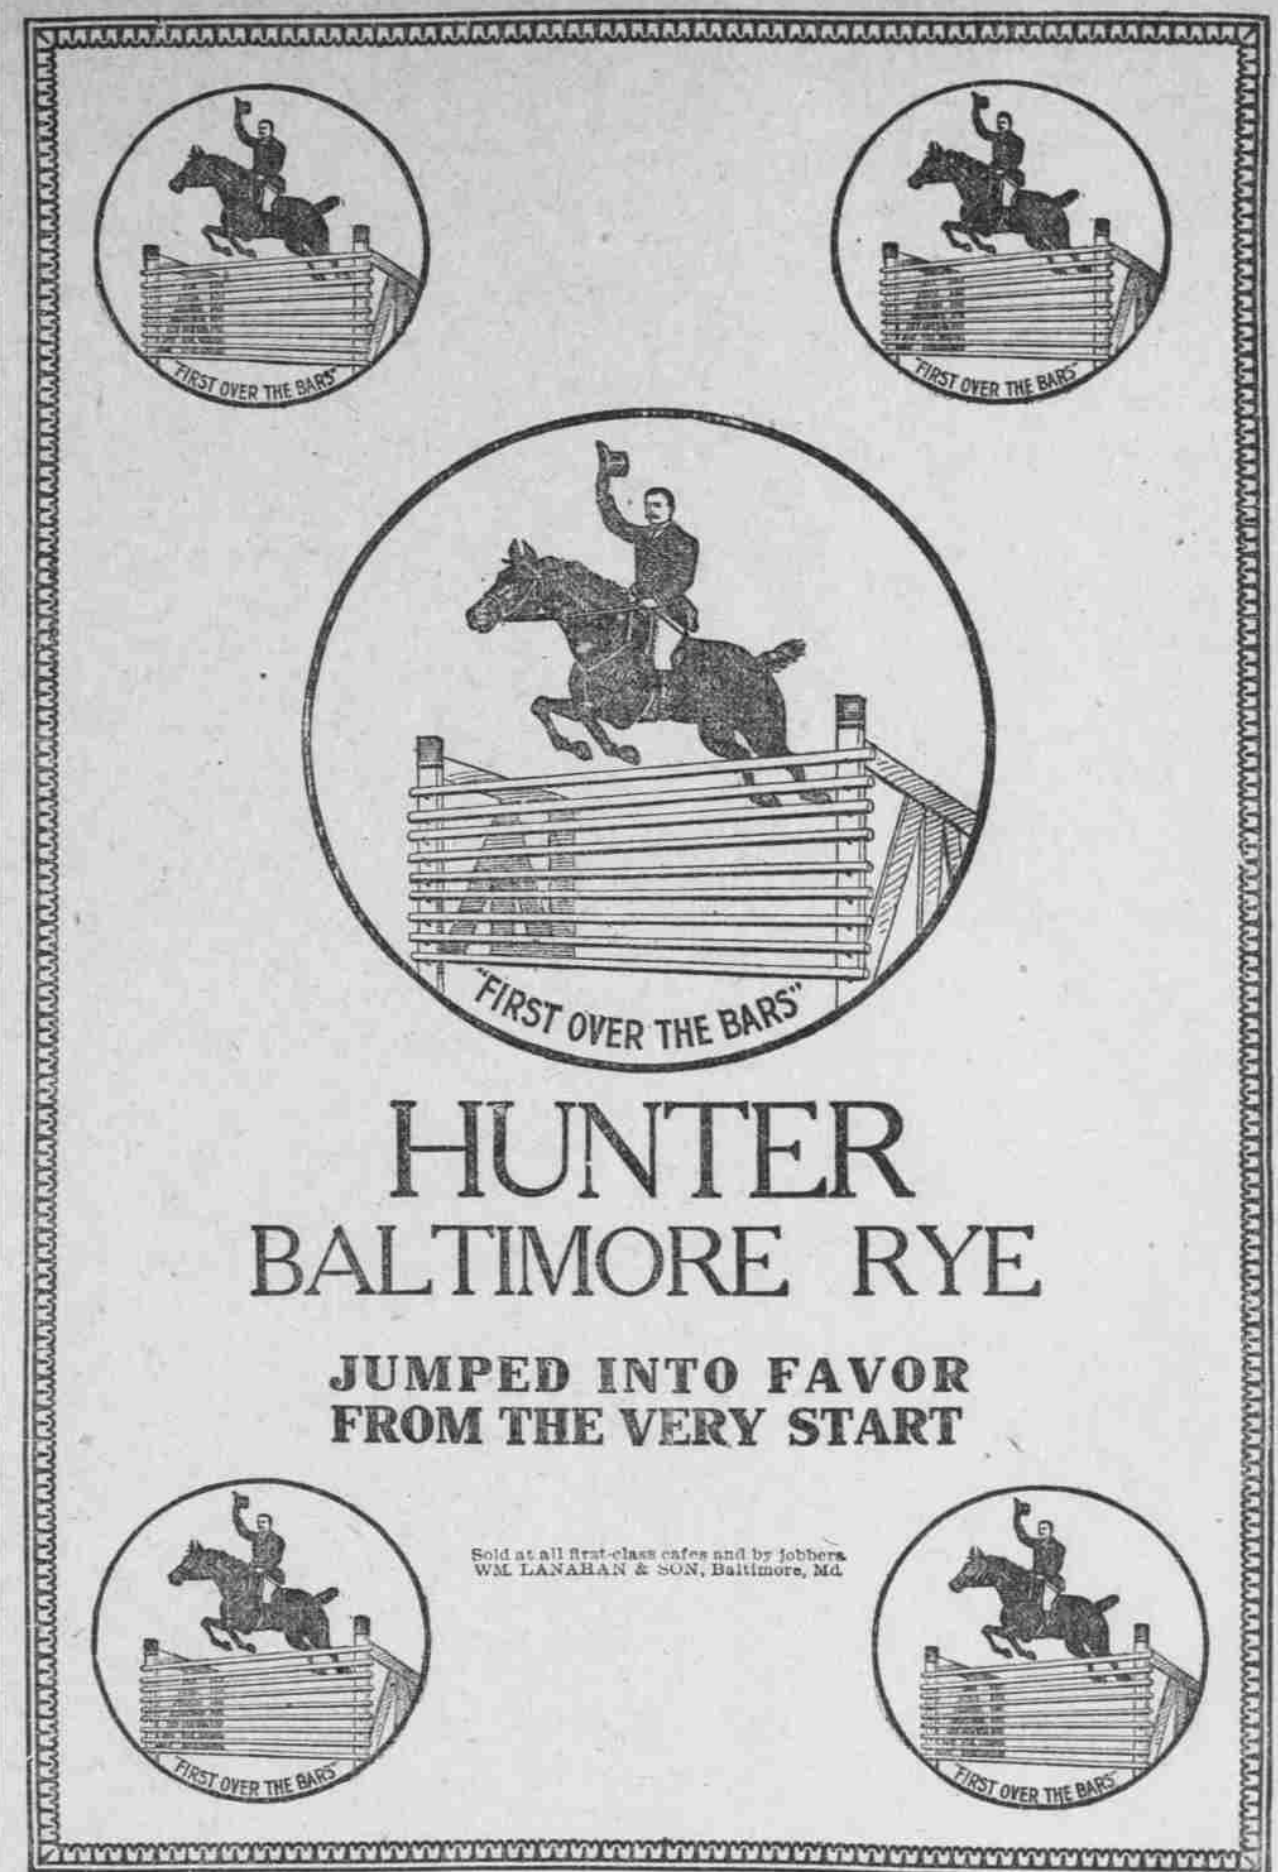

The royal-flush-hand play was as follows: "Wray had the ace, king, jack and ten of diamonds, with a black card when he 'stayed' in a jackpot. The player to his left raised the pot hard before the draw and an immense amount of money was put in."

Wray discarded his black card and drew

Free from Alcohol

Since May, 1906, Ayer's Sarsaparilla has been entirely free from alcohol. If you are in poor health, weak, pale, nervous, ask your doctor about taking this non-alcoholic tonic and alternative. If he has a better medicine, take his. Get the best always. This is our advice.

We publish the formulae of all our preparations. J. C. Ayer Co., Lowell, Mass.

**HUNTER
BALTIMORE RYE**

Sold at all first-class cafes and by jobbers,
Wm. LANAHAN & SON, Baltimore, Md.

to his four diamonds, and, picking up his card dealt by the one handling the pack, he found the queen of diamonds, giving him a "royal flush."

The gambler who had raised the pot before the draw took no cards and after Wray had bet heavily this man raised several thousand dollars. Wray, with his "royal flush," called the bet for all the money he had with him, making \$350 he had in this one pot. He threw his hand down face on the table and began to rake in the thousands.

The gambler who had not drawn cards reached over, turned Wray's cards face down on the table and spread them out, then called attention to the fact that one card was "stranger," that the pattern on the back did not correspond with the other cards.

The "stranger" was the queen of diamonds, which had been dealt Wray, evidently from the top of another deck, and it made his hand foul. All the money went

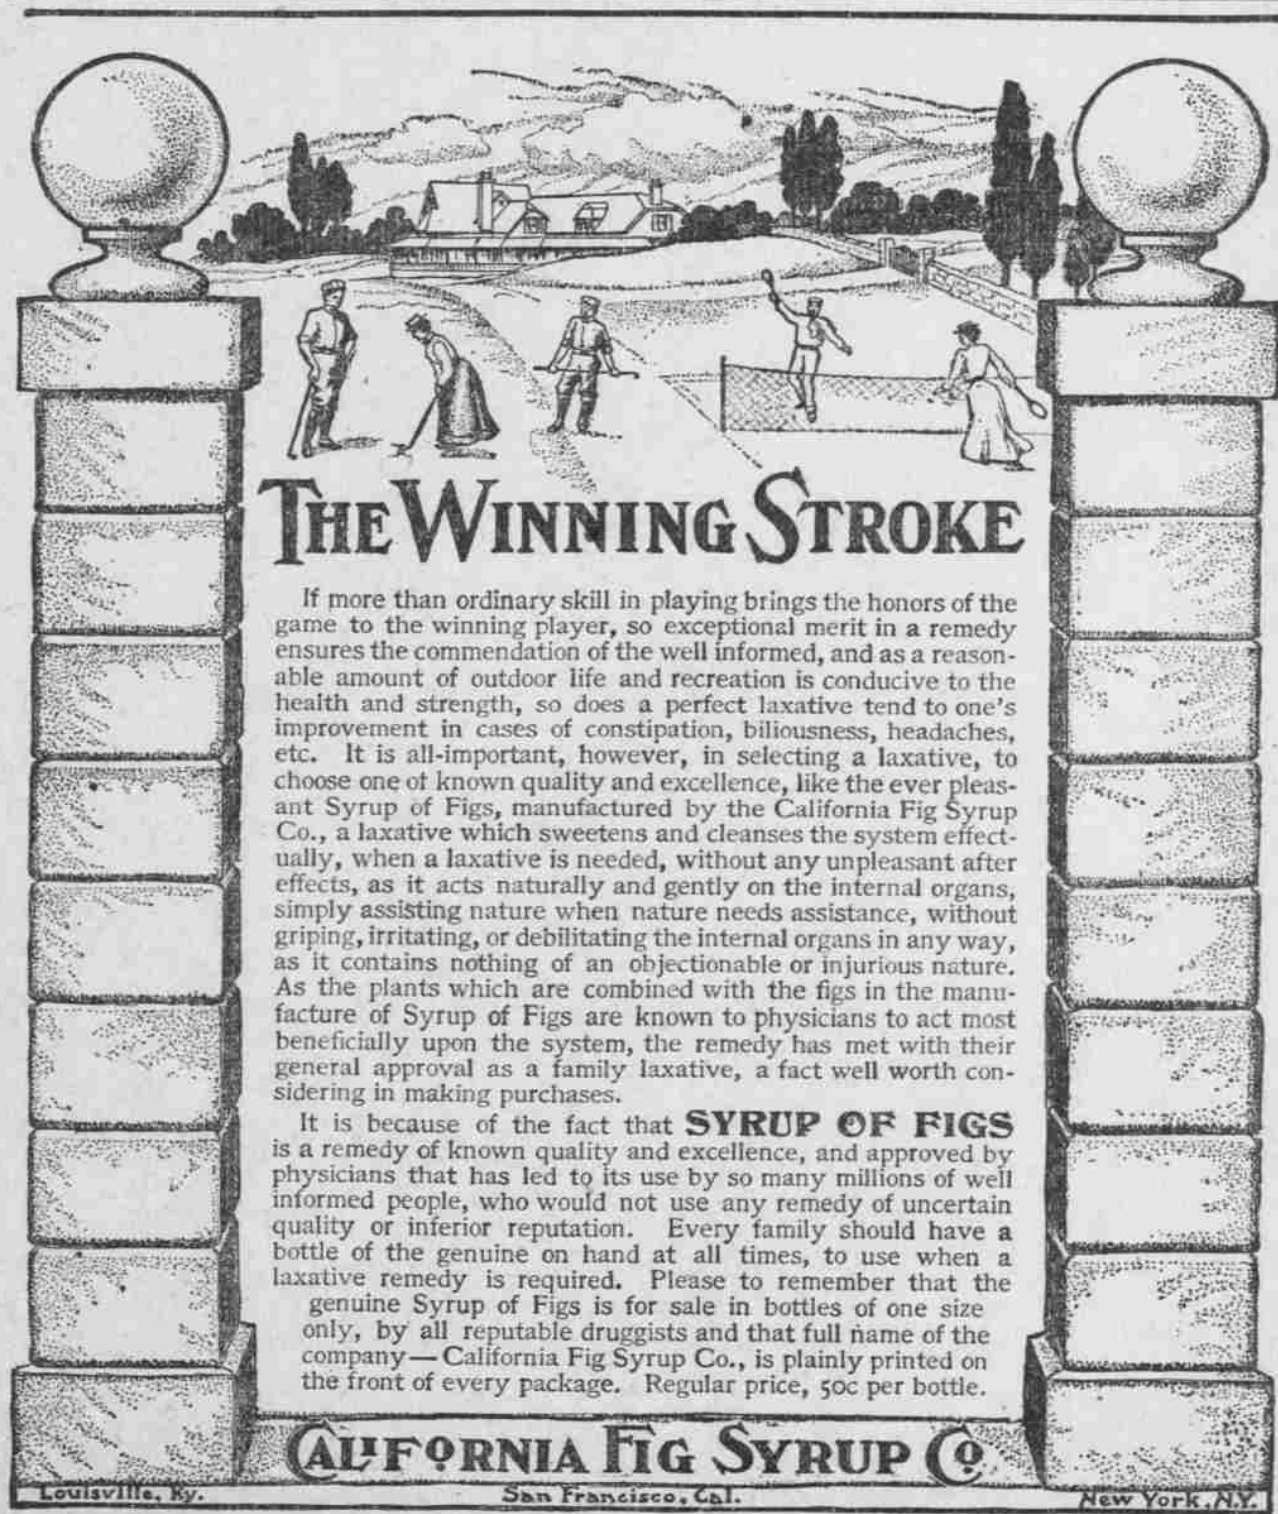

Doctors as Ball Players.

It is singular that nearly all the professional baseball players who adopt medicine or dentistry as their profession are either pitchers or catchers. One exception is Dr. Casey, of the Brooklyn, and another is Gessler, of the Cubs. Among the pitchers in the two big leagues who have or will have "Dr." as a prefix are White, Routh, Hillbrand, Cookley, Newton and Scanlon. The catchers are Powers and Marshall. It is to be presumed Dr. Carson, of South Bend, may sign several of these men for the Boston Americans if the report he is to manage that club is true. Probably the precedent for dentistry among ball players was set by Bushong, of the St. Louis Browns. He practiced at St. Louis while with the team and now has a good practice in

COMMENT OF THE POPE.

French Churches, He Says, Are Prepared for Persecution.

ROME, Nov. 5.—A telegram containing a summary of the declaration of policy made by Premier Clemenceau in the French Chamber of Deputies today reached the Pope this afternoon. After its perusal the Pope is reported to have said: "The French churches are prepared for all that may come. They have already shown the power of resistance they possess."

THE WINNING STROKE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all-important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectively, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating, or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth considering in making purchases.

It is because of the fact that **SYRUP OF FIGS** is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists and that full name of the company—California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

CALIFORNIA FIG SYRUP CO.

Louisville, Ky. San Francisco, Cal. New York, N.Y.
