There is much steady buying going on in enan that is usual at this time of year. The idea seems to prevail among Eastern con sumers that Pacific Coast hope can be bought for a song, consequently the orders that are coming in, which are plentiful enough, are generally at figures considerably below the

The idea that Oregon growers can be induced to part with their hope at a low is a mistaken one, for in spite of the dragging market and sagging prices, much firmness is still evidenced by holders. The majority of growers who have not sold are financially able to hold on until after the holidays, when they believe brighter times will come. They now very well that the foreign crops were inadequate and that unless all calculations were at fault, the English buyers will event-

c. M. Metaler. McNeff & Dorens operated heavily in the Cheballs section, taking on an aggregate of 300 bales at an average price of 12 cepts.

Railroad figures furnished by the Southern Pacific, of shipments from Oregon from September I to Docember I, are 41,385 bales. It is said that since December I, about 3000 bales more have been forwarded. With all the latk of a car shortage these figures look bill and while the dealers are not in a position to question the accuracy of the figures, they all have their doubts. It is made to say, however, that the quantity reported shipped is mighty small when compared with the quantity tendered for shipment.

Potato Market Is Easy.

The potato market still has an easy time, as Ean Francisco has not rehindred yet from the heavy arrivals of the early part of the week. Salppers have plenty of cars at their disposal, but fear the supply will not held out long.

The Ean Francisco onion market is a little ateadier, but prices there are still considerably below the minimum figure fixed by the Oregon Growers' Association.

Grape Julee Is Scarce.

There has been a scarcity of grape Juce in the market for some time, as owing to the short 1906 crop, not enough was made to meet the enormous demand. Word has been received that the first car of 1906 crop grape julee from the Weleh plant will arrive here about the middle of January Shipments after that will be regular.

Butter Price Not Uniform.

The advance in the city butter price is not yet general, but all fac creamerles are expected to be in line by the end of the week.

Oregon Wool in Eastern Market.

The large movement to Oregon staple wool was the feature of the past, week in the Boston market. The sales amounted to helwest 150,000 and 2,000,000 pounds.

Fourty receipts were again limited and a good deinsand was reported.

No Speculative Liquidation in New York Market.

CALL LOAN RATE HIGHER

Only Those Let Go Who Are Under Actual Necessity From Inability to Secure Renewals From Banks.

NEW YORK, Dec. 6 .- Such selling of stocks as was done in the market today seemed to be under actual necessity from the seemed to be under actual necessity from the inability to, secure renewals of loans when called by the banks. There was no sign of speculative selling and the undertone of confidence in the market was manifest. The strength of the money market was acute and the ruling rate throughout the day was again higher than yesterday. Disappointment was frankly expressed with the scope of the assistance offered for the money market. The amount of the interest to be anticipated on December 15 is itself much less than the amount Wall street was counting on yesterday. The fact that the payment of interest will not be made until December 15 leaves a gap between now and then, when distress of borrowers secuns unavoidable.

Sterling exchange continued to decline to-day and it was possible to figure a profit on gold bought in London for shipment to New York.

Weakness in Some of the Goldfield Mining
Shares.

SAN FRANCISCO, Dec. 6.—(Special.)—
Tonopalis did not show any particular weakness under small trasfers. Jim Butler was rather strong, selling up to 147%, but the last sale was at 145.

The Goldfields were inclined to shade downward with a distinct weakness in some of the shares. Jumbo Extension made the first drop of 20 points to 160, although Mo-

hawk sold at \$15. Goldfield Mining Company, ex-dividend, with its stock division, sold down to 170. Silver Pick Joined inc downward movement with a 25-point loss.

A mild tremor of heart disease pervaded the whole room when Hudson offered 500 Daisy at \$1. It was a slip, of course, too much of a one to be really serious, but shough to far at this time. Among the sales were: Midway,245;Gold Anchor, 25; Jim Butler, 150; Boston, 22; Gold Crown, 22; Sandstorm, 75; Monawk; 1500; Booth, 95; Blue Bull, 38; Adams, 23; Dalsy, 250. Second Valorization Loan.

NEW YORK, Dec. 6.—New York coffee houses, among them Arbuckle Bros, and Crossman & Sielcke, are making arrangements to finance part of a second Brazilian coffee valorization Hen. The loan will be floated early in January, and will amount to \$15,000,000, of which the New York houses will take a third the remainder being taken principally by coffee houses in Havre and Hamburg.

The valorization plan calls for loans aggregating \$700,000,000. The first loan was for \$20,000,000.

It is the object of the valorization plan to take so much of the crop as will bring the market price up to the level of-profitable production. Purchases of an Urgent Character Reported at the Principal Grain Centers-Chicago Prices Close Strong.

COST OF LIVING IS HIGHER

Advances in Wages Lifts the Purchasing Power of the People.

NEW YORK, Dec. 6. - Figures NEW YORK, Dec. 6.—Figures giving the average cost of living, compiled by R. G. Dun & Co., show that there has been a marked advance in price as compared with November 1, when it reached a high water mark. In the lapse of one month the cost of living has advanced from 160.68 to 108.77, reached on December 1. The cost of commodities is the highest since February 1884.

since February, 1884.

In discussing the subject the trade authority says the rise in prices is "fairly representative of the greater demand that has followed increased prosperity throughout the nation and because of the advances in wages which have lifted the purchasing power of the people above all previous rec-ords in this or any other nation."
