The quality of the offerings is poorer at this time of year and to this cause is ascribed the easier feeling. While the weakness may growing in the trude that the advance net with a decided check. There has been a well as it has at a time of year when At present prices, Chicago is the strongest of all the principal hide markets of the world. Throughout Europe prices have been section sales held the last of November alues weakened from 3 per cent to 9 per

ent on different varieties. Light hides are weaker in Europe than other kinds. The leather situation in the East conthuses very firm, but trade generally is rather quiet. Although the amount of new business effected in sole leather has fallen off, as is natural at this time of year, the deliveries on contracts are large, and re-ceipta from the tanneries are entirely absorbed, leaving stocks on hand very small. The largest tanners are notifying buyers that all leather sold now must be for shipment before New Year's, and this leads buy tant changes around January 1.

HOP MARKET CONTINUES SLOW. Phree-Quarters of the New York Crop Is Sold-Prices Lower There,

were no new developments in the market yesterday. Orders were reported e plentiful at the prevailing prices, but of the dealers were idle. Three hun ired bales, mostly in small lots, were bought J. Bishop at Sc to 12c. Telephone re

says:
Selling has been quite brisk of late and st prices a little under those prevailing a ew weeks ago. Many lots have been sold lits week at 18c, and from that up to 20c or an occasional choice growth is about he range of prices. Those who have investigated as, to the amount of hops left in roowers hands report that 75 per cent laye been sold. The Cooperatown, N. Y., Republican of De-

erday before the day was over. Receipts were again heavy and as the hig buyers had all the stock they wanted and there was no hipping outlet for the surplus, prices had to be sacrificed. Cutting did not enable all the dealers, however, to clean up. The sales that were made ranged from 12c to 13c. The inrush of supplies was due to the high prices following the scarcity of last week and the coliciting of larger consignments. There is a strong demand for geese with indications of a shortage this season, Ducks ave also in good request.

The egg market was unchanged yester-day. Some firms reported heavy stocks of Oregon ranch eggs, one house alone carry-ing 75 cases, while others were poorly sup-plied. Eastern eggs were in fair supply. The butter market was firm at the ruling

Financial Duel Believed to Be

Drop in Great Northern and Advance in St. Paul.

NEW YORK, Dec. 13.—The action of the stock market today was the occasion of much perplexity and finally of anxiety. The contrary effect on different stocks of seemingly like influences was difficult of interpretation and ended in arousing a fear that a financial duel of some kind was being worked out in the stock market.

Interest centered on the Hill railroad stocks and on St. Paul, the former on account of the severe weakness which they showed and the latter on account of its practically single resistance to the weakness which the Hill stocks induced by sympathy in the whole market. It has been assumed for some time past that the large buying of St. Paul was in anticipation of valuable rights to subscribe to new stoca, already authorized but not yet issued. In the case of Great Northern preferred, the subscription rights have already been conferred on stockholders, while in the case of Northern Pacific, it was confidently expected that plans for new capital issues would be announced at any moment during the day. Yet the Hill stocks kept falling away to indefinite new lew levels, while St. Paul rose buyantly on heavy absorption.

St. Paul rose buoyantly on heavy absorption.

The market took on an appearance too much resembling that preceding the Northern Pacific corner in May. 1901, to allow the nerves of stock operatives to escape altogether an unsettlement. It was interred that the new capital issues of the Hill stocks had brought renewed differences between the powerful capitalists which were in conflict in the original struggle for control of Northern Pacific. It has been held as an article of faith in the stock market ever since the Northern Pacific struggle was precipitated, with the ultimate purpose of control of Burlington, that precautionary ownership of St. Paul shares had been extended by the two parties to the former struggle. It was feared that the two were combatting in this buying today to fortify their respective positions and that the Union Pacific interests were divesting themselves of their holdings in Great Northern preferred and Northern Pacific in the same connection.

The large scaling of loans by an impor-

connection.

The large scaling of loans by an important private banking house yesterday was the occasion of some mystery and rather added to the fears that large financial operations might be in progress of a retaliatory

added to the fears that large financial operations might be in progress of a retaliatory character.

The resources made available to the New York market by the Treasury relief plan were handed over to the banks today and there were some additional transfers of Treasury deposits from interior banks. But the total of these additions to the banks cash made up only a small proportion of the week's losses on regular sub-Treasury operations. Banks continued to readjust their loan account, therefore, to repair the deficit in the legal reserves.

Exchange made a further decline toward the gold import point, but an outgo of over \$4,000,000 gold from London to South America added to the scarcity in that market. At the low price of the day, Great Northern preferred showed a loss of 14% from last night's prices and of 22½ from the high price yesterday morning after the details of the stock issues were published. The ore certificates fell 7½, the subscription rights in the outside market 2½ and Northern Pacific 11%. St. Paul's extreme rise was 4%, but it reacted over a spoint before the closing. The market closed weak and not far from the lowest.

Bonds were heavy. Total sales, par value, \$2,022,000. United States bonds were unchanged on call.

Firmer Feeling in the Chicago Market.

OFFERINGS ARE LIGHT

Strength Due Chiefly to Winter Conditions, Threatening Snow Blockades and Decreased Receipts. Oats Are Active.

CHICAGO, Dec. 13.—The moderate firmness that developed in the wheat pit late in the day was due chiefly to Winter conditions that prevailed throughout Minnesota and the Dakotas, threatening snow blockades and decreased receipts. During the first part of the session the market held steady. Offerings became scarce during the last hour and this partly accounted for the firmer feeling. The market closed firm. May opened unchanged to a shade higher at 78 to to 78 to 78 to 80 So net higher.

Trading in the corn pit was dull, but the

one of the market was firm. May opened a shade lower to a shade ligher at \$3% 9 3% and sold up to \$3%c, where it closed let % \$4c higher. More activity was manifested in the oats maper, 62 62 per cent.

Goes to Home for Incurables.

CHICAGO, Dec. 13.—Four hundred thou-sand dollars, it was learned yesterday, has been set apart in the will of the late Otto Young as an endowment for the Chicago Home for Incurables. This bequest, which is said to be the largest gift to a charitable institution that is contained in the document, was made in memory of the late millionaire's son. John William Young, who died ten years ago.
