

BRYAN WILL REACH CITY AT SUNRISE

D. M. Watson, "The" Reception Committee, Will Be His Host.

ITINERARY IN THE STATE

Commoner Will Spend Two Busy Days in Portland, Then Be Seen at Principal Towns on Southern Pacific Line.

BRYAN'S ITINERARY IN OREGON.
Tuesday—Arrive in Portland at 7 o'clock A. M.; taken on drive about the city at 10 A. M.; receive friends at the Imperial Hotel; leave at 11:30 A. M. for Astoria; arrive at 2 o'clock; lecture at the White Temple, 8 P. M.
Wednesday—Address to Elks at 10:30 A. M.; lecture at 11:30 A. M.; depart for Salem at 2 P. M.; arrive at 4:30 P. M.; lecture at 8 P. M.; address to the Legislature in forenoon; leave Salem at 11 A. M. and give platform address at Albany upon arrival of train.
Thursday—Address to forenoon before the State University at Eugene; deliver addresses from platform at Medford, Grants Pass, Medford and Ashland.

William Jennings Bryan will arrive in Portland at 7 o'clock this afternoon, as expected. D. M. Watson last night received a telegram from Mr. Bryan announcing the change in the hour of his arrival in Portland. Mr. Watson notified all the members of the reception committee and with Mayor Lane they will be at the depot when the Commoner arrives.

The reception committee of the Bryan Club and of the Young Men's Democratic Club each claims to be "the" reception committee, but as soon as Mr. Bryan alights from the train he will be taken in charge by Mr. Watson, who will act as host. Mr. Watson is a member of the Bryan Club reception committee, but is anxious to avoid friction and recognizes both committees as "the" reception committee. He will act as host, Mr. Bryan will be in his hands while in Portland, and he will appear at all details for entertainment. When Mr. Watson was in the Middle West about a month ago, he met Mr. Bryan and the latter accepted his invitation then. Mr. Watson was engaged in a suite of rooms at the Imperial Hotel for Mr. and Mrs. Bryan, and will give a dinner, a breakfast and a luncheon in their honor, to which a few of the faithful will be invited. Mr. and Mrs. Bryan will be escorted through the city to the Imperial Hotel. Tonight they will attend dinner at the White Temple, and Mr. Bryan will be given a public reception at the Imperial Hotel. Both Mr. and Mrs. Bryan will be in line and will shake hands with thousands of persons. Preparations have been made to pass a stream of people through the two entrances of the hotel during the two hours that the reception will be on. Mayor Lane and others of the reception committee will stand with Mr. and Mrs. Bryan and introduce those who attend the reception. Wednesday morning at 10 o'clock Mr. Hutchins will show Mr. Bryan through the Elks' club-rooms. Mr. Bryan is a charter member of the Elks' lodge at Lincoln, Neb.

It is believed that the audience at the White Temple tonight will be the largest that has turned out to hear any speaker who has appeared in Portland this winter under the auspices of the Y. M. C. A. Mr. and Mrs. Bryan will leave Portland Wednesday at 4:30 o'clock for Salem, where Mr. Hutchins will lecture at the opera-house that night. At Salem he will be received by Governor Chamberlain and members of the state reception committee. Thursday morning he will deliver an address before the Legislature and in the afternoon will give a 20 minute talk from the platform of the train at Albany. Friday morning he will address the University scholars at Eugene. From Eugene he will go South and deliver platform addresses at Grants Pass, Medford and Ashland.

TUMBLE ABOUT ON FLOOR

"Tongues of Fire" Fanatics Disgust Acting Detectives.

The most startling and sensational affair performed by the "Tongues of Fire" sect took place last night in their hall at 222 Second street when a large crowd gathered to watch the frenzied men, women and children roll and tumble on the floor. Two girls were seen to be hysterical, according to Acting Detectives Hunt and Mallett, went through the most disgusting antics.

Never witnessed anything so degrading, so unbecoming and so thoroughly disgusting in my life," said Acting Detective Hunt, "as the sights Mallett and I saw at the 'Tongues of Fire' hall tonight. One girl was not a whit above the other, and another girl was about as high as a pig. They were hysterical and hysterical and well known. Both rolled on the floor, and one girl was hysterical and practically hysterical. They seemed to be utterly given over to the ravings and frantic screams of the cult and lay prone on the floor, exposed to the gaze of a big crowd of hoboes and curiosity-seekers.

It was in this same hall where 9-year-old Mildred Crawford for a time per-

that his sole desire and purpose is to retire to private life. In view of the present large amount of speculation as to whether he would accept the appointment of Chief of Police, if tendered to him by the Mayor, Mr. Gritzmacher was seen in his office yesterday afternoon and asked the following question: "If Mayor Lane should tender you the office of Chief of Police, would you accept it?" "I wish to be excused from replying to that question," said Acting Chief Gritzmacher, "but I will say frankly that whether I am appointed Chief or whether I am put back to the rank of captain, I shall resign at the end of this term, July 1. I have been in the department a long

DAY LABORERS TO BENEFIT

Many Firemen's Checks Will Grow. Size of Total Appropriation Will Be Known Tomorrow Morning.

During a session which occupied the entire day, the ways and means committee of the Council yesterday completed the 1920 appropriations for the fire, police, engineer's, health, street cleaning and sprinkling, street repair and crematorium departments of the city. As this task before the committee, it is probable that a general advance in wages paid city employees is the most important feature of the appropriations this year. Although not yet granted, the pay in the various departments will on the whole be higher than it ever was before. One inflation tendency that drew the attention of the committee was the unwillingness of the firemen to draw from the general fund. It is asserted that the amount of the general fund this year cannot be estimated with correctness, as the liquor license has been revoked and the liquor license amended.

ROBBERS USE AUTOMOBILE

Drive to Rural Postoffice, Force Entrance and Secure \$10.

LOS ANGELES, Jan. 21.—Two robbers who rode in an automobile perpetrated an audacious daylight burglary of a post-office yesterday at Conover, a small town on the Southern Pacific, 30 miles east of this city. During the afternoon the two men drove up to the postoffice and entered the building through the front door. They quickly forced an entrance through a locked door to the inner office, broke open the safe and took what money it contained, amounting to less than \$10. The men then entered the machine, without their work having been noticed, and whirled away.

CONSTRUCTION BEGUN ON BRIDGE ACROSS SULLIVAN'S GULCH

Work on the erection of the steel bridge across Sullivan's Gulch on Grand avenue was commenced yesterday morning.

Work on the erection of the steel bridge across Sullivan's Gulch on Grand avenue was commenced yesterday morning. Contractor J. B. Tutolson has the contract from the International Construction Company of Seattle, which is building the bridge, to drive the piles and complete the foundation for the steel piers. He had a force at work bright and early. A foot house was built on the south bank of the gulch, and preparations were made to start driving piles on which the foundations for the piers will stand. Just how deep the piles will be driven cannot be known, but that will probably depend on the effect of the new bottom that has been formed by the O. R. & N. Company's embankment, which spreads out in the soft mud more than 100 feet. Much more of this embankment is under the water than above it.

RHEUMATISM BREAKS DOWN THE STRONGEST CONSTITUTION

Rheumatism is caused by a sour, acid condition of the blood, brought on by chronic constipation, weak kidneys, poor digestion and a general sluggish condition of the system. Because of these irregularities, the refuse and waste matters of the body are not promptly expelled, but are left to sour and ferment, producing irritating acids which are taken up by the blood and distributed to all parts of the system. This acid matter weakens and disorganizes the blood so that instead of supplying the body with nourishing, healthful properties it deposits the poison with which it is laden into the muscles, nerves, bones and joints, and Rheumatism gets complete control of the system. Some suffer almost constantly with the disease, while others have intervals of freedom, during which they live in constant dread of the next attack, when an exposure to cold or dampness or some other irregularity will cause the symptoms to return. If the cause is not removed Rheumatism will progress and reach a point where it becomes incurable, and the strongest constitution will break down. S. S. S. has been curing Rheumatism for more than forty years. It attacks the disease at its head by going down into the blood and removing every particle of the acid matter and building up the weak, sour blood to a state of purity and richness. S. S. S. is the King of blood purifiers, just what is needed for the cure of Rheumatism. Book on Rheumatism and any medical advice sent free.
