For some years during the first appear ances in this country of Mr. E.S. Will ard, the noted English actor, Miss Wainwright was his leading woman, and she made hits of the most pronounced char-acter in such plays as "The Professor's Love Story," "The Middleman," etc. Of late years she has gone into partial re-tirement, save for a few appearances an-nually in New York only, and Liebler & Company consider themselves fortunate that they have been enabled to secure her for this present presentation. IN FAVOR OF HIGH LICENSE

Municipal Association May Indors Initiative One Hundred Bill.

te le probable that the Municipal As-sociation will lend its support to the \$1030 liquot license bill prepared by

the Initiative One Hundred, if that measure is placed before the people in its present form. The association has already expressed an interest in the

high license measure and has appointed to cenfer with the Initiative One Hun-dred a committee, consisting of Millier Murdock, Earl C. Bronaugh and J. T.

"We have not yet indorsed the bill of the initiative One Hundred," said John Bain, a member of the associa-tion, yesterday. "Our committee will, however, confer with that organization and if the bill is kept in its present form it will probably receive our for-mal support. There seems now to be a movement to alter the bill, and if this is done I cannot of course say whether we shall support it."

HARTMANN'S PROGRAMME

Hungarian Violinist Will Present Notable Numbers Friday at Heifig.

Perhaps the two most enjoyable and

eagerly-anticipated numbers on the pro-gramme which young Arthur Hartmann will offer on Friday evening are the Cha-conne, for violin alone, which is one of the most difficult and yet soulful of Bach's violin compositions, and Hart-mann's own setting of MacDowell's "To a Wild Rose," These two numbers have been creating no small amount of favorable criticism throughout his tour, al-though the composition of his own for vicelin, "Rhapsodie 'Eijen," which will also be on the programme, has been wonderfully received. The recital will be at the Hellig Theater on Friday evening, under the direction of Lois Steers Wynn Coman, and seats are now on sale at the box-office.

Charles Cleveland, who owns the Ce-dar Grove farm, near Gresham, recently imported several head of registered Shropshire sheep of the very best type that could be obtained. Zenda;" which was produced at the Lyric yesterday. It was written by Johnston McCully, a local reporter and was first presented at the Empire two years ago. It is laid in an imaginary kingdom, in congruously enough supposed to be where in the South Seas. The play sesses a considerable degree of merit and

has sufficient mock-heroics and enough shedding of blood to make it popular with Frank Fanning plays the heroic corres-

pondent, as he did in the Empire pro-duction. Warda Howard is the Princess, Merbert Ashton is the Prince Minister, S. M. Griffith the King, Thomas Clarke the captain and Lily Branscombe the maid. The settings are spiendid. "The Heir Apparent" will be The Lorie's at-traction all week.

-"Love and Law" at the Star.

N THE production of "Love and Law." Manager Allen of the Star has found a

suitable vehicle for his company. Fer of the plays put on at the Star hav-been better suited to the individua talents of the troupe. Verna Felton, who

plays the part of Ritts, the little Italian street singer, is by far the best individua member of the cast. Forrest Seabury as usual provides the amusement and funny parts of the story and his make-up and work through the play is the best. Fellx O'Parf the Iriah lawyer, is his part and he plays it as well as it could be done. He has the Irish brogue as natural as any Kerry man and it has no trace of the ridicule, with which some comedians attempt to

portray the Irish race. Harold Dudgeo as Sir Randal Burns, an English baronet, is another who makes a hit, and though his part is not as important or difficult as Scabury's, yet he plays it as well as it could be done. Taylor Bennett is cast this week to the "heavy" and he plays It to perfection
