HARRIMAN FORCED

Foiled by Wizard of Wall Street.

Copper King's Brother Tells of Struggle to Build Independent Road From Salt Lake-Sale of Half Stock Is Forced.

LOS ANGELES, Cal., Feb. 7.-The first day of the Interstate Commerce Commission's hearings in Los Angeles on the subject of the Harriman merger was consumed in the direct examination of a single witness, J. Ross Clark, brother of United States Senator W. A. Clark, director and second vice-president of the San Petro, Los Angeles & Salt Lake Railway. Mr. Clark's examination by C. A. Severance, attorney for the Commis-A. Severance, attorney of the commission, was comprehensive and complete. The line of questioning covered every range of subject as it applied to the relations of the Clark road and the Harriman system, and a great mass of new facts was elicited. Mr. Clark proved a willing witness, and

gave information freely enough, although he was hampered occasionally in his ex-planations by a lack of knowledge of the technical details of the business. He, however, readily referred his inquisitors to the managers of the various depart-ments of his company for the desired in-

The most important fact brought out was that showing the reason and neceswas that showing the reason and necessity, from the viewpoint of the Clarks, for the disposal of one-half of their road to Mr. Harriman. It was shown that when the building of the Clark road was commenced from Salt Lake City and Los Angeles, the Oregon Short Line, a Harriman property, harassed and retarded their progress and finally catting necessity. their progress, and finally, getting posses-sion of the only available pass through the mountains in the shortest direction to Los Angeles, compelled the Clark road to come to their terms, sell to them one-half of their property and make an ironclad agreement to maintain the same lo-cal freight rates as the Harriman roads for a period of 39 years.

As a final act of coercion of the Clarks, the Harriman interests began a survey of a road between Salt Lake City and Los Angeles, and implied, at least so Mr. Clark testified, a threat of building a parallel line.

and officials of the Southern Pacific was begun at the offices of the railroad in the Flood building this afternoon.

The committee from the telegraphers presented to the railroad officials a request for a general readjustment of the schedule now in force on the Pacific system, which was agreed upon three years ago. It was stated that a general system, which was agreed upon three years ago. It was stated that a general increase of wages and lessening of hours was desired, the changes to be made to suit varying conditions at different places. It was also requested that, where possible, there should be a cessation of Sunday work, the committee accepting the view of the company that in many cases Sunday work was necessary, so that a flat order doing away with all Sunday work. of the question.

It was stated by both sides that the

conference is a friendly one and an amic-able agreement is looked for. The changes, if made, will affect the entire Pacific system, embracing the lines of the Southern Pacific from Portland to Los Angeles and as for east as Ogden.

Talk of Raising Freight Rates.

NEW YORK, Feb. 7.-Railroad officials who make their headquarters here seem generally disposed to echo the remark last Monday of President James J. Hill, of the Great Northern, that the railroads of the country will find themselves obliged before long to advance freight rates, instead of reducing them. The consensus of opinion of these officials is that increase in cost of labor and material is so far outstripping the rate of increase i net earnings that only a moderate re versal of business activity will bring the railroad companies face to face with a pretty difficult problem as to rates, es-pecially in view of the popular sentiment toward railroads now prevailing. lar sentiment

SUSPICIOUS OF FOUL PLAY

Senator With All His Millions Police Doubt That Neil Was Drowned by Accident.

Police officers who investigated the drowning of Jack Neil, at the foot of Salmon street, early yesterday morning, believe the man might have fallen or been knocked into the river while SEIZED ONLY OPEN PASS engaged in a fight or altercation. When they reached the scene, conflicting stories were told them by members of the crew of the steamer Northwest,

on which craft Nell was cook.

Patrolmen Wendorf and Bales state
that Mate Ed Brown, of the steamer,
had accompanied Nell up town to get a drink, and was with him when he returned to the vessel some few minutes before he attempted to board the Brown is said to have shouted. "The cook has fallen overboard," be-fore any of the other members of the crew could reach the scene, and the officers are puzzled as to how he knew who it was before the body was fished

Patrolman Gustafson states that the fact that the man's eyes and mouth were closed tightly when taken from the river is a suspicious sign, and furthermore, that during the process of rolling the body in the effort to resuscitate it, no water was forced from the mouth, which caused him to believe that the man was dead before he struck the water. Coroner Finley stated yesterday

that the death was undoubtedly due to accidental drowning and that he did not believe that an inquest would be

The Sunday Oregonian

All the News-Home and Abroad

Most attractive Colored Supplement printed on the Pacific Coast. The first page is designed and executed by The Oregonian's own artists. The picture next Sunday, "Won't You Be My Valentine?" is an original conception, carried out in an artistic manner. A feature of these color pages is that they illustrate Oregon scenes and events of the hour. Thursday, February 14, will be St. Valentine's Day, and the artist presents the readers of The Sunday Oregonian with the picture of one of Portland's prettiest young girls as a Valentine. Do you know her?

The Sunday Oregonian

The Sunday Oregonian employs special writers and artists to furnish it new and original features every Sunday. Among its special writers are: Frederic J. Haskin, who is writing articles daily about America and Americans. Professor Frederick Starr is writing for The Sunday Oregonian an interesting and instructive series of articles on the Congo country. The articles are illustrated with pictures of the natives, their homes and home life. Dexter Marshall, another writer of passing men and things, has contributed for next Sunday's issue an article on newspaper men in public life that is illustrated with lifelike pictures of six of the leading newspaper men of the age. Their names are familiar to every newspaper reader, but you must secure a copy of The Sunday Oregonian to see the latest photographs of them

John Elfreth Watkins, another special correspondent of ability, writes graphically of the claim made by a prominent Tennessee attorney to the effect that J. Wilkes Booth, the assassin of President Lincoln, did not die until 1903. The evidence deduced to sustain the claim is very convincing. The story is illustrated with a fine picture of President Lincoln, Booth, David Hurd, Lincoln's log cabin home, the Ford Theater and other scenes of the historic tragedy that shocked the entire world.

The Sunday Oregonian

The colored supplement has the most amusing and laughable of funny pictures. Binnacle Jim's illustrated sea stories give the funny side of a seaman's life. The trouble that Jim and Bill, the parrot and monkey, get into trying to get even with the old captain, who is a perfect martinet, would make the most serious-minded merry. Next Sunday's story shows them sewed up in an elephant's hide. They try to run the "old man" off the ship, but meet with an accident, and they get the

The Roosevelt Bears are in Ireland, having the time of their life with Paddy, the jaunting-car and the pigs. They visit an Irish fair and get into more mischief and trouble than on any of their previous journeys. The Roosevelt Bears are conceded to furnish more laughs for the youngsters than any other series of comic pictures. You have to see them in their various antics to enjoy them. You will find them only in The Sunday Oregonian. They appear in a new scene every Sunday.

The Sunday Oregonian

Does not neglect society, the housewife, the lover of outdoor sports or the lover of books. In next Sunday's issue a page is devoted to the natty suits and gorgeous headwear that will be worn this Spring by stylish women. The illustrations show the very newest creations in gowns, hats and neekwear. The newest Parisian styles will be found in every Sunday edition. The feminine motorist will also find the latest nev-

elties in the fashion pages.

George Ade, the Hoosier humorist, contributes something every week. He is now doing over old stories in a very humorous fashion. He does not spare sentiment or romance, but shows the absurd and ridiculous in everything he touches. Oliver Goldsmith's "Vicar of Wakefield" claims his attention for next Sunday's edition. Only Ade could make this popular story take on such a phase.

Considerable space is given to a discussion of current topics by able writers. "The Beginning of Methodism in Oregon," "The Plea of Insanity as a Defense," "How Shall We Save the Salmon?" are among the topics discussed. All of these pages of special features are in addition to the regular news, society, music, real estate and dramatic departments. The Sunday Oregonian gives the telegraphic news of the world, of Portland, Oregon and the Pacific Northwest.

Mr. Longfellow identified four or five letters and fixed their dates as prior to June 25, 1906. Mr. Jerome persisted in asking whether or not the letters came to the witness in his professional capacity. The witness said again that he presumed they did, though he did not carry out the instructions.

I asked him why and he said, 'I told you read the first one. It was quite lengthy, that to please somebody."
