REPORT ON M.A.A.C.

President Will Review Year's Work Tonight.

ELECTION OF TRUSTEES

Annual Meeting of Multnomah Amateur Athletic Club Will Be Attended by the Transaction of Much Important Business.

The annual meeting of the Multnomah Amateur Athletic Club will be held tonight. The election of five trustees to serve two years will take place, and also the reading of the annual report of President George W. Simons and the reports of the various committees. Some time ago a nominating committee selected the following list of candidates, and they will be voted on tonight: George W. McMillan, H. C. Campbell, Edgar Frank, Edward Morgan and J. R. Rodgers. The president of the club is to be elected by the board of directors, and among the various candidates that have been mentioned is George McMillan.

In his annual report President Simons, after briefly reviewing the history of the club, and calling attention to its financial condition, suggests a plan carrying the club's indebtedness. On this point President Simons in part makes the following suggestion: "Including the payments that we have made during the year ending January 31, 1907, \$25,000 has been paid upon the principal, leaving \$35,000, and it is hoped that our present prosperous condition will be maintained so that the indebtedness will be reduced in accordance with the terms of our agreement.

"The South-American Investment Company entered into a very favorable form of agreement when the property was purchased by this club, and we must comply with the terms thereof. I will

suggest that this indebtedness be taken over and be carried by the club members, young and old. This can be easily done if bonds in the denomination of \$100 or \$50, be issued with 5 per cent interest coupons attached thereto. The money given over to the treasurer by the sale of these bonds would cancel all of our obligations, and the interest earned by the bonds paid over to our club members. This is a strictly business proposition and should not be considered in the light of a donation. A certain number of bonds could be retired annually by allotment after a definite period, reducing thereby the interest charge as well as the bonded indebtedness. I am positive that this plan will appeal to the older members of the club, and receive their hearty approval. It should also receive a similar endorsement from the younger element in the club for there is a large majority of young men who should take advantage of this opportunity to purchase at least one \$100 bond. I believe that this movement would be very popular, and it is hoped that the administration of 1907 will adopt a plan of this kind so that the obligations of the club will be directly to its members.

"The interest on the notes with all of the cost of improvements and current expenses from every source have been regularly paid. The club has grown in every way since its inception." On the matter of public playgrounds for children, a project which the club is vitally interested in, Mr. Simons says: "I trust that the Multnomah Amateur Athletic Club will push this cause of public playgrounds, and be identified in that work until the matter has assumed definite shape and is turned over to a commission that will have entire charge of the development of the work in this city."

Queen Lil's New Petition. WASHINGTON, Feb. 11.—Vice-President Fairbanks today laid before the Senate for Liliuokalani, ex-Queen of the Hawaiian Islands, a second addition to the petition filed by her in 1905, praying for the settlement of her claim for sovereign land taken from her at the time of the acquisition of the islands by the United States. She asks, in a petition of 150 typewritten pages, that action be taken at the present session of Congress.

MRS. SUTRO GETS DIVORCE

DECREE IS HANDED DOWN IN COLUMBIA COUNTY.

Son of Adolph Sutro, San Francisco Millionaire, Divides Property With Wife.

Upon the grounds of desertion, Henrietta L. B. Sutro was granted a divorce from Edgar E. Sutro, son of the famous Adolph Sutro, of San Francisco, now deceased, by a decree entered last week in the Circuit Court of Columbia County. Both Mr. and Mrs. Sutro live in San Francisco, but to prevent publicity they sought out St. Helena. By the terms of the property settlement Mrs. Sutro receives what is known as the Battery-street property, a building of high value in San Francisco, and about 20 per cent of her husband's inheritance of \$250,000. Mr. and Mrs. Sutro were the only witnesses to testify, but there was much documentary evidence in the way of notes and letters which were offered by Mrs. Sutro. The names of several San Francisco women were dragged into the proceedings, principally among them being the name of Miss Nan Fitzgerald. It was alleged that Sutro had been in the custom of going on prolonged excursions with Miss Fitzgerald, and that he was on intimate relations with many women of the underworld. It was alleged that Sutro struck his wife on the streets of San Francisco on July 4, 1896. Sutro entered denial to the most important of the charges.

The marriage of the couple took place at Cape Town, South Africa, June 21, 1890. She was a bookkeeper in a hotel and was courted by Sutro for about a year and a half. It was one of those "true love" marriages and Sutro was wealthy, while his bride possessed practically nothing.

LARGE SHIPMENT OF MAIL

Three Cars Containing 150,000 Pounds Reach Portland.

What is believed to be the largest installment of mail ever received in Portland arrived last night over the O. R. &

N. train No. 1, due here at 7:30 o'clock, but which was delayed before the tracks occupied three and it was estimated by those who saw it that there was between 150,000 and 175,000 pounds.

The unusual quantity of mail was made up largely of that which has been stalled along the line by floods and landslides, and today thousands of people in Portland will read belated letters and newspapers from the East. In the cars there was also a number of pouches sent out from Portland several days ago and which have now been returned to be transferred to the northern route. Although the bulk of the mail was papers and packages, there was also enough letters to make extra work for the postal carriers. In the consignment were 100 full sacks of letters for Portland alone.

O. R. & N. LINE CLEAR AGAIN

Avalanche Knocks Train Off Track and Burles Road.

The main line of the O. R. & N. was cleared yesterday after having again been blocked for a day by a landslide at Eagle Creek, near Bonneville. Trains ran on time yesterday and no further trouble is anticipated. The Washington division is still tied up by slides and washouts and it may be several days before traffic will resume over that division, although operating officials were hopeful yesterday that the Spokane train would be able to get away tonight.

The slide at Eagle Creek was a sensational one, occurring as a freight train was passing. Tons of loose rock cascaded down the mountain side, striking the train and hurling it bodily from the track. Freight cars were piled up between the railroad and the river in great confusion. The train was going at average speed when the accident happened, but fortunately no one was hurt. The big boulders rolling down the mountain knocked the trucks from under the freight cars and piled them up beside the track. It is supposed that the jarring of the ground by the train started the avalanche.

The westbound train was forced to transfer its passengers to Portland by boat from the slide Sunday, and the eastbound night train was annulled on account of the blockage. Wires are still down along the Columbia and communication is still very badly interrupted. Details of conditions up the

river are not obtainable, but it is thought that it will be weeks before the tracks can be put in as good condition as before the storm of last week.

General Superintendent Buckley is still directing repair work in the interior, and General Manager O'Brien will go out today to inspect the main line and see what is necessary to be done in the way of rebuilding certain parts of the line that have been demolished.

RECEIVED STOLEN STAMPS

R. A. Nichols, Albina Drug Clerk, Arrested by Federal Authorities.

R. A. Nichols, a drug clerk employed at his father's store in Albina, was arrested yesterday afternoon by the Federal authorities. Nichols is charged with having received stolen stamps, and his arrest was due to the fact that Nichols could not explain what he had done with about \$15 worth of stamps that he had bought from Eggleston, one of the men now in the toils for having had a hand in disposing of the spoils of the St. Johns and Sellwood postoffice robberies. Nichols was released on \$500 cash bond.

The Federal officers, after receiving many promises from Nichols that he would return the stolen stamps he had speculated in, grew tired waiting for him to produce the stamps. According to the officials, Nichols, like Gilbride, Eggleston and the rest of those who sought to make money in trafficking in stolen stamps, were suddenly stricken with bad memories. At first the Government authorities were loath to place these men under arrest, and they were given every opportunity to return the property. Nichols, like the rest, made many promises, but he procrastinated until yesterday, when he was placed under arrest. Nichols turned over the stamps after he was arrested.

Dr. Morrison at Stanford.

STANFORD UNIVERSITY, Palo Alto, Cal., Feb. 11.—Dr. A. A. Morrison, of Portland, who has accepted the invitation of Rev. D. C. Gardner to preach in the University Chapel some time this semester. The date has not been set.

Schmitz-Ruef Case Goes Over.

SAN FRANCISCO, Feb. 11.—The Schmitz-Ruef cases were called in Judge Dunne's court this morning, but went over until next Monday on ac-
