

GRANT AMNESTY FOR OFFENDERS

Douma Will Unanimously Petition Czar to Pardon Guilty.

ONLY EXCEPTS MURDERERS

Reformers Cheered by Nicholas' Welcome to Golovin—Stolypin Lays Down Programme of the Legislation to Be Passed.

ST. PETERSBURG, March 6.—The presentation by the lower house of Parliament of an unanimous petition for amnesty for all political offenders except those guilty of actual murder, probably will result from a conference of the Conservative Deputies held tonight. It was decided to support any request made by the Liberal members for the pardon of all persons imprisoned or exiled for revolutionary agitation or propaganda, whose hands were not actually stained with blood.

The radicals desire to make this demand include those guilty of murder, but in order to secure a unanimous vote, probably will consent to a separation of the two classes and present an appeal for the Terrorists as a separate motion.

The Constitutional Democratic central committee also held an important meeting today to hear the report of M. Golovin, president of the lower house, on his audience with Emperor Nicholas, and to consider the Socialist protest against the candidacy for the vice-presidency of the lower house of M. Teslinokov.

The Emperor's cordial reception of M. Golovin created an excellent impression on the committee and dispelled the lingering fears that the governing body was seeking only a good opportunity to evade this second Parliament. It is evident that the Emperor is notaverse at the refusal of the Radical Deputies to honor his name in the opening ceremonies by rising.

The Associated Press is informed that the tone of Premier Stolypin's declaration to Parliament is temperate, but firm. It lays down the exact limits to which the Cabinet is prepared to go, and outlines with considerable detail the programme of legislation which he desires enacted.

The Constitutional Democratic central committee decided to support the candidacy of M. Teslinokov and that it might fill the secretaryship of the House, M. Tchelnokoff, of Moscow, has been nominated for this latter office. It was also decided that Delegates Struve and Fedoroff, together with the Metropolitan of St. Petersburg, Antonius, be commissioned to request a dispensation for the return from exile in a monastery, of the orders of the Holy Synod, of Father Gregori Patroff, the noted St. Petersburg labor leader, who was elected to the House from the capital.

NO HOPE FROM NEW DOUMA

Alladin Predicts Fight if It Should Be Dissolved.

NEW YORK, March 6.—Alexis Alladin, delegate of the Russian revolutionists to the people of the United States, in an address at the City Club last night, said that he saw little hope for the Russian people in the present Douma.

"Only a few hours have passed since the second Douma met," said Mr. Alladin, "and it seems unmettable that a great opportunity has once more been missed by the crown. If in its speech the crown had only uttered a single word of clemency, a single word of forgiveness, the people would have been satisfied. But the crown has followed the advice of the statesmen who surround it."

"I tell you that the men about the case are striving to move revolutionary feeling than the people of the left. These men gave a blow in the face to 70,000,000 people, and they will reap the result."

It was announced after his speech that Mr. Alladin would answer questions.

"What is the programme of the present Douma?" was the question.

"Exactly the same as the first Douma," he replied. "The group of Toll will still rule the House and no concessions will be made until Stolypin goes."

"What will the Douma do if it is again disbanded?" was the next question.

"In that event," replied Alladin, "it is a question of what the people will do, and the answer is—fight."

GENERAL'S FAREWELL BOMB

Nepiuff Wounded When About to Leave Sevastopol.

SEVASTOPOL, March 6.—As General Nepiuff, commander of the fort at here, who has just been transferred for duty at a less hazardous post, was driving through the city this evening to attend a farewell banquet at the palace given in his honor, a bomb was thrown under his carriage, where it exploded.

The carriage was shattered. The general sustained injuries about the feet. The coachman was wounded and a woman who happened to be passing at the time sustained serious injuries. The man who threw the bomb got away.

This is the second serious attempt made upon the life of General Nepiuff within a year.

BLOCKED BY ELEMENTS

California Roads Have Trouble With Floods and Slides.

rains in this narrow canyon have carried out miles of track.

The Santa Fe was again interrupted by a washout at Cucamonga, between here and San Bernardino. Trains are running and passengers are being transferred across the Mojave River at Barstow.

HIS GREATEST ACHIEVEMENT

Harriman Proudest of Closing Break in Colorado's Bank.

WASHINGTON, March 6.—When shown the Associated Press dispatches tonight, announcing that another storm had broken out over the Salton Sea and that the Southern Pacific tracks are under water, E. H. Harriman, head of the Harriman system of railroads, said:

"That reminds me that I was asked today by one of the Interstate Commerce Commission what I regarded as the greatest achievement in my railroad experience. My reply was that I considered the closing of the break in the Colorado River on February 11 as the most remarkable achievement of recent history. In the handling of rock and stone our engineers made a record which is likely to stand for many years to come. The time actually consumed in making the inclosure was 15 days and two hours, during which 77,000 cubic yards of rock, gravel and clay were handled.

Temporarily at least, the Colorado has been conquered, but, like the Missouri River in its delta region, it will bear watching always. If the storm reported today results in another break, it will do the work over again with the determination that, when completed, the work will be an even greater achievement than that accomplished in February.

SALTON SEA DAMAGES TRACK.

LOS ANGELES, Cal., March 6.—Advices here from the vicinity of the Salton Sea state that yesterday's storm produced high waves on the inland sea, causing a portion of the railroad company's tracks to be submerged and entailing some damage. Trains were delayed yesterday, but were moving again today and the damage has been repaired. The storm has entirely subsided and the sea is again quiet.

NO VERDICT IN ADAMS CASE

FINAL ARGUMENTS ARE SUBMITTED TO JURY.

Belief in Wallace Is That Verdict Will Be for Acquittal, or a Disagreement.

WALLACE, Idaho, March 6.—At 10:45 o'clock this morning Judge Woods completed his instructions, and the jury retired to decide whether Steve Adams is guilty or innocent of the murder of Fred Tyler. At the close of the instructions Judge Richardson, for the defense, took exception to the Judge's charge to the jury. It is claimed that in framing his instructions, the Judge accepted beyond those offered by the defense, but incorporated a large proportion of those offered by the state. In his charge to the jury, he is said to have stated:

"You are to decide whether Fred Tyler is dead, whether his death is the result of a felony, and whether that felony was committed by the defendant. If you have a reasonable doubt on any of these points, the defendant is entitled to the benefit.

"Guilt cannot be proved by a confession alone without corroborative evidence showing the commission of the crime, unless such confession is made in open court. If circumstantial evidence would establish guilt beyond a reasonable doubt, it should be considered in the same manner as direct evidence.

No reference to the defendant's confession was given freely and voluntarily. It should have weight. If it is found that coercion was brought to bear on the defendant to secure his confession in regard to the murder of ex-Governor Steunberger, but that his confession of the murder of Fred Tyler was made apart from this coercion, it is your duty to give his confession weight.

"Anything in relation to the murder of Steunberger or Boule is entirely outside of this case. The troubles between the settlers in the St. Joe country are nothing to do with this case, except as to their results in the killing of Fred Tyler. The law permits no man to take the law into his own hands.

"You are instructed that the statements of attorneys on either side have no weight. The statements of witnesses are the only evidence you can consider. You must take into consideration whether any witness who testified was interested in the outcome of this trial.

No reference to the Western Federation of Miners appears in the instructions of the court. The strong belief is expressed here at noon today that the jury will either vote to acquit or will disagree.

Record Price for Sheep.

SALEM, Or., March 6.—(Special.)—That the year 1907 marks the highest price for stock sheep in the history of Oregon is declared by H. H. Vandevort, a sheep-buyer who has operated in the Willamette Valley for many years. This price, \$10 a head, has just been paid by Keyt, of Perrydale, for a small band of sheep owned by J. Purvine, of Zena, Polk County. While higher prices have been paid for sheep for breeding purposes, this is said to be a record for stock sheep.

SAYS GUESTS WOULDN'T GO

Saloon Man Arrested for Keeping Open After 1 o'Clock.

J. W. Bell, proprietor of a saloon at Twenty-third and Thurman streets, was arrested by Patrolman Ellis at 1:15 o'clock yesterday morning on a charge of having his saloon open after hours. Bell admits that the place was open, but blames W. Reid, who says he is manager of City Auditor Thomas Devlin's campaign for the mayoralty.

According to Bell, Reid, accompanied by Councilman Preston of the First Ward, visited his place late Tuesday evening and purchased several rounds of drinks for a number of workmen. Reid talked of the merits of Mr. Devlin and Mr. Preston, who is a candidate for reelection from that ward, and the hour of closing up soon approached. Bell told how he keeps his clock 20 minutes ahead of the correct time in order to avoid breaking the closing ordinance and confirmed his statement, saying that the time registered in the saloon when he made the arrest was 1:35.

Bell says that Reid insisted on staying and inserted a nickel in the electric piano, the playing of which after midnight is also against the law, and that he endeavored to prevent Reid from doing so. He was engaged in a scuffle with the politician when the policeman entered the saloon. Mr. Preston had gone home before closing time and Bell will ask him to testify to his having endeavored to get the men out of the saloon before 1 o'clock.

WHAT HARRISON DOES

All Things States Are Incapable of Doing.

CENTRAL POWER NEEDED

Beveridge Tersely Tells Why National Government Must Remove Evils and Control Buccaneers of Business.

NEW YORK, March 6.—Senator Beveridge, addressing the Indiana Association at a banquet here tonight, made a vigorous defense of a central government as against the doctrine of states rights.

"The states," he said, "could not make internal improvements, so the Nation made them; the states could not prevent the scattering of obscene literature, so the Nation did it; the states could not suppress lotteries, so the United States did it; the states could not end the poisoning of the people by adulterated food, so the Nation is ending it; the states could not compel the sanitation of packing houses, the inspection of meats, so the Nation is compelling it; the states could not preserve the country's forests, so the Nation is preserving them; the states could not irrigate the arid West, so the Nation is working that glorious and beautiful area; the states cannot end the murderous infamy of child labor, so the Nation is doing it, and this is for the saving of the Nation."

"The states cannot attend to the buccaneers of business, and so the Nation is to control them, and this for the benefit of the enormous majority of business men who are not buccaneers."

"The constitution is our 'ordinance of National life,' and not the articles of our National death. It was meant to free the hands of the American people and not to shackles them. Marshall so interpreted it in the courts; Lincoln so interpreted it in the council chamber; Grant so interpreted it in the battlefield. And today Roosevelt is following in their footsteps and thus obeying the will of the American people."

MAY BRING ANOTHER SUIT

MRS. EDDY'S RELATIVES GIVE NO BREATHING TIME.

Will Serve Process in New Hampshire and Sue Massachusetts Defendants, if Necessary.

BOSTON, March 6.—Ex-United States Senator William B. Chandler, special attorney for George Washington Glover, of Lead, S. D., and other relatives of Mrs. Mary Baker G. Eddy, who have brought suit against Christian Science officials in three states, announced tonight that positively a second suit will be instituted in Massachusetts.

Mr. Chandler has been in consultation here for two days with the other counsel for the plaintiffs. In addition to the former Senator, there were present at the conference today John W. Kelly, of Portsmouth, N. H.; Charles W. Peabody, of Concord, and E. W. Peabody, of this city. After the conference, Mr. Chandler issued the following statement:

"If the Massachusetts suit is not immediately taken to court, I will immediately commence proceedings on four New Hampshire defendants, Calvin A. Frye, Irving C. Thompson, Herman C. Herring and Louis C. Strong, and on two Massachusetts defendants, so that they may be present and join in the New Hampshire suit if they choose. If they do not join in the suit, possibly a second suit will be instituted in Massachusetts, in the state or Federal Court.

"It was decided today to begin immediate taking testimony in the various places in both states to get ready for trial as soon as possible."

STUDY COAST DEFENSE

PROGRAMME FOR MILITIA ENCAMPMENTS IN JULY.

Absence of Many Regulars Prevents Brigade and Division Encampments—Coast Artillery Camps.

WASHINGTON, March 6.—Assistant Secretary Oliver has notified the Governors of the various states and territories which have an organized militia force that it has been found necessary to omit for this year the contemplated annual brigade and division encampments for the instruction of the infantry, cavalry and field artillery of the Regular Army, as many posts will be depleted by reason of the absence of about 6000 troops in Cuba, a considerable number at the Jamestown Exposition and the movement of a large portion of the Army to the Philippines.

In lieu of the regular encampments for the coast artillery of the Army will be established during the season of 1907, and the National Guard of the various states and territories will be invited to take part in the development of the problems involved in the defense of the sea coast. Invitations will shortly be issued to the Governors of the seaboard states interested, specifying in detail the forces desired to carry out the proposed problems. The camps, probably, will be held in July and last from one week to 10 days.

REMOVES MOTIVE FOR WORK

Taft May Repeal Cuban Edict Against Cockfighting.

WASHINGTON, March 6.—One of the questions that probably will confront Secretary Taft upon his arrival in Cuba in the course of his two weeks of the propriety and policy of abrogating Governor-General Wood's decree forbidding cockfighting in Cuba. An overwhelming majority of the Cubans themselves demand the right to fight their chickens as they have done for many years.

It was the arrest of a number of prominent Cubans, including at least one Presidential candidate, for attending a cockfight, that brought on the crisis and caused Governor Magoon to promise that he would consider the petitions that were presented urging the abrogation of the decree.

When the sport flourished, the Cuban laborer worked four days a week to support his family. Another day's wage he set apart for the lottery, and the last of the secular days he worked in order that he might secure funds to back his favorite cock in the pit. Now that the lottery and cockfighting have been stopped,

the laborers and farm hands simply stop work for the last two days of the week, having no incentive to continue. This practice is said to have had a really injurious effect on the development of the island industries, and to have considerably curtailed production.

Probably Secretary Taft will adopt the expedient of permitting cockfighting outside of Havana and the larger Cuban cities, just as he did in the Philippines, to the satisfaction of the natives and their employers.

Lumbermen Support Roosevelt.

WASHINGTON, March 6.—President Roosevelt was today assured that the lumber interests of the West were in perfect accord with his policy respecting forest reserves and the handling of the public domain. This assurance was given by Victor Beckman, secretary of the Pacific Coast Lumber Manufacturers' Association; George F. Detebaugh, editor of the American Lumberman, of Chicago, and B. Hubbard, a prominent lumber manufacturer of Centralia, Wash.

They called on the President with Senators Ankeny and Piles and Commissioner of the General Land Office, and President Roosevelt assured the delegation that his sole interest was that the people of the Rocky Mountain and Pacific Coast States should be looked after in the handling of the public domain.

SEA MYSTERY CLEARED

DISAPPEARANCE OF SCHOONER BESSIE K. SOLVED.

Vessel Turned Turtle and No Hope Felt That Any of the Crew Live.

SAN FRANCISCO, March 6.—The mystery of the disappearance of the schooner Bessie K. was cleared up today by the steamer Yosemite, Captain Johnson, which arrived in this port from the Oregon Coast. Her master reports that on March 4, at 3 P. M., he picked up the schooner, floating, bottom up, off Port Orford, and towed her out of the way of vessels to within two miles of the shore, when he discovered that the vessel was no longer entangled that Captain Lazarevich or any of his crew of eight men escaped drowning when the vessel was lost.

The Bessie K. sailed from Coquille River, Oregon, for San Francisco, February 24, with lumber, and on her second day out encountered a heavy storm. Some days later, south-bound coastwise vessels reported sighting an overturned vessel in that vicinity, but that this was the Bessie K. was not definitely known until the arrival of the Yosemite today.

BICYCLE THIEF RUN DOWN

Hot Chase Ends in Capture of Fugitive and Wheel.

G. H. Calneke, who stole a bicycle belonging to W. H. Wendell, a special delivery messenger in the postal service, from in front of the Postoffice at 11:30 o'clock last night, was the cause of an exciting chase during which the cry of "stop thief" was frequently raised. W. E. Graham, a cadet at the Hill Military Academy, witnessed the theft and called to the attention of the messengers, Harry Olson, another messenger, jumped on his wheel and gave chase.

The shouts of the messenger boys and spectators attracted the attention of E. W. Bales and they also joined in the chase, which led the pursuers to the stables of Anderson Brothers at Second and Jefferson streets, where the stolen bicycle was found. A large delivery van and placed under arrest. The bicycle was found near the entrance, where it had been abandoned when the chase became too hot.

LITTLE HOPE FOR DAKOTA

Salvage Work Impossible—Steamer at Mercy of Elements.

YOKOHAMA, March 6.—The position of the wreck of the Great Northern liner Dakota, which ran ashore March 3, 40 miles from Yokohama, is reported to be unchanged today. It is only possible to approach her in open boats, which make it useless to attempt salvage operations. The vessel is exposed to both wind and waves, which apparently must soon result in her total destruction.

The passengers today adopted a resolution thanking the Japanese government and people for their hospitality. The passengers saved some hand baggage. The crew were paid off and discharged today at the office of the American Consul.

Representative of the underwriters today made another trip to the scene of the disaster, taking several divers with them, but on their return confirmed the previous reports that salvage operations are impossible owing to the roughness of the sea. A number of sacks of mail have been washed ashore.

WILL GO TO JURY TODAY

Argument in Strother Murder Case Is Completed.

CULPEPPER, Va., March 6.—The case of James and Philip Strother, charged with the murder of William F. Bywaters, their brother-in-law, will go to the jury tomorrow. The case was finished at 10 o'clock, when Captain Micajah Woods closed the state's case with a five-hour speech. Judge Harrison being told that the jury had reached a verdict, the stress of the long day, decided to let the case go over until tomorrow morning.

Attorneys for the defense in their arguments today made the plea of emotional insanity. Their clients should be acquitted for sentimental reasons also, they said.

The two defendants still retain the remarkable composure that has characterized their attitude since their arrest. Philip, the younger, whose illness yesterday threatened for a time to bring the trial to an abrupt halt, was considerably improved this morning.

Collision Injures Ten.

LOUISVILLE, March 6.—Ten persons were injured, two seriously, in a collision between streetcars today.

IN ALTON REBATE TRIAL

Denies Alton Road Quoted Through Rates and Calls Wiggins Ferry to Rescue—Judge Landis Overrules Objection.

CHICAGO, March 6.—It became evident today that the attorney for the Standard Oil Company of Indiana, now on trial in the Federal Court on indictments for alleged violation of the Elkins act, are determined to make a strong fight against the indictments proper. The day in court was marked by a continued succession of extended arguments, in which the Standard Oil attorneys contended that the government must prove facts alleged in the indictments or abandon its case.

The principal point upon which their attacks centered was the allegation made in the indictments that the Elkins law was violated by shipments of oil from Whiting, Ind., to St. Louis, Mo., over the Chicago and Alton. It was asserted by the defense that the law could not have been violated in this manner, as the Chicago and Alton Railroad does not extend to St. Louis, but terminates on the opposite side of the river at East St. Louis, Ill. They asserted that the tariff sheets published by the Alton road did not contain a joint through rate to St. Louis and East St. Louis was that of the Wiggins Ferry Company. They objected on this ground to the introduction as evidence of the Alton tariff sheets.

Judge Landis ruled, however, that the ferry company's tariff sheets might be admitted as evidence, as they had been filed with the Interstate Commerce Commission by the Chicago and Alton Railroad and the Wiggins Ferry Company had never objected to the filing of its sheets with the Commission by the railroad company, nor had it objected at any time to the rates given.

EVIDENCE POINTS TO GRAFT

LA GRANDE EXTORTION CASE NEAR END.

Prosecution Brings Out Strong Testimony Against Councilmen Bartlett and Gardiner.

LA GRANDE, Or., March 6.—(Special.)—The trial of Councilmen E. W. Bartlett and S. A. Gardiner, charged with attempting to extort money from saloonmen to allow gambling in this city, has been full of sensational developments since the opening of the case late Monday to late tonight, when the defense presented its case.

Chief of Police Rayburn, the first witness for the state, told how Bartlett and Gardiner had threatened to put him in the hole unless gambling was closed. The chief ordered the gamblers to cease operation. Three hours later, he said, Councilmen arranged with J. C. Klein and J. C. Smith, saloonmen, that for a certain amount gambling should be permitted. He testified that he heard saloonmen say that Bartlett was hard up and that a small sum would "fix it up."

J. C. Klein took the stand and testified that after considerable dickering \$150 was agreed upon as the price which would fix it up. When Smith and Klein handed the money to Gardiner he refused to accept it, saying Bartlett wanted gold and not paper. Later testimony divulged the fact that the money had been placed on a table at the rear of a saloon where it instantly disappeared. When the defendant took the stand they did little to destroy the chain of evidence that the state had produced.

The forenoon was given up to arguments to the jury by District Attorney Ivanhoe. The evidence as given by Klein, Smith and Rayburn is so strong and so little has been accomplished in rebuttal that many are of the opinion that the jury will not be more than two hours agreeing for conviction. The jurors are mostly farmers.

MURDERED BY HIS PUPILS

Oklahoma Teacher Beaten to Death for Whipping Boy.

MI. EBO, Okla., March 6.—Because he attempted to whip a boy pupil, Perry Evans, a teacher of a country school north of here, was assaulted today by a number of male students, and injured so that he died a few hours later. The young men who committed the assault are under arrest. The act aroused intense indignation in the neighborhood.
