

ROOSEVELT BOY FIGHTS DISEASE

Archie Rests Well and Doctors Are Hopeful of His Recovery.

PRESIDENT IS WATCHFUL

He and Mrs. Roosevelt Only Cease Vigil Through Doctors' Urging. Boy's Condition Encouraging, but Danger Is Not Ended.

GROWS WORSE AT 2 A. M.

WASHINGTON, March 8.—At 2 o'clock this (Saturday) morning, the lights are burning brightly in Archie's room. There seems to be unusual activity in the portion of the house in quarantine. An official report from the sick room is that the patient is not resting as easily as in the early part of the night. Drs. Lambert and Kennedy are both at the bedside.

WASHINGTON, March 8.—Archie Roosevelt is resting well tonight and the attending physicians are hopeful of his recovery. Dr. Alexander Lambert, who was summoned from New York to take charge of the case, has informed the President that, while the patient's condition is encouraging, he is not yet out of danger. Mr. Roosevelt was with his son for more than an hour tonight.

A consultation was held at the White House tonight. It was attended by Dr. Lambert, Surgeon-General Rixey and Assistant Surgeons Kirby, Bralsted and J. C. Pryor, of the Navy. At 10:30 Dr. Lambert gave out this bulletin: "The patient is resting comfortably. No complication has developed since yesterday. Thursday and Friday conditions are as good as could be expected at this stage of the disease."

Dr. Lambert Stays on Guard.

It was stated at the White House that Dr. Lambert will not leave Washington until he is satisfied that Archie is out of danger. He has pointed out to the President that diphtheria is a treacherous disease and that Archie may at any time suffer a relapse. Although the President was awake most of last night, he looked none the worse for his vigil and tonight expressed a willingness to remain with Dr. Kennedy, who will spend the night at Archie's bedside. Drs. Lambert and Rixey, however, urged the President to retire at his usual hour. Mr. Roosevelt, who has remained almost constantly with her son since the first day of his illness, also retired early, after being assured by Dr. Lambert that he did not anticipate another change.

President Sticks to Business.

Despite the fact that the President did not retire until 2 o'clock this morning, he arose shortly after 8 o'clock and at once resumed his usual routine. Dr. Kennedy, who had relieved Dr. Lambert, notwithstanding the serious condition of his son, spent the day in his office transacting business at the usual hour this morning, and the usual Friday Cabinet meeting was held.

MATERIAL WHICH MADE

(Continued From First Page.) little different from the American that there is no reason for regarding him as a foreigner. To the American church, Catholic or Protestant, and to the members of the Methodist Church, to science, Dr. William Osler; to journalism and literature, James Creelman, Charles G. D. Roberts and Acton Davies; to the stage, Clara Morris, James K. Hackett, Robert Mantel and many others.

Greeks Proud of Ancient Glory.

Thrift and pride are the most marked characteristics of the Greeks who are pouring into the United States each year. In proportion to their numbers they send more money home than any other nationality, having increased the amount sent by postage money orders from \$20,000 to \$60,000 in one year. This proves thrift. They are all proud of the "glory that was Greece." Step into one of the Greek shining parlors, to be found in almost every city, and you will find that these poor, badly dressed, ignorant-looking boys know the story of Leonidas and the Spartans, of Alexander and his conquests and of Marco Bozaris and his ally, Lord Byron. Aside from the quarrels which proceed from their violent tempers, they are orderly and hardworking and soon become good Americans. The Greeks do not care to farm, and are seldom found outside of our cities.

Good Traits of Japanese.

The area of Japan suitable for agricultural purposes is equal to about one-third of the State of Illinois, and for this reason the most either have colonies or permit the immigration of some of her population. The Japs are taught religious tolerance as a necessary characteristic, each

person being required to worship one day each year in a temple of a faith not his own. It is argued that this training will make them more amenable to American influences, and that they will possibly assimilate better than the Chinese. There are now 40,000 Japanese in California, and 5000 in the Hawaiian Islands. The ones who emigrate from Japan are usually of a picked class, young, ambitious and eager to learn industrial work. It is hard to tell what percentage comes with the idea of remaining, or how many look upon their experience here as an education to better fit them for future operations at home.

It is said that in one of the mining towns of the Colorado Fuel & Iron Company, every means was tried to keep the Japanese out of the country. In the parlors of their houses, and in the kitchen, they were forbidden to enter. The Italians from using their bath tubs for coal bins. The sorely tried sanitary officials contemplated a regulation which provided for compulsory bathing. An armload of Japanese workmen arrived. The first thing the Japs demanded was proper bathing facilities. The health officer not only respected long-unused tubs, but had a swimming-pool built for their use. He was overjoyed to find a people who knew the practical details of cleanliness. An armload of Japanese workmen arrived. The first thing the Japs demanded was proper bathing facilities. The health officer not only respected long-unused tubs, but had a swimming-pool built for their use. He was overjoyed to find a people who knew the practical details of cleanliness.

It was not until the treaty of 1867 that the Chinese Emperor recognized the right of any one of his subjects to emigrate or change his residence. Before then such a thing was a capital offense. When they finally came here they proved efficient servants, and were also demanded in railroad-building and ranch work. One eminent man who has arisen from this race in our country is Dr. Le Po Tai, of Los Angeles, who is a nationally eminent uncle in the practice of medicine. Dr. Tai sometimes has 150 patients a day, and his income is between \$50,000 and \$70,000 a year.

Finn and Slavonic Nations.

The Finns were quite content to stay in their land until the czar wiped out their freedom, enacted stringent laws and made life generally unbearable for them. Many started to America, but England realized their adaptability, though only one man in every 1200 of them can read and write, and diverted the tide of their immigration to Australia and her own colonies. During the last 15 years colonies of Croatians and Slavonians from Southern Austria have been established in Southern California, in Oregon, and in the coal fields of Pennsylvania with great success. There is also a colony of Dalmatians in California.

The Portuguese in the United States came chiefly from the over-populated districts of the north and west. Settling in many of the New England fishing towns, they were noted as good citizens whose homes and clothes are always neat and clean. With the exception of the Chinaman, the Levantines are hardest to assimilate. They have a cunning that encourages suspicion and love of intrigue. This is racial rather than personal, as they come of a race which through known centuries of subjection, and whose very existence was maintained through the means of these unenviable traits.

RADICALS HOLD CONTROL

FORCE ELECTION OF THEIR MEN IN RUSSIAN DOUMA.

Pierce Fight Among Liberal Factions on Demand for Amnesty. Democrats Fall in Background. ST. PETERSBURG, March 8.—The first skirmish for control of the opposition in the lower house of Parliament was won today by the Radicals, who compelled the Constitutional Democrats to abandon their candidates for Vice-President and accept the nominees of the Radical coalition. The procedure of elective officers was today and it was not until after three hours that the results were announced. M. Berzulin, a newspaper man and a member of the Group of Four, received 24 votes for First Vice-President in contrast for his opponent and M. Posnansky, of Kharkoff, a lawyer and member of the Left party, received 30 votes for Second Vice-President. For his opponent, Professor Kapouatine, of Kazan University, was among the defeated candidates.

Spanish Conqueror of Wood Won at Manila.

WASHINGTON, March 8.—"My mission to the United States is to help cement new ties of friendship," said Senator Don Antonio Pinu, the new Spanish Minister in an interview today. "I have not come here to remind the American Government that it defeated us, but to help both countries to live down the unpleasant past." When his attention was called to a recent communication Admiral Dewey addressed to a correspondent, in which the admiral said that he had won his victory by "divine aid," Senator Pinu said: "Please do not consider me irreverent, but if Admiral Dewey won his victory over our navy in Manila Bay by 'divine aid,' I think it must have been the god of war—the aid that iron gave him in conquering wood." Senator Pinu said that his country has prospered since the war, and that his defeat by America had developed into a benefit. "It caused the people to awake to the realization," he said, "that they must be up and doing to keep pace with the times, particularly with America's progress. Following this, both political and commercial conditions have greatly improved."

ENJOINS FAMOUS TENOR

Hammerstein Seeks to Keep Bonci From Joining Conried. NEW YORK, March 8.—Oscar Hammerstein in the United States Court today filed a complaint and an application for an injunction to prevent Alexander Bonci from singing at any theater other than the complainant's during the next two years. The complaint, which was served on Bonci at the Manhattan Opera-House tonight, alleges that the tenor demanded and obtained \$10,000 in advance from Hammerstein before coming to America, in consideration of which the tenor agreed to eliminate a certain clause in the original contract by which both parties would have been barred from taking court action in this country.

CHAPLAIN ROASTS SOLONS

California Assembly Indignant at Remarks of Preacher. SACRAMENTO, Cal., March 8.—Something of a sensation was caused in the Assembly this morning when the Rev. Schivera, a well-known Evangelist, in a long and impressive invocation at the opening of the morning session, regretted that the Sunday law, the anti-vice fight and anti-race-track bills and other moral measures had failed to pass the Legislature, and deplored that "so many were evidently here to draw pay, draw corks and draw poker."

NEW YORK TO ENTERTAIN BRYCE.

NEW YORK, March 8.—The Right Hon. James Bryce, the British Ambassador, and Mrs. Bryce, who will visit Canada the latter part of this month, will be publicly and privately entertained here en route. The Pilgrims Society will give a large dinner for the Ambassador and he will be the guest

ENOUGH TO KILL SIX

Texas Millionaire Suddenly Poisons Himself.

DIES AT THE TELEPHONE

Officials of His Company Go to New York to Audit Accounts and Find Him Dead—Friends Say He Was Insane. NEW YORK, March 8.—An autopsy held today by Coroner's Physician O'Hannon disclosed that Leonard Preston, a millionaire, who died suddenly yesterday at the Hotel Cumberland, had enough hydrocyanic poison in his stomach to kill six men. Coroner Harburger immediately reported the case to the police. Mr. Preston was New York manager for the Timken Railroad Bearing Axle Company. He died while telephoning to some business acquaintances. The hotel physician, who was called today when Mr. Preston succumbed, gave the opinion that death had been caused by a cerebral hemorrhage. Mr. Preston's widow told the coroner that her husband returned from New Orleans two weeks ago suffering from a severe attack of grippe, complicated with bronchial troubles. Against the advice of his physician, Dr. Millem, he insisted upon transacting business.

Death in Two Minutes.

When Mr. Preston died, Mr. Timken, head of the concern of which Mr. Preston was New York representative, Leonard Gray and Edward R. Hewitt, were in the hotel office. They went up worded that they wished to see him. Preston answered the phone, telling them to "come right up." Two minutes later, when they reached his suite, Preston was dead. Representatives of a law firm were summoned to Mr. Preston's room and remained there until early today, going over books and papers. Mr. Preston came to New York from Dallas, Tex., some years ago. He was said to be the sole heir to a fortune of \$3,000,000 in New Orleans and to have amassed another fortune of \$1,000,000 in business. He was 46 years old, tall, muscular and very strong.

Mr. Preston's friends have assured the coroner that his business affairs were in good shape and no motive for suicide other than possible temporary insanity brought on by illness has been suggested. Mr. Cook, one of Mr. Preston's intimates, received a telegram today from Mr. Preston's brother in Dallas, asking that the body be sent there for burial. Accounts Were to Be Audited. Preston was born in Paris, Tex., and was reputed to be very wealthy. Since his death, however, it has not been possible to determine that he was possessed of any considerable property. The Timken Company, of which he was Eastern Representative, is located at Canton, O. Recently it was decided to audit the accounts of the company here and Mr. Timken was in the city for that purpose. Mr. Timken arrived Wednesday and was immediately reported to the police. Because of his illness, Mr. Timken was unable to meet his associates at the office and for his convenience they made an appointment to meet him at his hotel. When they reached his room Mr. Preston was dead.

Special for today again, your choice of any piece 39c for.....

STEAMER DRIVEN ON ROCKS

Soloto Being Battered to Pieces on Cape Breton Coast. HALIFAX, N. S., March 8.—The Mexican line steamer Soloto is reported ashore on the ledges of Lunenburg, C. B. Word was received here late today that the steamer was torn from her anchorage during yesterday's terrific storm and driven upon the rocks. The boat left Halifax on Wednesday for Lunenburg to take on board 1200 tons of coal, after which she was to return to this port to load a cargo for Havana and Mexican ports. The Soloto is a British steamer of 3900 tons register and is in command of Captain Cotterell. She arrived at Halifax from Vera Cruz March 1. When the Soloto broke adrift the wind was blowing 99 miles an hour and the liner was helpless as she scudded before the gale. The steamer grounded on White Rock Shoals and held fast, the seas breaking over her until the storm abated. It was not until today that assistance reached her. Two powerful tugs made several attempts to float the stamer, but she is still fast. The steamer is owned by the Elder Dempster Company. The steamer was hoisted tonight. It is thought she is seriously damaged.

TWO DEATHS FROM BLIZZARD

One Body Found in Snowdrift, Another on Offshore Ice. SYDNEY, C. B., March 8.—At least two lives were lost and several persons are missing as a result of the terrific blizzard that swept over Cape Breton yesterday. Today the body of John Brown, aged 35, of Sydney mines, was found in a snowdrift a quarter of a mile from his home. The corpse of Angus McDonald, aged 37, was discovered on the ice several hundred yards from shore.

LOST WITH CREW SEVEN MEN

Fishing Vessel Founders in Furious Newfoundland Blizzard. ST. JOHN'S, N. F., March 8.—A blizzard has raged throughout Newfoundland for 48 hours, blocking railroads and damaging shipping. A fishing vessel with a crew of seven men foundered on the coast and all hands are lost.

YAQUIS LEVY DEATH TOLL

Pick Off Mexicans and Force Ore Trains to Have Guards. EL PASO, Tex., March 8.—Letters received today from A. J. Hardick, who is

today in connection with the mysterious murder of Mrs. Kate Quernheim, whose dead body, shot, cut and bruised, was found in her home last evening. He is being held pending investigation into statements he made following the discovery of the deed. A second-hand dealer called on Chief of Detectives Smith today with several articles identified as having been taken from the Quernheim home. The dealer said he had purchased the articles and described the seller. OMAHA, March 8.—The Street Carmen's Union last night voted against a strike to enforce their demand for a "closed shop."

mining in Sonora, Mexico, say that the Yaqui Indian troubles are not over nor have the Mexican troops control of the situation. An officer and 11 Mexican soldiers from Fort San Marcial were killed in a fight with the Indians last week. It is necessary to transport ore and supplies under heavy guard. HUNSON, Nathaniel E. Martin, of counsel for the petitioners, said tonight that no decision had been reached as to when service will be made on the defendants in Boston, Fall River and Chicago. MASSACRED BY DYNAMITE. Thirty-five Mexicans Dismembered by Great Explosion. EL PASO, Tex., March 8.—Advice received from Chihuahua today state that 35 persons—men, women and children—were killed at San Andres, 29 leagues from here, yesterday by the accidental explosion of a large quantity of dynamite. Argue Law Points in Iroquois Case. DANVILLE, Ill., March 8.—The trial of Will J. Davis, charged with the slaughter in connection with the Iroquois Theater fire at Chicago, is now in a stage interesting chiefly to lawyers. State's Attorney Keastar devoted the entire forenoon to a reply to arguments for the defense which dealt with the indefiniteness of the Chicago ordinance. Special Counsel Buckingham this afternoon argued that the five times described in the Chicago ordinance are definite and therefore will stand. Suspected of Quernheim Murder. ST. LOUIS, March 8.—Harry Mueh-meyer, aged 35, was arrested at his home
