4 DEAD · SCORE HURT

Santa Fe Trains Collide Head On in Los Angeles.

CRASH HEARD FOR BLOCKS

Three Bodies Thought to Lie Beneath Debris-Several of Injured Not Expected to Recover. Trains Meet at High Speed.

LOS ANGELES, March 24.-In a headon collision between two Santa Fe trains within the city limits last night at least four persons were killed and a score were injured, several of them fatally

A Santa Fe special, carrying scores of students returning from an inter-colle-giate field meet at Charemont, met the Santa Fe overland train while both sins were moving at a rapid rate of eed. The engines were wrecked, one the baggage cars on the overland de-clished and the crash was heard for ooks. The collision occurred in that part of the Los Angeles river bed occu-pled by the Santa Fe tracks and directly beneath the Buena Visia street bridge. Up to midnight the authenticated list of dead included the following:

G. FRANKLIN, student at University

PRED HODGSON, all three students of

Engineer Fred Walker, Overland train; Fireman H. H. Beal, Overland: A. G. Ross-man, Philadelphia: C. Stuart, Charemon, Cal.; F. H. Cutting, Pomona, Cal.; T. Wor-jey, Claremoni, Cal.; Edward McLellan, Pomone, Cal.; Clarence Jones, J. Smith, E. F. Smith, Eugene Etoppey, Lloyd Worrell, Los Angeles, T. N. Worrell, R. W. Wilson, Miss Etta Lane, Charles Parsons, Guy Goodwin, all of Los Angeles. A large force of men worked frantically until daylight because of a report that

three persons were still missing and it believed that their bodies were pinned eath the telescoped cars. Several of injured are in a critical condition and feared that two may die.

Responsibility for the collision will not be officially determined until after the Coroner's inquest on Tuesday afternoon. In all statements made to newspaper representatives the railroad officials indicate that the wreck was due to disobedience of orders on the part of Engineer Kelly of the Santa Fe overland. Kelly has admitted that he received

written orders to stop his train at a tower 200 yards before reaching the scene of the collision. The engineer stated that he "had not had time to read his orders before pulling out of the station."

Deputies from the Coroner's inquest spent the greater part of the day at the scene of the collision and stated that one or more agreeds for mandestates.

more arrests for manslaughter were

LONDON CABMEN PROTEST

Declare Use of Taxemeter Motor Cabs Will Reduce Their Income.

LONDON, March 24.—Another mod-ers improvement has called forth a protest from those who inevitably must suffer by its introduction. Several thousand London cabmen assembled today on the Thames embankment and marched to Hyde Park, followed by 5000 sympathizers, where they provigorously against the Home Secretary for permitting the introduc-tion Saturday at cheap and strictly regulated fares, of taxemeter motor

While the latter are considered the beginning of the greatest revolution in less, this means suffering to the cab-men and their families through diminution of income or loss of em-

It was determined to make matters warm for Mr. Gladstone, the Home Secretary, for favoring what the cabmen called "motorcab syndicates."

AUTO BOAT FOR OREGON

Order for Engine Placed by St. Helens Man

OSHKOSH, Wis., March 24.—(Special.)

—A contract has been placed here for an engine for a power boat, being built for Dr. Harrierollin, of St. Helens, Or. The engine is to be 15 horsepower, but the craft in which it is to be placed will be of small size, so the power generated will be enough to make it probably the fastest auto boat in Oregon. The boat is to be a duplicate of that which is building for the Government at Planquemine, Florida, for the use of the Government Engineer in charge of levee repairs

RUSSIAN SHIPS PAY VISIT

Anchor Off English Coast First Time Since Japanese War.

SPITHEAD, England, March 24-A Russian squadron, consisting of the bat-ticships Tsarevotich and Lava and the protected cruiser Bogatyr, arrived off Splithead today. This is the first visit of Russian warships to English waters since before the Russo-Japanese war, Many festivities have been planned for the officers and crews during the brief stay of the squadron.

TO NEW ZEALAND VIA SUEZ

Mail Intended for the Islands Will Go by Eastern Route.

LONDON, March 24.—The Postoffice Department announces that the steam-ship service between New Zealand and San Francisco having stopped, no mails will be sent or received by that route until further notice. Mails for New Zea-land are now going by way of the Suez

LIBERTY IS NOT EQUALITY

Attorney-General Bonaparte Lectures in Carnegie Hall, Chicago.

NEW YORK, March 26.—Attorney-General Charles J. Bonaparte lectured at Carnegie Hall tonight on "Socialism and Charity." Archbishop John M. Farley

Charity," Archdishop John M. Farley presided.
"It has been said on high authority," raid Mr. Bonaparte, "that the poor need 'not alms but a friend." I should say rather that they need both; alms to do

"As I have said on another occasion, the root of Socialism is the doctrine that all men of right ought to be, and should therefore be made and be kept, precisely equal. This doctrine is a wholly arbitrary dogma, a pure assumption, justified neither by reason nor by history, and in fact contradicted by the daily experi-ence of all mankind; but it was so earnestly and so widely preached by the apostles of the French revolution and has so gravely affected legislation custom and public opinion wherever the influence of the revolution extends that to question its truth even now seems to a cer-tain class of teachers and thinkers little

'In its original and salutary form, and s it found echo in our declaration of in-epondence the cry for 'equality' was oupled with one for liberty, and in this country it amounted to a protest against arbitrary and oppressive privileges, against distinctions justified by no material difference, to a demand that the law give every man a fair field and no

"But it was quickly seen that to make nen more free would make them less searly equal; that the fairer their start the more quickly and surely would me to the front and others fall behind: hat, in short, if 'equality' had the mean-ng which leaders in revolutionary hought are more and more inclined to give it, 'equality' is inconsistent with 'liberty,' and they must choose between

BUT ONE FATALITY FROM POI-SONED HASH.

Physicians Resort to Heroic Meas ures and Lives of Old Soldiers Are Saved.

LEAVENWORTH, Kan., March 24. Special.)-The first fatality as the result Home yesterday morning, was the death late this affernoon of William J. Cook, aged 44, a member of Company C, of the Fourteenth Missouri Cavalry. The physicians say they do not believe there will e any more deaths resulting directly

from this cause. The home physicians, in the task of immating the poison from the systems of the old men, used heroic measures, and over a barrel of Epsom salts was administered, and in severe cases where symptoms of heart failure were apparent us a result of the polson, stimulants were administered by hyperdermic injections. John W. Syfritt, cook at the Soldiers' Home, sald today:

"The hash is never prepared in copper kettles, and the meat used was not fresh ever it was, was in the meat when it came from the packing-house, as the meat was corned beef and was cooked right from the barrels in which it came. No meal is prepared a day shead. All

No mean is prepared a day anead. An breakfasts are prepared on the morning of the day they are served.

"The mletake and responsibility rests with the packing-house which furnished the meat, and not with the preparing. We use 500 pounds of corned beef, 15 bushels of potatoes and four bushels of onions in making the lush for a single breakfast. It is all cooked on the morn-ing it is eaten."

DANGER LURKS IN APATHY William Lloyd Garrison Regrets In-

activity of Friends of Negro. BOSTON, March 24.-William Lloyd

narrison presided at a mass meeting held in Tremont Temple today under the aussices of the industrial department of Moris Brown College, of Atlanta, Ga. Mr. Jarrison said:

What disturbs me more than the attitude of the Southerners who are making capital out of race hatred are the conces-sions of Northern friends of the colored people who have been truly helpful in the encouragement of Southern schools. Because prejudice is deep-rooted and is ountenance be given to this hateful spirit countenance be given to this hateful spirit. Not even Southern lynchings are so dis-heartening to the friends of equal rights as the acquiescence of such men as ex-President Cleveland, President Ellot, of Harvard, and Bishop Lawrence, of Massa-

Harvard, and Bishop Lawrence, of Massa-chusetts (all desirous of uplifting the colored race) in the nullification of the afteenth amendment and the mainten-ance of caste schools."

Mr. Garrison argued that the white South has shown "no sense of responsi-bility," since "usurping all political power" and that it has discriminated against colored schools in appropriations.

BRYAN PLEADS FOR THEM

Speaks in Behalf of Russian Leaders Who Pay Visit to America.

CHICAGO, March 24,-W. J. Bryan presided at a public reception here to-night to M. Alexis Aladin, leader of the Radical left wing of the Russian Louma, and Count Nicholas Tschay-kovsky, a prominent member of the

Russian Radical party.
"Both of the Russians," said Mr.
Bryan, "stated that they came to
America to explain more fully to the American people the Russian situation and to plead that "this nation of free-dom let the Russian government hear its mighty word against the barbarities and oppression. And, therefore, I believe the visitors have a right to come to us with their story. It is a compliment to us that a people any-where on the globe with an appeal to a sense of justice should come to us

Circulars were distributed among the audience of 4000 people addressed to Congress and asking that the United States make formal protest against "the perverted use of governmental functions, of which the Russian people are the victime."

BURTON'S WORD IS DENIED

Government Never Offered ex-Senator a Pardon When in Jail.

WASHINGTON, March 24.-Peyton Gordon, United States Attorney in charge of pardons, tonight denied the statement of ex-United States Senator Burton that a pardon had been offered to Mr. Burton a few days after he was placed in jail at Ironton, Mo., to serve his mx months'

Mr. Gordon declares that a few days Mr. Gordon declares that a few days after Mr. Burton's imprisonment began a number of letters were received at the Department of Justice asking for a pardon for the ex-Senator. As there was nothing to indicate that these letters had been written with Mr. Burton's knowledge, Mr. Gordon wrote to Mr. Burton and called aftention to the letters and suggested that if Mr. Burton so desired, the communications would be forwarded communications would be forwarded the President. No answer, however,

maintained between New York and the capital. During the Mexican War a Baltimore newspaper organized a pony express from Baltimore to New Orleans and got its war news hours ahead of the Government service. The first use to and got its war news hours ahead of the Government service. The first use to which the telegraph was put was to carry news for the papers. In 1846 Henry Clay made a speech on the Mexican War at Lexington, Ky. It was taken 80 miles to Cincinnati, and from there telegraphed to the New York Herald, which printed it next morning in full. It was the first speech ever sent by wire and its publication caused a variable sensation. In that on caused a veritable sensation. In that same year, when the Oregon boundary stion was the burning issue and trou-with England was expected, the ery "fifty-four forty or fight" caused a ombination of papers to charter a swift pilot boat to get the latest news from England.

News Three Weeks Old.

When Lincoln was killed more than three weeks clapsed before the comment of the European press appeared in Ameriof the European press appeared in Ameri-can papers. When Garfield was shot, the Associated Press furnished two columns next morning of what the monarchs and newspapers of the Old World had to say deploring the tragedy. cable was a success as early as 1866, bu was in the Franco-Prussian War of 570 that it was first used for newspa-ers to any considerable extent. At first e cable rate was \$100 for twenty and it took a rich newspaper to pay the

Practically all of the papers in the years just before the Civil War had the same "make-up." Congressional or Wash. ngton news came first, then the Euro pean news, if a vessel had arrived, and after that whatever little local chapter of novel and advertisements ga-

Dana Begins Revolution.

Charles A. Dana of the New York Sun more than any other one man, was sponsible for the revolution in the mu ner of handling the news. He broke away from the conventional notion that Washington events were always most important and made each bit of neys stand on its own merits as to interest. movement did away with the old style of reporting the deliberations of Con-gress verbatim and in sequence, as is now done only in the Congressional Record. This way of printing the news from Co gress was responsible for the fact that, when Fresident Andrew Johnson was im-peached, the subscriber of the New York Tribune was forced to read through four columns of unimportant matter to get to the impeachment of the President in the House of Representatives.

Great Feats of Enterprise.

Feats of American newspaper enterprise have astonished the world. The New York Herald sent Henry H. Stanley to Africa to find Livingston. Only jast year James Keeley, of the Chicago Tribune, went to Africa in pursuit of an absconding bank cashier and caught him. When the New Testament was being revised in London W. W. Stony of the old vised in London, W. W. Stony, of the old Chicago Times, had 8000 words of it caed New York, he had it telegraphe Chicago over twenty-one wires for ublication in the Times. During the Civil War the New York Herald had six ty-three special correspondents in the field, a field staff larger than any paper has ever had, before or since, working

The Spanish War gave the modern American newspaper a chance to show what it could do. When the Nashville fired the first shot across the bows of the Buena Ventura, the New York Journal found enough interest in the fact to all of the newspapers in New York put together had devoted to the battle of Gettysburg. The battle of Gettysburg got a headline across one column, while the first shot of the war with Spain com manded headlines as wide as the paper, and nearly all of a twenty-four-page issue was devoted to half-tone pictures of battleships, forts, Navai commanders, Army officers, Spanish grandees and the "experts" who were analyzing the situa-

Progress in Illustrat

The invention of the photo-engraving process, from which comes the half-tohas done much to change the character and appearance of newspapers. Illustrawood-cuts was slow and expensive. The zinc etching was a fallure nine times out of ten, and the chalk-plate an abomination. The half-tone is so quick and accurate that it is the ideal illustration. In the nineties the color press came into use. Printing papers in colors has never proved popular in the greater part of the United-States, although in Colorado there is a long-continued epidemic of red headlines. The color press made the comic supplement possible and put many of the old-time politico-comic weeklies out of business. ensive. The zinc etching was a fallure olitico-comic weeklies out of business, he variety has cheapened them, and here is a distinct movement against the comic," not only in the churches and schools, but among newspaper men, too However, the "funny section" has been popularized to such an extent that Buster Brown. Mande the Mule and Happy Hooligan are as much a part of American life as the United States Senate.

Circulation 8,000,000,000 a Year. Sending out eight billion copies a year, are exerting an influence such as has never before been known in the world. All of the schools and colleges and uni-versities in existence do not educate as many men and women. It is several said that the newspapers are not as in-fluential as they once were, but the thinking man knows better. Editorial dictum is no longer accepted as it once was, but the newspaper gives the news and the reader draws his own conclu-sions. Printing the news has made the newspaper of America, taking it by and arge, quite the most wonderful thing on Tomorrow — Distinctive Features of American Newspapers.

HOT WAVE OVER IN EAST Snow Falling in New York, While

Thermometer Is 85 in Ohio. WASHINGTON, March 24.-The Weath washington, march a - he weam-er Bureau tonight announced that the hot wave has broken in the East and throughout the Ohio Valley, though the Summer-like weather will continue in the South and Southwest.

The highest point reached by the Iner-

mometer today was 85 degrees. It is snowing in Albany, N. Y., and in many parts of New England, and predictions are now that there will be several weeks of cool weather,

CLEVELAND ON RAILROADS

Declares Rash Statements of People Will Be Regretted Later On.

PRINCETON, N. J., March 24.—"There is much of the nature of delirium," said ex-President Grover Cleveland in an interview yesterday. "In the popular outcry against railroad corporations. We shall all be ashamed of it by and by. "There is much that is not only

groundless, but wrong in the off-nand groundless, but wrong in the off-and attacks made on the railroads by thoughtless people. We should reflect that the railroads are vitally related to our prosperity, and that to attack them needlessly is to attack ourselves. It is not the stock of soulless millionaires, but the property of citizens, of widows and orphans, whose savings are invested in railroads, that is being damaged. We shall recall what the railroads have been and still are to railroads have been and still are to be in the development of our country, and this craze will pass. "Of course, there muse be some form

of Governmental supervision, but should be planned in a quiet hour, not in one of angry excitement. Popular emotions follow peculiar laws." notions follow peculiar laws."

Discussing the political situation, Mr. Cleveland said:

behooves Democrats to lose no in bringing to the front the issue of the tariff reform, and in focusing the attention of the country upon it. Tariff reform is the issue that will clarify the atmosphere, solidify the larify the atmosphere, solidify the

MUMMY PRESENTED TO WASH-INGTON SCHOOL UNNOTICED.

H. A. Bowers, Who Secured Alaska Curiosity at Great Risk, Will Ask Its Return.

SEATTLE, Wash., March 24 .- After sking his life and narrowly escaping the loss of a \$3000 launch to secure the mummified remains of an old Indian medicine man from a small island ould measure up to the standard of the 12 miles from Sitka, H. A. Bowers, who ay. There were always some poetry. a controls the sale of gunpowder in Alasentrois the sale of gunpowder in Alaska and is exceedingly wealthy, cannot even get an acknowledgment from the University of Washington, to which he sent the curlosity. Bowers has been in Seattle a month, and if he does not oon hear from the school, he is going out to take back the curlosity and send to the Smithsonian Institute or some ther place where they return letters

ind where the mummy was, and when lowers heard of it he could not induce he red men to take him to the cave. The story of the medcine man's sleep had become a tradition known to the oldest of the Indians, but Bowers wantd to verify it for himself,

After a dangerous run, he made a anding on the island, and located the cave in January of this year. It was 10 degrees above zero on the outside, but inside the cave the atmosphere was so warm that Bowers had to shed his After a hard struggle, he succeeded in getting the mummy out and shipped it to Seattle. He inclosed it in a glass case and sent it to the uni-versity as a loan in the museum. The mummified remains were for-

varded to the university in February More than a month passed, and Bow-ers has never been apprised of the mummy's arrival, though he has learned indirectly that it was received,

NEW YORK GAVE \$22,724

Final Report Is Made on San Francisco Relief Fund.

NEW YORK, March 24.—The New York, lity committee of the relief sufferers by he California earthquake disaster has ust made its final report to Mayor Mc-Tellan. The total amount secured by he committee was \$501,979, the account having been closed on January 7 by the transfer to the American National Red Cross Society of the balance on hand of \$22.73. All moneys collected were trans-mitted without reduction, the committee as expenses being met in full by its own

reached the Postoffice Department that many clerks and lettercarriers who indicated their intention some time ago to retire from the postal service will continue in the service. Those who had given notice of their intention to resign included not only clerks and carriers in city offices, but rural malicarriers.

Their complaint was that they could not live on their present salary by reason of the increase in their household expenses. The force of the complaint was recognized by First Assistant Postmaster-General Hitchcock, who strongly recommended an increase in salaries. The recommendation was approved by the then Postmaster-General, Mr. Cortelyou, and was taken up by Mr. Hitchcock with the committees of Congress.
