SENATOR TILLMAN PAYS BRIEF VISIT

Roosevelt Not Sincere Trust-Buster, According to the South Carolinan.

ALL FOR POLITICAL EFFECT

Senator, With His Wife and Their Three Little Daughters, Is Touring Coast-Party Leaves for the North.

Senator Benjamin R, Tillman, of South Carolina, with Mrs. Tillman and their three little daughters, spent several hours in Portland yesterday, having arrived in the city at 2 o'clock from San Francisco. The party left at 11:45 o'clock last night for Sentile, and they will go to Yellowstone Park after spending a few hours in that city and Tacoma.

When seen at the Oregon Hotel Senator Tillman said that they were making a pleasure trip through the Coast cities. They would have spent more time here, but are figuring on catching a weekly

They would have spent more time here, but are figuring on catching a weekly locat from Duluth to Buffalo, and this is keeping the party moving.

Senator Tillman was dressed in the typical South Carolina costume of a pish black coat, dark striped trousers and a huge black, soft hat There was no "put on" in his appearance and his family were dressed quietly. The whole party represented quiet and interested travelers, and it almost appeared that they were incog-

Senator Admires Portland.

Senator Admires Portland.

"Portland and its surroundings compose scenery that I have never seen surpassed in any state I have visited," he said, affably, with his Southern pronunciation and grave courteous manner. "I was here last in 1896 and stood upon one of the hills back of the city. I never shall forget the panorama before me. We took a ride to Hillerest this afternoon and the view was as beautiful as ever. The growth of the city has been immente, and there are more trass in sight than when I was here last.

"We were intending to take a trip up the Columbia to The Dalles, but a

up the Columbia to The Dalles, but a late train forces us to hurry on to keep up with our schedule, I would sconer take a trip up the Columbia than do anything else on the Coast. The beauty of the river is immense."

Mr. Tillman stated that he had been betturned by Kanasa Nebraska and the

octuring in Kansas, Nebraska and the Dakotas some weeks ago, but on join-ing his family at Denver for the trip West he had refused to make any speeches. He had been almost forced speeches. He had been almost forced to speech at a gathering in Fresno, Cal.

"We spent only a few hours in San Francisco," he said, "because we had been warned by people returning from there that visiting was not pleasant. I particularly noticed the gloomy appearance of people on the streets and the workmen appear to wear a habitual speech.

Interested in Schmitz Case.

"The graft in municipal matters there interests me considerably. I am waiting to see how long Schmitz and his associates will manipulate their de-

the outlook for the party is bright if the

Democrats pull together."

He refused to be drawn out on the begro question, merely stating that a six months' solourn in the South would convince any Northern man of what the negro really is, while it would not solve the question. On being asked regarding the Hill and Harriman deals, and the nvestigation being held regarding Harri-

NEW POST FOR A. L. SUTTON

Sutton returned and the resignation was formally announced. His standing among all the officials is high, and bis advice is often sought and freely given among all the departments.

OREGON BOY TO PHILIPPINES

Louis Henderson, Eugene Graduate,

Gets \$1400 Government Job. UNIVERSITY OF OREGON, Eugene, June 14.—(Special.)—Louis Hender-son, of the senior class, has secured a \$1400 position in the Government engi-

\$1400 position in the Government engineering service in the Philippine Islands, and will leave for the Orient on July 18 from San Francisco.

Henderson has been a prominent man in college, both in the Glee Club and on the track. Last Winter he wrote a song, "Hall to Cregon," which was one of the strongest numbers of the Glee Club programme, and which has been adopted as one of the college songs. His home is in Hood River.

Banquet Fairbanks at Seaside.

ASTORIA. Or., June 14.—(Special.)—
The committee having charge of entertaining Vice-President Fairbanks during his visit to this city on July 15 held a meeting with Colonel Moore today and decided to hold the banquet at the Moore hotel at Seaside. This will not interfere with the entertainment here, as the banquet will be in the evening.

Banker Indicted 95 Times.

PIERRE, S. D., June 14.—The Federal grand jury today indicted on % counts Charles C. King, former president of the First National Bank of Scotland, S. D., missner charging him with embezziement, misap-propriation of funds, false entries and fraudulent issuance of certificates and

CUT-OFF PLANNED AROUND NAPAVINE HILL.

Work Expected to Begin Within Sixty Days to Rebuild Unprofitable Piece of Road.

CHEHALIS. Wash., June 14.—(Special.)
There is reliable authority for the statement that within probably 60 days the Portland & Seattle Railway Company will resume construction work at Chehalis on a cut-off which will connect this city and Winlock. The purpose of the 14 miles of construction work is to avoid the heavy grade of the Napavine hill, over which two extra engines are continually required to push the heavy freights of the Northern Pacific. The grade on the Napavine hill is 1.25 per cent, while by way of Stearns Crock, where the new track will practically parallel the proposed Oregon & Washington, extension of the Union Pacific, a 6.10 per cent grade has been found. Late in June last year the Portland & Seattle announced its intention to build an electric line between Portland and the Sound, construction work to begin at once at Chehalis. Grading outsts and other workers were put to work here and up Stearns Crock at that time, and thousands of dollars expended in reshaping the old Union Pacific grade which was orginally built in the early 20°s. Thousands of ties were bought and much bridge material assembled. This whole performance was regarded as a bluff here, however, by the Hill interests to hamper the Union Pacific, and there was very excellent reason to believe that this was the case.

However, this new move is undoubtedly CHEHALIS, Wash., June 14.-(Speciali) the case.

his associates will manipulate their defense before he is finally sent to prison. At the least, I believe it will be two years before they get through with various pretexts before he is behind the bars."

"What do they think of Bryan, at present, down South?" he was asked. He gave a sigh, and answered:

"Bryan can always raise enthusiasm in most parts of the South. He has some backbone and firs. But, when I think of that municipal ownership proposition, when he practically had things his own way, I—" and here he paused in a suggestive manner.

"It is too early to talk on what the Democrats will do," he continued, "but the outlook for the party is bright if the Seattle will find serious difficuity here However, this new move is undoubtedly Seattle will find serious difficulty here when they undertake this work in good faith.

DIVIDED ABOUT THE BRIDGE

Sentiment Not Altogether in Favor of Railroad Crossing Coos Bay.

of Railroad Crossing Coos Bay.

MARSHFIELD. Or., June 14.—(Special.)—Coos Bay citizens are divided on the question of allowing the Southern Pacific Railroad Company to place a bridge over the bay. Among some it is the convicted of wrongdoing? Pahawi All this talk of what Roosevelt is doing is the worst kind of humbus. Has be ever had the land taken by these graiters returned to the Government? What has he done to put these wholesale robbers into prison? Why, no matter how bad matters are in the investigations that are being stirred up, the perpetrators of crookedness manage to escaps with small fines which they are well able to pay.

"Tregident Roosevelt is not the earnest trust and graft buster that people are led to believe. He merely molds his efforts to catch popular opinion."

Mr. Tillman announced that he would lecture at the Chautauguss during the Summer and would come out on the Coast for a longer stay next Fall on a lecturing four.

Varied Sources of Its Great Prosperity.

MINES, TIMBER, FARMING

Many New Development Schemes Are Being Carried Out Which Mean Much for That Part of Oregon.

BAKER CITY, Or., June 14.—(Special.)—During the past year the growth of Baker County has been the most rapid of any period in its history. Baker City is enjoying a steady and healthy growth. The financial institutions of this city are the soundest of any city of the same size in the state, the citizens of this community having more than \$2,000,000 on deposit in the banks.

One of the big industries that is bringing prosperity to this part of the state is the lumber turned out by the mills of this section. In South Baker is eituated the large mill of the Oregon Lumber Company that daily turns out 125,000 feet of finished lumber. This plant employs about 300 workmen. The Oregon Lumber Company has under construction a large mill at Austin, the terminus of the Sumpter Valley Railroad, that will have a capacity of 50,000 feet, and the building of this mill will save hauling the logs a distance of 50 miles to Baker City. The capacity, of this plant will be gradually increased to 150,000 feet.

There is a large area of Government timberland in Baker County that is

There is a large area of Government timberland in Baker County that is open to entry, and many people are arriving daily from the East to file upon these valuable claims, which are worth from \$2000 to \$2500 as soon as

Will Have Street Railway.

Will Have Street Railway.

That Baker City will soon be a bustling and up-to-date city is gleaned from the fact that the Council recently granted a franchise for an electric street railway to William Pollman, president of the Baker Loan & Trust Company, with the atipulation that two miles of this line be built and in operation within one year from date.

The road that will boom Baker City is the Eagle Valley Railroad, that will be constructed from Baker City to Cornucopia, a distance of about 65 miles. This line will pass through the great Seven Devils mining district, and afford an outlet for the ores of many of the rich mines, and will be the means of marketing the crops of fruit of Eagle and Pine Valleys. William Vincent, premoter of the road, is now in Boston in the interest of the line, for which the citizens of Baker City have pledged \$100,000. That this line would be a paying proposition is not doubted by those who are conversant would be a paying proposition is not doubted by those who are conversant

with the conditions.

The growth of Baker City during the past few months has been steady and of the most substantial kind. Many new buildings have been erected and several are now in course of construc-tion. The business houses are being built of Pleasant Valley stone, the finest that can be obtained in the state. Altogether, the sum of about \$350,000 has been invested in perma-nent buildings in Baker City within the past year or two, and nearly an equal amount will be spent during the coming year.

equal amount will be spent during the coming year.

The city is proud of the fine public library that is housed in the handsome City Hall and an application has been made by the board of trustees for a Carnegie building.

The many fine mountain streams in Pastern Oregon afford excellent opportunity.

are being rapidly developed, as this source of power is much cheaper and more satisfactory than steam power. The most prominent of these establishments is the Radium Electric Company, a home cor-poration, which was granted a franchise this Spring to do business in Baker City. The Eagle River Development Company is building a large plant on Main Eagle that will furnish power for many of the mines east of Baker City.

Irrigation Helps Baker.

reservoir is situated one mile east of Baker City and will cover 240 acres; the main ditch is 12 miles long and brings the water from Powder River. The land to be irrigated is very rich and will raise immense crops of alfalfa, wheat, oats, barley, fruits and vegetables.

The greatest growth and development of Baker County has been among its mines. It was only a few days ago that the largest mining deal of recent years was consummated in Baker City when the Oregon-Idaho Investment company-transferred to a New York syndicate the Poorman and Sovereign group of mines on Goose Creek for the tidy sum of \$250,000. The new company purchased the

on Goose Creek for the tidy sum of \$250,000. The new company purchased the properties only after a thorough investigation and are satisfied that they have a very rich property. The development work has been in progress only about eight months and the mines were sold upon the surface showings.

W. Henry Harris, a wealthy Eastern capitalist, recently came into the copperfield and purchased a group of claims on Goose Creek not far from the mines which brought such a handsome price. He has brought engineers and experts from the East to examine the property and they are enthusiastic about the great wealth which is cropping out all over

the construction of the remainder of the Albany After Public Buildings.

ALBANY, Or., June 14.—(Special.)—A campaign for a Federal building for Albany was launched last evening, when the City Council memorialized the Oregon delegation in Congress to work toward that end.

Albany' needs a Federal building primarily because of the large business of the local postoffice. Because of the junction of the Southern Pacific and Corvallis & Eastern railroads here and the branch lines running out from this city the Albany postoffice handles a great amount of mail.
