

WHEAT PASSES SEASON'S RECORD

May Delivery Sells at \$1.10 and Price Continues Strong.

WORLD'S SUPPLY SHORT

Foreigners Buying Eagerly and the Bulls Control Market—Other Cereals Reach Record Price—Government Reports Bullish.

CHICAGO, Oct. 9.—(Special)—Wheat made a record for itself today, selling at \$1.10 1/2 for May delivery, the top price paid on the Board of Trade this year. James A. Patton and his followers, who are said to be "long" many million bushels of the cereal, were persistent buyers and there was active buying for foreign account.

The idea of shortage in the world's supply appears to have taken complete possession of the foreigners, and of late the markets of Europe, as well as those in this country, have displayed much bullish activity, while sales of American wheat for export have been large. Corn and oats also were strong, and the latter are now selling at the highest prices ever recorded in this market at this season of the year.

LOBSTERS ON THIS COAST

Experiments to Be Conducted in Interests of Industry.

OREGONIAN NEWS BUREAU, Washington, Oct. 9.—Now that the Atlantic coast has been successfully transplanted in Pacific waters, attention is being turned to the lobster, one of the greatest delicacies that enters the Eastern market. New England supplies most of the lobsters found in Eastern markets, though a few are caught further south. The State Department is advised that efforts are under way to establish a lobster industry in the waters of British Columbia.

A few years ago the Canadian Fisheries Department planted a few lobsters at different points in the waters of British Columbia. Professor Prince, who is at the head of the Canadian Fisheries Commission, is now on the coast making an examination of the beds where lobsters were planted to see what increase they had made, and he will investigate a number of different places with a view to a large planting of lobsters. If it is found that those already planted have done well, it is said that Professor Prince will look into the temperature of the water, the character of the bottom and other particulars, before any decision is reached regarding planting more lobsters. If conditions are found favorable it is intended to plant extensive beds of lobsters, so that in the course of four or five years the lobster-taking industry will be established on a large scale.

PANIC AMONG TENEMENTS

Great Fire in Car barns Causes Frenzy Among the Poor.

NEW YORK, Oct. 9.—Hundreds of lives were endangered, thousands of persons were thrown into panic, 125 electric cars were on several cross-town lines were destroyed and property loss to the extent of \$400,000 was caused by a fire in the Fourteenth-street car barns early today. Three hundred and fifty horses were taken out in safety. As a result of the burning of the cars, service on all the cross-town lines was greatly hampered today.

The fire had gained great headway before it was discovered, and when the firemen arrived the walls separating the big structure from tenement houses were smoking hot. Instantly the word was given to clear the tenements and the occupants poured into the streets in a panic. From that time on, the police were busy attempting to control frenzied hundreds, most of whom were foreigners. It was not until several priests, attired in all their robes, appeared on the scene and walked through the surging crowd, imploring the people to calm themselves, that anything like order was restored. Firemen working on the fourth floor of the car barns barely escaped when the floor above them came down with a crash. A few minutes later the Fourteenth-street wall of the building collapsed.

TELLS OF KIDNAP PLAN

Lumberman Exposes Plot Implicating Mother of Child.

TACOMA, Wash., Oct. 9.—(Special)—An alleged plot to kidnap 13-year-old Freda Sloan near the home of her aunt, Mrs. G. B. Redding, at Snoqualmie, on September 23 last, was exposed today in the testimony of G. S. Hawley, a lumberman of that place, in which he named Mrs. Sloan and C. B. Malloy as the principals.

"I was near the gravel pit," said Hawley, "when I met a stage buggy in which were Mrs. Sloan and Malloy. In the second place was a woman dressed in black with another man. They had just come from the Redding place, where they had made an attempt to kidnap Freda. Mrs. Redding came to me and told me they had made an attempt to kidnap Freda and who was afraid to stay in the house alone, so I had one of my men sworn in as Deputy Sheriff and he remained at the Redding home for five days."

HELEN MALONEY UNFOUNDED

Wireless Message Says Elopement Couple Are Not on Majestic.

LONDON, Oct. 9.—The purser of the steamer Majestic, which left New York October 2 and was stated to have among her passengers Samuel Clarkson, a young Englishman, and his bride, who was Miss Helen Maloney, daughter of Martin Maloney, of Philadelphia, was interrogated

today upon the subject by wireless telegraph. He replied that if Mr. and Mrs. Clarkson are on board, they are traveling under assumed names, as there are no passengers on the Majestic registered as Mr. and Mrs. Clarkson. The Majestic is due to arrive at Plymouth today.

NEW YORK, Oct. 9.—The mystery which surrounds the disappearance of Miss Helen Maloney, or Mrs. Samuel Clarkson, who is said to be one of the most wealthy heiresses in the world, is increased by the dispatches from London indicating that the eloping couple is not on the Majestic. When the information from the purser of the Majestic was conveyed to the home of Mr. and Mrs. Maloney, in Spring Lake, N. J., today, it was stated that the whereabouts of their daughter was still unknown to them.

DID NOT DIE BY OWN HAND

MYSTERY OF MAY SAPP'S DEATH IS UNEXPLAINED.

Doctors Discredit Story of Man Who Said She Wanted Him to Elope With Her.

MORAN, Kan., Oct. 9.—Miss May Sapp, whose dead body was found in her father's yard here on the night of September 27 with her throat cut, did not commit suicide, according to the opinion of two physicians who testified before the coroner's jury in Moran today. Samuel F. Whitlow, the married man now being held at Topeka for investigation, had told the jury in that city that the girl had killed herself because he refused to elope with her.

Today Dr. A. H. DeLong, who examined the body of Miss Sapp a few minutes after it was found, testified that the cuts in her throat were too deep and too long to indicate self-destruction, and that the fact that there were two cuts indicated

Robert Bacon, Assistant Secretary of State, Reported to Have Been Chosen for Ambassador to Germany.

murder. Dr. G. J. Lambeth had examined the body the day following the girl's death. Her throat had been slashed twice. He said he believed she died ten seconds after the second wound was inflicted. He thought it a physical impossibility for Miss Sapp to have committed suicide.

John N. Sapp, father of the dead girl, testified by the report that the next day he saw Whitlow go to the Sapp house on the night of the tragedy, but did not see Miss Sapp come out to meet him, as Whitlow said she did. The inquest will be continued at 9 o'clock tomorrow morning.

NEW TRACK FOR SEATTLE

Butte Interests Back of Race Meet Next Year.

SPOKANE, Wash., Oct. 9.—(Special)—Pool-selling at the Interstate Fair next year or a mile race track established outside the city limits and a two week race meet conducted independently by the Interstate Fair Association. Such is the plan which is now being considered by a number of prominent horse-owners of Butte, who are acting with several real estate dealers here.

Believing that no pool-selling would be allowed at the fair this year, an option was secured on a tract of land for the putting in of a mile track, but the plan was changed when the City Council received its position and decided to allow pool-selling at the fair this year.

Promoters of the new plan are not alarmed by the report that the next session of the State Legislature will pass a measure prohibiting pool-selling in the state, and it is reported today that as soon as the pool-selling question at the fair is decided for next year they will go ahead with the plan of establishing a mile track.

False Report of Tornado.

BINGHAM, Ala., Oct. 9.—There is no truth in the report of a tornado at Leeds, Ala.

Hood's

Sarsaparilla enjoys the distinction of being the greatest curative and preventive medicine the world has ever known. It is an all-round medicine, producing its unequalled effects by purifying, vitalizing and enriching the blood on which the health and strength of every organ, bone and tissue depend. Accept no substitute for Hood's, but insist on having Hood's AND ONLY HOOD'S.

COFFEE.

One can spoil good coffee in making, but can't make good of bad.

Your grocer returns your money if you don't like Schilling's Best; we pay him.

We Have Been Principal Portland Agents for "Nemo" Corsets for Five Years

Lipman-Wolfe's Friday Bargain Day

Another Sensational Plume Sale Friday
