SUSPENDS HEARING ON O.R. & N. RATES

 Railroad Commission Await Data on Volume of Traffic.

FREIGHT AGENT ON STAND

R. B. Miller Testifies in Defense of Distributive Tariffs Complained Against by Portland Jobbers. Explains Road's System.

After a tentative defense of the dis-tributive rates out of Portland over the O. R. & N. lines had consumed the mornor R. & N. lines had consumed the morning seasion of the State Railway Commission yesterday, an adjournment was taken. Not until data bearing on the volume of the company's freight business in Oregon have been secured will the hearing of the shippers' appeal for lower distributive rates out of Portland be resumed. In the resemble, the Commissumed. In the meantime, the Commission announced that it would visit the office of Auditor Blaisdell, of the company and see just what of the company's financial books he keeps or does not keep.

The hearing will be renewed when the figures are ready and upon five days' notice being given all parties concerned. It was agreed that the delay shall not be longer than necessary and that the matter shall not drag along through six months or a year.

But one witness was presented on behalf of the company. This was R. B. Miller, the company's general freight agent, who made a detailed defense of the rates and essayed to explain in answer to queries by W. W. Cotton, attorney for the company, why the present tariffs are maintained. Preceding the calling of this witness. Mr. Cotton made a statement of the company's attitude, submitting the various tariff sheets in effect over the line and desirate that the rate for 120. line, and declaring that the rates for 170 miles out of Portland are lower than between any corresponding points in the Pacific Northwest on all classes of freight where the rate is not modified by water

How Rates Are Made.

The rates beyond 170 miles are made, he said, by taking the Washington dis-tance tariffs, applied by the Railway Commission of that state, and making them up in the same rate of progression as due to water competition. If this wan not done the tariffs to Baker City, Pen-dleton and such points would be higher than at present, he asserted.

When placed on the stand Mr. Miller was asked what would be the effect of reducing the distributive rates out of Portland. He said the effect would not be beneficial to local jobbers, or remove Bpokane's prestige in the Eastern Ore-gon field, since the reduction would have gon field, since the reduction would have to be met by the Canadian Pacific, Great Northern and Northern Pacific into Spo-kane territory. Continuing, he explained that the system of freight rates is sim-liar to the nerves of the body, and that any change would require readjustments of the interdependent parts. A change here would cause endless confusion and

kane territory. Continuing, he explained that the system of freight rates is similar to the nerves of the body, and that any change would require readjustments of the interdependent parts. A change here would cause endiess confusion and necessitate readjustment throughout the Pacific Northwest.

Mr. Teal referred to the readjustment out of Spokane under the dictation of the Washington Commission, and wanted to know if the O. R. & N. did not then announce a new tariff. The witness admitted that such had been the case and that his company had made its changes to meet the new condition.

"No earthquakes followed that, did they?" was Mr. Teal's causile query, and the witness admitted that such had been the case and the witness admitted that none had occurred.

Taking up the cross-examination of the witness, Mr. Teal wanted to know why paints and oils in carload lots go to Spokane, a distance of \$21 miles, for 40 cents, while the charge to Boise, \$37 miles, is \$5.cents.

After considerable study Mr, Miller attributed this to the conditions of competition and to an unwillingness to cut the rates charged by the Oregon Short Line, as a competing line. He spoke of the courtesy that prevails among rail-roads and their lack of any desire to "OALESEX YOUNG."

OALESEX YOUNG.

Line, as a competing line. He spoke of the courtesy that prevails among rail-roads and their lack of any desire to ump" one another

"Why is it," was the next question, "that to Boise the rate is 95 cents for 197 miles while over the Southern Pacific, on the same mterials, the charge is but 81 cents for 816 miles?"

Rates from the Coast to Utah common points," was the reply, "are on the basis of 70 per cent of the rates from the Missouri River. That applies to Ure-gon as well as to California."

An effort was then made to learn the basis of local rate making. . . . Teal wanted to know what was the original basis of rates. In reply the witness said that when originally formulated, after the reorganization of 1896, the rates were based on the conditions of competition that then obtained. They have been changed to meet new conditions. The first competition was mainly by water and that had to be taken into consideration. "If there had been no competition what

would have been the basis? Mr. Teal inquired. The witness gave it up. He denied that the cost of the road, the revenues or the investments made have anything to do with the fixing of rates.

OPERATORS WORKING AGAIN

Full Crews at Keys in the Western Union and Postal Offices.

A full crew of operators were at work last night in the Western Union Tele-graph Company's local office, and the management of the office is experiencing management of the office is experiencing no difficulty either in sending or receiv-ing messages. For the first time since the strike, an operator was at work last night in The Oregonian office, and today men will be sent to the other newspaper

A number of the men who were mem-A number of the inter who were members of the union and went out on strike last August are now back at work.

At the Postal Telegraph Company's office, too, there were enough men to handle all the work. The management of the office was forced to turn one man away yesterday afternoon, having no work for him. work for him.

The Western Union will move its local office from the structure at Third and Stark streets, to the Worcester Block, at Third and Oak streets, in about three weeks. The business office will be situsted at the corner of Third and Oak streets, and the operators' office on the fifth floor of the building. A system of pneumatic tubes has been arranged to communicate between the two offices.

Many Rumors About Vaudeville War NEW YORK, Nov. 8,-Rumors of an agreement between rival vaudeville factions, Keith & Proctor and Klaw & factions. Keith & Froctor and Kiaw & massive household hattures, excepting arena, although not a member of the gray, gree last night. One report was that after a lot the establishment of an uncle for safe amart set. She at once fell in a dead to the an exture, Kiaw & Erlanger would retire careful thought on the requirements of bulance was summoned and she was if desired.

from the vaudeville field. Another report was that a merger of the vaudeville interests of the country, involving at teast \$25,000,000 capital, had been effected, and that the merger was a victory for klaw & Erlanger.

A. W. Murdock, president of the Western Vandeville Managers' Association, who has been in New York for several days for the express purpose of bringing about an agreement, when seen at the Holland House denied that there had been any final settlement.

ADDING TO BANKS' BURDEN

Suggestion That the Clearing-House Certificates Bear Interest

PORTLAND. Nov. 7.—(To the Editor.)—
It has been stated through the press that people generally are accepting from toe banks the Clearing-House certificates in lieu of cash, without protest. This is probably due in many instances to the fact that men and women, who have deposits in the local banks, subject to check, prefer the Clearing-House certificates to no money at all, but I am inclined to believe that many people, who receive these Clearing-House certificates are eager to convert them into continuates are eager to convert them into coin, and in order to do this, they go to the store, make a small purchase, present their certificates in payment, and receive cash in exchange. This cash readily finds a hiding place, and is lost as a circulating

A. N. Wills, President.

of exchange.

To obviate this result it occurs to me that if these Clearing-House House certificates will be our only medium

If this policy is persisted in by any num-ber of people, which I believe it will be, the ultimate result will be to make reacy cash exceedingly scarce, and the Crearing-

NEW OFFICERS OF THE SELLWOOD BOARD OF TRADE.

L. J. Hicks, Vice-President,

With a new set of officers, the Sellwood Board of Trade has started out on the new year. These officers are: President, Councilman A. N. Wills; vice-president, L. J. Hicks; secretary and treasurer, John W. Campbell. A strong executive committee will be announced at the meeting next Monday night and several standing committees will then be ap-

The Sellwood Board of Trade was organized March 25, 1901, with 17 members. D. M. Donaugh was president; Prossor E. D. Curtis, vice-president; E. C. Madden, secretary; R. Chapman, assistant secretary, and J. W. Campbell,

treasurer. It has been a factor in the growth of that suburb. It is now working for the construction of a sewer system for the suburb, the erection of another schoolhouse or annex, and the location of the car manufacturing plant which

the Portland Railway, Light & Power Company may build in Portland. For the present meetings will be held every Monday night in Strahlman's Hall on Spokane avenue, near Thirteenth street, between 7:36 and 9 o'clock. There

are 200 mambers on the roll, and the organization is endeavoring to secure the co-operation of every citizen in Seliwood.

confidence in the natural wealth of Ore-gon and its sufficiency to meet any and

gon and its sufficiency to meet any and all exigencies that may arise, the public has renewed the full volume of trade, and business men throughout the city say they are suffering no ill effects from the money shortage of the past ten days.

The public and business interests alike have adapted themselves to the clearing-house certificates, and they are being accepted on every hand the same as gold, silver or treasury notes. The department stores are accepting them, the railroads are accepting them, business

silver without a question. Big double cagles are taken no more eagerly than this emergency paper.

A canvass of the business houses of the

city would make the most confirmed pes-simist reform his unscasoned views. Slack business? None of the big houses

of the city has heard of any such thing, especially since the clearing-house cer-tificate solution of the money stringency

was adopted. Material increases in the

was anopted. Material increases in the volume of business over prosperous last year are reported by not a few leading business men. Possibly there was a slight falling off the first day or two of the difficulty. Not all the business houses noted even so much as a day of duliness. But any tendency towards sluggish trade was orderly discretized indicating the full.

But any tendency towards stuggest trade was quickly dispelled, indicating the full confidence of the public in the outcome.

Here are a number of statements of representative business men secured in a round of the business center yesterday.

Better Than Last Year.

H. C. Wortman, of Olds, Wortman &

King.—Up to the present time our business has not suffered in the slightest details and a question of a few days

gree and has shown a most satisfactory increase over the same period last year. The circulation of clearing-house cer-tificates has tended to relieve the situa-tion to a greater extent than was at first tion to a greater extent than was at first believed possible, for the public has adapted itself very nicely to the new or-der of things, which indicates the utmost faith in the stability of the market at the present time. Of course the lack of coin is somewhat disconcerting, but the peo-ple and the business houses are rapidly being educated to the clearing-house plan. which indicates public confidenc. In the temporary paper substitute for money. I believe the present stringency will be re-lieved in the very near future.

Still Extending Business.

I. Gevurtz, of I. Gevurtz & Sons.-I am convinced that the situation is all right, and that the present inconveniences will soon pass away. Portland is a splendid ess town, and I have so much faith in the future of this city that I am going ahead with the establishment our East Side branch in spite of the money stringency. The clearing-house certificates are a good thing, and today I secured a quantity of them for use in our business. Our customers have not been at all skeptical about this new money and have grasped the situation nicely. Of course some of them are not spend-ing as much money as they would under ordinary circumstances, but when they become accustomed to the change, a material difference will undoubtedly be noticed. This year we have branched out Portland has settled down to business largely, and as a result have tripled our in most lines of trade, the same as if no money stringency existed. With perfect bility of the country. I am not at all

HOUSE IN TREETOP

A farmer living in Wrentham, Mass. a small village near Providence, R. I., has built a house in the tops of two adjoining pine trees on his farm and will spend the Winter there. The man is 35 years old and had been consumptive for and has been consumptive for

several years.

The "house" is about 9x6, with a door and two windows, which will be closed only to keep out snow and rain. Access is had by means of a rope lad-der which, Robinson Crusoe-like, will be drawn up each

Medicine is not of much use to cure consumption. Fresh air and clean living are the essential forces to combat the dread white scourge. Every precaution should be employed to prevent the germs from settling on the lungs, and coughs and colds should not be neglected. To break up a cold quickly and cure any cough that is curable, mix a half ounce Virgin Oil of Pine with two ounces of glycerine and a half pint of good whisky. Shake well and take a teaspoonful every four hours. Five ounces of tincture instead of whisky with the

same effect.
This mixture will usually break up a cold over night. Care should be exercised to use only the genuine Virgin Oil of Pine, which is prepared in the laboratories of the Leach Chemical Co., Cincinnati, O., and put up for dispensing only in Ma-ounce wials, each securely sealed in a round wooden case. It is better to purchase the different ingredients separately and mix them at home.

when things will adjust themselves. Compared with last year we are doing just as much business as in November, 1906, if not somewhat more, for our collections today are larger than they were one year ago today.

be-----

Notice No Difference.

Ira F. Powers, of the Powers Furniture Company. With the exception of the first two days we have not noticed any dif-ference in the situation. Business has been even better than last year and our receipts have shown a most flattering state of affairs. The clearing-house cer-tificates do not seem to affect the situation to any extent. We have been accepting them just the same as if they were bank notes. One drawback is that there are no clearing-house certificates of the smaller denominations, and it is sometimes inconvenient to make change; otherwise the situation is splendld and deserving of the utmost confidence.

Pulse of Trade Strong.

Julius Meier, of the Meier & Frank Company-We have noticed no difference in the volume of trade, particularly since the clearing-house certificate system was arranged. The general pulse of trade is strong and the demand for goods is as brisk as ever. It speaks well for the confidence the public at large has in the ultimate outcome of the situation, as to which there can be no doubt. The pubworried over the outcome, for things can-not help righting themselves before long. which there can be no doubt. The pub-ils is rapidly adapting itself to the cor-tificate idea and such being the case, the business interests can hardly suffer from a harmless money tangle that will presently dissolve in the face of an ex-ceedingly healthy condition of business.

and business men throughout the city say they are suffering no ill effects from the money shortage of the past ten days.

The public and business interests allike have adapted themselves to the clearing-house certificate plan is a new thing, and whenever a new policy is adopted themselves to the clearing-house certificates, and they are being accepted on every hand the same as gold, silver or treasury notes. The department stores are accepting them, the radirection of the clearing-house certificates are accepting them, business houses throughout the city are taking them. The man with a clearing-house certificate plan is a new policy is adopted the people have to be educated to it, which requires time. So far our exchange has been highly satisfactory, and we find our customers rapidly becoming them. At the general offices of the Harriman lines in Oregon it was said yesterday that clearing-house certificates are relieved in payment for both passenger than flattering and has increased matched the money stringency became apparent, business has been more than flatterist to be educated to it, which requires time. It was a near-sighted person, no gain attire, some of the costumes being actually bewildering in their gorgeous beauty. The gentiemen all appeared in conventional attire and the gay costumes to and so few achieve. It is only fair to say, however, that she was ably as-sisted in her achievement by Mr. Jaggs. the well-known athlete, who has su cessfully participated in so many tug-of-war events. Mrs. Jaggs, of course, was able to benefit by his experience in that respect. Mr. Jaggs, by the way, has again shown himself a strict observer of fashion's ways by adopting the ultrafashionable Pittsburg stogle. In the past he has been noted for his fine brands of perfectos, but like all conscientious husbands of finely-gowned ladies, he has adopted the storie. It is one of the fine points of etiquette, but must be followed

failed, and at a late hour she breathed her last without having gained consciousness. The funeral will occur after the bank holidays, Miss Spangles' lawyers having advised her that interment at this time might not be legal.

And the horses! They too were there.

Society strolled feisurely about looking at
