Would Expedite Paving.—W. B. Hall, H. Craw, P. J. Sagazan, E. A. Weeks and A. Powell were appointed at the meeting of the East Side Business Men's Club Thursday night to inquire into whether the paving of Grand avenue south from East Morrison street cannot be expedited. Grand avenue has been torn up to Belmont for some time and the business men are greatly inconvenienced. J. C. S. Lockwood, engineer of the Port of Portland, has given the club assurance that the spillway through the embankment on East Morrison at East Second street will be filled in time for any improvement that may be made in the Spring. It is pro-posed to pave East Morrison with hardsurface pavement next year. W. B. Hall was appointed a committee of one to secure the repairing of East Ankeny street between Grand avenue and East Twen tieth street. On East Ankeny street there is a good foundation, and it is thought that with a dressing with crushed rock it can be put into good condition for saveral years to come.

DEMENT IS THOUGHT INSANE.-Walter Dement is again before the county officials, and it looks as though he will be sent to Salem this time on an insanity Dement first came to the notice of the local authorities when he hobbled into the office of the County Board of 60 feet, the roadway being almost impas-sable. The street-cleaning department is said to have neglected the place for a long Relief and put up a heart-wringing tale of destitution and misfortune to Fred G. Buchtel, the clerk in charge. At this time his left foot was badly swollen, and had turned black, as though it had been hadly bruised. The physicians at the County Hospital examined the leg, and found it bound about with cord just below the knee, so that the blood could not flow. Dement fied when amputation was sug-gested. Frank J. Schornig, who had an-nounced himself a candidate for the nomination for Mayor at the next election, was sent to the Salem Asylum yesterday.

Sabbath, both morning and evening, preaching at 19:30 A. M. upon "The River of Life" and at 7:30 P. M. upon "Thanksgiving for the Unspeakable Gift." ENTERTAIN B'NAI B'RITH DELEGATES. Elaborate preparations are under way for the entertainment of the delegates to the grand lodge convention of the Independent Order B'nai B'rith, which will meet in Portland on February 18, 17 and 18. This session will be the second ever held outside of San Francisco, Stockton being the other place, in the 50 years of its exist-ence. The local lodges have appointed a joint committee to arrange all matters pertaining to the entertainment and com-fort of those who will attend the session. The wives of a number of the delegates will also visit Portland at that time. The committee having the matter in charge consists of Otto J. Kraemer, chalrman; Sol Blumaner, Dr. Jacob Bloch, D. uermanus, David N. Mosessohn, Isaac Swett and Dr. A. Tilzer.

MANY MORTGAGE RELEASES.-Attaches of the County Clerk's office are wondering many mortgages are being released, and the only explanation they can lind is that people would rather pay up their arrearages than to leave their money in the banks. The past week has been a record one for mortgage releases, Il being re-corded with the County Clerk yesterday. corded with the County Clerk yesterday. Five of these were brought in from the Hibernia Savings Bank, and the time was up on none of them. These five ranged from \$3000 down. On Monday there were nine releases filed, on Tuesday ten, on Wednesday 12, and on Thursday seventeen, making a total of 59. It is possible that the number will reach 100 for the week when today's returns come in.

### BREAKS RECORD OF 1906

Friday, December 6, and give his views on the construction of bridges across the Healthy Increase-Volume Business Handled Is of Great Magnitude.

Postmaster Minto is confident that when the fiscal year ends the Portland Postoffice showed death to have been due to valvu-lar disease of the heart. Phillips was 42 years old and was at one time on the po-tice force in Astoria. He leaves a wife, will be placed in the charmed circle of what is known in the Postoffice Depart-

ment as the "600,000 class." The stamp sales and general business for the month of Newember will show a healthy increase over the same month in 1905. So far this year the receipts of the office have shown an increase every month of all the way from 5 to 30 per cent. Even had the increase been but 7 per cent, the Portland office would have been sure of a place in the 600,000 class.

#### Methods Are Legitimate.

The fact that the Portland ordice will combe ranked with the big postoffices of he country, is pleasing to Mr. Minto, for the business of the office has grown with-out recourse to the questionable methods used by postmasters in other cities. Mr. Minto has handled the business done here on a legitimate basis and the increase in stamp sales is the best proof possible of the city's growth and progress. There has been no effort on the part of the Postoffice officials here to increase the rolume of business done by making stamp sales outside the city, as has been charged against the Seattle Postoffice and other offices that are clamoring for admissio to the 600,000 class.

the West Side of the river. It is said the conditions are extremely bad for at least One of the best proofs of Portland's prosperity is the remarkable increase in the volume of business done by the Postoffice, both in the number of letters and in the number of pounds of first, second and third-class matter handled. In 1899. Arthur L. Frazer, Judge of the Juvenile Court, underwent an operation for appendicitis yesterday afternoon at the Good Samaritan Hospital. Dr. A. J. Gesy performed the operation. Late last night it was given out that the patient was restbetween October 3 and November 6, the mails passing through the local office were weighed and the letters counted. During this time the figures showed that a total of 25,436 pounds of first-class matter, 53,253 pounds of second-class matter and 53,283 of third-class matter was han-dled, making a grand total of 143,615 pounds. There were 1,242,633 pieces of letter mail handled.

#### Increase Is 100 Per Cent.

When the order for weighing the mails came last month, a most startling in-crease was shown. The weighing done between October 3 and November 6 in 1889 and during the same period of this year was in charge of the same man and it shows that the increase in all classes of mail handled was 100 per cent. Of first-class matter 15 27 pounds was benfirst-class matter 55.971 pounds was handled. Of second-class matter, consisting of, newspapers and publications admitted as second-class matter, 295,945 pounds passed through the office. The number of pounds of third-class matter amounted o 540,373. There were 2,730,637 pieces of

## PRAISES LOCAL CHAMBER

Secretary of Rivers and Harbors Congress Writes Appreciatively.

The National Rivers and Harbors Con gress, which will commence its annual session at Washington, D. C., on December 4, promises to be the most important convention of business interests held in the United States during this year. The prominent part which Portland, through its Chamber of Commerce, is taking in this Congress, is being remarked by leaders in this country. J. N. Teal left yesterday for Washington to lead the delegation from the Chamber of Commerce. Last year the Chamber was represented by Governor Chamberlain, J. N. Teal and

Philip Buchner.
In a letter received yesterday from J. T. In a letter received yesterday from J. T.
Ellison, secretary of the Congress, the
assistance rendered by the Portland
Chamber is gratifyingly acknowledged.
Mr. Ellison writes in part:
To no organization in the entire United
States is the National Rivers and Harbors
Congress more indebted for consistent and

Congress more indebted for consistent and loyal support than to the Fortland Chamber of Commerce, and it gives me very great pleasure to bear truthful testimony to the

pleasure to bear truthful testimony to the fact.

While appreciating to the utmost the great distance with consequent travel and expense that delegates from your city and state must undergo in attending the Washington convention of this organization, I sincerely trust that not only your Chamber of Commerce, but that not only your Chamber of Commerce, but that other interests of your great city and state, will be represented by delegates at the convention, which convention, it gives me pleasure to advise you, has every promise of being worthy of the great cause which calls it together, and as a matter of absolute fact we consider that delegates from the Facific Coast traveling the great distance necessary in order to cross the continent, will have a greater moral effect than double the number coming from any other section of the Union, upon from any other section of the Union, upon National legislators, for it will be convinc-ing testimony that the demand we are urg-ing upon the Congress of the United \*States comes from every section, and is supported by strong organizations and prominent men.
