

ANNUAL GRADUATE STRUGGLE TODAY

Multnomah Athletic Club and Oregon University Teams Meet in Portland.

SPORTING EVENT OF YEAR

Advance Sale of Tickets Indicates Record-Breaking Crowd - Adherents of Each Side Are Confident of Winning Game.

At 2:30 o'clock this afternoon the football eleven representing the Multnomah Amateur Athletic Club, of Portland, and the University of Oregon, will meet in the annual struggle on Multnomah field.

Both teams are in excellent shape and each possesses the utmost confidence. The Oregon-Multnomah game has been an annual social and athletic event, and from the advance sale of tickets a record-breaking crowd is promised despite the threatening weather.

Football in Portland seems out of place unless there happens to be a liberal downpour of rain just prior to the assembling of the gridiron gladiators on the field of battle, but this does not lessen the ardor of the admirers of the Oregon boys and the Multnomah athletes are not at all disheartened by the elements.

The University of Oregon eleven arrived in Portland last night in charge of Coach Gordon D. Frost and Manager Grover Keatley, and were accompanied by six substitutes who have played in different games played by the varsity this season.

The regulars are in fine shape, and for the first time this season Oregon will present its regular line, which is an indication that the clubmen will be put to it hard to record the much-cherished victory over the students from Eugene.

Multnomah has strengthened up wonderfully and in spite of the repeated reverses suffered in the clubmen during the season, confidence in the "Multnomah spirit" and the well-known ability of the players enrolled on the club eleven is banked upon to bring victory to the wearers of the winged "M."

On the other hand, the Oregon men, ambitious to repeat the glorious feat accomplished by the University of Oregon team of last season, are determined that all the glory attached to the result of the game shall go to the representatives of the State University.

Despite the fact that the Multnomah Club team, there has been but very little money wagered on the outcome of the big football game. Adherents of the club are asking for odds on the strength of the respective showing made by both teams during the present season, and the admirers of the Varsity are loth to give any for the reason that the club eleven has always been found more than equal against any other team it competes with during the season.

Four hundred college rosters arrived from Eugene last night, and more are expected on this morning's train. This body of adherents of the University of Oregon will assemble at the Oregon Hotel at 1 o'clock this afternoon and march to Multnomah field in a body, where they will occupy a portion of the stands set apart for their use.

During the game the college boys will sing their college songs and chant the rosters' oris, which will serve to cheer the gridiron heroes of Oregon to victory. Opposite the Oregon roster body will be assembled the rosters of the Multnomah Club, who will shout the battle cry of "Old Multnomah" to entice the antagonistic spirit of the club veterans in their great struggle for supremacy over the youth and enthusiasm of the students. The entire second team of the University of Oregon has been brought to Portland by the management of the Varsity as a reward for the hard work they have done this season.

Tonight the Oregon team will attend a reception to be given in its honor by the Oregon Athletic Club. This event will be preceded by a banquet at the Portland Hotel.

The officials of the big game will be as follows: John Owsley, of Yale, referee; Jack Knight, of Princeton, umpire; Harry F. Corbett, of Harvard, head linesman; and A. B. McAlpin and C. N. McArthur, Himekeepers. The rival eleven will line up as follows: Multnomah: Position. Oregon: Dunning (137); L. E. R. Coleman (166); Wall (223); L. R. Arnsperger (198); McMillan (191); G. M. G. HOPING FOR A COOL DAY O. A. C. Expects to Win at Los Angeles if Weather is Auspicious. OREGON AGRICULTURAL COLLEGE, Corvallis, Nov. 27.—(Special.)—Before leaving for the South, one who ought to know, announced that if it be a hot day tomorrow, O. A. C. men will be defeated at Los Angeles, but if it should be had weather, they will win. The authority is a Western coach whose team was recently defeated by the Los Angeles aggregation. The announcement was of much interest to Coach Norcross as it included the information that two players of the visiting team had fainted from heat on the field. A dispatch received here last night, announced the arrival at Los Angeles of Coach Norcross and his men, and that the weather is warm. The dispatch also announced that Gagnon, quarter back, and Emily, a star end, are in poor condition.

PENDLETON PLAYS HILL TODAY Champions of Eastern Oregon Hope to Defeat Academy Team. PENDLETON, Ore., Nov. 27.—(Special.)—With the memory of their recent victory over the Baker City team still fresh in their minds, the members of the local high school football aggregation are confident of defeating the Hill Military Academy here tomorrow afternoon. Orville Reeve, the half back who was so badly injured in the Baker game that he was taken from the field unconscious, has entirely recovered, and will be in his old position. Pendleton's weakest point in the recent game was her defense, and this has been strengthened until Coach Lytle feels that his boys will be able to withstand the rushes of their opponents in better shape than they did those of Baker.

Finds a Hundred and Eight Instruments Actually Sold Last Week by This Portland Establishment, and Is Simply Overwhelmed When He Learns What Is Now Being Done at San Francisco—Promises to Be Cheerful Hereafter.

"No, I don't want to buy anything," said an elderly gentleman, an old-time friend of the firm, yesterday, to the doorman at Eilers Piano House, "but I do want to see the man who writes those 'braggy advertisements.'" He continued: "I used to be in business myself," he said, "and when he was seated upstairs in the Publicity Office, but I never saw any use of booming up things when I can't be so."

"We did not know what he was driving at. We told him so. 'Why,' he said, 'in your Sunday's statement you say you sold one hundred and five pianos here last week. It cannot be so, with most people dead broke, and I just thought I would check up and tell you folks that you are making a mistake. I tell you times are not so critical for people to believe anything like that. Everybody knows when times get hard a piano is about the last thing folks think of buying.'"

AND YET HE WAS PROSPEROUS. "Well now," said we, "who told you times were 'hard'?" Isn't it a fact that you got more for your farm products this year than ever before, in fact, isn't that the reason for your living the advance sale of tickets a record-breaking crowd is promised despite the threatening weather.

Play at The Dalles Today. OREGON AGRICULTURAL COLLEGE, Corvallis, Nov. 27.—(Special.)—The O. A. C. second team, whose goal line has not

last week's record, as published in the paper, was correct. We brought in the sales books to prove it. As a matter of fact there were three more instruments, or a hundred and eight all told, including those sold Saturday evening. Each one was sold out of the Portland establishment. If we should enumerate every sale for the week, in all of our other stores, we would need almost a page in the papers.

Then we showed him the San Francisco records. "Two," he said, "I understand. My, but things must be had down that way, the carriages, the fire, the strikes, and riots, and graft prosecution." We agreed with him; how could a Portlander have expected more instruments to be sold in the face of what a San Franciscan has had to contend with during the past 15 months?

THEN SAN FRANCISCO'S RECORD. Then we asked him to look at the San Francisco record. The entire week's record had not come in, but had the sales of the first five days, as follows: For Monday, the 18th, and Tuesday, the 19th, were sold three Kimball pianos, five Schumann pianos, two Hobart M. Cable pianos, four electric pianos, one Chickering piano, one \$1500 Orchestral, two Cable Nelson pianos, one Lester piano, one Chickering piano, one Bailey piano, three second-hand square pianos and one organ.

On Thursday, the 21st, altogether 21 pianos, namely: Two Hobart M. Cable pianos, three Kimball pianos, three Bailey pianos, two electric pianos, one Planola piano, one Weber piano, two had been enacted by San Francisco and Seattle on the recommendation of Government authorities as a preventive of the bubonic plague epidemic on the Pacific Coast. He withdrew objection to its immediate consideration, but netted objected stubbornly to the passage of the ordinance until time had been given the members of the Council to examine its provisions and the members of that Board were no better qualified to pass on the merits of such contrivances than were the members of the Council.

Cline and Horgan were tied at 40 to 40, but Cline's high run was 5 and his average .52; Horgan's high run was 4 and average .42.

Boom in Hunters' Licenses. Rainy weather for the past few days has made it noticeable in many places the number of hunters' licenses issued at the County Clerk's office. Duck-hunters who were not already provided with legal rights to hunt have been taking out licenses in order to take advantage of the Thanksgiving holiday to put in the day along the rivers and lakes of the state. Up to yesterday afternoon there had been 172 licenses issued this year from the local office.

RATS TO BE STARVED OUT Council Passes Ordinance to Make War Effective. After a desultory and time-wasting discussion, the Council yesterday afternoon passed the anti-rat ordinance that had been submitted by Dr. Pohl, head of the health and police. The ordinance requires that all basements, warehouses, storerooms, grain elevators, packing houses, public and private docks shall be provided with wire screens, netting or concrete walls for the isolation of all foodstuffs from rats and possible infection from the bubonic plague. One or more rat-traps must also be placed in each of the buildings covered by the ordinance.

When the ordinance had been read Rushlight proposed that it be laid over until the next meeting of the Council, but when it was explained that the measure was a copy of an ordinance that

That Settled It. Our friend, the old gentleman, was simply thunderstruck. He could not believe such a thing possible, from the way people in his circle of acquaintance had been talking.

Did he promise to reform? We should say he did. Especially, when he learned that for Eilers Piano House alone, five solid carloads of the most expensive of all pianos—the Chickering, of Boston—were en route to Portland; to say nothing of the carloads upon carloads of other pianos and the equally large shipments of Planola pianos, and expensive Weber Grand uprights that are on the way for Portland alone, nearly all of which the firm was talking about now as the first of the year. There's one more influential citizen in the town today who is talking about reforming his property. He bought a talking machine and a lot of records, among them some of the many dialect records, before he left the building, and never imagined that the modern recording device had been brought to so high a state of perfection until he heard one in the new Eilers individual talking-machine parlors.

MCDONALD'S LABOR OF LOVE Council Holds Up Municipal Court Clerk's Salary. Councilman Belding introduced an ordinance yesterday appropriating \$300 in payment of the salary of James McDonald for his services as hallif, assistant clerk and janitor of the Municipal Court from the date of his election by the Council to that office until the Supreme Court decided that he was not legally entitled to the place. When Belding proposed the third reading and passage of the ordinance, Vaughn objected and on motion of Rushlight the further consideration of the measure was laid on the table until the next meeting of the Council.

Of the boxing and wrestling the least said the soonest mended. What the management had to offer was the best at hand because a number of expected participants carding and officiating as referee at last night's tournament and many others held at the club, were the best things carded for the evening. Dr. Morrison highlighted those present when he told of some of the uses across his use when he attended a theological seminary and he slyly admitted that what he saw in the ring at the club were tame affairs compared to those that took place in the basement at the seminary he attended. He declared that he was the self-appointed chaplain of the club and remarked in passing that if he were to see the audience disputed this statement, the time and the place was there for a settlement.

Hughes and Berazzo furnished a pleasing event in the 150-pound boxing class. Hughes is a shifty youngster and with proper handling and some hard work on his part, would be hard for any one of his weight to beat. Hood Butler and Dranga boxed three exhibition rounds. Butler has not lost any of his cleverness. Nickson and Miller also gave an exhibition. Nickson was to have met C. Marks, but a bad thumb prevented him from entering the ring.

The best mill of the night was between Handley and a Los Angeles lad named Hunkabury. It was a swing, buff and hard affair, and the referee called it a draw. The last fight on the card was between a pair of 180-pounders, E. Madden and R. Stuart. Madden had a punch or two that was about the game. It was just plain fun to see them in action. Madden won because he pecked Stuart on the nose and was strongest at the end.
