In the afternoon session Darrow asked stand Tuesday. permission to further question one of the jurors and when it was given he asked Newton Carper if he had said to some friends, after being subpenned, that he would see that Pettibone was hanged. Carper said that while playing cards some one asked him if he had been sum-moned as a juror, and he replied:

"Yes, and I am going to hang the

whole court."
Carper said the remark was made as a joke and his explanation seemed satisfactory to Darrow. The defense then sprung a surprise by announcing that the jury was satisfactory to them and they would not exercise their remaining peremptories. The state excused Michael emptories. The state excused Michael Halley, and Joseph Singer, the first talesman called to take his place qualified. Singer is 48 years old and has been a placer miner and prospector for the past three years. He has been a farmer most of his life. After his acceptance by the defense Hawley announced that the state was satisfied and the jury was sworn. Court then adjourned until Monday morning.

DARROW AND THE FEDERATION

Chicago Attorney Employed Only in Steunenberg Cases.

BOISE, Idaho, Dec. 6.—(Special.)—Relative to the report that he is to be superseded as attorney for the Western Federation of Miners, Clarence Darrow stated today that he had never been employed as general attorney for that organization, his employment only extending to the de-fense of the pending Idaho cases, with which he will continue until they are disposed of, unless his health, which contin-ues bad, should prevent. He said that if Judge Hilton had become general counsel for the Western Federation it must be as successor to Richardson, who refused to work with Darrow in the Idaho cases. Mr. Darrow still has trouble with his ear, on account of which several operations have been performed.

The arrests followed confessions se cured from Henry Bauer and Edward Kent, two of a gang arrested by Sher-iff Kean, of Latah County, at Bozeman, Mont., for stealing horses in the Juliaotta section. When returned to Moscow, they made a clean breast of their crimes, implicating well-known and supposedly substantial farmers in Latah and Nez Perce Counties. Frank White, of Juliacita, and George Fors-man, of Nez Perce, were then arrested. White corroborates the story of the confession. Forsman has had his pre-liminary examination and has been bound over to the District Court.

Nearly every item shows an increase, with the exception of farming implements, etc., which shows a failing off in valuation. The greatest increase has been made on non-tillable, or timber lands, merchandles and stock in trade, railroad bed, and on money, sheep and goats, swine and dogs. Of these last four, money shows up the greatest, the asmoney shows up the greatest, the as-sessment on this last year being only \$98,225. Sheep and goats were val-ued then at \$63,260 and swine at \$16,-145. In 1906 there were of record only 35 dogs in the county, valued at \$560. This year's assessment shows an in-crease of 589 dogs, but evidently a cheaper grade.

DECLARE TITLE IS UNFAIR

University Asks Change in Wording on Referendum Ballot.

SALEM, Or., Dec. 6 .- (Special.) -- On behalf of the University of Oregon, Walter C. Winslow today appealed to the Circult Court from the order made recently by Attorney-General Crawford fixing a ballot title for the University appropria-tion. Winslow contends that the title is tion. Winslow contends that the title is unfair to the University. The statute governing the procedure under the referendum provides that when any act is to be submitted to a vote of the people the Attorney-General shall prepars a title to be placed upon the ballot showing the purpose of the act. The statute gives any interested person 10 days in which to appeal to the Circuit Court for Marion County. Under this law Attorney-General Crawford prepared the following title for the University bill:

following title for the University bill: "For an act increasing the annual appropriation for the support and main-tenance of the University of Oregon from \$47,500 to \$125,000."

Mr. Winslow contends that this is unapression that the University has been

ecelving only \$47,500 a year in the past and that the increase is from that aum to \$125,000 annually, whereas the fact is that the University has received in addition to the \$47,500 several special appro-priations, which brought the total up to nearly \$79,000 annually for the last two years. He says in his notice of appeal that "the purpose and intent of House bill 37 was to embody all appropriations in one annual appropriation and avoid the necessity of biennial appropriations."

Mr. Winslow asks that the following ballot title be substituted: "For an act fixing the annual appropriation for the support and maintenance of the University of Oregon at \$1000 per support. support and maintenance of the University of Oregon at \$125,000 per annum."

The question will be tried before Judgo William Galloway, whose decision as to the hallot title will be final. President Campbell was here today in consultation with George G. Bingham, who appears as the friends of the bill.

Seattle Unions Demand Seven Days' Pay for Six Days' Work.

SEATTLE, Wash., Dec. 8.—(Special.)—A general strike of all waiters in Seattle is threatened as a result of the decision of the owners of all eating-houses that they will demand that a seven-day week be enforced. Within the past few days the restaurant proprietors have determined that they cannot afford to grant seven days pay for six days' work and that the waiters must stick out the week. Notice to that effect has been served upon employes, and every union waiter in town threatens to wank out at once unless the restaurant mer will withdraw

their demands. LEWISTON, Idaho, Dec. 6.—(Special.)

FUNSTON GIVEN FULL CHARGE

Ordered to Send What Troops He

Thinks Best to Goldfield. WASHINGTON, Dec. 6.-In his dispatch to the Adjutant-General of the Army, regarding the disturbances at Goldfield, General Fred Funston says

"I have just conferred with a prominent mining operator of Goldfield, now here, a man thoroughly familiar with all conditions there. He states the Western Federation of Miners in Goldfield numbers about 2200 of whom about 1000 have rifles and shotenes. Not more than 200 of these and shotguns. Not more than 300 of these men might be considered dangerous, and he doubts if they would resist regular troops. Their leaders are some of the men who made so much trouble in Idaho and Colorado. The danger is that before troops can arrive they will blow up mines and kill people. The Sheriff is a mem-ber of the Federation and in sympathy

"The schedule time of trains is 25 hours; a special could make it in 18. I feel that I should inform the Department that every morning paper in San Francisco knew that the Department had wired within three hours after receipt by me of the message. Information came from their Washington correspondents."

Show of Power Needed.

Acting Secretary of War Oliver today made public all of the correspondence, so that the facts impelling the ordering of the regulars to Goldfield might be known. In addition to General Functor's first dispatch announcing he had intended to send two companies in the first place to Goldfield, came later correspondence showing that upon inside information as to the situation in that mining camp it had become apparent that a much larger force would only invite attack or resistance by the riotous element, when an overwhelming force would insure peace by making it apparent to the lawiess elemt that resistance would be hopeless,

Authority for Transportation.

Following his first dispatch, above re-ferred to, General Funston telegraphed the Adjutant-General for authority to hire transportation for his troops to Gold-field and vicinity. He said:

"Should it be necessary to send any there, I deem it inadvisable to ship any wagon transportation with the troops uness a considerable number should be

You are authorized to hire neces-sary transportation. The President directs that the troops be sent with the rects that the troops be sent with the least possible delay. HAYWOOD ALONE TO BLAME

Operators Say He Caused Strike. Miners Eager to Work.

LOS ANGELES, Cal. Dec. 6.-M. J. Monnett, president of the Los Angeles-Nevada Mining Exchange, and one of the big operators of Goldfield, in an interview today laid the whole biame for the present situation in Goldfield upon William D. Haywood. Mr. Monnett is quoted as

"All of the present trouble at Goldfield is due to the activity of William D. Hay-wood, secretary-treasurer of the Western rederation of Miners. It was due solely to his influence that the Miners' Union there refused to accept checks on the Goldfield banks in part payment of their wages some time ago and at a meeting of the miners urged them to refuse these checks.

"I am satisfied that 75 per cent of the members of the union were not in sympathy with him in this move, but they seemed to be so thoroughly un-der the control of a few leaders they have been afraid to take independent action. Many of these men are anxious to return to work, and in my opinion there will either be a split in the union in Goldfield or the open-shop rule will prevail in all the large mines there. The Mineowners' Association is determined that it will no longer submit to the arbitrary dictation of a few
