# NOTES IN SHEAVES GIVEN BY BANKERS

The California Safe Deposit Wreckers All Indicted Once More.

#### TREADWELL WITH THEM

Brown and Bartnett Got Others to Sign Notes for Their Benefit. Treadwell, of Mining Fame, a Frenzied Financier.

SAN FRANCISCO, Dec. 30.-Following SAN FRANCISCO, Dec. 38.—Following a thorough investigation into the affairs of the California Safe Deposit & Trust Company, which falled, owing depositors nearly \$9.000,000, and the methods of its officials alleged to have been responsible officials alleged to have been responsible for wrecking the bank, indictments were returned late this afternoon by the grand jury charging James Dalzell Brown, exgeneral manager; Walter J. Bartnett, exvice-president, general counsel and director; James Treadwell, director, with felony embezzlement. One indictment was a solutional against Brown and Barinett. returned against Brown and Bartnett,

and two against Treadwell.

Bench warrants were issued and ball fixed at \$30,000 for Brown; \$35,000 for Bartnett, and \$50,000 on one charge against Treadwell and \$25,000 on the other. Brown and Bartnett's Note-Kiting.

The indictment against Brown is based upon a note for \$25,000 given by H. N. Storrs, a stockholder in the bank, on May Storrs, a stockholder in the bank, on May 7, 1908. Mr. Storrs, according to Assistant District Attorney Cook, testified before the grand jury that he signed the note at the request of Brown and that the latter took the money from the bank. As security for the note, some stock in a street railway company in Stockton was put up. This stock stood in Mr. Storr's name as truster. The latter, it is alleged, testified that the stock was not issued until some time after the note was given.

Barinett's indictment was in connection with a note given by W. T. Kearney, an attorney, for a loan of \$30,000 on October 19, 1806. Barinett, it being alleged, receiving the money and Mr. Kearney acting only as a "dummy." Barinett had overdrawn his account \$20,000 and got Mr. Kearney to give the note, which left Bartnett \$10,000 to his credit. The stock given as security was found to have been taken up and shares in the Trinity Bonanza Mining Company were substituted for it.

Treadwell a Great Notemaker.

indictment against Treadwell, of Treadwell mine fame in Alaska and well known in mining circles in this state, was based on a loan for \$45,000 from the bank. which he was a director, for which Treadwell gave his personal note on Sep-tember 4 last. At this time, it is alleged, Treadwell alread owed the bank more than \$300,000 for loans and had overdrawn his current account about \$25,000. Instead of paying interest, it is alleged that every time the interest was due he gave a new note. The obtaining of a loan of \$5000 left him \$10,000 to the credit of his current account, but by October 8 this was all gone and he had again overdrawn. on this date, it is alleged, he gave a note for \$65,500, dated it back to September 4, had the note made on the latter date destroyed, and substituted for it the note for \$62,500, which left \$17,500 to his credit. The second indictment against him was based upon the latter transaction a specifies \$17,500 as the sum embezzled.

### Its Affairs Mismanaged.

TRENTON, N. J., Dec. 30 -- After listencharges of alleged misdeeds by former officials of the Passaic Steel Company, of Paterson, N. J., Judge Lanning, in the United States District Court, on application of hond-holders, appointed three receivers to look after the affairs of the corporation. Those ap-pointed are: John R. Lee, vice-president of the company; Oakley W. Cook, a pracman of the concern, and William old, a minority bondholder. The complaint charges that the company has defaulted on the interest on its bonds and owes \$55,900 taxes.

## UPPER HAND OF PLAGUE

Dying Out in San Francisco-Seven Cases in December.

SAN FRANCISCO, Dec. 20. - With Social and Religious Meetings to only seven cases of bubonic plague reported during the month of December and but three cases remaining under treatment at the Isolation Hospital, the plague in San Francisco is almost eradicated. More than \$660,000 has been expended in the sanitary campaign, of which the Federal Government is paying three-fourths. It is estimated that approximately 130,000 rats have been destroyed during the past four mouths. Thirty-five thousand, six bundred and forty-two rats were brought to the laboratory of the health department. Of this number, 11,331 were examined by bacteriologists for plague and 106 found to be infected.

"The situation is greatly improved," said Dr. Blue today, "despite the apathetic attitude of the people of San Francisco, some of whom have been inclined to hostility toward us for the work that we are doing for their exclusive henefit."

GOVERNMENT REPLIES TO THE STANDARD'S PLAINT.

Oil Monopoly Knowingly Profited by Secret Rates and Drove Out

the legal published rate was 18 cents. The Commissioner says: "This same secret 6-cent rate had been used by the Standard Oil Company, and by no one else, for many years prior to this period. It was not filed with the Interstate Commerce Commission and was expeditally secret. Commission, and was absolutely secret and unknown to independent oil refiners,

er to shippers generally." He calls an evasion the statement of President P. A. Moffett that this was not a rebate, because the difference between the three rates was not paid by the Standard and the repaid by the Alton, saying that the result was exactly the same. In reply to the statement that the 6-cent rate was not discriminative, because no one else paid the 18-cent rate the Commissioner says the situation had worked out its logical result so that no one else could ship and the Standard

n onepoly was produced.

As to the excuse that the Standard could have shipped over the Chicago & Eastern Illinois at 6% cents and that therefore no moral wrong was done, the Commissioner says this rate was an additional wrong in itself, for it was quite as secret as the Alton rate and was an-other attempt to evade the spirit of law. A single copy of this tariff was filed with the Interstate Commerce Commisbut there is no evidence that it was ever given to any shipper xcept the Standard. This rate was from Dalton, a village just outside Chicago and a foot-note made it apply from Whiting, the purpose being concealment. The Chicago & Eastern Illinois four years later published conspicuously the I8-cent rate, the only oil rate which could ever come to

In both cases too collections were made at the general offices instead of by the local freight

agents.

He comments on the ignorance of the the comments on the ignorance of the Standard's carefully organized freight traffic department of the lilegality of the rate, though the only motive of secrecy was to conceal it from the Standard's competitors. He states that the records of the roads show the Standard knew every detail regarding other illegal rates.
"It is absolutely impossible to impute to
the freight traffic department of the Standard either ignorance or innocence as to any essential facts in relation to the railway rates on oil."

He cites a number of other illegal rates on oil exposed in his reports, which were all cancelled by the railroads within three months after the exposure.

He concludes by saying that after driv-ing all competitors out of the Southwest by rate discrimination, the Standard raised its prices to a monopoly figure, so that its marketing concern made over 690 per cent in 1904 and long made extor-tionate profits. He concludes: "The enjoyment of this discriminatory rate was well worth many millions of dol-lars to the Standard, and most emphati-cally justified the imposition of a great fine when that rate was finally discor-ered and conviction was secured thereon."

Exhumation Disposes of Druce Claim to Title.

#### BEARDED OLD MAN BURIED

Dramatic Scene in Cemetery When Coffin Is Found Not to Contain Lead-Fortune Wasted in the Contest.

LONDON, Dec. 30.-The body of Thomas Charles Druce, in Highgate Cemetery was exhumed this morning just 43 years to a day after its burial. The coffin was found to contain the remains of a human body, thus exploding the ro mantic tale told by Robert C. Caldwell and others who swore, during the recent hearing of the Druce perjury case, that contained a roll of lead.

The official statement given out by representatives of the Home Office and others wno were officially present at the exhumation, not only definitely disposes of the lead myth, but seems effectively to prove that the body buried in was actually that of T. C. Druce. The authorized statement follows:

"The coffin was opened and found to contain the body of an aged, bearded man: the plate on the coffin bore the name, Thomas Charles Druce."

All Competitors.

The scene at Highgate Cemetery this morning when the vault was opened was remarkable. Constables seemed to spring from everywhere; every bush and every tree apparently hid an officer of the law. All the entrances to the cemetery were surrounded by cordons of police. Only those persons who had passes from the legallty of the fine of \$22,240,000 imposed on it by Judge Landis. The offense was the acceptance of a secret rate of \$ cents per 100 pounds from Whiting, Ind., to East St. Louis over the Alton road, when the legal published rate was 18 cents. The

met with a stern refusal.

The operations began at daybreak with the removal of the topmost coffins in the vault, containing the bodies of the wife and son of T. C. Druce. It was nearly half-past 11 before the coffin, the contents of which have aroused the curiosity of the whole world was becaute in really and the contents of which have aroused the curiosity. of the whole world, was brought up ready for opening and inspection. The top was quickly unscrewed and the inner casing of isad cut open. There was no need for the dictum of the eminent surgeon. Augustus Pepper, who was appointed by the Home Office to carry out the exhuma-tion, to assure all present that human remains lay in the coffin.

The Druce vault has thus given up its secret after ten years of legal proceeding which have cost, all told, a considerable fortune. A large part of this money was obtained from servant girls and other workers, who were induced to buy shares in a company formed to proceed to the process of the company formed to proceed to the process. shares in a company formed to prosecute the claims of George Hollanby Druce against the Duke of Portland.

The charge of perjury against Herbert Druce is effectively disposed of.

Those persons who have sworn to the placing of lead instead of a human body in the office have been discredited and

in the coffin have been discredited, and they probably will have to take the con-sequences of their acts.

So far as the public is concerned the entire long drawn out Druce-Duke of Portland controversy is at an end and the case of the claimant, George Hollanby Druce, has fallen to the ground.

Still Fighting for Title.

Despite the finding of the body, George H. Druce says that he is determined to the knowledge of the ordinary shipper. continue to push his claim for the estate. The Standard made no attempt to prove and title of the Portland dukedom. In knowledge of the 6 or 6%-cent rate by an interview tonight, he said:

"It is foolish to deny that I am bitterly been shipped from these points upder the same circumstances as the Standard's shipments, the Commissioner quotes the grand jury's report to Judge Landis that Mr. Moffett was unable to give information of a single pound of such freight.

The Commissioner grees on to show that the body exhumed is the body of my grandfather, who I still firmly believe was the Duke of Portfirmly believe was the Duke of Port-

George H. Druce also expressed dissarts George H. Druce also expressed dissatis-faction that a further examination of the grave was not made for the purpose of ascertaining whether or not a coffin con-taining lead was also interred there. ### SAYING OF CHRIST FOUND

Lost Passage in St. Mark's Gospel Discovered in Egypt.

CHICAGO, Dec. 30.-The Dally News today says: A new saysing of Christ, lost to the world for 1200 years and found in Egypt, was given to the world for the first time today by Professor Henry A. Sanders, of the University of Michigan, addressing the members of the Archeological Institute, now in session at the University of Chicago. The fragment is part of an old bible dating back to the Moslem conquest of Egypt and on its face is so authentic as to disarm hostile criticism.

The long-lost fragment belongs in the sixteenth chapter of the Gospel of St. Mark and follows the fourteenth verse. It relates to the story of Christ's appearance, following his death, to H of his apostles in Jerusalem,

With the new verse the Bible reads thus; "Mark xvi:ii—And they answered, saying that this age of unrighteousness and unbelief is under the power of Satan. and unbellef is under the power of Satan, who does not permit the things which are made impure by the (evil) spirits to comprehend the truth of God and his power.

For this reason 'reveal thy righteousness now,' they said to Christ and Christ said "The limit of the years of the power of Satan has been fulfilled, but other terrible things are at hand, and I was delivered unto death on behalf of those who singled in order that they may return to the truth and sin no more, to the end that they may inherit the marking the property that they may inherit the marking the property that the control of that they may inherit the spiritual, in-destructible glory of righteousness, which is in heaven."

Be Translated and Published.

DETROIT, Mich., Dec. 30.-Charles L. Freer, of Detroit, art collector, student, traveler, has in his possession unopened volumes which will constitute a great addition to Biblical lore. The veilum pages, buried for centuries, are being translated as rapidly as possible by Professor Sanders. The story of their discovery is still unknown to the world and will be made public only when the results of Professor Sanders' researches are published, which may be two or three

Indictments Against the Coal Land-Grabbers Quashed.

FIND NO APPLICABLE LAW

Court Says It Is Not Criminal for Individual to Agree to Sell Lands Acquired by Entry-Eighteen Are Released.

DENVER, Dec. 30.-In another sweeping decision Judge Robert E. Lewis, in the United States District Court today, freed 18 defendants of the charge of Illegally acquiring coal lands in Colorado under the dummy entrymen system and said that the whole theory on which the Goverament has worked in the prosecutions is wrong.

All the indictments in land cases found by the Federal grand jury last Summer except one have now been quashed by Judge Lewis.

The opinion of the court was founded on the case of the St. Louis people who were members of a company known as the Yampa Coal Company and were charged with obtaining 500 acres of land

charged with obtaining 5000 acres of land in Routt County valued at \$500,000.

Judge Lewis held that there is no law which makes it criminal for a citizen to agree in advance of an entry of coal land to sell to others whether individuals or corporations, the land that he might acquire by purchase. He said that the section relating to conspiracy, was inapplicable to these cases, as it dealt only with pension matters and not with land with pension matters and not with land transactions. The rules and regulations of the land office cannot be made the basis of a crime. Judge Lewis said of the coal land act:

the coal land act:
When it was passed, little was known of
the locality and extent of coal measures in
this Western country; and it we were permitted in this case to seek for a policy in
that act, we would say that the predominant
one was to induce the discovery and development of such deposits.

The court held that the first count in he indictments did not state an offense, and quashed the second count also, holding that the affidavits, etc., alleged to be part of the conspiracy were not required by statute. Ernest Knaebel, Assistant Attorney-eneral, said the cases would all be

taken to the United States Supreme Court by writ of error and would be entered upon the docket there within decision of Judge Lewis," said Mr. Knaebel, "will have no bearing on the equity suits already filed by the Government. Judge Lewis holds that it is not a criminal fraud, but his decision acknowledges the force of the

holding of the Supreme Court that it is equitable fraud."

Government agents will continue investigating the alleged land frauds, it was officially announced, until orders are received from Washington calling a halt. More than 30,000 acres of valuable land are involved in the various cases under investigation and their

Kelly seeming to have the first half and Papke evening up matters in the last half. In the third round Papke drew blood from Kelly's right eye, and Kelly in turn jabbed Papke's face, also drawing blood, the round ending an even break. The fourth round was easily Papke's, for he floored Kelly with a us right to the body, following thi up with rights and lefts to the face with good effect and drawing blood freely.

The fifth round was fast and furious for the first half, both fighters easing up towards the end. Kelly seeming to have the better of the round. Both men bored in with rights and lefts to the head and body in the sixth, Kelly upper-cutting with good effect. Papke slipped to the floor in the round, but recovered without floor in the round, but recovered without losing any ground. Honors even. The seventh round, was Papke's, Kelly being pretty well winded at the end of round. In the eighth Kelly did considerable clinching and seemed very weak, but at this point the honors were a stand-off. The fight in the ninth looked very much like a decision for Papke, who had Kelly very wobbly from a shower of rights and lefts and upper-cuts to the body and head, the gong alone saving the Chicago man. In the last round Kelly came up strong and evened up any advantage scored by Papke up to that time. Kelly used right and left with good effect, keeping up a hot pace until the gong sounded, saving nothing for the referee to do but be de-clare the bout a draw. The decision was

# Danger in a Cold

of any kind, do not for a moment imagine that colds are not dangerous. Not only pneumonia, but also the infectious diseases such as diphtheria and scariet fever start with a cold. The cold prepares the system for the reception and development of the germs of these diseases. Take our advice-cure your cold while you can.
