OREGONIAN NEWS BUREAU, Washington, Jan. 23.—When the Oregon Republican State Convention takes up the selection of a delegation to the Republican National Convention, a fight will be made by Senator Bourne or his friends to bring about the selection of delegates personally favorable to the renomination of President Roosevelt, and it will be further attempted to have the delegation instructed to vote for Roosevelt first, last and all the time.

WOULD KILL TO DIVERT TRADE

Japanese Coolies Raid Stevedoring Company's Offices.

VICTORIA, B. C., Jan. 22.—The Japanese liner Iyo Maru, which arrived today, on her outward trip, was flooded, some ladders and loose gear being carried overboard, and a Japanese seaman being swept overboard and drowned.

From Koba the steamer brought news of an armed raid by Japanese coolies upon the Nickel & Company's stevedoring offices, which, by the merest chance, was not accompanied by murder. Mr. Holsten, the manager of the firm, believes the raid was intended to murder him, thinking thus to divert the cargo-handling business to rival Japanese firms.

MAY MAKE SECOND ENTRY

Bill Benefits Entrymen Who Abandon First Homestead.

OREGONIAN NEWS BUREAU, Washington, Jan. 22.—Both Houses of Congress have passed the bill introduced by Representative Mondell, of Wyoming, permitting the making of second homestead entries. The bill, as finally agreed to, was somewhat amended, but in effect it provides that any person who has forfeited his homestead entry through no fault or neglect of his own, or who was unable to perfect his homestead by an honest mistake on his part, shall be permitted to make a second homestead entry, but under such circumstances he will not be permitted at any later date to acquire title to the first land which he attempted to enter. A provision was inserted in the bill denying the second homestead privilege to entrymen who had sold out.

The necessity for such a change in the law is explained in the report of the house committee, in which it is stated that in 1880 and again in 1890 legislation of this general character was passed, but the original bills were not effective, as they were not carefully drawn, and, in consequence, through insufficient knowledge of the law, or because of adversity, have been unable to obtain patent under the public land laws, and yet have not been permitted to make a second entry.

Such entrymen have been virtually denied the right to exercise their homestead rights, for in effect, though they attempted to enter, they were not permitted to make a second entry.

The new law will correct this and insure to every honest entryman title to 160 acres of land, giving him a second trial if he falls on the first.

Little Lads Stone a Train.

As the 5 o'clock Northern Pacific train from Seattle pulled into the city last night, small boys at the foot of Twenty-fifth street hurled a stone through a window of one of the passenger coaches. The flying piece of glass cut the eye of an unknown woman. Although streaming with blood when she arrived at the depot, the woman refused assistance from the railroad officials and drove hurriedly to her home, saying that she preferred to have her own physician. Investigation by Policeman Ben Peterson pointed to light that the culprits were three little boys, the eldest of which is only 8 years old. They are Oscar Lombard, age 8; Albert Alban, age 7; and Frank Schulz, age 7. The boys' parents live at 315 and 317 1/2 North Twenty-first street. They will be brought before the Juvenile Court today.
