Canadian Laborers May Arm Themselves to Exclude the Orientals.

REMOVAL OF DUNSMUIR

Liberals Join With Socialists to Pe-Decapitate Him - Drastic Exclusion Bill Is Drafted.

VANCOUVER, B. C., Jan. 31.—(Special.)—Very significant moves in bringing pressure to compel the official decapitapressure to compel the official decapita-tion of Lieutenant-Governor James Duns-muir for his attitude on the Oriental question will occur in the next few days. The Liberals have joined with the So-cialist members of the provincial Legisla-ture and will on Monday ask the House now sitting at Victoria to petition the Dominion Government to remove Dunsmuir.
The Victoria Colonist, the oldest news-paper in British Columbia, and formerly

owned by Dunsmuir, is also asking him to step down. In the House today Hawthornthwaite, Representative from Nanaimo and the leader of the Socialists, made a red-hot speech declaring that if the Legislature or the Dominion Government did not exclude the Orientals laborers would arm themselves as the Japanese had done in Vancouver and a great conflict might be expected. The laborers would take any unconstitutional means that lay in their power, he said, to secure their rights.

Hawthorninwaite now has a bill drafted prowiding that no mill, mine or factory in British Columbia shall be allowed to hire Orientals unless they can pass an educational test similar to that provided in the Natal act. So that in any event their getting into the province would do them no good.

TAX COMMISSION IS AT WORK

Gathering Exhaustive Data From the Rallroads for Assessments.

OLYMPIA, Wash., Jan. 31.—(Special.) OLYMPIA, Wash., Jan. 31.—(Special.)
—Washington's Tax Commission has
called upon the railroads to furnish a
copy of property valuations given to
every set of taxing officials along the whole line from St. Paul to the Coast. In addition, the railroads must furnish a copy of all their reports to the severai Railroad Commissions and of reports to the Interstate Commerce Com-mission. The Tax Commission is also compiling a special blank form upon which the several roads must answer all the questions that the commissioners deem pertinent. These latter re-ports are to be based upon the blanks in use in Wisconsin. Particular refer-ence is made in them to stocks and

bonds owned by the roads, the value thereof for terms of five and seven years and the revenues derived. The work is being done in pursuance of an act of the last Legislature, which abolishes the law requiring assessments to be made by county assessors, and provides that the Tax Commissioners shall do the work. The assessment is to be made by the Com-mission, according to the peculiar lan-guage of the law, "on or before the first day of March and the first day of June in each year," The companies are entitled to a hearing before the After the assessment pleted the rolls are submitted to the State Board of Equalization (of which the Tax Commissioners are the ma-jority members) and the latter body equalizes the assessment with other

The association has a balance in the treasury of nearly \$500 for the coming season. No definite action was taken, and the site probably hinges between Canby and Gladstone Park, where last year's fair was held.
A juvenile fair will be held in connection with the county fair. The following officers were elected: George Lazelle, president; R. S. Coe, vice-president; T. J. Gary, secretary; Thomas F. Ryan, treasurer; J. W. Grasle, William Grisenthwaite, T. R. A. llwood, Thomas Turner, directors,

HORACE E. NEAL, OF WRECKED IDAHO BANK, IN TROUBLE.

Already Bogus Paper to Extent of \$50,000 Is Found, With More Coming In-Peculiar Methods.

BOISE, Idaho, Jan. 31 .- (Special.)-Horace E. Neal, who was cashier of the Capital State Bank until its fallure last week, was arrested tonight on a charge of forgery. The facts of the case are not fully laid bare yet, but it is known that forged notes aggregating at least \$50,000 have come in and more spurious paper is turning up all

The methods pursued were peculiar and have not yet been explained. Many of the forged notes were copies of originals, the copies being sent to Eastern banks for rediscount and the or-iginals held in Mr. Neal's possession. Others were originaled by him. The first of the notes appeared a week ugo when two men arrived representing Kansas City and Omaha banks with such paper in their possession. Com-parison of signatures soon showed they were bogus. Those notes were taken up by Neal's friends but soon so many more appeared they could no longer be taken care of in that man-

made much money, and the election to the prosidency of Mr. Moore is believed to be the initiative of an aggressive campaign for business.

The process of Mr. Moore is believed trade has vanished, I have lost my optimalism. It seems certain that there will be practically no Spring trade, and it will be July or August before the mills will find business conditions fair.

"Usually July and August are quiet months in Aberdeen, but this year, if my present ideas are borne out by subsequent developments, there will be healthy activity throughout the Suppose of the suppose roughout the Summer.

"The situation is the same over the entire country. Seven-eighths of the yellow pine mills of the South are idle. The South is relatively worse off than we are. There is no Eastern demand for lumber and the coast trade of South America, and the coast trade of South America, Mexico and the islands and Orient mar-kets are utterly demoralized. About 59 per cent of our lumber product is sold off shore. There used to be good money in that business, but when shipments be-gan to exceed the demand, prices fell. I do not look for improvement in the for-eign trade until such time as the home market improves, When the situation does begin to im-

prove, building will be stimulated at home and abroad. Lumber prices are down and charter rates are reduced by oneand thatter rates are reduced by one-half. Former prices and rates cannot be restored at once, but must improve grad-ually. During this improvement period there will be demand for lumber because It can be bought at the lower figure. This demand will be both local and foreign. Perhaps by August 1 the market will begin to show signs of improvement and I am beginning to think that nearly all the mills will be running by that time.

"In the meantime, however, the millimen will have a hard time to get along. Collections continue very slow and its limit lections continue very slow and the lum-ber yards all over the country are stocked. We have a car of lumber in Nebraska which we have been paying demurrage or for 30 days. The yards are full and the shipment cannot be sold."

There are numerous duties prescribed for boards of directors, and the County Superintendent under this ruling has power to compel boards to carry out the law as he sees it or step down and out. Vacancies thus created would be filled by special election.

Attorney-General Crawford has held that under the new tax law the state is not required to furnish blank assessment rolls but each county must provide its

Mr. A. L. Petty, of 285 Portland Blvd., was doctoring for 10 years for what the physicians called rheumatism. He bould not get around without the sid of a heavy cane, but after taking three hottles of Kidney Cure Tea he threw the care away and went to work. Eight bottles completely cured him, which demonstrated that while the physicians were dosing him for rheumatism. he really had kidney trouble.

A. J. Wilks, of 799 Williams avenue, suffered for 10 or 12 years with kidney trouble, and a prominent physician wanted \$200 to treat him. His back was as black as his hat, and his stomach so infismed that he could not bufton his pants or vest. He was induced to try a bottle of Kidney Cure Tea. He immediately had some relief and by the time that he had taken 10 bottles he was completely cured. Where his clothing was too tight, there is now 10 inches of space between his vest and his pants.
