hand, evidently believing the local field inexhaustible. Belknap left town because it had been found he was a practicing faker. He had no license or certificate of competency. Practicing fakers are not an uncommon class in tha city, but Belknap's methods were so peculiarly crude and nefarious that Detectives Hellyer and Maloney, who ferreted him out, succeeded in convicting him in the Municipal Court yesterday morning, not only of practicing medicine with-out a license, but of the additional charge of vagrancy. It was contended that since he had no lawful occupa-tion he therefore was possessed of no visible means of support, and accord-ingly must be amenable to the law ap-plying to vagrants. Judge Cameron

# Newbro's Herpicide

More men and women have gotten positive results from the use of NEWBRO'S HERPI-CIDE than from all other hair remedies combined.

Newbro's Herpicide is the original remedy that kills the dandruff germ. It eradicates dandruff, stops falling hair and permits a natural hair development by destroying the tiny vegetable growth, a germ or microbe, that causes hair destruction.

Nature constantly struggles to supply life and vigor to the hair, but the dandruff germ saps this vitality and strangles the life out of the hair.

I can conscientiously indorse it for doing all you claim, and it gives me great pleasure to recommend it."

For regular toilet use, Newbro's Herpicide easily occupies first place. It is sold in practically every civilized country on the globe, and a single trial will show why discriminating ones prefer it. Contains no sticky substance. It will not stain or dye the hair. It stops itching of the scalp almost instantly.

Rev. Dr. Waters Says Specification Regarding Dancing, Etc., Should Be Eliminated.

Representatives of 30 chapters from churches of the Portland district were present yesterday morning at the opening of the first annual convention of the Portland District Epworth League, which convened in the University Park Metho-dist Church. W. H. Warren presided. After devotional exercises conducted by Rev. T. C. McPherson, the regular business of the convention was taken up. The most interesting feature of the

day's programme was the question box, conducted by Dr. D. A. Waters, who answered among other questions, "Should specification No. 348 be eliminated from the Methodist discipline?" This was sub-mitted to Dr. Waters among others from

the audience, and is important for the reason that it is now pending before the general conference on the recommenda-tion of several of the bishops that it be eliminated and for the reason also that a strong petition went from Oregon assing its alimination ngainst its elimination. Dr. Waters contended that the speci-

fication ought to be eliminated and that it would be eliminated either at

that it would be eliminated either at the present General Conference, or at some future one. This specification, he said, condemns dancing, card play-ing, theater-going, and horse-racing. Dr. Waters, in answering the ques-tion, declared it 'was useless to set forth these particular items and con-demn them, and leave a still longer list of other things' not condemned which are just as bad and even more vicious than these. It will not, he de-clared, let down the bars on these worldly practices by any means, but clared, let down the bars on these worldly practices by any means, but they will stand under the condemna-ion of the Methodist Episcopai Church as much as ever. Whether the amuse-ment question will be further consid-ered remains to be seen. It is nowhere on the programme but was brought out through the question box in the afternoon.

DIES

Mr. Frederick Bindenberger, of Cranford, N. J., who is 73 years of age, thought he was too old to work at his carpenter trade, as he was troubled continually with headache, indigestion and pains which seemed to be rheumatic.

On the advice of a friend, Mr. Bindenberger started taking Duffy's Pure Malt Whiskey, which completely cured him. He now has a good appetite and can do as good a day's work as any man.

Recently Mr. Bindenberger wrote: "Previous to three years ago I thought I was too old to work any more at my trade as a carpenter. I was tired out, had what seemed to be rheumatism in my back and shoulder, had indigestion, headache and was prefty generally broken up. I was advised by a friend to take Duffy's Pure Malt Whiskey, so I bought a bottle. I kept getting better; what seemed to be rheumatism left me; my appetite came back; I began to feel like doing something, so I went to work, and have worked ever since, taking Duffy's Pure Malt Whiskey every day, have only lost four hours since last November, and that was on account of the snow being too deep to get to the shop until noon. I feel as young as I did thirty years ago and can make some of the younger ones hustle. I will be 73 years old next August. if I live until then, and I guess I will.
