Your stomach can digest "FORCE" when it can't digest any other food. That's because the crisp flakes of whole wheat are thoroughly mixed with the saliva and other digestive fluids, and because the starch in the wheat is converted into dextrine by barley-malt, thereby relieving your intestines of the hardest part of their work.

"FORCE" is made of the best white wheat, steam-cooked, rolled into thin flakes, combined with the purest barley-malt and baked. Always "crisp" before serving it by pouring into a pan and warming it in oven. Then serve in large dish with cream, piling the flakes in one side of the dish and pouring the cream in the other side, dipping the flakes as eaten.

Your grocer sells it. No other Flaked Food is "just as good."

buy their pianos at wholesale instead of retail prices, a net saving of from \$100 to \$175 on each piano. It is not to be wondered at that people have come 300 and 400 miles to take advantage of this one chance in a lifetime to purchase their piano at the same prices the large dealers pay for them in one hundred lots, and have two and one-half years in which to complete payment, with exchange privileges that practically place a piano in the home on trial for one year.

Our motto has ever been and always will be, satisfaction or money back.
