NAVIGATION ACT SOON IN EFFECT

Amendment Regulating Complement of Ships' Crews Operative July 1.

INSURES SAFETY OF PUBLIC

United States Inspectors Will Soon Be Vested With Authority to Prevent Sailing of Vessels Insufficiently Manned.

The navigation act recently passed by Congress amending section 4463 of the Revised Statues, relating to the complement and crew of vessels, will go into effect on July 1. Captain E. S. Edwards and George Fuller, local inspectors of hulls and boilers, are in receipt of a copy of the law, which is as follows:

and George Funer, notal image. The shall said boilers, are in receipt of a copy of the law, which is as follows:

Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, that section 4463 of the revised statutes of the United States be amended so as a read:

Sec. 4463. Any vessel of the United States subject to the provisions of this title or to the inspection laws of the United States shall not be navigated uniess she shall have in her service and on board such complement of Hernsed officers and crew as may, in the judgment of the local inspectors who inspect the vessel, be necessary for her safe navigation. The local inspectors shall make in the certificate of inspection of the vessel an entry of such complement of officers and crew, which may be changed from time to time by indorsement on such certificate by local inspectors by reason of change of conditions or employment. Such entry or indorsement shall be subject to a right of appeal, under regulations to be made by the Secretary of Commerce and Labor, to the supervising inspector and from him to the supervising inspector services of any member of any of the crew without the consent, fault or collusion of the local inspectors. If any such vessel is deprived of the services of any member of any of the crew without the consent, fault or collusion of the master, she is sufficiently manned for such voyage.

If the master shall fall to explain in writing such deficiency in the crew to the local inspectors within 12 hours of the time of the master, shall be liable to a penalty of \$500.

Section 2 That this act shall take effect on July 1, 1908.

Section 2 That this act shall take effect on July 1, 1908. Approved April 2, 1908.

The act embodies part of the Government's plans to render navigation laws stronger where human life might be en-dangered by a vessel insufficiently manned leaving for a cruise. An in-stance of the lack of hands aboard a ship stance of the lack of hands aboard a ship is on record in the case of the collision between the Steamship Jeanie and the ill-fated steamer Dix on Puget Sound several years ago. This was one of the worst marine disasters recorded in the \$1990, which subscription will not be North Pacific district, and the accident is said to be directly due to the short-handed crews of the two vessels.

STRIKE AT SUPPLE'S YARDS

Shipwrights Demand Extra Pay for Work on City Craft.

Twenty shipwrights and carpenters em-ployed by Joseph Supple at his yards on the East Side yesterday, walked out on strike because their demands of an in-crease of \$1 a day for all work performed for the city, state or Government.

When the men reported for work yesterday morning they were informed that they would receive the regular scale of \$4 a day while making the necessary re-pairs to the Port of Portland tug John McCraken. The men balked and wanted \$5 a day for this work, which, they con-tend, is the customary wage paid for all work done for the Government or the

Mr. Supple refused to listen to the demands of the men and informed there that he would fill their places immediately. When asked whether the strike would affect his work, Mr. Supple replied that all work will be resumed Saturday morning, as he says he has sufficient force of men available to continue the operation of his plant.

Steamships Ohio and Yucatan Having Hard Struggle to Reach Nome.

SEATTLE, June 19 .- Surrounded by lee, the steamships Ohio, from Seattle and Yucatan, from San Francisco, are struggling slowly toward their destination, the port of Nome, which at latest advices was still 200 miles distant. The Northwestern, which arrived at Nome last light recogning the other two ships of night reported the other two ships off Cape Romanzof, almost due south of Nome. The Transit, sent from Victoria by Schubach and Hamilton and the Umatilla from Seattle, June 4, have not yet been reported and are supposed to have taken some other course to get through the almost impassable ice pack which oc-cupled the south of Bering Sea this year. The report regarding the Ohio and Yu-

SAVE YOUR HAIR

NEWBRO'S HERPICIDE

The time to save your hair is while you have hair to save. Newbro's Herpicide kills the germ that causes dandruff, itching scalp and falling hair, after which the hair is bound to grow as nature intended (except in cases of chronic baldness.) Herpicide stops itching of scalp almost instantly.

I have given your Herpicide a thorough test. I can cheerfully say that it is the best Hair Tonic I have ever used. It will be one of our household remedies from now on and will surely recommend same to all my friends and acquaintances, (Signed) PETER PEHL.

Sedaila, Mo.

You very kindly sent me a bottle of your Herpicide and I giadly answer your inquiry as to its qualities. I have used it now for some time and know it to be the best thing for the hair I have ever used and it keeps my hair free from dendruff and as soft as silk. I have induced several of my friends to use it and they are pleased with it. (Signed) W. M. SHOOK.

IN FIGHT WITH COUNCIL

Will Appeal to Courts Against Au thorized Violation of City Fire Ordinances by State Senator

Nottingham and Others.

Building Inspector Dobson, appointed out two weeks ago by Mayor Lane, has determined to know his rights under the rdinances regulating his office, and in ordinances regulating his office, and in taking this stand, is engaged in opposing the City Council and State Senator Nottingham. From the present status of the case, it seems that the Inspector will probably win. He has attacked the hitherto unquestioned right of the Council to grant special privileges to individuals and declared to the members of the committee on health and police vestor.

in the courts.

Four weeks ago Senator Nottingham appeared before the Council and sought an ordinance granting to him the right to repair a frame building, located on East Washington street, between East Third and East Fourth streets. Although Building Inspector Dobson was then acting Inspector, appeared and protested, the Council voted the permit. It was promptly vetoed by Mayor Lane, and passed over his veto at the following meeting of the Council. eting of the Council

While the wording of the ordinance veloped that, in a section further along the right is given to build frame struc-tures on the entire block, should Mr. Nottingham see fit. Inspector Dobson kept his eye on the building, and when After the warrant was served, it now de-

The latter, hearing of the matter, came to the meeting and announced in plain, but guarded language, that he proposes to see whether or not the City Council can go ahead, contrary to the rulings of City Attorney Kavan-augh, and grant special permits, and whether the Council, in this matter, can cullify all the ordinances regulating the

building operations of the city.

Mr. McNary told Inspector Dobson that, after having protested against the permit before the Council, it is out of place and in poor taste for Mr. Dobson to insist upon stopping Senator Nottingham from work on the frame structures in the fire limits. Mr. Dobson, however, stood, fire limits. Mr. Dobson, however, stood firm and said he would proceed to press the case in court, in order to ascertain his rights.

A big fight is promised between Mayor Lane, the Executive Board and the political friends of the Mayor and the "solid ten" faction of the City Council over a ommendation of the committee on health and police, taking from the Executive Board the power of granting permits "nickelodions" and moving-picture shows, and placing it in the hands of Pire Chief Campbell Denuty Pire Mars shal Roberts and Building Inspector called for the construction of a hallway, Dobson. Heretofore it has been the prerogative of the Board to Issue such permits. Councilman Baker, who has just fitted up a nickelodion establishment, voiced the sentiment of the faction of the Council, of which he is a member, when he declared that, if an applicant it became apparent that it was the intention of Mr. Nottingham to build a new frame house, Mr. Dobson secured a warrant for the arrest of Mr. Nottingham. Councilman Baker was present as a velops, the building operations were con-tinued. Yesterday morning L. A. McNary, ex- the most active part in the proceedings. City Attorney, appeared on behalf of Senator Nottingham and sought relief from the interference of Building In-

establishments in frame buildings met with instant disapproval by Mr. Baker.
After the committee had voted to recommend the ordinance for passage, with the amendments regarding the power of issuing permits, Councilman Baker secured the services of Councilman Annand in drafting a provision, exempting "all frame buildings which have been used as theaters for one year." This clause per-mits Mr. Baker, should he wish, to install moving-picture apparatus in either of his frame theaters.

MY TREATMENT FOR WEAKNESS

Functional derangement, such as premature loss of power, etc. is neither a "weakness" nor a disease. It is a symptom of prostatile disorder. To stimulate activity by the use of powerful tonics is an easy matter, but such results are merely temporary drug effects. Most doctors treat "weakness" in this manner because they do not know how to cure the real cause of the derangement. My treatment is a local one entirely and corrects every abnormal condition of that vital center, the prostate gland. My cures are permanent.
