Extradition Treaty Does Not Cover Crime Charged.

WASHINGTON, June 30 .- Bailey and his associates, it is said, are wanted on the charge of conspiracy to use the mails of the United States to defraud. Their surrender to the American authorities is purely an act of comity on the part of the Honduran government, there being no extradition treaty between the countries. The steamer Goldsborough, on which the men salled, reached Honduran waters late in May and since that time the American authorities have been making efforts to secure the men and the return of the vessel and cargo

CONFERENCE MOST SUCCESSFUL HELD IN NORTHWEST.

Large Attendance From College and City Associations-Young Women Are Pleased With Outing.

SEASIDE HOUSE, June 29 .- (Special.)-

The annual Northwest conference of the Young Women's Christian Association losed yesterday. This has been, in many respects, the best gathering of its kind ever held in the Northwest-certainly it was the largest. Last year there were 140-this year 175 delegates and visitors. Of these 98 were students from college. normal or High school, and 64 from the city associations. The State University was in the lead in this respect, having sent nine delegates, while Portland had 30 representatives. The city association of Tacoma deserves special mention for its 17 delegates. Perhaps, however, the Montana girls, five in number, deserve quite as much credit. The five-months-old association at Bellingham sent two dele-

The athletic and outing features of the onference were most successfully carried out under the management of Miss Halnick, of Tacoma. She engineered several long expeditions—walking, boating and driving, and the field meet and baseball game on Saturday were greatly enjoyed.

Dr. Sarah Whiteside of Portland, assisted by Miss Collan, of Spokane, looked out for the few sprains and illnesses. MISTAKES SON FOR RIVAL

JEALOUS HUSBAND KILLS WIFE AND WOUNDS BOY.

Fires on Couple From Ambush as They Are Leaving Church Social in Illinois Town.

ST. LOUIS, June 30 .- Julius Turner, wealthy farmer of Clay City, BL, Sunday night shot and killed his wife and fatally wounded his own son, 15 years old, at Sallor Springs, mistaking the lad in the darkness for the woman's lover. The shooting was done from am-bush, Turner having concealed himself in a little grove a few rods from the door of the village church, where his wife was attending a social. He had expected her lover to meet her there, and seeing the young man join her at the door of the church when the social was over,

without investigating fired on the couple when they passed his hiding place. After seeing his victims fail Turner at-tempted to kill himself, but inflicted only a trifling wound. He was arrested and a few moments later learned of his hor-rible blunder. He expressed no remorse for the murder of his wife, but wildly lamented the shooting of his son, begging to be allowed to kill himself, and declar-

to be allowed to kill himself, and declaring that he would starve himself in jail.
He was locked up.
Turner is an old man and a Union Veteran of the Civil War. His wife, from
whom he had been separated for about
four years, but of whom he was still
insanely jealous, was 20 years his junior.
Turner admits that he shadowed her
during the entire evening of the shooting expecting some man whose name he ing expecting some man whose name he refuses to divulge to meet her at the social. Without his father's knowledge young Turner, who is large for his age, had arranged to take his mother home from the entertainment, and thereby walked into the ambush arranged for the

DYING MAN WARNS WIFE

Cyanide in Bottle of Ale Kills Dr. William H. Wilson-Name of Murderer Is Kept Secret.

PHILADELPHIA, June 20.—The police tope to make an important move today in the case of Dr. William H. Wilson drinking a bottle of ale, and who is believed to have been poisoned. Investigation by the coroner resulted in an expressed opinion that Dr. Wilson was polsoned and that he did not administer the

polson himself. At the North Seventh-street hou where Dr. Wilson had lived for 10 years, there was no sign indicating that a physician lived there. He did a general practice in the neighborhood, but had patients said to have been principally women who were able to pay well for his services. The line of practice the doctor had was highly remunerative, for he was noted as a "good spender." and he had a Summer home at Cornwells, a steam launch and an automobile

The motive for the supposed murder is believed to be hidden in Dr. Wilson's medical practice. The theory of the police is that a male friend or relative of a woman who is believed to have died after receiving medical attention at the hands of Dr. Wilson sent the poisoned ale.

Frank Paul, the coroner's detective, left the city today to run down what is con-sidered a very important clew. Before leaving he said there was no doubt that the ale contained cyanide of potassium. The ale was delivered by express, and it

has been traced to a certain place, which is now under surveillance.

Dr. Wilson's wife had a narrow escape from death, When Dr. Wilson opened the bottle of ale he poured half of it in a glass and offered it to Mrs. Wilson. The doctor took the first drink, and, noticing some peculiarity in the taste, told his wife not to touch it. A few minutes later he became ill and died on the way to the hospital. The day the bottle came by express Dr. Wilson received a letter pur-porting to have come from a prominent Philadelphia brewing company notifying him that the ale had been sent to him and asking him to try it. Investigation showed that the brewing company does not brew ale.

BOOSTS RAILROAD TAXES

VALUES TREBLED BY WASHING-TON COMMISSION.

Corporations Must Pay on Values Used as Rate-Making Basis in Recent Investigation.

OLYMPIA. Wash.. June 29 .- (Special.)-OLYMPIA. Wash. June 29.—(Special.)—
The State Board of Tax Commissioners
today fixed the valuation of the operating property of the three chief railroads
in this state for taxation purposes at 60
per cent of the value of such property
just found by the State Railway Commission. The roads will, therefore, be assessed for this year's taxes on the basis
of 60 per cent of the following values:
O. R. & N., \$16,500,000; Great Northern,
\$59,000,000; Northern Pacific, \$111,000,000. \$59,000,000; Northern Pacific, \$111,000,600. This 60 per cent for these three roads aggregates a gross assessment of \$111,-900,000.

Similar assessments of the other railways of the state, also on the 60 per cent ways of the state, also on the 60 per cent basis, will probably swell the total as-sessment of railroad property this year to \$125,000,000, as against but \$44,000,000 assessment last year. These assessments do not include railfoad land grants nor coal mines or wharves or tide lands and other commercial property not used for operating purposes. Under the new law other commercial property not used for operating purposes. Under the new law the State Tax Commission fixes values solely on the operating property of the several roads and County Assessors will fix the assessments of the other property just as was done in the past. The Tax mission will at once take up the mat-Commission will at once take up the mat-ter of segregating these assessments into the various classes, and later will certify the assessments to the various counties to be spread on the county tax rolls. In the event the railroads object to paying taxes on this greatly increased assessments, the roads will be met by the fact that the avora testimony of their assessments, the roads will be met by the fact that the sworn testimony of their officials given the Railway Commission hearings were to the effect that the value of railroad property for rate-making purposes was grealy in excess of the values here given. Of course, under the law, the roads have the right to a hearing before the Board, seeking reduction of assessment, but it is not believed any charge will be made from these change will be made from these es. The Tax Commission members a majority of the members of the are a majority of the members of the State Board of Equalization, so any change by that body is also unlikely, and the result will be the railroads operating in Washington will this year pay nearly three times as much taxes as in past
