SAN PRANCISCO, July 31.—Silver bars.

Dally Treasury Statement.

TRANSACTIONS ARE SMALL

Some Demand for Old Bluestem in the Local Market-Watermelon Prices Are Shaded-Peaches Are Very Scarce.

The amount of business under way it new wheat in the interior is not large. Very few farmers are disposed to sell at this time and the full prices offered in some in-calities do not produce business. Country buyers are trying to stimulate the movement of wheat to their warehouses and this is probably the reason for most of the offers that have been made this week. There is a moderate local inquiry for old

bluestem principally from milling sources, and as only a limited quantity is available a premium is offered for it. At the Board of Trade vesterday there were bids of 89, 90 and 91 cents for old bluestem wheat. December wheat was the interesting fea-ture of the Board of Trade. The bidding was active but buyers and sellers were still 2 cents apart in their views and no inquiry resulted. Wheat for that delivery red at 89 000 cents and 86 0 87 cents was bld. September wheat opened and closed at Thursday's prices.

Classed at Thursday a price.

Outs and barley were very firm. For
September outs \$1.20 was bid and \$1.22%
was offered for December, being an advance of 5 cents over Thursday's closing price For barley, \$1.15 was offered for both Receipts for the day were I car and 630

sacks wheat, 2 cars and 31s sacks onts and 4 cars hav. The range of futures was as follows:

Espt.			Low. \$ 83 .86	Close. \$.86 .87

CALIFORNIA FRUIT MOVEMENT. Pear Shipments Are Now the Heaviest of

the Season. The prevenent of California deciduous fruits is reported by the California Fruit

fruits is reported by the California Pruit Distributors as follows:

Peaches, 146 cars—The shipment for the next seven days will remain steady. Early Crawfords are getting protty well along but other yellow frees. Elbertas and some Clings will go forward. The Elbertas are reported as being especially nice this year. Pluma and Prunes, 140 cars—The shipment has remained steady for the week will a slight decrease for the next seven days. Quality of this fruit going forward now is generally very nice.

Pears, 364 cars—There was a slight in-

Pears, 364 cars.—There was a slight in-crease in the shipment of Bartletts during the week on account of the fact that the Salman district commenced shipping liberthe week on account of the fact that the Suism district commenced shipping liberally before expected Hartletts have, however, reached the apex and while the shipment will remain reasonably steady if any change there will be a lendency to decrease. Quality is O. K. in all respects, everything that could be desired, clean and smooth, no worms, no smut and fairly good size. We will have a goodly quantity of all varieties of Fail pears as well as a number of cars of fancy Winter stock.

Grapes, 40 cars—Thompson Seedless are going forward liberally in straight carload lots. Other early varieties coming in in more or less quantities. The later grapes are all reported as doing nicely and are giving splendid promise of being fine in all respects for shipping and keeping. Although some report from burn has been received we have no reason as yet to cut down former estimates in regard to the total crop available for shipment.

HOP CROP CONDITIONS IN ENGLAND Prospects as Viewed by the Merchants and Factors of London.

The latest circulars of the English hop trade. like the pinntation reports in the English papers, show the hop crop to be generally good condition. The circulars

follow:
Cattley, Gridley & Co., London-The genial rains which have fallen during the past week have further benefited the plantations, especially those on the shallower soils. The temperature has been somewhat lower, and this has to some extent stopped the rapid progress of the bine. Some little vermin and mould are reported, but at prosent there is nothing to cause any alarmountmental and American prospects are also on the whole favorable. Market quotations are unaltered, and trade is principally of a hand-to-mount character. Very few goed hops are now left in first hands.

Wild. Neame & Co., London-Trade continues dull and uninteresting. There is a general sprinkling of fly in the plantations, and washing is taking place in most districts.

Manger & Herriey, London-The inquiry Manger & Hemey, London—The inquiry for hope continues and some good business has followed. The bine has been counsiderably checked by the cold nights, and does not look anything like so favorable for a crop as it did a formight ago. Some growers are washing, fearing the increase of vermin of the last few days.

W. H. & Le May, London—There is no alteration to report in our market; a small rotall trade is doing and prices remain nominal.

J. H. Merediin & Co. Westerness of the state of the state

J. H. Meredith & Co., Worcester-Warm

J. H. Mercellih & Co., Worcester-Warm rains have refreshed the plantations and the bine continues to make visorous growth with pin already beginning to show for burr on some of the sariler sorts. Blight has not entirely disappeared, but growers have to study strict economy and washing is only being continued in a few grounds.

WATERMELON PRICES ARE DECLINING Penches the Scarcest Article in Fruit Line

Six cars of watermelons came in yester day and with the heavy receipts of Thursday weakened the market. Quotations ranged from 90 cents to \$1.25 toose, with the usual additional crated charge, Canta-loupes were steady and unchanged.

Peaches were very scarce and firm. The receipts were only a few shipments of Oregons of small size, which, however, sold readily at 85@90 cents. A mixed car of California Crawfords and Elberts is due Monday. Pears were in light supply. Loganberries were scarce and other herries

ALL DESCRIPTIONS OF POULTRY WEAK Local Egg Receipts Falling Off-Sentile

The poultry market continued very weak yesterday and hens were sold at 12% cents, while some dealers cut Springs to 15 cents. Egg receipts were 400 cases Eastern and 170 cases local. The market was strong for fresh stock and extras were firmly held at 25 cents. With firsts steady at 23@24

ket was firm for all descriptions. The feature of the cheese market was the continued buying of Seattle. At the Board of Trade 100 cases of Tillamok twins were offered at 12% cents.

An advance of 10 cents per gallon in bulk olives was announced yesterday. Syrup advanced 2 to 5 cents per gallon.

Metal Markets.

NEW YORK, July 31.—The London tin NEW YORK, July 31—The London the market was higher today with spot closing at \$138 10s and futures at \$139 10s. The local market was quiet, but higher in sympathy with the foreign advance, spot being quoted at 30.50€31c.

There was a further slight gain in the London copper market, with spot closing at \$20 17s. 6d and futures at \$60 10s. 6d. Locally the market was firm and a shade higher, with Lake quoted at \$13.23 6 13.37 (c. slectrolytic, \$18,15.25c, and castlog, \$12.75 6 13c.

Lead closed at \$13.38 6d in London. The market locally was also firm and higher market locally was also firm and higher at 4406 445c.
Spelter was lower at its 17s 6d in London, but the local market was firm and unchanged, at 4.709 4.7c.
Iron was unchanged locally.

London Sheepskin Sales.

LONDON, July 31.—A sais of sheepskins was held today and 118,384 skins were offered, of which 79,482 were sold. The moderate supply and condition of the offerings seemed to be fairly satisfactory. The attendance was good, though competition was chiefly confined to the home trade. Long-wooled realized 18,314 dearer while short-wooled sold at unchanged prices. Shorn showed is to is over last sale. Coarse was in better demand and sold 14 dearer.

Bank Clearings. Clearings of the Northwestern cities yes-

Syndicates to Operate in Most Prominent Stocks.

INDUSTRIAL LIST HIGHER

Gould Group Strengthened by Report of Settlement of Wheeling & Lake Eric Financial Trouble-Bonds Are Steady.

NEW YORK. July 31.—Today's desultory appeulation centered in the copper stocks and other industrials. The effect of the general list was distinct but moderate, except for the late bulge in Reading. The feature of the market was the scarcity of stocks offered so that the advances were made on comparatively light dealings. There were rumors in circulation of the formation of speculative pools to operate in some of the most prominent copper stocks. The movement was widespread, affecting Amatgamated Copper, and, abroad, Hio Tinto, the principal foreign producing company, toth on the stock exchange and in the outside market, American Smelling and National Lead showed their usual close symiathy with the movement in this group of securities. The interest shown in the rest of the market was somewhat languid and lapsed with the pauses of the buying of the coppers.

lapsed with the pauses of the buying of the coppers.

The Gould stocks were first to move outside of the coppers. The announcement that provision had been made to meet the \$8,000,000 coligation of Wheeling & Lake Ericates maturing temogrow gave some strength to the group, although the impression remained strong that the principal benefits from this settlement will accrue to other properties. No sutheritative information was forthcoming of the terms which had induced banking relief for the situation, but it was supposed that the Hurriman inforests were incurred some advantage for their properties in the operation of the Gould lines.

lines.

Not much attention was paid to reports of rust damage to wheat in the Dakotas, the large offerings of wheat for sale serving to discredit these reports to an extent. Developments in the money situation were not important. The Reading movement held up prices elsewhere after they had begun

LONDON, July 31.—Bar silver, steady. 23 3-16d per ounce. Money. 就 51 yer cent. The rate of discount in the open market

MARKET CAUSES HEAVY

WASHINGTON. July 31.—The average condition of option was 83 per cent on July 25. as against 81.2 a month ago and 75 a year ago today, according to the report of the Department of Agriculture given out today. The condition on July 23 of previous years was 82.9 in 1906, 74.9 in 1905, 81.4 for the past ten years.

NEW ORLEAS, July 31.—While the crop condition report of 83 per cent, issued by the Government today, was regarded by the local trade as decidedly less bearish than expected, it did not have a very buillish effect on the market. The active months advanced 7 points, following the announcement of the report, but reaction followed and prices sank to the former level:

STRONG DEMAND AT SEATTLE, BUT WILL NOT PAY UP.

Barley Higher and Oats Firm. Poultry Received From Portland Weakens Market.

SEATTLE, Wash., July 31 .- (Special.)-New wheat is needed here to run the flour the city and millers will not pay the prices demanded by the growers for what little they demanded by the growers for what little they have left. There was a firm feeling all around in wheat. The State Grain Inspector's office today reliterated its 60 per cent estimate made on July 8 and insists that despite reports of heavy yields, the total crop will not be above the first estimate.

Outs and barley are firm Barley is 50 cents before the property in the property in the property of the property in the property is 50 for the property in the prope

Oats and barley are firm. Barley is 50 cents higher than last week, at \$23.50 for August and September fellvery.

Oregon cherries are about all that is in the market at present Commission men state they have to depend upon Southern shippers, owning to light receipts from local and East-ern Washington points.

Local potatoes are in heavier supply and weaker. Good stock can be had at \$20 per

ton.

All kinds of berries are disappearing from the market. Few supplies are being brought from California at present.

Owing to quite heavy shipments of live hens from Portland today, the poultry market turned weak, but did not break.

Veal dealers state that there should be a refrigerator car service between Portland and Scattle, which would admit of bringing in Oregon yeal in hot weather, when the market is usually bare here. is usually bare here.

The fotal Puget Sound sockeye salmon pay
to date in 40,000 cases. The British Colum
bia pack Saturday was 130,000 cases.

Crop Said to Be Too Far Advanced to Be Seriously Injured-Chicago Prices Near Lowest

CHICAGO. July 31.—The wheat market opened easy and became weaker as trading progressed, the close being at almost the low point of the day. Additional black russ reports were received from the Northwest, but many advices were also received claiming that many advices were also received claiming that the new crop is snow too far advanced to be seriously injured by the blight. The denials of damage were chiefly responsible for the heaviness of the market, although unresponsive cables, a slackening export business and a decline at Minneapolis helped to depress prices. The principal selling was by a few influential holders. September opened %6%c to %6%c lower at 91c, advanced to 91%c and then declined to 80690%c. The close was at 90%c.

The corn market was irregular the greater part of the day. The September delivery was rather weak and distant deliveries firm. Commission houses and local bulls were good buyers of the new crop months, because of crop damage reports. The new crop months at the close showed a slight gain compared with yesterday, but the tone was barely steady. September closed weak. September opened '48'4c higher at 74'4c. to 75c, sold off to 74c and closed at 74'4c.

Outs were firm early in the day, but weak-

Oats were firm early in the day, out weak-ened on realizing sales brought out by the slump in wheat. The volume of trade was rather small. September opened \$40 higher at 45c, advanced to 451-6945 \$40 and then de-clined to 44c. The close was at 44644 \$40. the market eased off later in the day on profit taking sales. At the close September pork was a shade lower, land was 2½85c higher and ribs were 2½85c higher.

The leading futures ranged as follows:

BUSINESS TENDS TOWARD MOD-ERATE IMPROVEMENT.

But Buying Is Still of Conservative Character-Lumber Trade Reports Better.

NEW YORK, July 31 .- Bradstreet's tomorwill say: Trade, crop and industrial reports show ift-Trade, crop and industrial reports show lit-tle change from last week, but general ten-dencies and certainly sentiment are in the di-rection of moderate improvements. Prepara-tions for opening of all jobbing lines in the first week of August are making at all cities, buyers are gathering in large numbers and a full representation, with increased buying, is looked for. At a few either July trade has not heen up to expectations, but at New York a moderate increase in activity is noted. Best reports of Fall trade are coming from the Central West. West and Southwest. Every-where, however, the testimony is that buying is of a conservative character.
