MILITIA IS READY TO GO

WILL DEPART FOR AMERICAN LAKE MONDAY.

Third and Fourth Infantry Will Have Large Turnout and Only Two Days of Rest.

Work of packing all tentage and equipment of the Third Infantry for shipment to American Lake was completed at the Armory yesterday afternoon, and the freight will be taken to the depot this morning for shipment. All is now in readiness for departure of the troops Monday morning. Reports from all outside stations indicate readiness to start for Portland tomorrow. It is likewise shown that the turnout will be larger than at any previous maneuver period. There will be between 700 and 800 officers and men with the Third Infantry, and about 400 from the Fourth Regiment. Troops from Southern Oregon will start for Portland tomorrow night. Every member of the field and staff, with possibly one exception, will go out with the Third Regiment. Colonel C. E. McDonnell, commanding, has urged upon all his officers that the maneuver work is of the greatest importance and that all should attend regardless of personal convenience. Colonel George O. Yeran, of the Fourth Regiment, has taken a similar stand, and gives assur-

ance of a full attendance of officers. Some of the Southern Oregon men will be held back by harvesting work on their farms, but this number is comparatively small. Any one who fancies for a moment the Guard is going off on an outing or pleasure jaunt has but to glance at the programme in order to be undeceived. Activity will begin when the troops reach the American Lake district, Monday, and will continue until they leave. Payday and Sunday will be the sole rest periods, and payday will be marked with an abundance of wholesome drilling. Daily field maneuvers are provided in the programme announced by Brigadier-General Brush, U. S. A., commanding the camp. This work will be taken up Tuesday morning. The following Monday the troops will be given a hard day's march, followed by a night problem. bivouacked in the field, the regimental commanders will be required to keep on the alert for an enemy of unknown strength, which will make an attack during the night. This will be the most trying and at the same time most interesting maneuver of the ten days in the field. Sixty-four men were detailed yesterday as a fatigue party to accompany the regimental effects of the Third Infantry. These men will accompany the first section Monday morning to transfer the baggage and equipment to the camp site.

Gather Statistics of Timber. ST. PAUL, July 31.—The Department of Commerce and Labor has begun the work of gathering data in regard to the timber resources of the United States and will soon have full information as to how much merchantable

standing timber there is in the country and where it is located. W. B. Hunter, D. L. Wing and W. B. Woodson, special agents of the department, have been detailed to gather the data in Minnesota, Wisconsin and Michigan, constituting what is called the lake district. They expect to take several months for the work.

WEATHER NOT SO WARM Maximum Temperature of 84 Degrees and Humidity Lower.

A drop of three degrees in the maximum temperature, together with an appreciable drop in the humidity, made yesterday a very comfortable day in Portland. The day opened with a temperature of 29 degrees at 5 A. M. The thermometer rose slowly all day until 4 o'clock it had reached 84 degrees. There was a cool northwest wind blowing which mollified the heat. No one suffered. The hourly temperatures follow: 5 A. M. 29 6 A. M. 30 7 A. M. 31 8 A. M. 32 9 A. M. 33 10 A. M. 34 11 A. In Russia: Many people live from childhood to old age without knowing the taste of meat. They can never hope to be able to buy it.

In Germany: The workman thinks himself lucky to eat beef once a week. Fifty cents a pound is the price of fairly good cuts.

In France, Italy and Spain the larger portion of the population live on cereals, wine and cheese. Meat is a luxury of the rich.

In Sweden, Norway and Denmark: Meats are served on festive occasions and holidays. Only the wealthy can afford them often.

Throughout Great Britain and Ireland: The populace is alarmed and frightened at the recent rise in the cost of meats. There is real suffering

on account of it. Mr. Asquith, the Prime Minister, is investigating the manipulations of the Chicago Beef Trust in England.

And crossing the water to our own country: In New York the Beef Trust is getting 12c per pound for soup meat—fancy that!

In Chicago they are charging 28c per pound for round steak—how does it strike you?

In Portland you are getting from Smith the cheapest and best meat to be found anywhere in the wide world. It's all raised here in Oregon; dressed in our own city abattoir, cooled by the open fresh-air method; inspected before and after slaughter by Frank L. Smith himself. It comes to you as fresh and pure as nature can give it.
