Senator Wards Off Fight to Oust Cake as State Chairman.

CALLS LEADERS TOGETHER

As Result of His Efforts, Telegram Is Sent Asking Cake to Name Committee for Campaign Work.

A political white dove was brought from Astoria Thursday by Senator Ful-ion, to ward off the threatened fight for ousting W. M. Cake from the chairman susting W. M. Cake from the characteristics whip of the Republican state central committee. Under its wings came together J. P. Kennedy, the Cake chairman of the county central committee, and Ralph E. Williams, the Fulton National Ralph E. Williams, the Fulton National committeeman for Oregon, with the result that they will ask Chairman Cake to appoint a managing committee to conduct the Taft campaign until Cake's return from the East, probably a month distant. Until Senator Fulton poured oil on the troubled waters, there was rough sailing for the Republican factions. Williams wanted to begin organizing for the

mailing for the Republican factions. Willams wanted to begin organizing for the
Taft campaign right at once and was
pressed by members of the National
committee to force retirement of Cake,
chiefly on account of Cake's being
pledged by statement No. I to support
Chamberlain, Democrat, for the United States Senate, or else to ignore Cake and proceed with the campaign as if there were no state chairman.

War Was in Sight.

Numerous anti-Cake Republicans urged Williams to one of these two courses. Had Senator Fulton wanted war, if would have come; in fact, it had almost arrived when he reached the scene yesterday on his peace mission.

At once Pulton set about to straighten things out. He declared that he wanted what Democrats didn't want-peace in the Republican ranks. Efforts to oust Cake would make discord, even if they should succeed in putting Cake out. But they might not succeed, since members of the state central committee who may high Cake should withdraw would op-

think Cake should withdraw, would op-pose driving him out. The efforts would start cries of "ring" and "machine" and precipitate factional troubles that should not appear in the Presidential campaign. Senator Fulton's peace talk prevailed Williams was called into conference with County Chairman, Kennedy, and together they agreed to ask Cake by telegraph to name an executive committee of five members to manage the Taft, campaign in his absence, with Williams as chair-

Early Work Is Urged.

Cake had planned to call the state committee together for a meeting in September. The committee would then arraige for the Tati campaign. But Williams, thinks the campaign should begin rarlier. One of the important matters to the raising of funds and this should be taken up at once. The relegram to Take will be sent today by Williams and Kennedy.

Foes of Cake charge him with apathy toward Taft and with a willingness to see Taft go down to defeat in Oregon, as H. M. Cake did in his race for United States Senator. They aver that since Chairman Cake will support a Democrat for United States Senator, he is not a fit leader for the Republican party.

GARBAGE DUMP

Woman's Throat Cut With Surgical Skill and Then Flung Away.

MYSTERY NEW YORK CITY

Two Men Throw Mattress' Containing Body on Dump and Set It on Fire-Speculation as to Identity.

NEW YORK, July M .- That at least two men were concerned in the murder of the unidentified woman, whose half-charred and acid-scarred body was found in the Green Point-avenue dumping ground in Williamsburg, Brooklyn, Wednesday morning was established today by the police. Philip O'Brien, a laborer of Green Point, saw a covered wagon drive to the dump at dawn Wednesday. Two men got out and lifted from the wagon what the witness supposed to be only an old mattress. He saw the men pile a heap of brush on the mattress, pour oil over it and then set fire to the bundle. Believing the mattress was being destroyed because it was disease-infected, the man avoided the spot. There is little doubt that the mattress was the one in which the body

Men Can Be Identified.

This led to the discovery that the covered wagon was seen by several other persons, and the police now have a minute description of the two men. They were foreigners. The wagon was seen by a Mrs. Murray, who lives in the neighborhood. It was seen going to the Green by a Mrs. Murray, who lives in the height-borhood. It was seen going to the Green Point ferry by another witness, and the gatekeeper at the ferry remembers check-ing such a wagon with two men in it when the ferrybout Alaska made an early orning trip to East Twenty-third street, Manhattan,

Another feature of the case was dis closed when a physician, Dr. Wuest, made a second autopsy upon the corpse. His irst autopsy revealed a deep cut across the woman's throat. The second autopsy shows that the cut was made by a per-son who is expert in surgery. The in-cision, says the Coroner's physician, is such as is made in desperate cuses of diphtheria, where it is necessary to pierce the windpipe to prevent strangulation. Whether this wound caused death or not, Or. Wuest is unprepared to say. Dr. Wuest will make a careful analysis of the atomach to discover whether a drug was administered. Besides the incision in the woman's throat, her skull was fractured and the police believe that polson may also have been used.

Hard to Fix Identity.

Failure to establish the identity of the rictim is the greatest obstacle the police have to overcome. A general alarm has been sent out for Mrs. Mamie Muskovitch and her husband, Stanley, who have dis appeared. Detectives learned that the couple are missing, and there is a possi bility that the murdered woman may be Mrs. Muskovitch Muskovitch and his wife left Green Point Friday, supposedly for Stamford, Conn., and his wife has not been seen since. Her husband returned Green Point on Tuesday alone, it is

Mr. Hart left an estate valued at several millions. He started as a clothing peddler in Virginia in the early sixtics, and after the Civil war came to New York, where he amassed a large fortune. He married and went to Paris, where he maintained a luxurious establishment. Adopting Isabel Lucchesi, a young Italian girl, as his daughter, he soon afterward separated from his wife and subsequently obtained a divorce from her. She returned separated from his wife and subsequently obtained a divorce from her. She returned to New York, where she lived on a monthly allowance up to the time of her death.

BUSINESS FAST REVIVING Great Increase in American Purchase of Foreign Goods.

NEW YORK, July 31.—Robert J. Thompson, a Chicago manufacturer who has been spending the last two years as United States Consul at Hanover, Germany, has arrived in New York on a business trip. Speaking of husiness conditions abroad and at home, the indication of returning prosperity and the general improvement of commercial conditions. Mr. Thompson says: mercial conditions. Mr. Thompson says:

A very good and a very sure sign of trade conditions is the declared exports to the United States from Europe. A rapid revival in business conditions is going on this very minute. It may not be apparent in every respect, but in orders placed in Germany by American huyers and in goods now being shipped to this country, the improvement during the quarter ended July 30 has been almost as marked as the falling off was noticeable during the previous six months. Germany has felt the effects of the depression here very acutely, as her exports to America are principally manufactured utilities. While the value of cur exports to Germany vasily exceeds what we huy from her, this being on account of her purchase of raw products such as cotton, grain and petrolsum, in a comparison on exchange of manufactured articles purely, she has us beaten by nearly 500 per cent, that is, she selie us a hundred millions worth of manufactured articles while we sell her perhaps twenty millions worth of manufactured articles while we sell her perhaps twenty millions worth of manufactured articles while we sell her perhaps twenty millions worth of manufactured articles while we sell her perhaps

Delaware National Guardsmen Resent Assault on Comrade.

REHOBOTH, Del., July 31.-State militiamen encamped near here and a crowd of negroes of the vicinity engaged in a riot last night, in which one man sustained a fractured skull and may not survive, and more than a score of others were injured.

Trouble began when some members of Company H, First Delaware Regiment of Newcastle, were standing around a merry-go-round. There were some words between the colored bylers, and one the colored men hurles a brick, which struck a private on the head, fractur-

ing his skull.

Instantly the soldiers, taking their arms, began pursuing every colored man they could find. The colored people sought refuge under porches, on top of roofs and even in trees, while the enraged soldiers sought high and low for them, intent on vengeance for their injured comrade.

Governor Lea, who is in camp, sent a detachment of 50 soldiers to arrest the man who threw the brick and dispatched officers to pacify the enraged soldiers. Finally quiet was restored, but not until a score of persons had been injured.

The man who threw the brick has not yet been captured. Some of the soldiers may be arrested.
