SELLING AT RETAIL

Grocers Take Exception to Jobbers' Methods.

INVASION OF TERRITORY

Quiet Conditions in the Local Grain Markets-Pause in Hop Buying-Sharp Advance in Price of Eggs.

A question that has recently agitated the retail grocers of this city, especially the large ones, is the matter of catering by large ones, is the matter of catering or jobbers to large consumers, such as hotels, fish, 90 boxes; opriers, 53 sacks, 2 barrals, 16 boxes; froglege, 2 tubs; lobsters, 2 barrals, 16 b

lows:

The retailer doing a business that is strictly retail sells in small or divided lots to many constituents, all of whom are consumers directly or indirectly.

The so-called jobbers of today invade the retailers field. These jobbers supply yacht owners, small boarding house keepers and others with merchandise at wholesse and others with merchandise at wholesse his reason for seeking and selling this class of larger consumers. The legitimate province of the 'jobber' is to sell the retail store, and to protect retail stores by not bidding against their 'maximum quantity' retail purchasers.

When a retailer reaches a cartain vol

store, and to protect formaximum quantity retail purchasers.

"When a retailer reaches a certain volume of trade the further development natural to his environment and condition is for him to obtain business from larger consumers, such as hotels, reataurants, cafes and boarding houses. It is attrictly within the prevince of the retailer to supply these and boarding houses. It is attrictly within the prevince of the retailer to supply these larger consumers. The supplies purchased are entirely for consumption, and jobbers cannot sell them with any better reason than they would have for invading the retailers field in still another direction.

"For example, a wealthy man my have a large family, emistrain lavishity and maintain a large retinue of servants or a yacht with a crew, in spite of this he remains a consumer and therefore is not within the selling province of the Jobber." The wealthy man may desire to reduce his expenses as much proportionately as the healt proprietor desires to save all that he can on his first costs. Both use their purchasing power, which is derived in the first instance from direct consumption, and in the cases of hotels, etc. from indirect consumption, to obtain lowest prices.

"Large retail houses have bought for years the carload or maximum quantifies established by producers, manufacturers and packers. If the magnitude of the retailer's business permits him to buy in quantity lots. I say, no producer, manufacturers and packers. If the magnitude of the retailer business permits him to buy in quantity lots. I say, no producer, manufacturers and packers. If the magnitude of the retailer of the quantity lots is easier years the extension of the retailer of the quantity of the retailer. As it is known that the 'jobber' entires the retailer's legitimate field, it is exceptionally strong business reasoning to insist that Jobber' and retailer allows bound to make the may accept the attuation; but left him at once pet his own brands of staples, channed specific actual to the retailer own br

Manipulation Apparent in Minor Securities.

SUSPICION

General Market Falls to Respond and Hesitating Tone of Prices Continues to Last-Money Is Firmer.

NEW YORK, Oct. 18 .- There appeared to be some conflict of purpose between at least two of the strong parties in the speculation today, although their operations tended to some mutual advantage. In one case, the support of prices against pressure, without any attempt to bring about any advance, seemed to meet the desired object. In the other case, there was an aggressive marking up of prices, which seemed designed to limits a marking and control of the case. Invite a public following in the market. The lifting process was almost wholly confined to groups of low-priced railroad and industrial stocks, in many of which there are important or dominant holdings by identical interests.

are important or dominant holdings by identical interests.

The minor railroads brought into this movement are believed to be heid. In a large proportion of their total capital, by the controlling interests or by organized stock market pools for the purpose of controlling their disposition in the market. Wide price movements are thus made easy of accomplishment with a small amount of stocks actually changing hands. It is this facility of manipulation which lays open to suspicion the movement in such stocks, especially when the concert of movement finds no other explanation than the common ownership or property interest, without an explanation in developments affecting the properties.

the common ownership or property interest, without an explanation in developments affecting the properties.

Such was the effect of the action of these stocks today. Their starting upward served as a check rather than a stimulation to a show of strength in the general murket. The usual leaders of the market showed resistance to reaction, but seemed to balk at attempts for an active demand. The attitude of reserve thus indicated toward present active speculation was ascribed to a remnant of apprehension regarding the political outleek in Europe, to some contraction in money market supplies and to a purpose to swall the passage of the caming election.

The lower range of prices in London which were encountered when the local market opened, had an effect of admention showing the deminant fears of the situation felt there. The heattailing tone of stocks persisted throughout.

Bonds were irregular. Toal sales, par value, \$1,850,000. United States bonds were unchanged on call.

Warning Passengers Against Sufphur Fumes, Quartermaster Dies.

SAN FRANCISCO, Oct. 13 .- A quar termaster, whose name has not yet been learned but is thought to be Mc Guagan, was killed late tonight aboard the steamer Umatilla, of the Pacific Coast Company, by falling into the hold while attempting to cross the hatchlease the sulphur fumes used in fumi-

The man intended to warn the persons sleeping near the batchway, that might not be affected by the fumes, and in the darkness missed his footing and fell into the hold, being instantly killed. The body was recovered by three members of the city fire department who were summoned to the scene and went into the hold despite the sulphur, hoping to get the victim of the accident out alive. One of the firemen was almost overcome by the fumes.

LAST PRICES ARE LOWEST

Heavy Selling by Long Holders on the Bulge Soon After Opening. Corn and Oats, Are Much Lower.

CHICAGO, Oct. 13.-An unexpected show of strength at Liverpool, where prices wer fractionally higher, despite the closing weakness here yesterday, furnished the motive for a strong opening in the local mar-ket. Initial quotations showed gains of \$40 %c to %c, compared with the previous close. With offerings scanty, buying by shorts caused prices to advance briskly in the first few minutees of trade. Some of the first few minutees of trade. Some of the big holders apparently were on the fookout for just such a buise and availed themselves of the opportunity to secure profits which the upturn afforded. Receipts in the Northwest continued heavy and sales of cash grain today at Minneapolls were not so heavy. There was a fair demand for cash whoat here at about yearerday's premiums. Expert demand was slack both here and at the seaboard. An increase of \$.500,000 bushels in the world's visible supply for the week, compared with an increase of 2,500,000 bushels for the corresponding week a year ago, was a bearish factor in the late trading. ORDERS FALL

PRICES TOO HIGH FOR THE SE-ATTLE RETAILERS.

They Look for a Decline-Butter Holds Steady-Eastern Concord Grapes Duc.

SEATTLE, Wash. Oct. 12.—(Special.)— Trade in all departments on Western ave-nue today was light. Pollowing yesterday's furry in eggs, orders fell off today, as many retailers are looking for a fower market rather then for any further advance at this time. Prices today ranged from 48 rather than for any further advance at this time. Prices today ranged from 48 to 50 cents.

Butter was steady Several manufacturers are reporting an increase in the milk supply. Now that Northern orders are filled, no immediate advance is looked for unless Eastern butter is forced up. Veal was in rather oversupply today and little sold above 11 cents.

Grapes were firm. A car of Michigan Concords is due this week.

Potnices are still weak. There is a steadily growing demand for apples.

The hide market is in a little better shape this week. A few good hides are commanding 8 cents.

PORTLAND LIVESTOCK MARKET. Prices Current Locally on Cattle, Sheep and

An easier tendency is noted all around in the livestock market as a result of heavy arrivals, slower buying and principally the inferior quality of a large part of the stock unloaded on this market. Yesterday's re-ceipts were 310 cattle, 420 hogs and 60 caives. unloaded on this market celpts were 310 cattle, 420 hogs and 60 caives.

The movement in both sheep and cattle has been heavy of late, says the Happner Garactte. Good demand and short grass are the reasons or the active business in the stock industry. Joe Coombs, the Grant County stockman, is in the city, looking after the shipment of 330 head of 3-year-old beef cattle. The sale was made to the Union Mest Company. J. H. Phirman, representing the company, is here to receive he stock. Other cattle shipments will soon follow. GINGER UP YOUR LIVER

You've heard of the Boss of the Bi Store gingering up his salesmen, th factory foreman putting ginger into his workmen, you have even heard of th Store gingering up his salesmen, the factory foreman putting ginger into his workmen, you have even heard of the Lady of the House gingering the cook. Now, this gingering is for the purpose of better results. It is generally applied upon the appearance of the first symptoms of deterioration in service. Gingering the liver is to keep that important part of the human machine from setting clogged and impairing the health. When the liver gets clogged and doesn't work right, the proprietor of that liver suffers. Billousness, sour stomach, indigestion, sandice, coasted tongue, howel troubles, constipation, sick headache, are some of the things from which a disordered liver makes its owner suffer. Gingering the liver prevents these troubles, removes them when they catch one unaware. Lane's Pills will ginger up the Hver. They never pain, never gripe, never leave any bad effects, are safe for delicate women and children, and one is a dose. Compounded by Chas. E. Lane & Co., Chemists, St. Louis, Mo. Sold in Portland by the Laue-Davis Drug Co. at their four stores—Third and Yamhill, 342 Washington St., 24th and Thurman and at E. 28th and E. Gilsan.
