ALPENA, Mich., Oct. 16.—Fifteen people lost their lives last night in the burning of the Detroit & Mackinaw Railway relief train, which was carrying the inhabitants of the little village of Metz, 23 miles north of here, to safety from the forest fires which were sweeping away their homes. The ill-fated train was derailed by spreading rails at Nowicki, siding, a few miles south of Metz, and the terrified refugees were forced to abandon the cars and rush for safety either down the track with burning forests on either side, or into the ploughed fields near the siding. Eleven of the victims were women and children, who were unable to escape quickly enough from the gondola cars which they were occupying. Their charred bodies were found there today, when rescuers reached the scene. Two of the men victims were members of the train crew. Four additional fatalities occurred in the neighborhood of the wreck last night. Mr. and Mrs. Fred Wagner died from heat and exhaustion in their cabin near the wreck of the train, and Mr. and Mrs. Fred Nowicki, Jr., lost their lives in their burning home near the siding where the wreck occurred. Following is the list of the dead in the wreck:

- List of Dead.**
- WILLIAM HARTLETT, Alpena, brakeman.
 - ARTHUR LEE, Alpena, fireman.
 - JOHN KONIECNY.
 - MRS. JOHN KONIECNY.
 - JOHN KONIECNY, aged 2.
 - JOSEPH KONIECNY, aged 1 month.
 - HELEN KONIECNY, aged 1 month.
 - MRS. GEORGE CICERO.
 - MARGARET CICERO, aged 2.
 - GEORGE CICERO, aged 5.
 - A THIRD CICERO CHILD, aged 8.
 - MRS. WILLIAM A. HARDIES.
 - PAULINE HARDIES, aged 2.
 - MARY HARDIES, aged 3.
 - MINNIE HARDIES, aged 5 months.

When the forest fires closed in yesterday about the little village, a special train of three empty box cars and two coal gondolas was rushed to Metz, in charge of John E. Kinville, conductor; William Foster, engineer; Arthur Lee, fireman, and William Hartlett, brakeman. As rapidly as possible the people and their goods were loaded into the cars. Some refused to board their goods, or the train might have left earlier and have reached Alpena in safety. When the train finally started there were about 100 frightened people aboard.

MOTHERS AND BABES CREMATED.

The terror-stricken people, caught by the peril from which they were fleeing, jumped from the cars and rushed down the track. Three mothers and their little ones were not quick enough. They were cremated in the gondola car, where they were caught. Bartlett sprang into the water tank behind the engine, only to be literally boiled to death as the flames swept over it. Foster and Kinville fled down the track through the fire and smoke and were the first to reach the village of Posen and they reported the wreck and asked for assistance from here.

The investigation was then postponed until the mate of the Hattie Gage and other witnesses can be present.

MRS. TUCKER WILL WAIT

Determined to Prosecute Husband as Soon as He Recovers.

CHICAGO, Oct. 16.—States' Attorney Healy today stated, following a conference with Haynie H. Pearson, attorney for Mrs. William F. Tucker, that no action would be taken against Colonel Tucker in the courts, pending the result of the latter's illness. Mr. Pearson said that the charge of wife abandonment was withdrawn yesterday by Mrs. Tucker to clear the way for an indictment by the grand jury and subsequent extradition proceedings. "Since then," Mr. Pearson said, "I have received a copy of the War Department order directing Colonel Tucker to proceed to the Government Hospital at Hot Springs. I am also informed that the patient's condition is critical and hence agree with Mr. Healy that it is the time for an indictment. This course meets with the approval of Mrs. Tucker, who, however, is anxious to vindicate herself of any misapprehensions which may have found lodgment in the public mind."

WHY CHANLERS QUARRELED

Hostile Criticism of Amelle Rives' Novel Was Cause.

CHARLOTTESVILLE, Va., Oct. 16.—John Armstrong Chanler, former husband of Amelle Rives, the authoress, and brother of Lewis Stevenson, Chanler, Democratic candidate for Governor of New York, took the stand today in his own behalf in the insanity proceedings before Commissioner Booth. The object of the suit is to establish legally Chanler's sanity and to recover his fortune, which he alleges has been confiscated by the New York courts. Mr. Chanler testified that one of the causes for the ill-feeling that exists between him and his brothers was that at the time of his engagement to Amelle Rives one of his brothers, Winthrop Astor Chanler, sent him a copy of her book, "The Quick and the Dead," with hostile criticism marked on the margin in blue pencil. He showed this to his fiancée, the result being that she did not invite his brothers and sisters to the wedding, the single exception being Margaret Livingston Chanler, now Mrs. Richard Aldrich.

SURE GOMPERS WILL FAIL

President Declares Candidate Opposes Position Towards Labor as Himself—Labor Worst Sufferer by His Defeat.

CHICAGO, Oct. 16.—T. J. Dolan, general secretary-treasurer of the International Brotherhood of Steam Shovel & Dredgemen, today made public a letter from President Roosevelt, answering one sent by Mr. Dolan, in which Mr. Dolan declared that his organization was proud of Mr. Taft's honorary membership in the brotherhood. Mr. Roosevelt's letter follows:

"The White House, Washington, Oct. 15.—My Dear Mr. Dolan: I have your letter of the 13th instant and am much pleased with the copy of the article for your journal which you inclosed. Indeed, you may rest assured that, if I did not believe that Taft would occupy just the position toward organized labor that I have tried to occupy and in which you and I believe, then, fond though I am of him, I would not back him. As you know, I have never for one moment hesitated to oppose organized labor on any point where I thought organized labor was wrong; but just as little do I hesitate to stand up for organized labor when I think it is right."

"The administration can well afford to stand on its record of positive accomplishment for organized labor, and, as regards the Isthmus of Panama, where we have much to do with organized labor, that record is Taft's. You yourself know well what the United States Government has done as regards the workmen of the Isthmus; thanks largely to Mr. Taft, the record of the Government at Panama is that of a model employer, both as regards wages and hours and as regards the housing and care of employees."

LABOR WOULD SUFFER MOST.

"I do not believe that the laboring men of this country have ever had in offering from deep wounds in his limbs."

CINCINNATI, Oct. 16.—A battle for life took place before the eyes of hundreds of spectators in the Auditorium Theater last night between "Great Swan," trainer of alligators, and Nell, the largest reptile in his group of eight. The attack was made by the alligator in the large tank in the center of the stage used by "Great Swan." But for the presence of mind of several stage hands the trainer would undoubtedly have been killed. He is suffering from deep wounds in his limbs.

He was roughly handled and it was with difficulty that the students were prevented from throwing him into Monument Creek. However, he was allowed to go on the promise that he would not return. About 40 minutes later he was seen back of the grandstand at the west side of the field. He had a kodak and was trying to get some snapshots of the students. Young was escorted to a train by the students and sent out of town toward Utah.

DINING CARS ARE ROBBED

Colored Woman Arrested as Accomplice in Oakland, Cal.

OAKLAND, Cal., Oct. 16.—Mrs. Earl Smith, a colored boarding-housekeeper, is being held for trial here on the charge of appropriating goods belonging to the Southern Pacific Railroad dining-car department. She and two of her friends were arrested just after they had picked up a bag of groceries thrown from an outgoing east-bound dining car at the West Oakland yards today. The bag contained sandwiches, sugar, cans of vegetables and fruits, butter, oranges and lemons. The dining-car department has been missing goods lately and suspicion fell upon the boarding-housekeeper because of the character of her table and the variety of her menus. The woman has friends and relatives on the dining cars.

JURY LOCKED UP AT 10:30 P. M.

The Martin Jury Had Not Reached a Verdict at 10:30 P. M. and Was Locked Up for the Night. At 6 o'clock last night the talsmen went to supper, returning to the Courtroom and continuing their deliberations within a short time. Judge Cleland stood in readiness to receive a verdict and many of the spectators, as well as the lawyers in the case, remained in the courtroom until it was known there would be no return last night. That there would be a disagreement was the general opinion at the Court-house.

EDWARD H. MARTIN'S FATE WAS PLACED IN THE HANDS OF THE JURY EARLY YESTERDAY AFTERNOON, AFTER A FINAL PLEA MADE FOR HIS CONVICTION OF THE MURDER OF NATHAN WOLF, AND CIRCUIT JUDGE CLELAND HAD GIVEN FINAL INSTRUCTIONS TO THE JURY AS TO THE MANNER IN WHICH THEY SHOULD GO ABOUT SOLVING THE INTRICATE MURDER MYSTERY.

At 2 P. M. the court began delivering his charge to the jury, a process which consumed 14 minutes. The 12 men were then delivered to the custody of the sheriff and taken into a closed room for deliberation. They fled from the courtroom at 2:16 o'clock. Martin shows severe strain.

Oppose Removal of Bodies From Fort Yates Cemetery.

ST. PAUL, Oct. 16.—Word has been received that an outbreak of the Sioux Indians is likely to occur at Fort Yates, N. D., if the bodies are removed from the Indian grave-yard there. With the intention of abandoning the post, an order was recently made to remove the bodies of all dead in the cemetery. The principal objection to the removal is said to be the fact that Sitting Bull, the great warrior, is buried in the Fort Yates Cemetery.

BRAZIL ABANDONS COFFEE CORNER

WILL BORROW \$75,000,000 TO SAVE BIG LOSSES.

GOVERNMENTAL ATTEMPT TO KEEP UP PRICE OF STAPLE COSTS TAXPAYERS \$1,000,000.

NEW YORK, Oct. 16.—(Special.)—After having sustained a loss of \$1,000,000, Brazil has abandoned its attempt to corner the world's coffee market. For two years the government of Sao Paulo, the chief state of Brazil, has been purchasing coffee from its planters to keep up the price, now having on its hands 8,000,000 bags of coffee. According to advices received today in New York, a loan of \$75,000,000, which is necessary to take care of the present huge accumulation, is soon to be offered for public subscription. This corner is regarded as one of the most interesting, but foolhardy financial experiments ever attempted. Bumper crops have followed one another, and in 1905 the harvest returned 20,000,000 bags, a surplus over the entire world's requirements of 2,000,000 bags.
