Personal Attention

Not an order taken by this firm but what will have our careful and personal attention. No guesswork. Satisfaction invariably the result.

SHERMAN HAS EAR FOR FARMER TRAIN

Crowds at Grass Valley, Moro and Wasco Listen to Agricultural Experts.

HOG PRODUCTION GROWS

Fruit of Past Demonstration Trains Is Shown and Converts to Diversified Products System Are Gained.

BY ADDISON BENNETT.

WASCO, Or., Nov. 1.—(Special.)—The demonstration train has been today in Sherman County. This morning at 8 o'clock the lectures were commenced in the little town of Grass Valley before a large audience. At noon we were doing business in Moro, and at 2 o'clock in Wasco.

At Moro there was also a large number to see and listen, but here at Wasco was the largest audience the train yet encountered.

Results Are Indicated.

Dr. Withcombe and his assistants are not only well pleased with the number of their auditors, but with the quality. If the term may be used, for all of the best, most progressive and most prosperous farmers of Sherman County have been their attentive and interested listeners. The word interested hardly, or rather only partially, expresses the close attention given to every word spoken by the speakers, for the queries were almost without number, and the answers thereto received with evident satisfaction.

Several demonstration trains have been through this territory before, at the expense of the O. W. R. & N. Co. and these demonstrations and the accompanying lectures have borne good fruit. This is evident on all hands, but more particularly by the number of hogs shipped from this section and from the large number still being fed or now grazing on the wheat fields. These facts have caused the feeling among the Agricultural College workers that their labors have been successful to a pronounced degree, and they hope the converts to the diversified products system will be still greater as a result of the present trip. Another thing that makes the entire party elated is the general feeling of optimism among the landowners of the county.

Flock Is Characteristic.

The three or four lean years would have taken the heart and soul out of a less hardy people, but the plucky farmers of Sherman are not deterred; their fields are now in better till than ever before and each year they promise to sell less of their wheat and feed more of it, and the fall sowing looks well, giving promise of a success for next year.

One of the conditions that holds Sherman back in the large area of land owned by non-residents, which of course includes that held by the rod landowners. These owners in many cases lease their land, but they as a rule will not make any permanent improvements. Now a systematic effort is to be made to have these owners

fence the land with hog-proof wire netting to the end that the tenants may, as those who own their land are doing, go into hograising.

Many miles of this fence have been built during the last year, and the owners are sure to reap a rich reward. If another couple of hundred quarter sections could be built in the near future there would be a story of advancing prosperity to tell from Sherman County. This matter is being taken up by the Barnum brothers of Moro and D. O. Lively of the Portland stockyards and they hope to enlist the co-operation of the Commercial Club and other community bodies of Portland.

The train will leave here at 8 o'clock tonight for Bend, where the lectures will begin at 8 o'clock tomorrow morning.

PORTLAND ELDERS CHOSEN

George Pettit and Mark Comer to Go to India for Adventists.

WASHINGTON, Nov. 1.—Several important changes and appointments among their working forces were announced today at the Fall council of the general conference committee of Seventh Day Adventists. During the meeting a message of greeting and salutation from native ministers of the denomination in Japan was read to the council.

Among the changes and appointments decided upon were the sending of E. H. Ober, of Lincoln, Neb., to take charge of publishing work in the Chinese Empire; Floyd G. Ashbaugh, of California, to the Philippine Islands; Dr. W. C. Emscombe, of the Kobe, Japan, sanitarium, to the Walford, England, sanitarium.

Elders George W. Pettit and Mark Comer, of Portland, Or., are sent to India, together with Miss Belva Vance, of India, who will work in the cities of India.

KALAMA WILL DO PAVING

Nine Blocks in Business Section to Be Hardsurfaced.

KALAMA, Wash., Nov. 1.—(Special.)—The property owners and citizens of Kalama met in the City Hall last night to consider the question of paving the principal streets with bitulith. A representative of a Portland paving company explained the cost of paving, and the organization of an improvement district.

With practically no opposition the citizens decided to bond the town and pave nine blocks in the business district. Work will commence in the Spring, as soon as the weather will permit.

BOY KILLED AFTER PRANK

Mitchell Clay Shot at Bremerton by Unknown With Gun.

BREMERTON, Wash., Nov. 1.—Mitchell Clay, 15 years old, was shot and instantly killed last night by an unknown man who fired into a crowd of youngsters celebrating Halloween.

Two rifle shots were sent into the crowd, which, according to the police, had been no greater offenders than creating a disturbing noise and mild pranks characteristic of the day. An active effort has failed to bring a clue to the gun man.

Pear Orchard Is Venture.

OLYMPIA, Wash., Nov. 1.—(Special.)—Frank Smith, who recently sold his big orchard at Wenatchee, has purchased 12 acres just west of Olympia, and announces he will set out pear trees immediately. He proposes to put in late Bartlett pears, which will mature in the winter so that he will have his product ready about Christmas time.

BANKERS ARE HELD

Blackfoot Men Face \$30,000 Embezzlement Charge.

INQUIRY IS IN PROGRESS

D. R. Jones, ex-Cashier, and N. S. Sage Arrested Following Investigation of Books of Institution by Commissioner.

BLACKFOOT, Idaho, Nov. 1.—(Special.)—D. R. Jones, cashier of the State Bank of Blackfoot before it suspended business last May, and N. S. Sage, ex-cashier of the Shelley Banking Company of Shelley, Idaho, were arrested today by State Commissioner Platt, following an investigation of the Blackfoot institution's books by that official.

The men are charged with embezzlement. The amount involved in Sage's case is said to be \$30,000, though no specific amount is named. A large portion of this, it is said, has been returned. The alleged embezzlement is said to have been committed more than a year ago.

Sage was given a preliminary hearing here today and was bound over to the District Court on a charge of embezzlement. He gave bonds to insure his appearance. Jones will have his preliminary hearing tomorrow.

It is charged that Jones, as cashier of the Blackfoot bank, and Sage formed and carried out a plan by which the money was taken from the bank at Blackfoot a year ago. It is said they concealed their embezzling so that it could not be discovered without an expert investigation of the books by the Bank Commissioner. When the bank closed its doors early last Spring, the statement was given out that it simply closed because its business did not warrant its continuance.

It is alleged the money was taken by the transfer of worthless paper, which, it is alleged, was unloaded by the Shelley Banking Company on the Blackfoot State Bank. Jones is reported to have been charged with taking but a small amount.

It is strongly intimated that other charges will be preferred against the defendants. Both Jones and Sage have lived in Southeastern Idaho for years and have been identified with banking for a long time.

PRINCIPAL TRICKS PUPILS

WALLA WALLA, Wash., Nov. 1.—(Special.)—By a clever bit of strategy, Principal Heck blocked the threatened walkout of the High School students, who are indignant at the attitude of the Board of Education has taken regarding the burning in effigy of the principal.

They had planned to walk out from the assembly hall this morning when Roberts, the leader, gave the signal by himself walking out. Principal Heck, discovering that Roberts was to be the leader, engaged him in conversation until after the classes had left the assembly hall and only about

a score of the boys walked out. Only 14 of these stayed out.

The Board of Education reported this afternoon regarding the burning in effigy of Principal Heck by the boys. The football team is disbanded, five of the ring-leaders suspended indefinitely until the Board reinstates them, three more are suspended until they recognize the authority of the Board and agree to be good in the future, and the 14 who walked out are suspended until promise of future good behavior is made.

It is hardly hoped by those who are interested in the school that the matter is finally settled, for the students are intensely indignant and the Board is firm in its position.

PLAYER-WRITERS DISLIKED

Hermann Would Keep Major Leagueers Off Newspapers and Stage.

CINCINNATI, Nov. 1.—Baseball players in the major leagues will not be permitted to go into vaudeville to play the off-season, neither will they be allowed to do newspaper work on world's series baseball games, if a resolution prepared by Chairman Hermann of the National Commission, passes that body.

At the next meeting of the commission he will introduce the resolution. He believes that criticism by fellow-players for newspapers has had a bad effect on the game because of the ill feeling aroused by such criticism.

Land on Slets Wanted.

SALEM, Or., Nov. 1.—(Special.)—Application by Carl S. Davis to purchase three acres of land in the Slets where the district school is located, has been sent to the Interior Department through Representative Hawley. The Commissioner of Indian Affairs believes the land more valuable for school purposes than for power site purposes for which it was originally withdrawn. The land was formerly a part of the Slets reservation.

RODGERS MEETS FOWLER

COAST-TO-COAST AVIATORS EXCHANGE GREETINGS.

Westward Flier Sees Rival at Tucson and Continues Voyage to Pacific Ocean.

MARICOPA, Ariz., Nov. 1.—Aviator C. P. Rodgers, flying west on his transcontinental aeroplane voyage, arrived in Maricopa at 5 o'clock this afternoon, having made the flight from Wilcox, a distance of 180 miles. Rodgers left Wilcox at 11:05 this morning. He reached Tucson at 1 P. M. and after exchanging greetings with Robert G. Fowler, who is eastbound on the same kind of a voyage, left at 2:45 for Phoenix.

But seeing he could scarcely make Phoenix before night, Rodgers alighted here and will resume his flight early tomorrow.

Aviator Fowler, who arrived here Monday, is still working on his machine, effecting repairs, and says he will be in readiness to resume his flight eastward tomorrow. The two

aviators exchanged greetings this afternoon.

It was said by Rodgers today that he did not break the American record for sustained flight as reported, on his trip yesterday. Rodgers declared that he stopped in both Deming, N. M., and Lordsburg, Ariz., for gasoline.

MONTGOMERY VERTIGO VICTIM

Aviator's Every Flight Taken at Imminent Peril of Death.

SAN JOSE, Cal., Nov. 1.—"Death caused by injuries in an accident while operating an aeroplane," was the verdict of a coroner's jury today after an inquest over the body of Professor John J. Montgomery, of Santa Clara, the airship inventor who lost his life yesterday while experimenting with an aerial glider.

Testimony at the inquest was that Professor Montgomery's death was directly due to an attack of vertigo, brought on by excitement and exertion. Relatives said that he was subject to attacks of vertigo, and risked his life whenever he went aloft in the various air craft with which he had for years been experimenting.

Professor Montgomery had made more than 50 flights in his new glider without mishap. Singularly enough, at the time when he lost control yesterday he was less than 20 feet from the

ground. Previous to embarking for the glide he had complained of weakness and was urged to forego the risk.

John Tower endeavored to sell his wife Elizabeth at auction in London in June 1911, but the authorities prevented the sale.

When You Smoke

a "General Arthur" cigar, the desire is immediately to smoke another one. Black Havanas are too strong for steady enjoyment. The every-day smoke is the satisfying, light
