OSTER BAY, N. Y., June 25.—With the organization of the new "Progressive" party definitely under way, Colonel Roosevelt returned today from Chicago.

Colonel Says He Is Fit.

"I understand that some of the newspapers today," the Colonel remarked, "said that I returned from Chicago greatly aged, with lines of care on my face. By George, isn't that funny?"

Committee Only Temporary.

"There is one thing which I would like to make clear," said Colonel Roosevelt. "It is that the temporary committee which was announced yesterday is in no sense a National committee in the ordinary acceptance of the term."

ment and that the people are with Lloyd George. I cannot compare conditions in England with those in America although I will say that we would not tolerate agitators of the sort of the Industrial Workers.

"I am working now for an International Federation of Labor. Let all competent workmen form a world-wide combination, exert their power to clean politics and encourage industry and you will have a force that cannot be resisted."

"I do not want unions to sacrifice their identity. I merely want them to federate into one big brotherhood of intelligent, competent laborers."

"I have not been in England since October and cannot say exactly what conditions are now, but I am keeping in touch with my colleagues by telegrams and letters and the feeling is general that England has at last started on the upward way."

disaster? I personally think that it is one of the greatest examples of capital's contempt for human life that the world has ever seen.

"Each state," he said, "would select its own National committee, and there is no guarantee that the representative of that state at the convention."

On reaching New York this morning Colonel Roosevelt stopped for a few hours in his office. He dipped into a mass of letters and telegrams which were awaiting him and talked with a few visitors.

tives to choose the progressive candidate, as it was at Chicago. The parallel with Chicago is otherwise striking.

Clark here stands in much the same relation to the controlling forces as Taft did at Chicago. The conservatives would like to unload Clark for Underwood or Harmon, but probably they will not dare and in the end may accept Clark, because there is no escape from the bog of their own position.

This is not at all a prediction of Clark's nomination, for he is far from the necessary two-thirds. But the course of events here has been to bring about a partial divorce of Clark and Bryan and to identify Clark more and more with the forces opposed to Bryan. Against this situation, Clark has struggled, and it is noticeable that Bryan has carefully avoided an open breach with Clark.

Jerome Scores Thaw. Former Prosecutor Fails to Arouse Slayer. Motive of Killing Was on Account of Cold-Blooded Way White Did Things to Girls, He Says.

WHITE PLAINS, N. Y., June 25.—Harry K. Thaw passed the hour of examination by William T. Jerome, who is opposing Thaw's fight for release from the Matteawan asylum.

Mr. Jerome reminded the witness suddenly of the anniversary of the tragedy and questioned him sharply as to circumstances of the killing. Both Thaw and his counsel, Clarence J. Shearn, interposed objections on the ground that Mr. Jerome was showing an animus and "serving private interests."

Mr. Jerome said the questioning was within the province of a "mental examination," and he was generally upheld by the jury. The jury's verdict in killing White did not bother the witness.

LAKES OILED FOR PESTS

City Board of Health Works to Kill Mosquitoes.

The war against the mosquito has been undertaken by the City Board of Health. This department for the last two days has been busy with the sprinkling of crude oil on the surfaces of the water in the city.

Deputy City Health Officer Beaman has been in charge of the work. The oil has been carried in tanks to the different places where it was needed, and then poured on the water. It spread quickly over the water, crowding the pestiferous insects from its surface.

The two principal breeding points are Gull Lake and the pond formed near the Oaks, on the Portland Railway. Light & Power Company's property. Two barrels of oil were poured on the former property yesterday.

Alfred L. Parkhurst, general manager of the Crater Lake Company, and R. F. Hayward, manager of Park hotels and camps, together with a party of assistants left Portland for Crater Lake, to open the hotel for the tourist season which begins here July 1.

TAMMANY MAY DECIDE

(Continued From First Page.)

His day in his convention oratory. His voice was clear and resonant and his argument plain, but the frequent interruptions, especially the defiant and disrespectful Parker outbursts. Besides, he spoke too long, the convention was under poor control or no control at all, and the weak efforts of Chairman Mack and the inefficient sergeant-at-arms produced little or no effect.

Kern's Strategy Deceives No One. The little strategy byplay of Kern's declination deceived no one. It had, of course, been programmed between Bryan and Kern. Mr. Bryan was to nominate Kern for temporary chairman and Kern was to refuse the crown and make a direct appeal to Parker to withdraw and join him in selecting a candidate agreeable to all hands.
