## Belief Prevails That Rebel Leader in North Will Resist Overtures.

### REFUSAL AGAIN REPORTED

#### Charges Made in Capital That Negotiations Were Blocked as Result of Interference of American Senator.

MEXICO CITY, Aug. 11.—Official Mexico appeared today to regard with much pessimism the outlook for peace. Attempts probably will be made to reopen negotiations with General Orozco, but it is generally believed the rebel leader in the North will resist overtures by the government. He was reported in a special telegram to El Paso as having refused to meet General Huerta at a point south of Juarez and there surrender, adding that he would lead his forces into the capital itself within a month.

An echo to the charge by the Mexican government that Senator Fall was responsible for the failure of Minister Hernandez to bring about an agreement between the government and Orozco was contained in a special dispatch today from El Paso. In that it was charged that an American in El Paso had negotiated with the rebels for the purpose of preventing Orozco from entering the United States territory, but to keep the war going. It was charged that the representative group of American bankers whose interests, it was alleged, would be favored by the continuance of hostilities.

In this paper it was asserted that the American Government had served notice on Mexico that peace must be restored at an early date. No confirmation of this assertion could be secured.

### NEW MEXICO SENATOR BLAMED

#### Mexico Believes Orozco Was Frightened Into Changing Mind.

MEXICO CITY, Aug. 11.—Mexico blames Senator Fall, of New Mexico, for its failure to come to peace terms with General Pascual Orozco, rebel leader. President Madero bases this conclusion principally upon reports he received from government agents at El Paso. He made his views known in an official statement issued by the Department of the Interior by his authorization. Virtually all hope of negotiating peace terms with the rebels has been abandoned by the Government. Rafael Hernandez, minister of fomento, who conducted negotiations with Orozco, has gone to Lower California to study irrigation conditions.

It is understood here that government agents at El Paso reported that Senator Fall played more than a passive part in frightening Orozco off. Just what action was taken the government does not pretend to know, but it is intimated he might have communicated directly to Orozco sentiments expressed in the Senator's recent speech in the Senate on the Mexican situation.

"It seems that Orozco had accepted the conditions," says the official statement, "when he brusquely and, without a known motive, changed his action completely. There are no official data on the causes which brought about this change, but from reports that have been received, it seems that the determination was made to continue the struggle by the efforts of an American Senator, A. B. Fall, who lately made in the Senate a speech full of criticism of the Mexican government."

Orozco's petition was that he be permitted to leave the country, but it was not definitely specified where he expected to go. This left the United States as a possible chance and government officials are inclined to believe he would join his wife in California. Senator Fall has demanded that Orozco be held personally responsible by the United States for acts committed against Americans.

It came to light today that Rafael Hernandez had been authorized to extend to Salazar, Campa, Rojas and other leaders the same conditions as were offered to Orozco.

Jose Flores Magon, Minister of the Interior, said tonight that it was Orozco who requested the peace conference. Hernandez reported that Orozco said he would surrender and all his troops would lay down their arms on the sole condition that he be allowed to leave Mexico. On receipt of this news Madero sent a message to Orozco saying he would be authorized to treat for peace upon these terms.

OREGON CITY, Or., Aug. 10.—(Special.)—After opposing the request of Gladstone residents for more than two years, the Portland Railway, Light & Power Company today agreed to stop cars at Hereford street. The management in refusing heretofore to grant the request declared that it would result in a slower schedule. However, the Gladstone residents were determined to win, and, Friday arrested a motion picture camera. The motorman was to have been given a hearing today, but before the case was called on, Mr. Remington, who will assume the vice-presidency in the place of Joe C. ## CONGRESS AT END OF LONG SESSION

### Contending Houses Put Curb on Enactment of General Legislation.

### POLITICS PROLONGS LABOR

#### Difficulties Between Two Branches Serves to Tie Up Appropriation Bills—President's Vetoes Are Many.

WASHINGTON, Aug. 11.—Congress is about to terminate a session that has run more than 250 days. The session has not been fruitful of much general legislation; but from the standpoint of great issues fought out and great policies outlined it has been of more than usual interest.

Political activities have helped to prolong it, and political difficulties between the House and Senate, the one Democratic and the other controlled by an independent element of the Republican party, have served to tie up appropriation bills and impede much general legislation.

Many annual appropriation bills that should have become effective July 1 still are in limbo between the two houses. Minor legislation and important questions of general interest are to be laid aside in an effort to bring about adjournment by next Saturday or, at the latest, by the end of the next week.

Many issues considered.

The more important developments that have marked the session are:

The decision of the Senate that William Lorimer had not legally been elected Senator from Illinois.

The beginning of impeachment proceedings against Robert W. Archbald, Judge of the Commerce Court.

Agitation of the Russian treaty following agitation over the Jewish passport question.

Substantial defeat by amendment of President Taft's arbitration treaties with Great Britain and France.

Notice by the Senate to foreign nations that the United States will permit no more to acquire naval or military sites on the Western Hemisphere.

Approval of Constitutional amendment for direct election of Senators.

Increase of Civil War pensions through the Sherwood service pension law.

Important questions remaining to be settled between the two houses or between Congress and the President are:

Proposed abolition of the tariff commission and the Commerce Court.

Friendship building programme for 1912.

Reorganization plans for the Army, partly rejected by the President when he vetoed the Army appropriation bill.

Establishment of parcels post.

Details of the Panama Canal administration.

Creation of a Federal Department of Labor.

Inquiries Are Many.

Investigation committees appointed a year ago virtually have all reported to Congress, covering the inquiries into various so-called trusts, the "shipping combine," Alaskan affairs, Agricultural Department operations, the "secret mine" disaster and many other subjects. Few investigations have resulted in new laws.

Inquiry into campaign expenditures has resulted in the perfection of campaign publicity bills that probably will be passed next winter. Agitation for a six-year term for President and Vice-President is expected to result in favorable action next session on a Constitutional amendment.

New investigations have been started

### TRIO IN JAIL TELL OF KILLING BAKER

#### Police Have Fourth Man Located and Arrest Is Expected Soon.

### INTENT TO KILL IS DENIED

#### Confession Comes When Suspects Are Confronted With Evidence of Crime—Culprits Are 17 to 20 Years of Age.

Three young men charged with the murder of Adam Baker, who was beaten to death two weeks ago, were captured early yesterday by Detectives Heliyer and Howell and confessed. They are Charles Christensen, Harry Leece and Robert Burns. A fourth member of the crowd which knocked Baker down and then kicked him to death, has been located, but up to a late hour last night had not been taken in custody.

The arrested men minimize the horrors of their crime, saying in a confession to the detectives yesterday, that they were only indulging in a little rowdyism, that they did not intend to kill Baker and did not think he would die. They admitted, it is said, in their confession, that they had been drinking, but say they were not drunk. The confessions were secured by the detectives after they had shown the young men under arrest that there was plenty of evidence against them.

Suspects Are Young.

Christensen is a machinist. He has been working for Gardner & Vigar, and lives at 96 Nevada street. He is only 17 years old. Leece is 19 years old and Burns is 20. Leece, a tinner, has been working for J. C. Bayer at 204 Market street, and lives at 826 Second street. Burns lives at First and Montgomery streets. He is a lineman, but of late has not been at work.

Immediately after the commission of the crime the arrested men left Front street, and the first intimation the police had of their return was when Detective Pat Moloney saw them on the street.

Teddy Stolz, 24 years old, a witness, also was taken into custody by the police yesterday.

Assault Was Brutal.

Baker, the murdered man, was a painter. On the night of the murder, two weeks ago, he was with Henry Rost, a cement worker, of 996 Front street. As they passed House's Restaurant on Third street, between Washington and Alder streets, remarks were exchanged between Baker and the crowd of young men. The gang followed Baker and Rost to Second and Yamhill streets, the two men looking in the meantime for a policeman. They found none, and when they reached Yamhill street were set upon by the hoodlums, who knocked Baker down, beatings and kicking him so that he died on the way to the hospital. He was taken first to the County Hospital, but when it was seen his injuries were so serious, an ambulance was called and he was taken to St. Vincent's Hospital. He was dead when he reached there, but when Dr. Boody called up the hospital by telephone, he was not notified of Baker's death. This caused some delay in taking up the trail of the murderers.

Christensen, Leece, Burns and Stolz are now in the County Jail.

His confession, if he tells all he says he knows, probably will reveal the whereabouts of "Gyp the Blood" (Harry Horowitz) and "Lefty" Louis, the two remaining members of the gunman's gang who fired the shots into Rosenthal, and who are still at large in the United States and Canada.

Driven to desperation through fear of capture, Schepps almost collapsed when arrested. He said that he has been a "fixer" for years. It is charged that after the Rosenthal murder he was given money to slip to "Whitey" Lewis and "Gyp the Blood" for a getaway, and that he was harbored for three days in or near the home of Lieutenant Becker.

"I am the keystone to the whole situation in New York," confessed Schepps today. "If I start to telling things it will reach a long way."

## COLONEL SOUNDS GENERAL ATTACK

### Progressives in Congress to Be Object of Ire if They Stand Aloof.

### BITTER FEELING SHOWN

#### Pinchot Now Judges All by Roosevelt Standard, but Record in Congress and Outside Will Govern Voters' Decision.

OREGONIAN NEWS BUREAU, Washington, Aug. 11.—Progressive Republicans in Congress have refused to join the Bull Moose movement, are expecting an early attack from Colonel Roosevelt because of their refusal to leave the Republican party. This means that almost every progressive Senator and Representative is to be the object of the Colonel's ire, for thus far only five or six progressive Congressmen have joined the Bull Moose party, and those who have held out thus far are expected to remain with the old party throughout the campaign.

None of the threatened attack was served by Gifford Pinchot in Washington a few days ago, before he went to Chicago to assist in making preparations for the Bull Moose convention. Pinchot spoke as though by the authority of Colonel Roosevelt, with whom he had recently been in conference, and his statement was specific that the Colonel was going to denounce those Republicans who pose as progressives, but who are not progressive.

He intimated that Senator Borah, of Idaho, and Senator La Follette, of Wisconsin, and indicated that the attack would be general.

T. R. Becomes "Standard."

According to Pinchot, no man is progressive unless he supports Roosevelt. But the true progressives in the Senate and House are little concerned if they are to be attacked on the ground stated by Pinchot, for most of them have established their progressiveness to the satisfaction of their constituents, and believe their record as not only progressive, but the opinion of Colonel Roosevelt, especially as the Colonel found nothing but praise for them as long as they stood with him as against President Taft.

It was only a month ago that Colonel Roosevelt took occasion to express his utmost approval of Senator Borah, and to voice the hope that he would be re-elected to the Senate. In fact, he went so far as to offer to do anything in his power to help Borah in his campaign this year. But after that promise of friendliness was made, Senator Borah refused to bolt the Republican party and join the Bull Moose party, and apparently that refusal has soured the Colonel. However, if the Colonel does denounce Borah, as Pinchot promises, and attempts to brand him as non-progressive, he will have difficulty in making good his accusation, for Senator Borah's record is one of progressiveness from the beginning, and he is recognized at Washington as not only progressive, but independently progressive, reserving always the right to determine for himself what is the right sort of Senator Borah, according to those who know the Idaho situation, will hurt the Colonel far more than it will injure the Senator.

Feeling Toward La Follette Bitter.

As for Senator La Follette and Senator Cummins, it is utterly unreasonable to expect those men to join the Bull Moose party, for they still have Presidential aspirations, and both are being urged forward by the feeling between Roosevelt and La Follette very bitter, and grows out of La Follette's refusal to withdraw from the race this year. The feeling toward Roosevelt might be the only insurgent in the race. But Roosevelt is not more bitter at La Follette than is La Follette toward the Colonel. An attack of this sort on Senator Borah, according to those who know the Idaho situation, will hurt the Colonel far more than it will injure the Senator.

Senator La Follette and Senator Cummins, as sited, are both looking forward to expect those men to join the Bull Moose party, for they still have Presidential aspirations, and both are being urged forward by the feeling between Roosevelt and La Follette very bitter, and grows out of La Follette's refusal to withdraw from the race this year. ### PLEDGES BROKEN IS CRY

#### "Gauntlet Thrown Down to Europe" and "American Monopoly" Are Some of Headlines in Papers After Senate's Vote.

PARIS, Aug. 11.—(Special.)—"Gauntlet thrown down to Europe," "American monopoly of the Panama Canal"—these are headline comments in the Paris evening papers on the vote of the United States Senate on the canal bill.

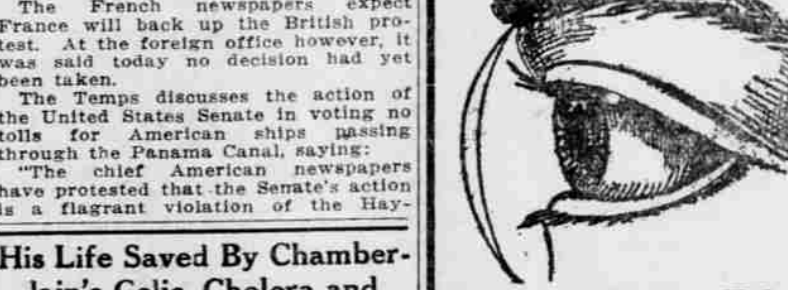

The French newspapers expect France will back up the British protest. At the foreign office however, it was said today no decision had yet been taken.

The Times discusses the action of the United States Senate in voting no tolls for American ships passing through the Panama Canal, saying: "The chief American newspapers have protested that the Senate's action is a flagrant violation of the Hay-Pauncefote treaty, while attempt has been made to justify by equivocating the argument that the clause pledging equal treatment to all nations does not affect the United States itself as constructor and owner of the canal. Such an argument is essentially open to discussion."

The Times urges that the treaty both in spirit and letter assimilated the Panama and Suez canals.
