UNDER GOD PEOPLE RULE

MINISTER DEPLORES SECULAR THEORY OF STATE.

Dr. Minton, Head of National Reform Association, Tells of Coming Convention.

"The secular theory of the state simply ignores God, and this is National atheism," declared Dr. Henry Collin Minton, president of the National Reform Association, in an address at the First Presbyterian Church yesterday morning.

He took for his text Psalms 147:20. "He hath not dealt so with any nation, and as for his judgments, they are not known to them."

"God in the Nation's History" was his subject.

Dr. Minton referred in opening to the statement of the late Justice Brewer of the United States Supreme Court that "this is a Christian nation."

"Many question this view," he continued, "but in certain Presidential favored taking from the face of the National coin the legend, 'In God we trust,' the people all over the country rose up in their might and protested."

"This view of the Nation's recognition of God implies a moral responsibility on the part of the Nation. The bedrock principle in a state like ours is that the people are responsible, and under God the people rule."

"It is in view of this principle that the World's Christian Citizenship Conference is being held here at the Hotel Portland in this city June 29 to July 6, 1912."

Such questions as the preservation of the right of rest and worship, the sanctity of the home, so menaced by reckless and ill-considered legislation concerning marriage and divorce, the admitted ravages of the deadly forces of intemperance, knowing no age, no social class, no country and no nationality in the diabolical distemper which has entered the relation of education in a Christian civilization to the great commonly accepted historical and ethical elements of Christianity, the reciprocal obligations involved in immigration and emigration, and the rising
