

# CHEMISTS CRUDE IN WORK, SAID WOMAN

## Analysis of Roseburg Brew Assailed by Dr. Victoria Hamilton, of Portland.

### BEER "NEAR," IS ALLEGED

#### Witness for Defense Says Professors Shinn and Fulton Did Not Know What They Were Doing.

#### Trial Near End.

ROSEBURG, Or., Sept. 5.—(Special.)—That Professors Shinn, of the University of Oregon, and Fulton, of the Oregon Agricultural College, did not know what they were doing when they analyzed the samples of beer taken in the raid of Roseburg soft drink emporiums on July 2 was the startling accusation of Dr. Victoria Hamilton, of Portland, when placed on the witness stand by the defense in the trial of the Roseburg Brewing & Ice Company and its directors here today.

Continuing her testimony, Dr. Hamilton said that the work of the college experts was crude and almost a disgrace for a student, let alone a man professing to be a chemist.

Analysis Alleged Thorough.

The attack of Dr. Hamilton on the state's chemists followed testimony to the effect that recently she analyzed samples of beer taken in the raid and found that it contained less than 2 per cent alcohol. This report, she said, was based on a thorough and complete analysis of the liquid after its delivery at Portland.

Other witnesses introduced by the defense were the directors of the brewery, who testified that they gave the brewmaster explicit orders to manufacture nothing other than "near beer."

In rebuttal the state introduced Dr. E. V. Hoover, until recently a witness for the brewery, who testified that the corporation had sold 100 kegs of good beer to one keg of near beer. Zeon Davis, ex-deputy sheriff, testified in rebuttal that Warren Beatty, who took the samples to Dr. Hampton for analysis last June, paid him \$25 to leave town and return until recently a witness for the state in certain liquor prosecutions.

Federal Chemists Barred.

Two federal chemists summoned by the state to testify regarding the general reputation of Dr. Hampton as a chemist were barred from offering testimony by the trial judge following the plea of the defense. The attorneys are making their final arguments to the jury tonight and the case will go to the jury tomorrow.

# COOS BAY FAVORS BRIDGE

## Meeting to Be Held September 18 on Southern Pacific Project.

MARSHFIELD, Or., Sept. 5.—(Special.)—Notice has been given by the engineering corps at Portland that Captain Roberts will on October 18, September 18 for the purpose of hearing what the people have to say regarding the Southern Pacific bridging the bay at North Bend. Since application was made by the railroad company to build a bridge across the bay a protest was filed with the War Department by three men, two of whom are non-resident property owners. Locally the feeling is quite in favor of allowing the bay to be bridged if the Southern Pacific so desires.

Captain Roberts, representing the Army Engineering Corps, will have a public hearing for the purpose of learning just how the people feel, and the action of the War Department will probably be based largely on the result of this meeting.

The effort of the Marshfield Chamber of Commerce to have the dredge Oregon retained here was not successful, but Major Morrow, of the engineering office at Portland, has given assurance that the Oregon will be brought back to Coos Bay in eight months, when the work laid out for Grays Harbor will have been completed.

# NEW COUNTY IS FACTOR

## Klickitat Fight on Division Stirs Up West-End Towns.

WHITE SALMON, Wash., Sept. 5.—A vigorous campaign is being waged throughout the west end for county division. Enthusiastic meetings are being held in the different precincts, beginning at Appleton, where a large attendance was addressed by A. R. Hayes, W. Scott Coe and Rev. Mr. Tate. Glenwood was the scene Tuesday night, Trent Lake Wednesday night, and Husum will be addressed tomorrow night. Mr. Tate is a Hood River orchardist and pastor of the White Salmon Congregational Church. He is taking an active part. There is little doubt that a majority of the proposed new county residents of 500 square miles will vote favorably at the primaries.

Charles R. Spencer, president of the First National Bank of this place, is running strong against W. M. Hornbrook, a Coconino and made camp for the Republican nomination for the Legislature.

# TWO LOST AT CRATER LAKE

## Fishermen and Rescue Party Give Friends Anxiety.

KLAMATH FALLS, Or., Sept. 5.—(Special.)—Getting lost seems to be the mode in this country. The latest recruits to the Lost Squad were Dr. Warren Hunt and C. P. Stewart, of this city, who have been lost for two days on Crater Lake.

They were fishing on the lake when a strong south wind came up, against which they could not make headway. Pulling with the wind, they searched the shore until they found a point at which they could land safely, then drew the boat out and made camp, to wait for the storm to blow over. Their friends, becoming uneasy, set out to find them and succeeded, but they, too, were unable to return and a second party started out.

# ORIENT FREIGHT REFUSED

## Steamer Minnesota Cannot Handle One-Third Tonnage Offered.

SEATTLE, Wash., Sept. 5.—(Special.)—Another great cargo, consisting of wheat, flour, lumber, mining timbers, hay and fresh meat in all 16,000 tons dead-weight, or 23,000-ton measurement, has been booked for the

# SCHNOERR ON STAND

## Schuebel Painted as Political Changeling.

### LIBEL TRIAL NEARS END

#### Defendant Says That Complaining Witness Was Socialist at First, Then Populist, Democrat, "Prohi" and Republican.

#### OREGON GRADUATE TO HAVE CHARGE OF NEW DEPARTMENT AT PHOENIX.

Sidney H. Boddingshouse, Oregon Agricultural College, '12.

OREGON AGRICULTURAL COLLEGE, Corvallis, Sept. 5.—(Special.)—In the appointment of Sidney H. Boddingshouse to the position of instructor in agriculture at the Union High School of Phoenix, Ariz., the efficiency of Oregon Agricultural College graduates for educational work is again recognized. Mr. Boddingshouse is a member of the class of 1912, and came to the college from Wilmette, Ill. His degree was granted for major work done in agriculture. Agricultural work is just being introduced in the Phoenix school, and Mr. Boddingshouse will outline the courses and have immediate supervision of the newly equipped laboratories for experimental work. During his entire course at Oregon Agricultural College he was closely identified with the various student activities.

attle to Manila, and \$5.50 from Seattle to Hongkong.

These rates are more than 50 per cent higher than at this time last year, and the tendency is still upwards. The advance is caused by the heavy amount of flour on account of crop failures in the orient and the scarcity of available vessels for the trans-Pacific trade.

# HAWLEY IS CONFIDENT

## RE-ELECTION SEEN WHETHER OFFERED OR NOT.

First District Representative Says His Work Stands for His Progressiveness.

SALEM, Or., Sept. 5.—(Special.)—"I am going to be re-elected, no matter how many other candidates may be in the field." This was the declaration of W. C. Hawley, Representative in Congress, who recently returned from Washington.

"I do not know about the political situation in this district as to whether candidates in the field, and I am doubtful if other candidates will run," said Mr. Hawley, "but if they do I will be re-elected, as I think the feeling of the people inclines in that direction."

"As far as progressiveness is concerned I don't have merely to say I am a progressive and let it go at that. I voted twice for the Arizona constitution containing the initiative, referendum and recall provisions just as the people wanted them. I had a bill pending in Congress providing for the direct election of United States Senators long before the Borah bill was ever introduced. The Borah bill, which finally passed, was copied word for word after the Hawley bill. My bill was held up by Mr. Ellis, who had a bill of his own."

"The people of this district, I am satisfied, wish to see me return to Congress and will re-elect me."

George F. Rodgers, of Salem, who is reported to be a probable candidate against Mr. Hawley, has yet made no definite statement. It is understood here that R. G. Smith, of Josephine, who was written by on the Democratic ticket in the primaries and was thus nominated on that ticket, will not accept the nomination.

# PINK SALMON RUN FAILS

## Crop of Cheaper Grade Fish This Year Lightest on Record.

SEATTLE, Sept. 5.—The humpback or pink salmon, which supplies the cheaper-priced cans sold in the Eastern and Southern states, failed to appear abundantly in Puget Sound this year, and the humpback pack was only 1,000 cases, as against more than 1,000,000 last year. In Southwestern Alaska, also, the late humpback run did not appear, and the cannerymen have given up hope. The pink pack of Southeastern Alaska is 200,000 cases short.

There is always irregularity in the movement of the humpback hordes, but no such crop failure as this year's has ever been known before. A fish authority says there will be no cheap canned salmon in the stores this year, at times this fish has retailed as low as 10 cents a can.

# INDEPENDENCE FARMER HURT BY AUTO.

INDEPENDENCE, Or., Sept. 5.—(Special.)—J. A. Kiser, who resides on the farm owned by Dr. Ketchum, of this city, was coming to town Saturday night in his buggy and was run into by an automobile driven by a chauffeur from the public garage. Mr. Kiser was thrown out of his buggy and sustained severe bruises and the buggy was demolished. He had a narrow escape.

# SUNDAY SCHOOL CONVENTION HELD.

CENTRALIA, Wash., Sept. 5.—(Special.)—The Lewis County Sunday School Association closed a two-day convention in Chehalis last night. During the convention addresses were made by Professor W. H. Lee, of Whitworth College, on "Co-Relations of Home and Sunday School," and by George McDonald, of the Seattle Y. M. C. A., on "A Man's Job."

# SCHNOERR ON STAND

## Schuebel Painted as Political Changeling.

### LIBEL TRIAL NEARS END

#### Defendant Says That Complaining Witness Was Socialist at First, Then Populist, Democrat, "Prohi" and Republican.

#### OREGON GRADUATE TO HAVE CHARGE OF NEW DEPARTMENT AT PHOENIX.

OREGON CITY, Sept. 5.—(Special.)—Gustav Schnoerr, president of the Deutsche Verein in Clackamas County, vice-president of the German societies of Oregon, and Republican nominee for State Representative, indicted on a charge preferred by Chas. Schuebel, law partner of W. S. U'ren, alleging criminal libel, probably will know his fate early today. It developed during the trial that Schnoerr had signed the indictment as a private prosecutor, and was working with the prosecution.

Circuit Judge Eakin will charge the jury tomorrow, immediately after District Attorney Tongue finishes his argument. Mr. Tongue admitted in his argument that the prosecution should seek to send Schnoerr to the penitentiary. "In fact," he said, "Mr. Schuebel and I will do everything in our power to keep him from going to the penitentiary if he is convicted, but we want to see the law of the state upheld."

Tongue Makes Protest.

Schnoerr resumed the witness-stand. Although District Attorney Tongue vigorously objected, Judge Eakin ruled that the defendant might reply to certain questions. Schnoerr testified in language in the alleged libelous advertisement, the jury being informed that it could judge for itself as to the facts.

The defense sought to reveal the association of Schuebel, as a partner of Mr. U'ren with the Felix single tax fund, using this as justification of Schnoerr's assertion that Schuebel was "used to being bought and sold."

The defendant, who had been a warm personal and political friend of the complaining witness, told of Schuebel's political history. He declared that the lawyer had first been a Socialist, then a Populist, a Democrat, a Prohibitionist and a Republican in rapid succession.

Mr. Schnoerr testified that he had asked Schuebel if he could ride around the county in an automobile and pass weeks in campaigning, and go fishing whenever he wanted to. He declared Schuebel had agreed to do so, but had found that he drew on and that he had plenty of money.

This ended the testimony for the defendant and Schuebel was called in rebuttal.

Schnoerr's Statements Denied.

The witness denied telling Schnoerr that if he would sign a paper, he (Schuebel) would give him a ride around the county in an automobile and go fishing whenever he wanted to. He declared Schuebel had agreed to do so, but had found that he drew on and that he had plenty of money.

This ended the testimony for the defendant and Schuebel was called in rebuttal.

# WOMAN INSPECTS SCHOOLS

## Spookane Names Feminine Doctor as Medical Adviser.

SPOKANE, Wash., Sept. 5.—(Special.)—"For the first time a woman has been elected to the Board of Medical Supervisors in the public schools, which has charge of the medical inspection of the 15,000 students."

Dr. Mary MacMillan was elected to the position by the School Board at a special meeting today. Dr. MacMillan succeeded Dr. Walter J. Nuzum, who handed in his resignation today, after being a member for two years. Dr. Nuzum expects to leave September 15 for an indefinite visit in the East.

The School Board voted to abolish the drinking cups in the school buildings and to establish sanitary drinking fountains.

# RAIN AT PHILOMATH AGAIN.

## PHILOMATH, Or., Sept. 5.—(Special.)—The Davis and Price hoppyard commenced picking Tuesday, and the hops

are first-grade, but it has been raining continuously since 11 o'clock last night. A very large amount of the best grain in the county is unthreshed, with little prospect of saving it. It is the best grain raised this year in this section of the valley.

### OUR LEATHER GOODS DEPARTMENT OFFERS THE FOLLOWING—NOTE OUR SPECIALS FOR FRIDAY AND SATURDAY—

New showing of "Cross" Leathers and Gloves, new and exclusive novelties in imported leathers. New shipment of "Cross" Overnight Bags, Shopping Bags and dainty Evening Bags.

Major of the city by the largest vote ever given a Mayoralty candidate, owner of most of the choice downtown waterfront, extensively interested in vacant and improved farm and city properties, part owner in one of the best fishing camps on this harbor and to place certain constructions upon one of the "live wires" of this city, proposed to the City Council that it levy a tax of \$25 upon the head of every bachelor, old and young, in this city.

Being himself a bachelor of marriageable age, he declares he will be the first one to pay his penalty for having never made the acquaintance of Dan Cupid into the city treasury. He says:

"I have been in every state but the state of matrimony and I am a candidate for that and it will take only one vote to elect me." Mr. Myers has lived here more than a score of years, has elegant apartments in his own concrete building, but lives the cheerless life of a bachelor. He knows the name of every man, woman and child in the city who have lived here any length of time and he maintains that South Bend has the biggest percentage of bachelors of any city of its size in the state. He challenges any other city of 4500 to send in its list.

Mayor Myers maintains that there are 500 bachelors in this city who should be supporting some good girl as his better half. In order to speed the day, the Mayor says a tax of \$25 per bachelor head should be placed by the City Council. Aside from encouraging Dan Cupid in his work, the Mayor figures that with all of the public money that is being made here, the \$7,500 would come in mighty handy.

Since his idea about bachelors became known Mayor Myers has been receiving letters from maidens of unknown identity, some of them in the nature of proposals of marriage. These women, his friends declare, apparently believe that they may be too late by the time another "Bachelors" rolls around. His announcement of the proposed tax has created quite a flurry among bachelors of this city.

Just arrived—Kabe bamboo Baskets and Trays, Quaint German figures and vases. Friday and Saturday special, 10x20 "Cupid Awake and Asleep" in carboys framed in 3-inch oval frames. Regularly sold for \$5.00—Our price \$3.50.
